(Mark 5:21-24; 38-43)

"HIS POWER OVER DEATH"

The feeling of need determines one's attitude toward Christ. It was in a time of helplessness that

Jairus came. As Edersheim says, "Only in the hour of supreme need, when his only child lay dying, did he resort to Jesus."

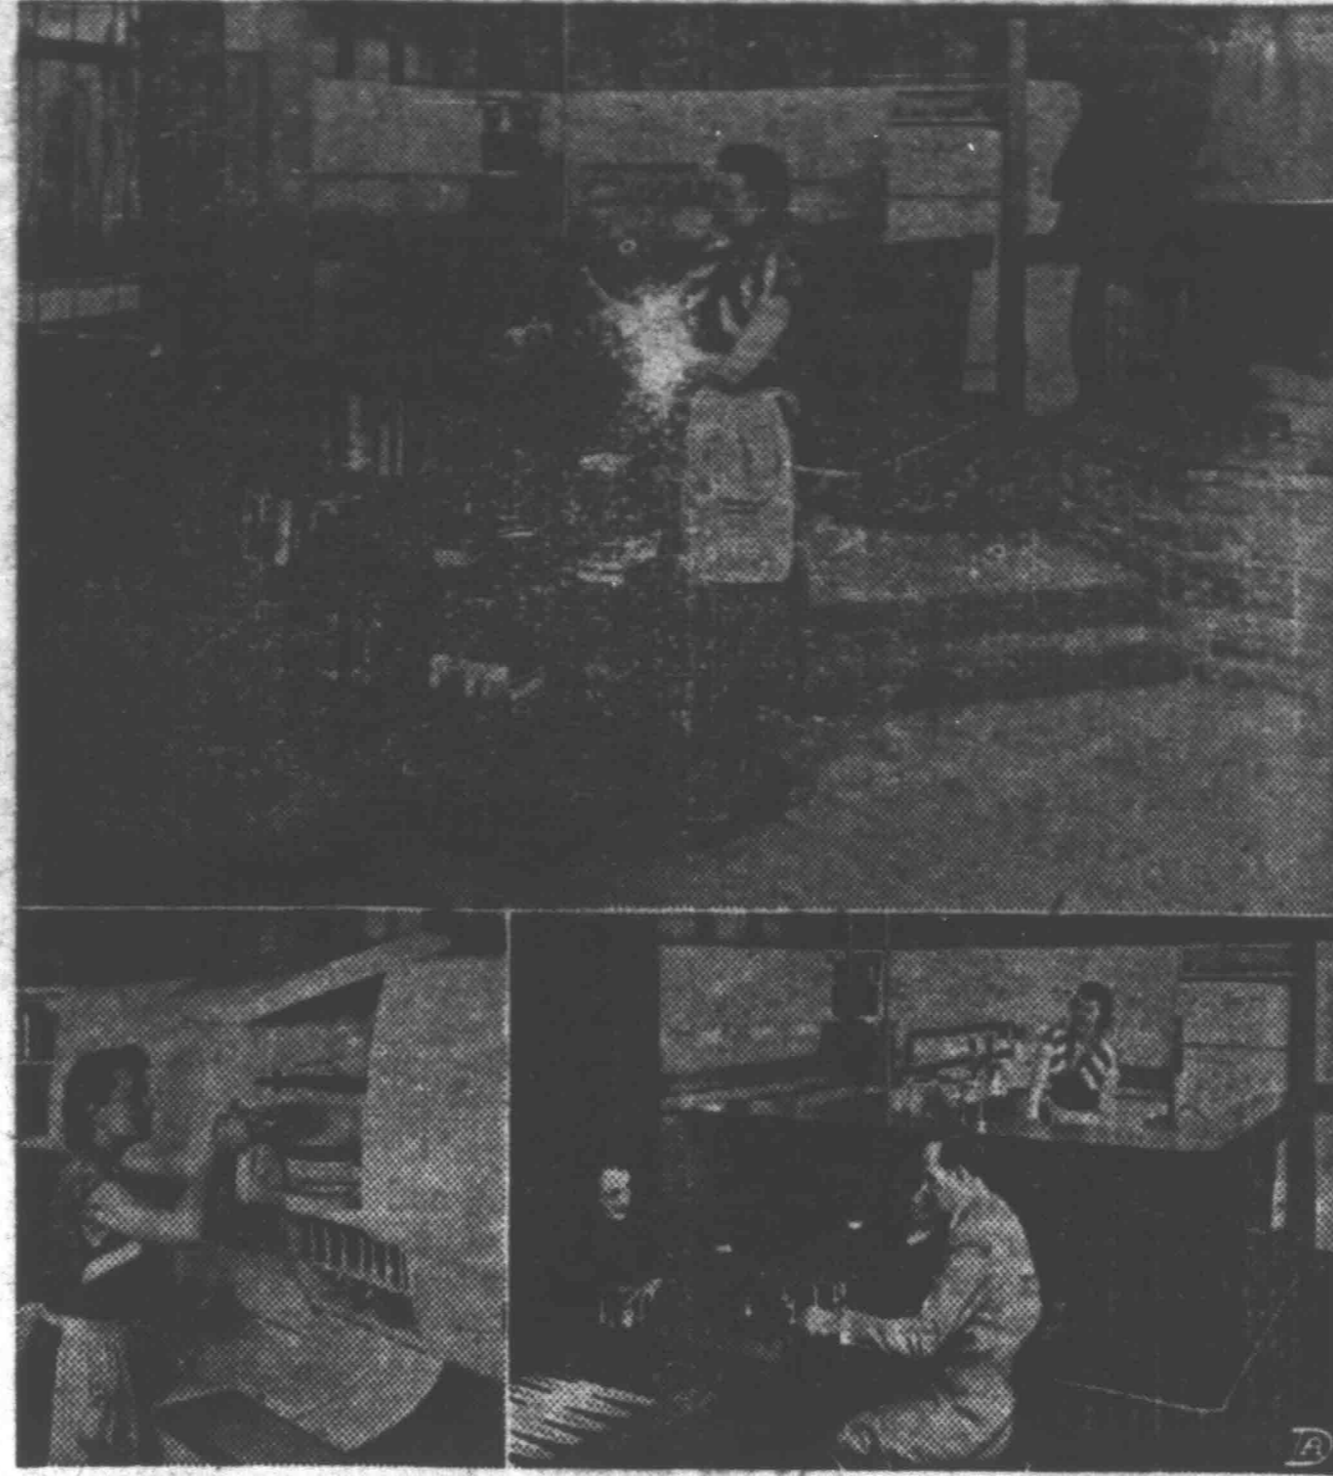

It is no mere coincidence that the first note in Gospel preaching is repentance. We do not come to Him for salvation except in the mood of penitence.

Jairus was a ruler of the Synagogue. He was not of the class who ordinarily appealed to Jesus. These Synagogue people mostly condemned Christ. He no doubt had heard Christ teach in the Synagogue at Capernaum where he lived. He must have known the healing of the son of the court official, and of the servant of the centurion. Pride may have kept him from openly espousing the cause of Christ. But when his only child was at the point of death all other considerations were swept aside.

His faith and that of his household went no farther than in Jesus' power to heal. It did not include raising the dead. A messenger was sent who said to Jairus, "Your daughter is dead. Do not trouble the Master any more."

It has been a night and a day of profound miracles. He had still-ed the storm and they said, "What

Home Was Never Like This!

CHICAGO—Even a Hollywood press agent would be stumped for adjectives to describe the "New World Kitchen" General Electric unveiled at the American Furniture Mart here.

Dominant idea in the kitchen's design is not only to make mother's work as easy and painless as possible but to provide a place where the whole family can live and have fun together.

For example, there's a mahogany bar which includes a complete soda fountain. Side panels fold back to give access to an automatic clothes washer, dryer and automatic toe-controlled ironer. Also built into the bar are an automatic dishwasher, stainless steel sink and garbage disposer.

In the dining area there is a special table that can be used for dining, for games or for card playing. Turn a crank in the side of the table and the Textolite dining surface is replaced with a wood covering marked for chess and backgammon. Another turn of the crank and a felt surface for card playing appears.

The walls of the deluxe kitchen are made almost entirely of clear plate glass "to give the feeling of being outdoors", according to

G-E Home Bureau architects who designed the kitchen.

In addition, a good part of outdoor life has been brought into the living area of the kitchen—with a lighted pool or aquarium and a huge stone fireplace complete with barbecue doodads.

Over in the area devoted to food preparation and storage there are radically new wall cabinets with doors that lift up overhead to provide better accessibility for the average woman, and with small underneath cabinets for storing small appliances, canisters and the like. These cabinets will go into production in 1951.

