Volume 60

Halls, Tennessee, Friday Morning, February 5, 1954

Number 6

- SCHOOL RENEWS

Grade 1 - - Walker

We have missed Patsy Paschall and Diane Levy this week. Both are on the sick list.

We have lost two of our boys. Robert Moore and Elmer Goodman have both moved to Dyersburg. Dale Fitzhugh was the first boy in our room to celebrate his 7th

birthday. Happy birthday, Dalei Grade 2 - - Voss We were happy to have "Miss" Kathryn visit us on Monday of last week.

Thank you, Mickey Rooks, for describing your new Ford to us. We had a very helpful discussion on "The Feeding of Birds During

Snowy Weather." We were glad to have Elizabeth Ann Hart bring her dog for us to

Donna Lou Roberts, Kay Baker and "Miss" Marsaline had a birthday the same day. Thank you, Mrs. Baker and Mrs. Roberts, for the birthday refreshments.

Grade 2 - - Patton We have really enjoyed a few days of sunshine. Our class work

is coming along. We have missed Wayne Lucas, Robert Perry Ashcraft and Rosa Ponder who have been absent. Rosa was out all last week and we're glad to have her back with us. Sandra Cone has been absent

We'll be looking forward to Valentine's Day in a short while. The teachers are to have a luncheon on Saturday, the 6th, to attend. Guess we'll clean house a little before that.

Our room is looking a little like Valentine's Day was already here. "Miss" Jane went to Memphis on Saturday and brought us some pretty Valentine decorations and patterns.

We're enjoying a new jumping rope that Mr. Hooks got for us.

Grade 3 - - McDearman We are so proud of the lovely new curtains that we have in our room. We bought them with some of our Hallowe'en money. Thanks, Mr. -Availa sor distributions Louis Levy for the rods to hang

Thanks, parents, for attending the P. T. A. last Thursday night. We had the largest room count again so this makes four times we the meeting from Halls. have gotten to keep the picture

this year. We are sorry to have leave our group Barbara Goodman, Cletus Baker and Patricia Huffman, who have moved away.

March Of Dimes

Far Behind On

Quota In Halls

P. H. Henderson, Ir., chairman of the March of Dimes Drive for Polio, in Halls, Wednesday told the Halls Graphic that the drive has reached only slightly more than 50 percent of its one thousand dollar quota.

Mr. Henderson stated that for various reasons many who probably would like to contribute to the drive have not been contacted and urged that those who wish to make a contribution or additional contributions contact either himself, Auford Pickens, Neil Luton, Jr. or Louis Levy.

Mr. Henderson was especially complimentary of the Mother's March for the March of Dimes on Monday night of this week. He stated that slightly more than \$200 in donations were received with citizens responding liberally to the mothers when they knocked at

their doors. It is explained that all funds raised through the March of Dimes will go to the National Polio Foundation with the money to be used in research, for treatment of victims of the disease and in other efforts to combat this dread disease which every parent fears.

Chipman In Race For Sheriff

To The People Of Lauderdale County, Tenn. Annual John Deere Day Next Tuesday

John Deere Day will be held on members are urged to attend. Tuesday morning, February 9th, at Halls Theatre. Mr. Hurt stated that a feature film, 'Mr. Christmas,' will highlight the program which Locate In Halls is presented for farmers and their

families. The picture, "Mr. Christmas, filmed specially for John Deere Day, is the story of a small community's centennial celebration and how it affects the lives of the people who live there.

Erville Alderson as Abijah Dean heads a cast of outstanding Hollywood players, that includes B. G. Norman, Barbara Wooddell, Lloyd Corrigan, Minor Watson, Chic Chandler, Milburn Stone, Kirby Grant and Emory Parnell.

"Mr. Christmas," according to the tickling, and promises the audience many moments of spense. Other films included on the nrogram are "The Job Ahead," telling of the task that faces agriculture as a result of population increases and what is being done about it; "The Safety Pin," with those John Deere Day favorites, Teams To Play At the Gordon family; "Oddities in Farming," dealing with the unusual in farm machinery and farming practices; and "What's New" for 1954, consisting of a parade of new John Deere machines which will be available for the coming year. In announcing the program, Mr.

coma or Constant

R. E. Craddock, owner and oper ator with his son of Halls Canning Co., has announced that the firm will begin the signing of tomato acreage contracts next Saturday, February 13th.