General Electric architects, who have designed tens of thousands of kitchens since the Home Bureau was established in 1931, say they created the "New World Kitchen" to prove that an all-purpose family living space and an ultra-efficient kitchen can be gracefully combined in the same room.

manner of man is this?" Completing their journey across the lake they came at the break of dawn to Gaza where He healed the demoniac. Both these miracles manifested His power without faith, His inherent power over nature and over the world of evil.

Coming back to Capernaum in mid-morning, the crowd seems to have been "waiting for Him," and they pressed in on every side. In that press He healed the woman with an issue of blood, being a justification of faith.

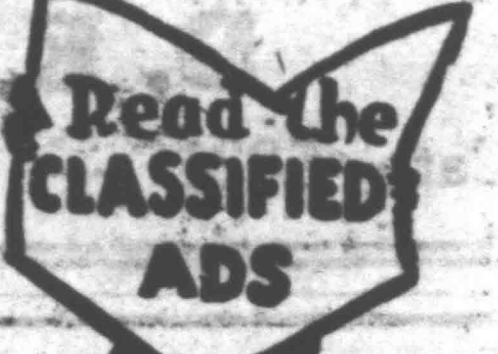

Jairus was among those who anxiously awaited His return, and got in his request for help first of all. His only child, a maiden, had just passed childhood and reached the period when Jewish law declared a woman of age.

Was she dead? Most certainly. Jesus used the word "sleep" but it was not the only time He used that word descriptive of death. "The tumult," the weeping, the wail of the hired mourners, "the melancholy cound of the morning flutes," the sad preparations for a fitting Eastern funeral, all are living testimonies to the power of Christ to raise the dead.

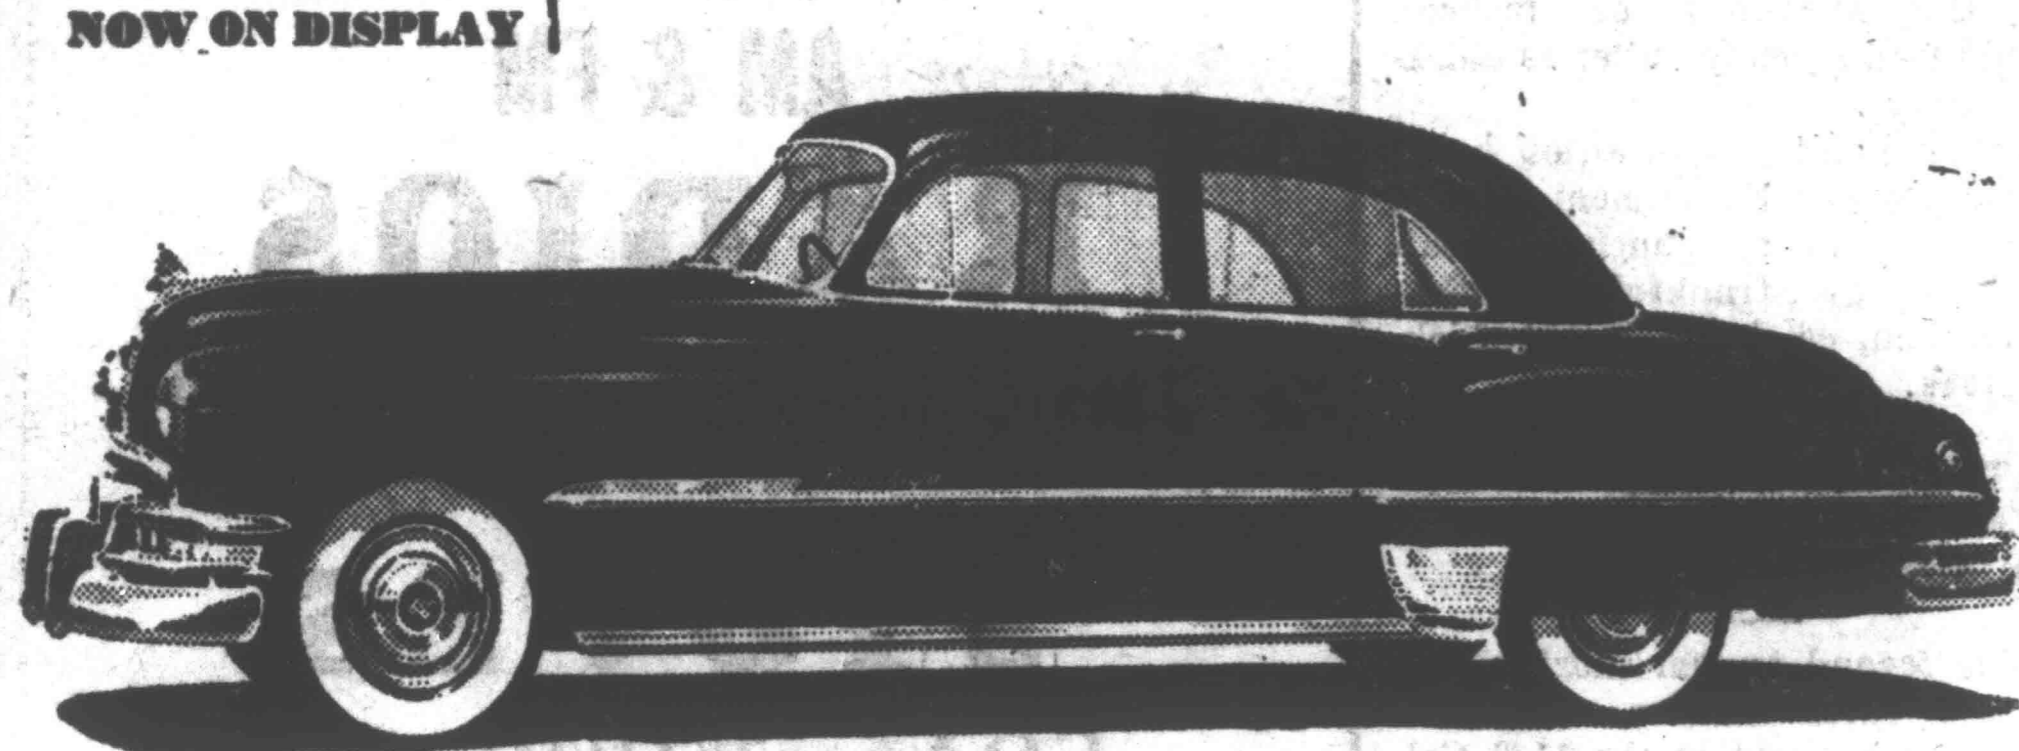

But even in Christ do not tremble at His miracles. Perhaps at that stage of His life they were "signs," proof of His divine power. But to us who know the who's story of His death and resurrection and the manifestations of His power since, we expect miracles. His words were alive, vibrant and living; and His deeds spoke eloquently of His power.

This evidence of His power over death, shown again in His resurrection, "for death could not hold Him," is the source of our greatest hope. He hath "bought life and immortality to light through the Gospel." It reveals to us our greatest destiny. Our dearest hopes, for ourselves and for those we love, are inseparably connected with it.

the Railroads **RESPECT**...

What is the **TRUTH?**

the Labor Unions seek to **REPUDIATE** this agreement!

At various states in the present dispute with the brotherhoods of railroad operating employees... the railroads agreed to arbitrate. The union leaders refused. ... the railroads accepted the recommendations of President Truman's Emergency Board. The union leaders refused. ... the railroads accepted the White House proposal of August 19, 1950. The union leaders refused. Finally an Agreement was signed at the White House on December 21, 1950. Now the union leaders seek to repudiate the Agreement. The railroads stand ready to put the terms of this Agreement into effect immediately, with back pay at the rates and date indicated. The Agreement is given in full below.

MEMORANDUM OF AGREEMENT

Washington, D. C.
December 21, 1950

1. Establish 40 hour week for yardmen with increase of 23 cents effective October 1, 1950, and additional 2 cents effective January 1, 1951.
2. Set aside 40 hour week agreement until January 1, 1952, and establish 6 day work week for yardmen. Effective with the first pay roll period after 30 days from the date of execution of the formal agreement, yardmen required by the carrier to work on the 7th day to be paid overtime rates except engineers who shall receive straight time rates for the 7th day. This does not create guarantees where they do not now exist. On and after October 1, 1951, three months' notice to be given of desire to go on 40 hour week. Provide for consideration of availability of manpower and 4 cents per hour if and when the 40 hour week actually becomes effective.
3. Settle rules for 40 hour week and 6 day week.
4. Grant yard conductors and brakemen other rules such as daily earnings minimum, car retarder operators and footboard yardmasters as recommended by Emergency Board No. 81.
5. Settle following rules: Initial Terminal Delay (Conductors and Trainmen) Interdivisional Runs Pooling Caboose (Conductors and Trainmen) Reporting for Duty More than One Class of Service Switching Limits Air Hose (Conductors and Trainmen) Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)
6. Road men to receive 5 cents per hour increase effective October 1, 1950 and additional 5 cents per hour increase effective January 1, 1951.
7. Quarterly adjustment of wages on basis of cost

of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

8. Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.

9. Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.

Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents (\$4.10) shall be added to the present monthly rate effective January 1, 1951.

10. In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:

No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties may secure information from the wage stabilization authorities or other government agencies, if

the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.

11. If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitrators, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

** The foregoing will not deprive management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

Accent on Tidbit Treats

It's simple magic to turn leftover meat and chicken into tasty tidbit spreads for snacks, hors d'oeuvres or sandwich fillings. Prepare these recipes in advance, sprinkle with Accent (pure monosodium glutamate) to hold in flavors over a period of time, and store in refrigerator for future use.

- Chicken Giblet-Egg Spread (1 cup spread)**
 - 1/2 cup minced giblets
 - 2 hard-cooked eggs, minced
 - 2 tablespoons crisp bacon, crumbled
 - 1 teaspoon grated onion
 - 1/2 cup mayonnaise
 - 1/2 teaspoon Accent (monosodium glutamate)
 - 1/2 teaspoon salt
 - 1/2 teaspoon pepper
 - 1 teaspoon Worcestershire sauce
 - 1 teaspoon lemon juice or vinegar
- Minced Pork Spread (1 1/2 cups spread)**
 - 1 1/2 cups minced roast pork
 - 2 tablespoons chopped sweet pickle
 - 1/2 cup mayonnaise
 - 1/2 teaspoon Accent (monosodium glutamate)
 - 1/2 teaspoon salt
 - 1/2 teaspoon pepper
 - 1 tablespoon Worcestershire sauce
- Minced Chicken Spread (1 1/2 cups spread)**
 - 1 1/2 cups canned or home-cooked chicken
 - 1/2 cup minced celery
 - 1 teaspoon grated onion
 - 2 teaspoons peanut butter
 - 1/2 cup mayonnaise or thick sour cream
 - 1/2 teaspoon salt
 - 1/2 teaspoon Accent (monosodium glutamate)
 - dash pepper
 - 2 teaspoons lemon juice

Tennessee Outdoors

Louis S. Clapper
State Game and Fish Commission
With the hunting season completed and weather too nippy for most fishermen, armchair sportsmen are having lots of enjoyment in thumbing through road maps to plan Spring and Summer junkets.

A little figuring will show that a wide variety of fishing is within the average angler's grasp. The mountain streams of East Tennessee are unsurpassed for trout and a few good locations can even be found in Middle Tennessee. The TVA and Army Engineer impoundments offer excellent prospects of bass and crappie and walleye creels to three-fourths of the State's bait dunkers. When one adds incomparable Reelfoot Lake, the muskies of the Cumberland and fighting little bluegills of small ponds and lakes to the overall picture, why can't Tennesseans feel a thrill of anticipation.

A glance at tourist trade figures would show we have plenty of what a lot of states lack—diversified and topnotch fishing!

Out in Montana, where big game is big, wildlife law violators are given sentences to size. One unhappy huntsman with two illegally-taken elk in his possession paid a fine of \$500 in addition to 30 days in jail!

A group of Pacific Coast sportsmen, already boasting the most liberal of regulations, proposes a "kill-only-the-males" policy in wild duck hunting. Of course, the idea is to leave the hens unscathed in the hope they will produce more young but Mississippi Flywaymen wonder what success such a voluntary plan will have. If the ducks are arriving at blinds in numbers, some hunters may select the bigger drakes but if the flight is small—a duck is a duck! Too, woods hunting of the Obion River Bottom variety makes determination of sex on the wing a difficult thing. And, it is believed that drakes of some species take only single mates for a season. There may be some value in the plan but most Tennessee sportsmen are skeptical.

Just after the hunting season closed, to be sure, ducks and geese flocked in Tenn. - Kentucky Lake near Paris in never-before-seen quantities. Experienced observers estimated at one time there were 100,000 ducks and 4,000 Canadian geese on the lake. The figure on geese is double any previous estimate and that on ducks is considerably greater than ever before. In view of the early cold weather this winter, most of the northern birds were thought to have already hit Tennessee going southward and technicians are wondering if this big flight could be an East-West movement.

Fishermen aren't expected to be greatly affected even if governmental dams are "sealed off" completely in protection of vital hydroelectric, flood control and navigational facilities. Tailwater fishing may be curtailed due to danger from saboteurs but there will continue to be many excellent angling locations remote enough from the dams to avoid restrictions.

"Put Pep in the Pocketbook by Putting Profitable Want Ads on The Job."

GOOD METHODS REQUIRED

Tennessee cotton growers can go a long way toward helping in the National production of a 16-million bale crop this year by good use of fertilizers, adequate use of effective insecticides, and good methods of cultivating and harvesting the crop, say specialists of the U-T Agricultural Extension Service.

Go to Church Sunday

GOODBY OLD ROOSTER! CHICKEN SAUSAGE DEVELOPED AT U-T

Chicken sausage, link, smoked, or bulk, is one of the several specialties under study by poultry research workers at the U-T Agricultural Experiment Station.

E. O. Essary and O. E. Goff, of the poultry department report that finely ground poultry meat may be incorporated with a favorite sausage recipe and made into a delectable product.

A formula recently developed calls for 6 pounds ground poultry meat, 3 tablespoons salt, 1-2 tablespoon black pepper, 1-2 tablespoon sage, 1-2 tablespoon red pepper, 1-2 lb. dried milk and 1 lb. crushed ice. This mixture is finely ground and placed in small casings to make link sausage. Crushed ice may be omitted if bulk sausage is desired.

Any class of chicken may be used. Due to the yield of chicken meat and the lower cost per pound, mature birds are more desirable. Chickens with pin feathers, skin abrasions or bruises, should find a ready outlet as chicken sausage.

Other poultry specialties being studied by the Experiment Station include chicken luncheon loaf, chickenburger, frankfurters, smoked chicken, chicken roll and chicken steak.

CATTLE BREEDERS, HERDSMEN'S SHORT COURSE SET AT U-T

The second annual short course for beef cattle breeders and herdsmen will be held at the U-T College of Agriculture, Knoxville, from February 26 through March 1, according to members of the U-T animal husbandry department.

Materials to be presented in the short course are designed to give practical fundamentals of production, management, and marketing which will be profitable whether applied to commercial or purebred breeders.

Herdsmen or livestock breeders can get full information on the short course from their county agent, or from Dr. C. S. Hobbs, U-T animal husbandry department, Knoxville.

NEW VEGETABLE HYBRIDS READY FOR GARDENERS

Hybrid vegetables that have some of the extra vigor that farmers have found in hybrid corn are now somewhat common in seedsmen's lists, gardeners are reminded by specialists of the U-T Agricultural Extension Service. Added since last year in some lists is a hybrid onion which, because it grows faster, may produce for Tennessee gardeners long-keeping onions maturing before hot weather.

There are numerous hybrid tomato varieties, a hybrid cucumber, an egg plant, a summer squash. These tend toward earlier maturity, although some of the tomatoes are bred for midseason crops rather than earliness.

It is important to remember about all hybrids that they may be no more resistant to diseases and common insects than the older varieties. They just have greater ability to produce a crop if suitably protected from pests. In

short, it is more profitable to give them full protection because they have it in them to give better returns.

Tennessee, which will be host in June to the American Dairy Science Association meeting, is now in 6th place among the States in manufacture of cheese, 7th place in manufacture of evaporated milk, 8th place in manufacture of sherbert and ice milk, 14th in ice cream and 15th in milk production.

NATURAL CHILEAN NITRATE OF SODA

Each \$1.00 invested in **NATURAL CHILEAN NITRATE** of SODA brings big, **EXTRA PROFITS** this year!

HERE'S WHY: Nitrogen content — all nitrate nitrogen . . . fast-acting . . . completely available . . . the only natural nitrate in the world.

Sodium content — contains 26% sodium (equivalent to 35% sodium oxide) . . . sodium is essential to maximum yields . . . substitute for potassium, where lacking, and makes soil phosphate more available . . . helps "sweeten" the soil.