Mr. Cradlock stated that some one will be at the office to discuss the tomato situation with producers and sign tomato contracts. Seed will be available at that time. In a statement to this newspaper

It would seem to your editor that with the drastic cut in cotton acreage that tomatoes will be a fine a ready and definite market is already established, the price will be known and stable and local farm. Farm Bureau Day ers have had sufficient experience with the crop to know best how to handle it. Mr. Craddock will be happy to discuss all phases of producing the crop with any interested farmer.

Young Dentist May

A young dentist was in Halls during the weekend to discuss the possibility of locating in Halls, according to I. A. Nunn. Mr. Nunn has been interested in locating a dentist here for some time.

The young dentist, Dr. McRight, is presently connected with the Veterans Administration Hospital at Augusta, Georgia, but plans to locate for private practice in the near future.

He is a native of Red Bay, Ala., and graduated from the University Mr. Hurt, is filmed in beautiful of Tennessee College of Dentistry color and the story runs the gamut in 1949. Dr. McRight told Mr. Nunn of emotions from the touching to that he has three locations in mind but that he is definitely interested in Halls. Halls has been without a dentist since Dr. J. W. Todd moved to Memphis during the past summer. Mr. Nunn expects to hear from Dr. McRight within the next

Broilers, Eggs Should Interest Lauderdale Farmers

F. H. Paschal County Agent

As farmers plan toward other enterprises to take the place of cotton, interest in production of poultry for broilers and eggs has greatly increased.

Tom Blair and L. M. Kirkpatrick, Jr., of Ripley, and Jim Jaynes and R. E. Henry of Halls have altogether 9,000 hens in well planned houses with dirt floors coveerd by

deep litter. Eugene Pierson of Ripley built a house last year 24x80 feet including a feed room 10 feet square in which he has 500 hens in wire

cages 10x18x18 inches. Two rows of these cages are placed together with a watering trough between. The cages are suspended 3 feet off the ground. Slanted cage floors allow eggs to roll out to be caught in a curved projection where they will cool

quickly and remain clean. Mr. Pierson started these pullets of-Leghorn breed last October and is now getting about 68% production. Each hen's production is recorded daily at her cage and when she fails to lay as many as seven eggs over a 14-day period she is replaced with a pullet ready to go into production. The hens are fed a special all-mash ration designed to keep hens producing at a high

rate for 12 to 18 months. Kenneth Randall and Paul Hento Hornbeak Friday night where derson Jr., of Halls, have new the local girls will be seeking re- houses in which they ar using this

Today's good telephone service will be even better tomorrow thanks to the transistor, a tiny electronic marvel that would fit in a nutshell.

The transistor — invented by Bell System scientists can do the work of a vacuum tube used in telephone, radio and television equipment and many other things a vacuum tube can not do. It is so small and light, yet so strong and reliable, that it has been called the "mighty midget".

A miracle, yes — but only one of many Bell System advances along the road toward more and better telephone service. To bring these new advances and to keep service good and growing requires a fair profit on the money invested in telephone equipment.

Sunday School Lesson

By Walter C. Davis, D. D., Tennessee School of Religion, University of Tennessee

Lesson For Sunday, February ? John 6:48-59, 66-69

"CHRIST THE LIVING BREAD"

This is the hardest lesson in all the New Testament. The miracle of feeding the multitude is very entrancing. Its application, the discourse on the bread of life, has caused wide discussion among Bible students.

In chapter four we learned that Jesus gives the water of life. His mission is to assuage man's spiritual thirst. At the pool of Bethesda His healing power reveals the merciful work of God. In this chapter we learn He is the bread of life, the necessary food for man's

Thomas Carlyle says the word "king," with similar form in many languages, means "the man who can." After the feeding of the 5,000 they were ready to make Jesus king. He eluded them and the next morning they found Him on the other side of the lake. "Do labor for the food that perish-" He said, "but for the food which endures to eternal life." Let us take that as the key to our lesson. Jesus said plainly, "I am the bread of life." They ate manna in the wilderness. The word manna means "What is it?". They did not know what they found scattered on the ground in the early morning like dew. (Exodus 16:13-15) Those who ate that died, as all men do. At another time He said: "Whoever lives and believes in me shall never die." This no doubt means that they shall not die eternally. Whoever believes in Jesus, He becomes to them the bread of life. Our's is a satisfying religion. Those who eat this bread never hunger. They have the truth and they know it. They do not go in quest of other religions. In our mission fields when men come to know Christ they count it as the ultimate religion. .