Other plant foods—natural traces of iodine, manganese, potassium, magnesium, boron, calcium, iron, sulphur, copper and zinc.

Uncle Natchel says: "Look for the ball logo on the bag. It means natchel soda in free-flowing pellet form. Used now for over 100 years."

300 lbs. of Chilean Nitrate increased yields of oats 35-40 bu. per acre. Dollar return: almost 4 to 1. Chilean Nitrate also improves the feeding quality and the protein content of forage crops.

200 to 300 lbs. of Chilean Nitrate produced 150 to 200 pounds more lint cotton per acre. Dollar return: about 10 to 1. You can't afford not to invest in natural soda this year!

300 lbs. of Chilean Nitrate increased yields of corn about 20 bushels per acre. Dollar return: almost 4 to 1. Chilean Nitrate means maximum yields for maximum profit!

NATURAL

At The Theatre

"COPPER CANYON"

Paramount's "Copper Canyon," which shows Sunday and Monday at the Halls Theatre, is a thrilling outdoor epic that maintains a peak of excitement from the opening scene right down to the explosive climax. Rarely has Hollywood produced a film with so many spectacular thrills as this one.

Photographed in color by Technicolor, which adds greatly to the picture's appeal, "Copper Canyon" is the action-packed story of a group of miners who are being driven off their land by a ruthless industrialist who refuses to smelt their ore. Desperate, they enlist the aid of a former army officer, posing as a vaudeville trick-shot artist, who leads them to a bang-up triumph over their enemies. As the expert marksman, Ray

Milland proves he's as much at home in action pictures as he is in drawing room comedies. Called on for a maximum of hard riding, straight shooting and rugged fist-fuffs, as well as a bit of romance with gorgeous Hedy Lamarr, he sets a brilliant pace for the balance of the cast.

Macdonald Carey gets real menace into his portrayal of a crooked deputy sheriff, while Mona Freeman and Harry Carey, Jr. carry on a second romance that softens somewhat the picture's pile-driving action sequences. Miss Lamarr never looked more beautiful, and she gives a fiery performance, to boot, under John Farrow's expert direction.

Produced by Mel Epstein, "Copper Canyon" was written for the screen by Jonathan Latimer from an original story by Richard English. Frank Blyden, Hope Emerson and Taylor Holmes head the supporting cast.

"DARK CITY"

Producer Hal Wallis has the unfailing showmanship to present the most exciting new star personalities and the best action melodramas. This special talent of his is very much in evidence in Paramount's "Dark City," a swiftly paced, explosive thriller that will hold everyone spellbound at the Halls Theatre next Tuesday and Wednesday.

Sure to match the popularity of Wallis' he-man discoveries like Errol Flynn, Humphrey Bogart, Burt Lancaster and many others is the picture's leading man, Charlton Heston. Recruited from the Broadway stage and television, the handsome six-foot-two newcomer is nothing short of terrific as a crafty gambler who gets too smart for his own good. The character he portrays is pursued by the police and a madman out to kill.

Heston has two exciting and fine actresses to romance and perplex in "Dark City." Elizabeth Scott, of the sultry voice and come-hither look, is seen as a torch singer who almost gets burned carrying the torch for him. Fiery Viveca Lindfors learns his secret after she's fallen in love with him. Academy winner Dean Jagger gives another fine portrayal—this time as the police captain who won't let crime pay. Don DeFore rounds out the all-star cast as a victim of Heston's gambling syndicate.

All of the acting is top-grade. The powerful cast line-up includes some of Hollywood's finest actors in supporting roles. Among them are Jack Webb, Henry Morgan and Ed Begley.

Miss Scott's assignment calls for her to sing five torchy tunes, including a catchy new number, "If I Didn't Have You." Credit for the smartly paced script goes to John Meredith Lucas and Larry Marcus. William Dieterle's direction is splendid as usual.

TRUCK CROP DEMAND

High employment and high consumer incomes are expected to bring about increased demand for commercial truck crops in the year ahead, according to economists of the U-T Agricultural Extension Service.

Timely action is one of the best means of reducing the risks of farming—plan your work, then work your plan.

Wage, Price Freeze To Be Eased

WASHINGTON—The government has prepared orders to lift the wage freeze from millions of workers and adjust the hard-and-fast price ceilings.

Price Controller Michael V. DiSalle also said he would try to achieve "substantial rollbacks" in some prices.

The first action was expected to permit pay increases already contracted for and to exempt from the general freeze the 4,000,000 municipal, state and federal employees, like policemen, firemen, and teachers whose salaries are fixed by law.

Informed sources said the Wage Stabilization Board will approve the \$1.60 daily increase which John L. Lewis has just negotiated for his 480,000 miners. A price order authorizing the mine owners to add the pay raise to their prices, was expected to follow.

Other workers who have automatic pay increases due under existing contracts will be permitted to take them.

When the over-all wage policy is completed, it is expected to permit pay increases of about 10 percent over the levels prevailing at the beginning of 1950. The big hitch within the nine-member wage board is whether that should apply to basic wage scales without bar-

ring cost-of-living adjustments pension fund contributions and other fringe benefits.

Slower action was expected on prices. DiSalle has opened 55 regional and district offices throughout the country to start enforcing price regulations. Irwin Powers, a Chicago attorney, stepped in as acting chief enforcement officer, temporarily replacing Adm. John H. Hoover (Ret.), who quit last week in protest against what he called "politics" in the agency.

DiSalle has warned against black marketeering. He said he hoped such outlaw operations could be held to a minimum and he warned that anyone who buys or sells in a black market is subject to stiff penalties.

Within the next 90 days, DiSalle plans to have "tailored" price ceilings ready for most of not all of the 8,000,000 goods and services sold by American industry and business. A major headache is the companies which complied with DiSalle's voluntary price control plan last month and held their prices down while their competitors rose. Those firms now are "stuck" with lower price ceilings than their rivals', and the price agency is expected to seek early relief for them.

One of the first actions of DiSalle's agency is expected to be publication of a list of "professional services" which will be exempted from price controls. Lawyers, doctors, dentists and engineers already have had clear assurance that their fees are not covered by the freeze. Other highly paid specialists who work on a contractual basis, like upper-bracket movie, radio and television stars, are expected to be exempted.

Younger-looking Skin!

HELENA RUBINSTEIN'S ESTROGENIC HORMONE TWINS

Estrogenic Hormone Cream — night treatment for face and neck regulary 3.50
Estrogenic Hormone Oil — day treatment for face, neck and under make-up value 2.50

\$6⁰⁰ Value - - Both for \$3⁵⁰

(Plus 20% Federal Tax)

Millions of women over 35 have enjoyed thrilling results from Helena Rubinstein's famous Estrogenic Twins. These beauty preparations contain 'natural' estrogenic hormones—nature's own miracle substances for keeping skin firm, fresh and younger looking.

The regular use of Estrogenic Hormone Cream at night, and Oil by day helps ward off those tragic age signs—little lines, dryness, dull, crepey skin—aids in preserving that longed-for firm, fresh, young look!

This once-a-year offer is made to show every woman over 35 how to look younger. But do not wait— it's for a limited time only.

New driving comfort for '51! Ford Truck models, like this F-8, offer a choice of two new 5-STAR Cabs! New massive-modern front-end appearance makes Ford, more than ever, the truck style favorite!

Yes... over 180 new models
NEW Steering column gearshift in series F-1 for car-like shifting ease! NEW Grain-tight 64-ft. Pickup body has hardwood floor with steel skid strips! NEW Wider rear cab window—50% more rear safety vision! NEW Two new cabs: The 5-STAR; and the 5-STAR EXTRA. Engineered for maximum driver comfort! 5-STAR EXTRA Cab has additional features at slight extra cost. NEW Chrome-plated top piston rings now standard in all four Ford engines, for longer cylinder life! NEW Autothermic pistons, high-lift camshafts for top performance! NEW Easier, quiet shifting with new 4-speed synchro-Silent transmission available at extra cost on Ford series F-4, F-5 and F-6 models!

New Ford Trucks for '51 offer you great new economy features... to do MORE per dollar.

There are more than 180 models, with new features throughout... from 95-h.p. Pickups to 145-h.p. Big Jobs! With a Ford Truck, and ONLY with a Ford Truck, you can choose a V-8 or Six, to match your power needs exactly.

Behind the new Ford front end are engine performance advancements like new autothermic pistons, new chrome-plated top rings, new high-lift camshafts... new transmissions, and axle for even longer truck life.

Ford Trucking Costs Less because—

FORD TRUCKS LAST LONGER!