There is figurative language here of course. The figure is not in the words of flesh and blood, for Christ incarnate in the flesh is a great reality. The figure is in the words eating and drinking. These words can only mean the complete acceptance of Him as our Saviour. It is also figurative language when we talk about abiding in Christ and

ORDER OF PUBLICATION

TO CARTER C. BALLINGER, JR. AILENE BRAY BALLINGER

CARTER C. BALLINGER, JR. IN THE COUNTY COURT AT RIPLEY, TENNESSEE

In this cause it appearing to me from the bill filed herein which is sworn to, that the defendant Carter C. Ballinger, Jr. non-resident of the State of Tennessee, and resident of the State of California so that the ordinary process of law cannot be served on him. It is therefore ordered by the Court that the said Carter C. Ballinger, Jr. appear before the Judge of the County Court of Lauderdale County on or before the third Monday in February (it being the 15th day of said month and one of the rule days of this term of this Court) and make defense to the bill filed herein against him and others, or the same will be taken for confessef as true and the cause set for

hearing exparte as to him. It is further ordered that this notice be published in the Halls Graphic, a newspaper printed and published in Lauderdale County, for four consecutive weeks, requiring him to so appear.

A. Smith and Mr. and and can produce profitable cash Mrs. Louis Levy. The entire mem- crops, if they test their soils and bership of the Club attended with apply the recommended fertilizers the exception of Bobby Burse, who to get the yields which our soils had recently injured a foot in a are capable of making; but tenant families need to grow food crops which will cut down on their need for credit for their living expenses and they need acreages of cash crops to take the place of cotton. Corn can be an excellent cash crop for tenants, provided they will think of it as such and fertilize it and give it the same attention they give to cotton.

Corn Yields In 1953 E. H. Moorer, Jr., of Henning, had his soil tested last year and applied 200 pounds of 4-8-12 under the rows before he planted Dixie 33 hybrid corn on June 15. He of ammonium nitrate per acre In authorizing the announcement when the corn was knee high. He per acre worth \$100 on this land.

On some acres he applied only 100 of ammonium nitrate as a side dressing with the same fertilizer under the corn and got 69 bushels per acre. On still another plot where he did not apply a side dressing, he got 50 bushels per acre with 200 pounds of 4-8-12 under the corn. These are all good yields for such a dry year and they show conclusively that the right fertilizers pay handsome profits on corn.

We had 14 demonstrations over the county last year similar to Mr. Moorer's on which we compared plots which were side dressed with 200 pounds of ammonium nitrate to plots which had no ammonium nitrate. On some farms, all plots were also fertilized before

corn was planted. The average yield of corn with 200 pounds of ammonium nitrate applied as a side dressing was 85.8 bushels per acre as compared to 51 bushels with no ammonium ni-

trate applied as a side dressing. These farmers got 36 bushels of extra corn worth \$45 for an investment of \$4.50 for the correct fertilizer used at the right time. This is exactly \$10 for \$1 and these were (Continued On Page Six)

BRASFIELD-MILLER

Historic Enon Baptist Church Entered as second class matter was the scene of the marriage of weekly at the post office in Halls, Miss Mary Ellen Brasfield and Tennessee, under the act of March Vassar Judson Miller, Jr., on Friday, the fifth of February.

The bride is the daughter Mrs. Fleetwood Brasfield, of Halls, and the late Mr. Brasfield. Her maternal grandparents are Mrs. C. Arthur Crews, of Halls, and the Readers ads, 10 cents per line, late Mr. Crews and Mrs. Linnie

Mr. Miller is the son of Mr. and grandparents are the late Mr. and Mrs. T. P. Miller and the late Mr. and Mrs. J. H. Garrett, of Ripley.

The Reverend R. B. Owen, pastor of the First Baptist Church of Gates, performed the ceremony at half after seven o'clock in the evening before a large assemblance of friends and relatives.

Centered against a background of similax was a V of white tapers in graduating lengths. Grouping of corresponding tapers in four, tiered floor candelabra were interspersed with large arrangements of white gladioli, spikes of white stock and white snapdragons in floor standards, and baskets filled with Emer-

Paul Avery, of Gates, vocalist, nuptial music while guests were assembling. Traditional wedding marches were used for the proces-

sional and recessional. The bride, given in marriage by her uncle, J. D. Bentley, was lovecarried a white prayer book adorned with a white orchid and valley

Miss Shirley Cagle, daughter of

Oneal Miller, of Ripley, attended his brother as best man. Serving as ushers-groomsmen were Teddy Webb and Nathan Caldwell, both of Ripley.

The bride's mother wore a lovely suit of dusty rose with a black weave. The groom's mother was becomingly dressed in a dark blue frock. Both had corsages of gardenias.

After a wedding trip to Biloxi Mississippi, Mr. and Mrs. Miller are at home on Nelson Lane, in

Ripley. Mrs. Miller is a graduate of Halls High School and is now training for a Medical Technologist at the Lauderdale County Hospital in Rip ley. Mr. Miller attended Ripley High School and is connected with Volz Construction Company of Rip-To Meet Your Friends ley.

The United States now competes with China and Manchuria as one of the world's principal producers PERRY'S 10c STORE of soybeans, a crop native to Eastern Asia.

AMERICANISM DEFINED

The following is published observance of Americansm Week, February 12-22, sponsored jointly unior Chambers of Commerce.

What is Americanism? As Amer- say U-T agronomists. cans, we should know.

people, in the interest of the people; Tennessee-produced strains, and and south of the Cumberland man's rights to enjoy the greatest gave outstanding performance. measure of freedom consistent with law and order.

Democracy offers equal opportunity for all. It provides for the rule of the majority, yet protects the rights of the minority. Democracy stands for the basic principles and civil rights which protect the inlividual in his every day life. Democracy permits freedom of peech, freedom of press, freedom

of religion and freedom of conscience . . . all those rights summed up in the first ten amendments to our Constitution. Generally, we are aware of our

rights. BUT, the obligations imposed by our form of government are not fully understood. We are prone to accept its benefits and protection for ourselves, and leave to others the actual work of translating democratic principles into action in government and in daily living. We fail to realize that democracy requires the active particpaton of every citizen for manifestation of its ideals.

Yes, the rights and privileges of 'ndividual freedom guaranteed by democracy impose grave responsibilities and obligations. These obligations and responsibilities are imbedded in the term Americanism. Americanism is the citizens fulfillment of his obligations to his home, his community, state and

Americanism represents the willingness of the individual to be a good citizen, to obey and uphold he laws, to respect the rights and privileges of others and to give all possible support to the safeguard and preservation of those rights and privileges.

Americanism includes efforts to mprove, or more fully realize, the deals of democracy. If we discover errors or weaknesses, it should be our aim to try to correct them in dto seek solution to such proplems through proper channels. Democracy can only be strengthened and preserved by the unceasing levotion of all its citizens.

Americanism is more than flagvaving or inspirational speeches Americanism is functionalism, the employment of positive efforts for he improvement and preservation of democracy . . . Our American Way of Life.

(Arnold E. Paulson, Americanism Chairman, U.S. Junior Chamber of Commerce.)

"I do not mean to say I think it

The consensus of opinion among those who took issue with Dr. Barber was that smoking among women had about the same relative effect as among men, that some could use tobacco with impunity while others were injuriously affected and that excess should in all cases be avoided.