In the low-price field... Only Ford Trucks feature POWER PILOT ECONOMY
1. The Ford Truck Power Pilot is a simpler, fully-proven way of getting the most power from the least gas!
2. It automatically meters and fires the right amount of gas, at precisely the right instant, to match constantly changing speed, load and power requirements.
3. Unlike conventional systems, the Power Pilot uses only one control instead of two, yet is designed to synchronize firing twice as accurately.
4. You can use regular gas... yet you get no-knock performance! Only Ford in the low-price field gives you Power Pilot Economy!

LOCUST SEEDLINGS OFFERED TO PROPERTY OWNERS

The State Division of Forestry is offering black locust seedlings to property owners in an effort to alleviate a lag in the Tennessee reforestation program caused by a shortage of pine seedlings.

Seedlings are particularly well adapted for growth in limestone soil of the Nashville basin. Cost of the seedlings is \$3 per acre and further information may be obtained from Forestry Division, Box 1250, Jackson, Tennessee. They are shipped F. O. B. from the nursery.

Walter C. Davis, D. D., Tennessee School of Religion University of Tennessee (Mark 6:34-44) "CHRIST and HUMAN NEED"

The feeding of the five thousand is the only miracle of our Lord recorded in all four Gospels. The reason for this is that it was regarded by the contemporaries of Jesus as a very great manifestation of His power.

Yet in our day there is a great tendency on the part of the Bible critics to belittle this miracle. Some claim that it is pure myth, having no basis in fact.

The orthodox view is that it is historical fact and miracle. We can consider it in no other light. Remember it had thousands of witnesses. To declare it was primarily a teaching miracle would rob Him of genuine compassion which all are willing to accord Him.

St. Mark makes the scene very picturesque. The place of the feeding was the northeast side of the lake, where Jesus and the disciples had gone for rest and the deepening of faith.

The compassion of Jesus for the multitude is probably the most vital thing in the record. Nothing escapes His notice; no human need beneath His care.

Jesus never performed a miracle just to show that He could. The thing that moved Him always was man's need. The people were made to sit down "by companies."

When the increase took place is not known. It does not matter. The multitude was fed. I like to think that the multiplication took place first in the hands of Jesus, then in the hands of the apostles, and lastly in the hands of the people themselves.

The 12 baskets of fragments affirm that the multiplication occurred for the fragments were more than the original supply. "That nothing be lost" was in harmony with a regular procedure at a Jewish dinner.

(Continued from Page 1) turns of the day, Johnnie," and to your mother, "Thanks a million." We had a lovely party.

Our covered wagon scene is completed. It was fun working on it. It represents a group of forty-niners camped for the night.

ORDER OF PUBLICATION

TO DR. ROBERT SANFORD VENIE READ RICE, ET. AL. VS. EDWYNA SCOTT, ET. AL No. 887 IN THE CHANCERY COURT AT RIPLEY, TENNESSEE

In this cause it appearing to me from the bill filed herein which is sworn to, that the defendant, Dr. Robert Sanford, is a Non-resident of the State of Tennessee, and a resident of the State of California so that the ordinary process of law cannot be served on him.

This 23 day of January, 1951. RUFUS CAMPBELL Clerk and Master. C. S. CARNEY, JR. Sole Ad. Counsel.

To make the scene look more real, the table was covered with a layer of sand and a cactus was placed in the background as if to stand guard on the lonely desert. In the far distance, purple mountains are silhouetted against the sky.

Well, here we are back in school after many days of snow. We wished Larry Steelman, Maurice Jordan, Harold Burroughs and Ray Bradford a "Happy Birthday."

We are sorry that Peggy Scarborough is sick. We wish him a speedy recovery. We are making some Valentines and we are also making Washington and Lincoln pictures.

"Whew," we are very sorry to have to come back to school but we don't want to be in school when June rolls around.

We are getting our "exam" grades back so we are sad children once more, although we have a few bright moments.

"Happy Birthday," Edward Chipman and Phillip Dunaway. We hope you have many, many more.

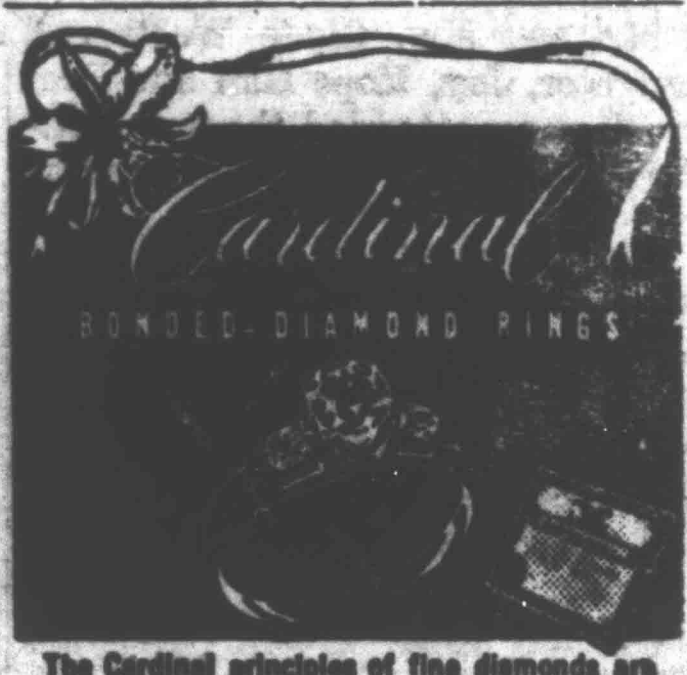

Grade VIII — Hello, Readers, here we are again and how! We can take a good breath now as we have finished our exams, but we are re-

ceiving a report on our grades now and—whew! We can't quit studying because we have competitive tests coming—just around the corner.

We are now studying some Geography—we think the Eastern Hemisphere is rather interesting. In health we have been writing about inheritance, environment, and what we want to become when we grow up and is it fun!

We really enjoyed our five holidays last week. "Happy Birthday" to Iona Brasher and Dotsy Olds—we hope you have many, many more.

Mrs. McCorkle saw "Holiday on Ice" in Memphis. We had a 4-H Club meeting Tuesday.

Tennesseans Got THOUSANDS MORE TELEPHONES IN 1950

1950 was another big telephone year in Tennessee. Southern Bell installed 106,631 telephones... enough to serve another city the size of Nashville.

The big job, however, was making new telephones possible by constructing and enlarging buildings, installing central office equipment, building lines and stringing wire and cable.

Today Tennessee has almost twice as many telephones as were in service at the end of World War II... twice as many long distance circuits... twice as many rural telephones.