I do not think though that the habit has grown in the south as much as in the north, though in no part of the country have the majority of women become tobacco addicts. Here in Memphis we have a city of something like 175,000 people, and I am on the streets a good deal meeting and seeing a great many women and I have nev-

owner of the pullet mentioned in Virus pneumonia develops slowly with occasional chills, headache, a dry, hacking cough, and a general feeling of illness. The fever does not follow any set pattern. Muscular weakness and depression often Not so long ago, when a member go along with the illness.

hard to control. The disease is rarely fatal, but it is extremely meant life or death. There was little

to do but wait. Today, because of trying. Recovery from virus pneumonia may take several weeks, and any attempt by the patient to get back on his feet and into normal activity too quickly may cause a setback. In this respect, virus pneumonia is much more difficult to deal with than the old fashioned kind.. A setback may mean another long convalescence with weakness, fatigue, and depression. It can even mean another attack of virus pneumonia, because apparently the patient does not develop immunity

Virus pneumonia is today a far more troublesome disease than bacterial pneumonia. Nothing seems to prevent it. No drug is definitely known to cure it. It is possible to have two or three attacks in one season. The best protection that can be prescribed is to keep in the best possible general health and avoid contact with people suffering from the disease.

John 7:37-44; 8:12-19

"CAN THIS BE CHRIST" acknowledged that nothing at all teacher who always sat and taught

can be absolutely proved by science. Not even the existence of the worli and the universe. Science can go just so far and faith has to play its part. We can use certain forces of nature but we cannot prove just By Walter C. Davis, D. D., Ten- what they are. Faith underlies all scientific progress, just as in life and in religion.

Jesus declared His divinity and it is as reasonable as any theory of science which must be accepted by faith.

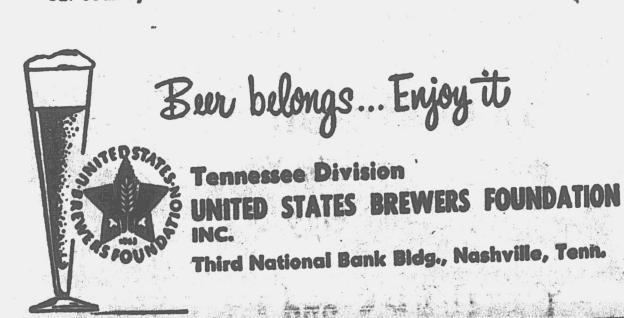

It was a dramatic scene. He stood The scientists Einstein recently in a prominent place, not like a

IT HAPPENS IN TENNESSEE.... IN Clarksville

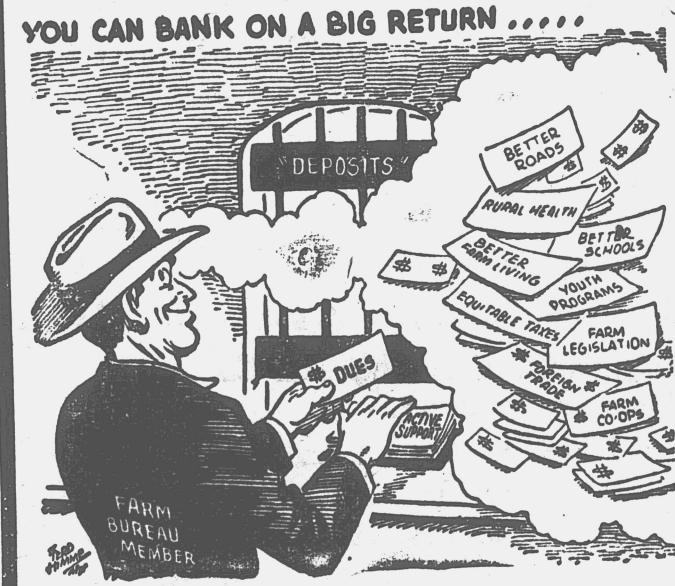

Every year, along towards the last of March, they put on an Old Fashioned Country Ham Show in Clarksville, Tennessee. Folks from miles around bring choice hams to enter in the show. Many, many others come just to see it. Because country ham is a fine old tradition in Tennessee.

A COUNTRY HAM SHOW

Well, a lot of folks like country ham. Maybe our neighbor does . . . maybe we don't. But that doesn't give us any right to try to keep him from eating it. Seems it's pretty much the same way with whether a man wants to-drink beer or not. It ought to be his right to decide whether he prefers a good cup of coffee or a temperate glass of beer . . . just like it's his right to eat country ham.