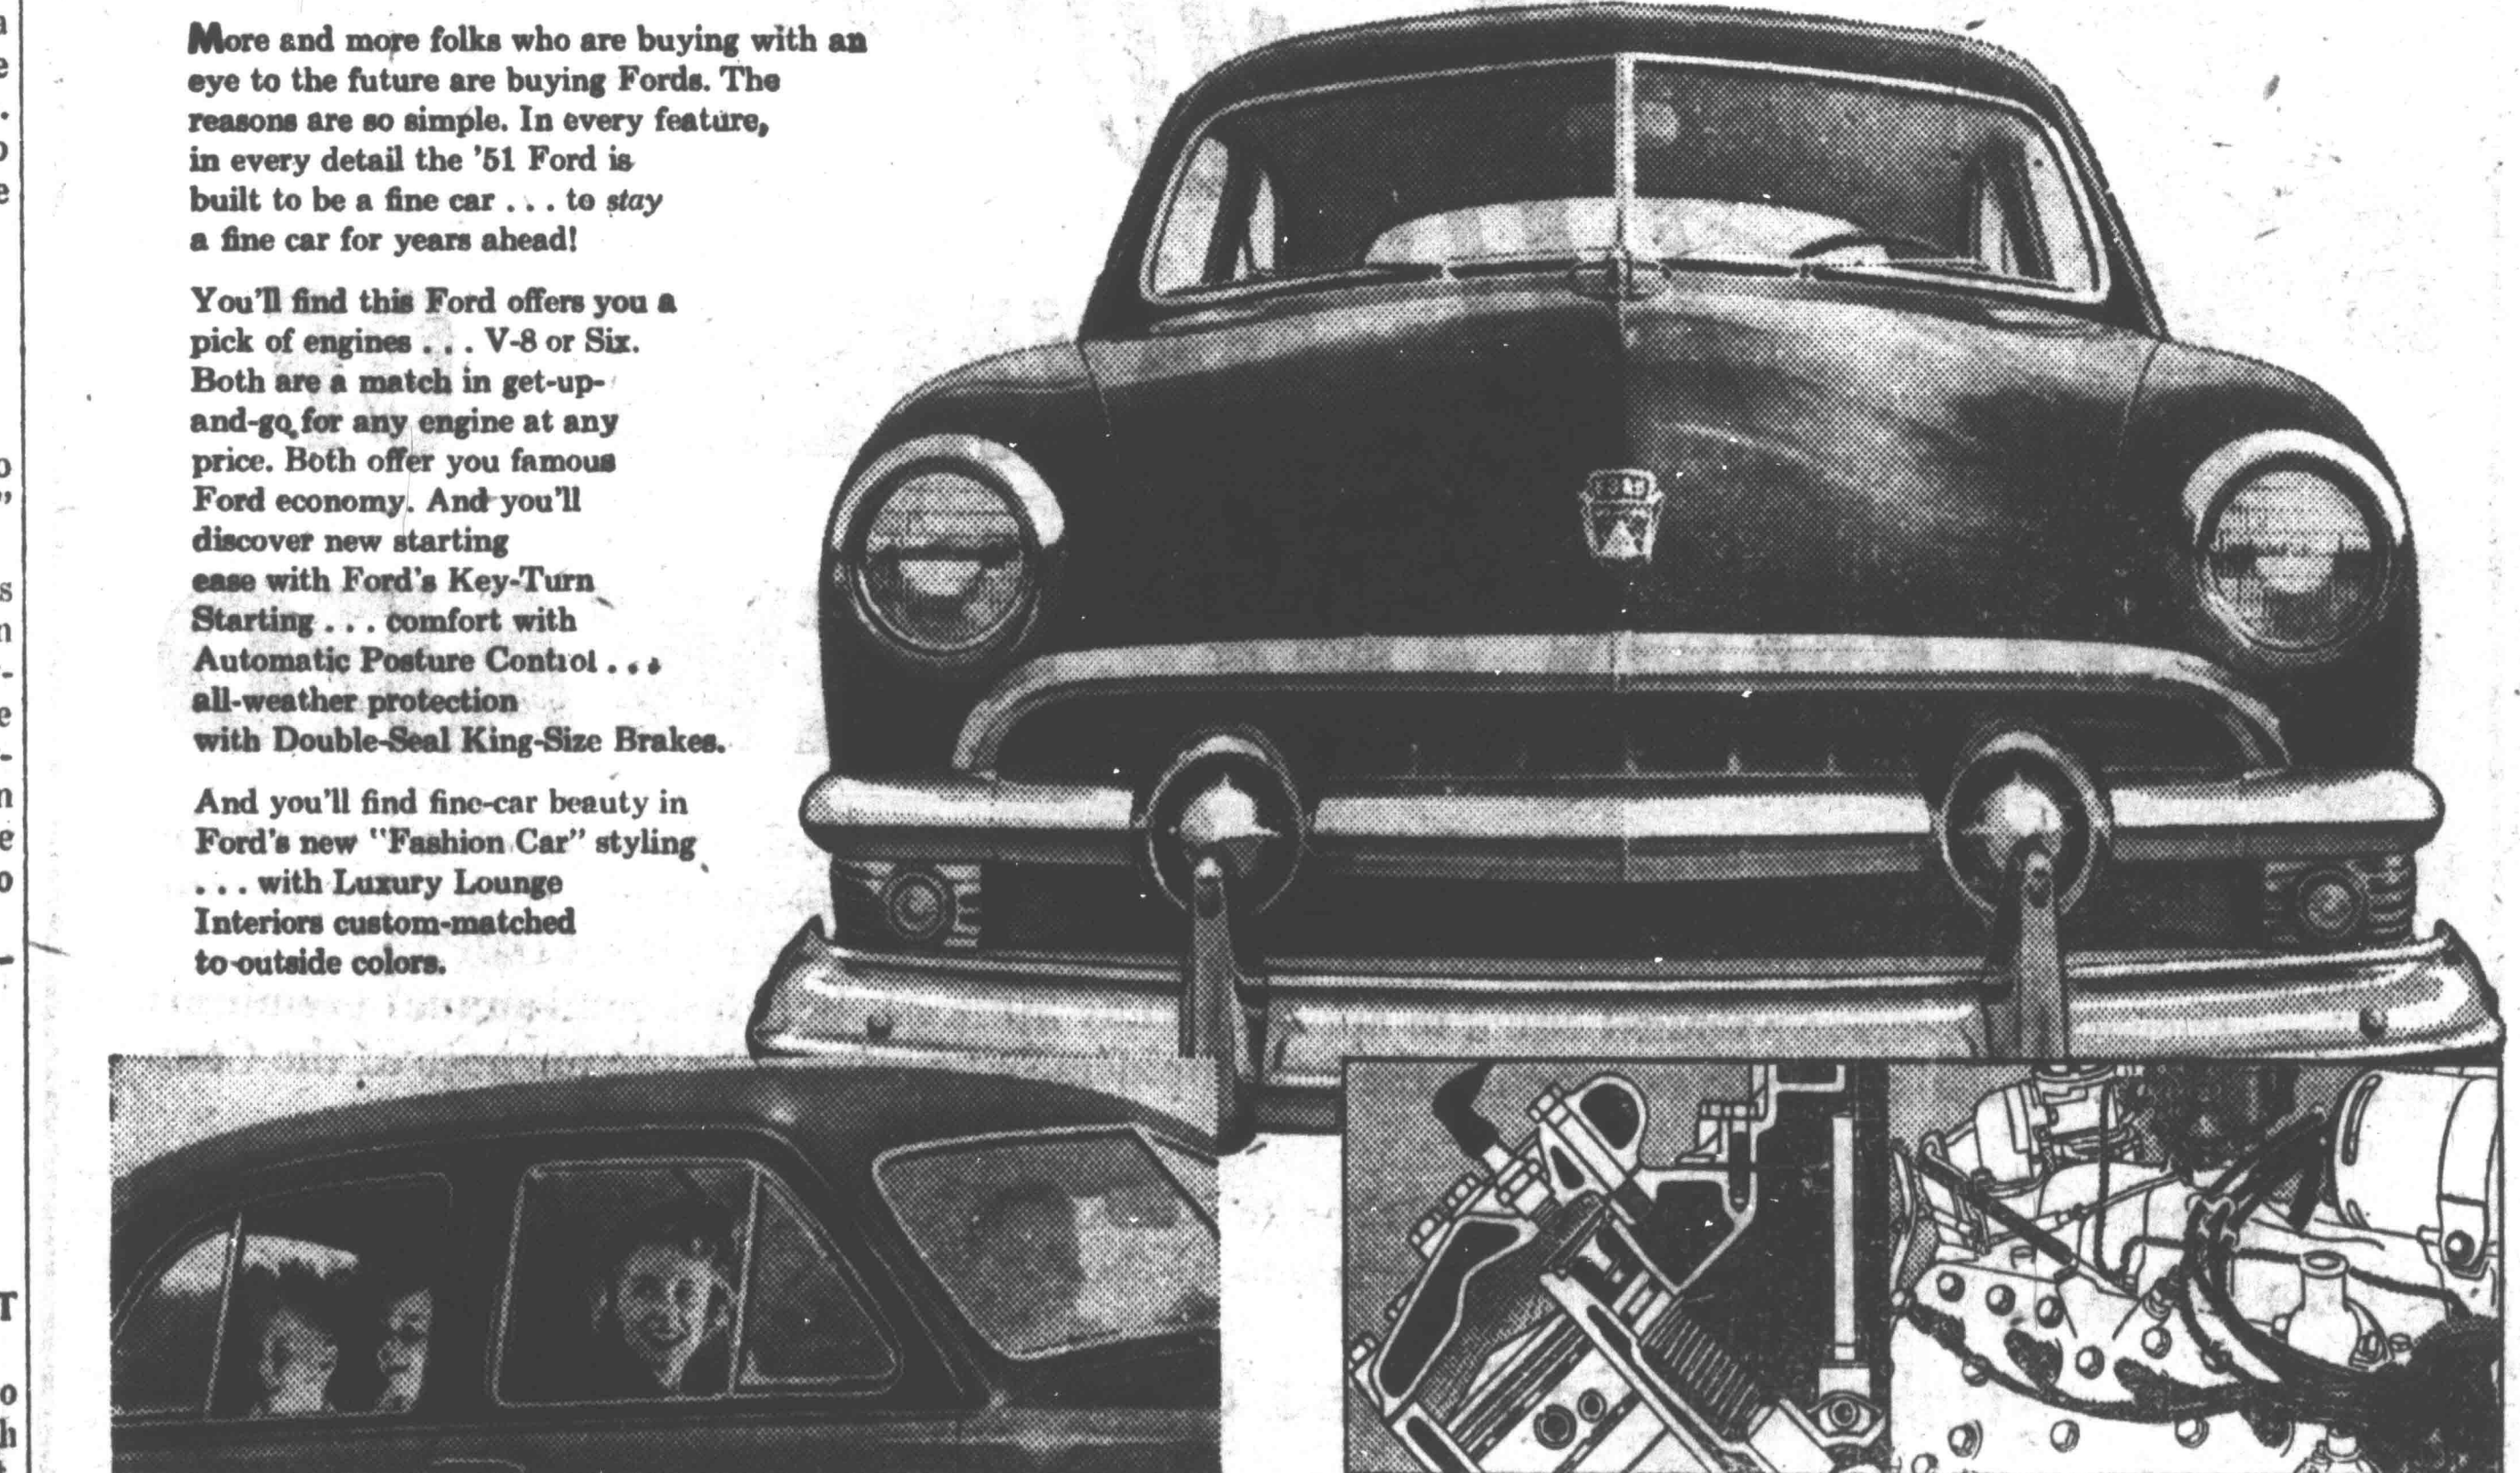

In the days ahead, Southern Bell can be counted on to do its full part in defense—in Tennessee and throughout the South.

Where Money to Expand and Improve Service Comes From It doesn't come from the money you pay us for telephone service... that money goes to pay wages, taxes and other operating costs. The money to build new facilities must come from people with money to invest.

FORD STEPS AHEAD FOR THE YEARS AHEAD With 43 "Look Ahead" features

More and more folks who are buying with an eye to the future are buying Fords. The reasons are so simple. In every feature, in every detail the '51 Ford is built to be a fine car... to stay a fine car for years ahead!

You'll find this Ford offers you a pick of engines... V-8 or Six. Both are a match in get-up-and-go for any engine at any price.

And you'll find fine-car beauty in Ford's new "Fashion Car" styling... with Luxury Lounge Interiors custom-matched to outside colors.

With ECONOMATIC DRIVE® It's the newest, finest, most flexible of all the automatic drives. It better the features of earlier automatics, to give you instant getaway, passing power when you want it, smooth, jerk-free performance, and even easier rocking out of show or sand than with conventional drive!

You can pay more but you can't buy better than FORD COME IN FOR A "TEST DRIVE" Townsend-Daws Co., Inc. Phone 2811 Halls

Local Happenings

Joe L. Levy left Monday to meet Mrs. Levy in Miami, Fla. for an extended visit.

Mrs. John Talley returned to her home in Memphis Sunday afternoon after having spent a short visit with her mother and friends.

Just received a shipment of Briny Marlin and Mary Lane suits. Come in and see them. Pick yours for Easter at Mrs. Vera Hilliard Style Shop.

Mr. and Mrs. T. E. Collins of Nankipoo visited in the home of Mr. and Mrs. Blanty Webb Sunday.

Mr. and Mrs. Jimmy Jacques and daughter, Shirley, visited relatives in Ripley Sunday afternoon.

Mr. and Mrs. Carmack Phillips spent Sunday at Reelfoot Lake.

Mr. and Mrs. Oscar Hilliard were in Memphis last Thursday.

Major and Mrs. James A. Woods and family of Fort Jackson, S. C. were guests of Mr. and Mrs. Edd Sumrow. Major Woods and family will leave from New York on February 21 for Germany, where he has been transferred.

Mrs. Floyd Hurt, Mrs. George Smerchek, Mrs. Ike Palomre and Mrs. Wayne White of Dyersburg were in Memphis Tuesday.

Misses Evelyn and Carolyn Devers of Memphis were guests of Mr. and Mrs. O. L. White Sunday.

Jesse Smith entered a Memphis Hospital Saturday. He is reported as improving.

N. C. Utley spent Sunday here with his sister, Miss Sadie Utley.

Mrs. A. C. Smith and Mrs. Mabel Peery spent the weekend in Memphis as guests of Mr. and Mrs. Elmer Rhodes and Mrs. Jack Murchison.

See the new gingham and chambray wash dresses for Spring at Mrs. Vera Hilliard Style Shop. adv.

Mr. and Mrs. H. L. Beech of Rutherford and Mr. and Mrs. Norman Thornton of Dyer spent Sunday with Mrs. A. N. Jones and Miss Reba Jones.

Mrs. N. C. Utley and Mrs. Wilson Vior of Ripley visited in Halls Monday.

Mrs. Frank Sudbury and daughter, Maggie Lou, of Dyersburg visited Mr. and Mrs. Jeff Agee Sunday.

C. F. Harward is improving after having been ill last week.

Mr. and Mrs. Leon Scott of Memphis spent Saturday night and Sunday with their parents, Mr. and Mrs. C. W. Scott.

Mrs. Ike Palomre and Mrs. O. L. White and Mrs. Charles Moore were in Dyersburg Monday.

Mrs. Johnnie Meadows continues ill at a Memphis Hospital. In Memphis recently to see her were Mrs. T. G. Avery, Mrs. J. T. Meadows and Mr. and Mrs. Roy Meadows.

If you are on the lookout for an idea which will put a little "give" in the food dollar try Texas Taters.

Instead of serving potatoes as a meat accompaniment for dinner star them as the main dish dressed up as Texas Taters. This potato innovation is designed to stretch a quarter-pound of ground beef into six servings. Scooped-out potato pulp is whipped together with milk and fortified margarine to a smooth, rich fluffy mixture. Hot browned beef, drippings, grated sharp cheese and seasonings are folded in to finish off the tasty filling for the potato shells.

Glazed tiny golden carrots, a simple tossed salad, crisp crusted rolls served with margarine for spreading complete a dinner course, that is bound to cut corners on your food costs.

TEXAS TATERS

6 medium-sized potatoes
 2 tablespoons fortified margarine
 1 cup milk
 1 cup grated sharp cheese

2 tablespoons minced onion
 1/2 teaspoon salt
 1/4 teaspoon pepper
 1 tablespoon minced parsley
 1/2 cup minced celery

Hot browned ground beef and drippings. Melt 2 tablespoons fortified margarine in a skillet over low heat. Add 1/2 pound ground beef, season to taste with salt and pepper and cook until done. Stir occasionally.

Cut a thin slice off the flat side of the potato. With a spoon remove as much as you can of the potato without breaking the skin. Mash the pulp. Add margarine, milk, cheese, onion, salt, pepper, parsley, celery, browned beef and drippings. Fill potato shells with

the mixture. Place 1/2 teaspoon fortified margarine on top of each filled potato. Place the Texas Taters on a broiler rack and broil 4 inches from the source of heat until the tops are delicately browned, about 5 to 7 minutes. Yield: 6 servings.

Mr. and Mrs. Meredith Hurt and son of Oak Ridge, Tenn., are the guests of their parents, Mr. and Mrs. Millo Hurt.

Mr. and Mrs. Ed Mitchell of Forrest City, Ark., and Mark Mitchell of Cottonwood Point spent Tuesday and Wednesday with Mr. and Mrs. Bernard Higdon.

Donald Connel and Bobby Henderson of UT Junior College at Martin spent the weekend here with their parents.

Mrs. D. C. Warren, Mrs. D. R. Nunn and Mrs. O. J. Nunn were in Memphis last Wednesday.

Mrs. Ely Cates and little daughter, Mary Margaret, left by plane from Memphis Tuesday morning for Portland, Oregon, to attend the bedside of her brother, Lysie J. Crandell, who has undergone a major operation.

Mrs. Ruth Reed and Mrs. Neil Ferguson were in Dyersburg on Tuesday afternoon.

M. E. McDearman, Jr. and Bob Poindexter were in Jackson Thursday night to attend a meeting of Ford Parts and Service Managers of this district at the New Southern Hotel. Mr. McDearman is president of the group.

CARD OF THANKS

I want to convey my very deep appreciation to all my friends for their expressions of sympathy, beautiful flowers, and many acts of kindness during my great bereavement, in the loss of my dear son.

Everybody has been so kind and considerate and I deeply appreciate it.

Sincerely,
JERE COOPER

MRS. BURKS HONORED ON BIRTHDAY

Mr. and Mrs. Jess Dailey were hosts at a birthday dinner honoring Mrs. A. P. Burks of the Poplar Grove community on Wednesday of this week. Others attending included Mr. Burks, Mrs. J. S. Walpole and Mr. and Mrs. O. F. Hoppers.

SAVE 22% ON INSURANCE

A five year policy on your home, household contents, or mercantile building can be written at four times the one year premium, meaning one year free coverage. However, very little insurance has previously been carried on this basis because of the size of premium that would have to be paid in advance.

Halls Insurance Agency offers you a streamlined five year policy with the savings plus the privilege of paying each year as the policy reaches its anniversary date.

The first year you simply pay the identical premium for a one year policy and 78% of this amount the following four years, giving a 22% savings each of these four years.

This contract has attained nationwide popularity, and Halls Insurance Agency proudly offers it to you in one of America's leading stock fire insurance companies. If you will call or pay us a visit, we will gladly explain in detail — of course no obligation.

(Continued From Page 1) We are jogging right along with our multiplication table. Some of us know the fourth line well. Thomas Hicks stuck a nail in his foot and was absent from school last week. We have our new Phonics Skill-text work books and are enjoying working in them. Our March of Dimes contribution was \$5.20. We had a stick of real Florida Sugar Cane in our room this week. We have enjoyed the stories, drawings, and discussions about Abraham Lincoln's Birthday (February 12th). Of course we always get a thrill doing things for Valentine. This month is full of activities for us.

Designs Centennial Medallion

Sculptor Julio Kilenyi puts finishing touches to centennial medallion commemorating a century of Illinois Central Railroad service to Mid-America. February 10, 1951, will mark the 100th anniversary of the signing of the charter creating the 706-mile railroad in Illinois which has become a 6,543-mile railroad in fourteen states. Mr. Kilenyi has gained wide acclaim during the last twenty-five years for his medallion and plaque designs. Much of his work is on permanent exhibition in the Metropolitan Museum of Art, the Cleveland Museum of Art, the Boston Museum of Fine Arts and the British Museum.

Fourth Grade — We are glad to have Jimmy Jones back with us. He has been going to school in Memphis. Jerry Chipman and Wayne Sanders returned to school, making our attendance one hundred percent. All of the fourth graders are grieving with Ann Younger and Rose Marie Cannon over the death of their dogs Sunday. We are enjoying the many new books in the library. We are especially enjoying the book on "The Life of Abraham Lincoln" this week. We have drawn many pictures, written many stories and poems about Lincoln. We can hardly wait until Wednesday to have our Valentine Box.

Reporters for this week are Eleanor Karnazes and Barbara Watts. Fifth Grade — Abraham Lincoln's birthday and St. Valentine's Day were the highlights of this week's activities in the fifth grade. We read many stories about Lincoln and wrote interesting papers on his life. We read the origin of St. Valentine's Day and also the story of the first valentine. We made valentine fans for our mothers. Anita Johnson and Sylvia Burns drew an attractive February calendar on our board last week. Jo Ann Hurt was selected to draw a log cabin on our board after each had drawn one at his desk. We think our valentine box is very pretty. Evalyn Smith visited in Dyersburg during the weekend. Nelda Kay Cleek visited relatives in Maury City and Minnie Jane Davis was a guest of relatives in Dyersburg. Sixth Grade — Happy Birthday, Rachel Brasfield. We wish you many more. Nineteen of us went to Sunday School Sunday. We enjoyed the 4-H Club meeting last Tuesday—Mr. White is the new assistant agent for the boys. We want Mr. Harward to come back to see us. We enjoyed his

talk and music. Miss Oma's brother, Mr. Charley Cates, visited us and told us about an old castle, a cathedral and a monastery of Medieval times that he had seen while overseas. He also told us about his stay on Christmas Island. We wonder what has become of Flossie Howell! Seventh Grade — Everyone was glad to come back to school after the week of bad weather. We were all proud of Carolyn McCorkle and Buna Smith who danced at the Beauty Revue last Thursday night. Mrs. Gilliland has finished grading our Christmas Booklets. The winners were Lou Eva Baker, Vanda Davis, Mildred Ozment, Carolyn McCorkle, Marlys Critchfield and Bobby Perry. We are glad to have Dolly Reece back from Chicago. Eighth Grade — Hello, folks, here we are again, but not so happy. Why?? We are up to our necks in English (verbals). We'll do much for that! We want to wish Jimmy Lawrence a very happy birthday and many more in the future. We are proud of our new books in the library. We are also proud of the girls who work very hard to put them in their places. (The girls are Gracie Lou Yarbrough, Dotey Olds, Ruth Ann Hudson and Helen Clair Cherry.) We have ordered new maps of the Eastern Hemisphere. We are looking for them in any time now. We are glad to see the sun come and the snow go. Greetings! Mr. Sun, we welcome you. We had our 4-H Club meeting last Tuesday. We talked about our project for 1951. We'll see you next week. P. S. We would like to report that grades 3 through 8 contributed \$45.40 to the March of Dimes. We think that was a very good representation for us, don't you?

Compared with nylon, orlon is not as resistant to abrasion, is not as strong at high temperatures and is not as resistant to alkalies. So, it is apparent that orlon will supplement nylon, rather than compete with it in its industrial and domestic uses. Plans for this approach to controlling the disease were completed three years ago and Congress has appropriated the money to vaccinate all calves in this area which are four to eight months of age and to repeat that every four months until the disease is practically eradicated. We have all to gain and nothing to lose by cooperating 100% in this campaign and meetings will be held right away at which farmers may sign-up for all calves being vaccinated this spring.

Elementary News

(Continued From Page 1) Ice cream and bubble gum. We always enjoy nice surprises like this.

We are reading "The Life of George Washington" this week. It is one of the many nice new books we have received for the library.

4th Grade — We wish to thank Mrs. O. F. Nunn and Mrs. E. L. Rainey for the candy and pop corn balls for our Valentine party.

Friday afternoon. Better luck next time. 7th Grade — We had a wonderful time Valentine's Day. Mrs. McCorkle, Mrs. Gilliland and Mr. Cates came in and we had a program—it was very enjoyable.

8th Grade — "Happy Birthday," George Washington and we hope you have many more and a "Happy Birthday" to you, Eva Lee Lynch.

We are glad to report that Hutson McCorkle won the Faculty Medal at high school for being the best all around student. Bye, now.

Charles Erdman suggests that the transfiguration was (1) for the sake of Jesus, that it reassured Him of His divine Sonship, that if He lost His life He would find it that He would surely rise from the dead and meet the saints of old in a state of glory.

Let us remember that the transfiguration was real, a historic fact. It was not a vision. It was not merely in the minds of the apostles. It was a part of that training in the northeast hill country as Jesus prepared His disciples for His death, saying, "The Son of Man must suffer many things."

over the entrance: "Enter to worship; I leave to serve." In MacClaren tells of an old Scotsman who, coming out of church, was asked, "Is the sermon done?" "No," he answered, "It is only preached. It is up to us now to do it."

TOXAPHENE TIME — It's time to get supplies of toxaphene needed in late March and April for control of strawberry insect pests, say U-T Extension Service horticulturists.

ANHYDROUS AMMONIA — We will have it and apply it for you. Don't pay higher prices for nitrate. Anhydrous ammonia costs 3 1/2c per lb., others 13c to 23c. — Cheaper and Better — FOR FURTHER INFORMATION SEE GAILON SMITH HALLS, TENN. PHONE 5023

From where I sit... by Joe Marsh Red Goes "Underground" When the new highway split Red Fowler's farm in two, he was plenty worried about his cows getting across the road. Saw him Tuesday, though, and he was all smiles.

Big, EXTRA PROFITS this year from EVERY DOLLAR'S WORTH OF NATURAL CHILEAN NITRATE of SODA HERE'S WHY: Nitrogen content — all nitrate nitrogen... fast-acting... completely available... the only natural nitrate in the world. Sodium content — contains 26% sodium (equivalent to 35% sodium oxide)... sodium is essential to maximum yields... substitutes for potassium, where lacking, and makes soil phosphate more available... helps "sweeten" the soil. Other plant foods — natural traces of iodine, manganese, potassium, magnesium, boron, calcium, iron, sulphur, copper and zinc. Uncle Natchel says: "Look for the bulldog on the bag. It means natchel soda in free-flowing pellet form. Used now for over one hundred years."

Sunday School Lesson Walter C. Davis, D. D. Tennessee School of Religion University of Tennessee (Mark 9:2-50) "MEETING GOD AND MEETING HUMAN NEED" Search the whole story of Christ's life upon earth and you will find nothing any more mysterious than the transfiguration. Why did it occur? Was it for the sake of Jesus? Or, of the sake of the disciples? It followed the teaching in Caesarea Philippi where Peter made the great confession and where Jesus began to teach the disciples that He must suffer many things, be crucified and the third day rise again. It occurred still farther north of Mt. Hermon, in Irturea, beyond the bounds of Palestine. In his little book of Mark, Dr.