(Luke 4:20), and as a herald He said, "If any man thirst let him

come unto me and drink!" It was at the feast of tabernacles (tents), held in October and commemorating the wanderings in the desert. It was the time of the harvest, joyous gratitude for the goodness of God and the promise of life. The celebrants bore palm branches bound with willow and myrtle. It was a picturesque celebration, the feast, the dance, the sacred song, the liberation of water from the pool of Siloam poured out with prayers for abundant rain for the coming harvest. Jesus made it a figure of life. He said that out of the believer's heart "shall flow rivers of living water."

Then the figure is changed. Still drawing His figure from the dramatic feast, He said, "I am the light of the world." Many candelabra were used to light up the courts of the temple for the festivities. Light means truth as opposed to error and ignorance. "The entrance of thy words giveth light." "Thy word . . . is a light to my paths." (Ps. 119:130, 105)

Jesus made these great claims for Himself and shocked those who heard Him. Here was one who talked as if He were God. He claims to forgive sins. He says He has always existed and is to be the final judge of all the world. In meekness and humility He attributes His teaching to the Father. mere man talking like that could not be a moral leader. C. S. Lewis in "The Case For Christianity' says, "He'd either be a lunatic or else he would be the Devil of Hell. You must make your choice. Either this man was, and is, the Son of God; or else a madman or someone worse."

The evidence that the claims of Jesus were true have gone on piling up. His earthly career ended with the glorious resurrection. St. Paul never wavered in his conviction that he had come face to face with Christ on the road to Damascus. Stephen died saying, "I see the Son of Man standing at the right hand of God." A firstcentury martyr died with these words, "I'd rather die for Christ than to rule the world."

Down through the centuries the friends of Jesus who believe He is divine have been the benefactors of humanity. The enemies of Jesus have proved to be the enemies of humanity. Read any history of the last nineteen hundred years and nothing is more evident than that. You don't prove the existence of ight by long scientific papers. You see it and know what it does. In two ways we may know that Jesus is divine: first, by His own essential nature; second, by His power in the lives of people. The greatness of many great men can be explained in no other way than in the words of Paul, "Christ liveth

GENETIC RESEARCH PROMISES BETTER ANIMAL PRODUCTION

Genetic changes in livestock, based on research, can increase the average animal's food producing capacity by at least 30%, maintains D. T. C. Byerly of the U. S. Department of Agriculture.

Selective breeding can add 15% to the food producing ability of livestock and inbreeding with selection of lines that combine best can add another 15%, Dr. Byerly

Since increases in livestock productiveness from better feeding and environment are limited, it is only through genetic changes that the ability of animals to produce food for man can be pushed beyond those limits, Dr. Bydriy points out: cause legal gunning ended at that vivors Insurance is that one can The old lady I started writing time.- So, one enterprising nimrod start at any age - a day old baby about may live several years - and took a small alarm clock along on up. Biologists o fthe State Game and might live to be hundred or were think -never let it go out alone." Fish Commission long have advocated the removal of rough or trash fish on the theory that they are detrimental to and competive with more desirable species. This theory has been borne out in practice in Iowa. Rough fish control has been vigorously carried on year after year in several Iowa lakes.

In these lakes, game populations have been large and angling in general was good. In several lakes with unremoved large populations of rough fish, however, game fish populations have remained consistently low.

Social Security For All Ages

Joe Tipton Says . . . "I don't believe all those old adages that our oldsters were so fond of telling —one in particular— "The Good Die Young'."

Just a couple of months ago an elderly lady visited one of our offices to get a Social Security card. In filling out her application she showed she was born August 24, 1866. As that would make her 87 years of age, she was questioned to make certain as to correctness of her date of birth—it was thought that she had made an error. 1866 for the adoption of water safety was the year alright — there was

practices by those who use lakes She was asked why she wanted and streams in recreations. The failure to use life jackets and a Social Security account number and she said that she was "selfemployed." NOW, YOU CAN GET REAL INSURANCE PROTECTION

Very few people buy fire and lightning protection without extending the coverage for tornado, windstorm and other protections. The new policy covers loss by vandalism and malicious mischief, water escape, rupture of steam and hot water systems, ice, snow and freezing, fall of trees, glass breakage and other perils not, heretofore covered.

Theft and comprehensive personal liability may be included.

These coverages may be had with or without a deductible clause.

Repairs in case of loss made on replacement values.

These new policies provide the most complete coverage ever offered to homeowners and are available at only a small increase in rates for the coverages previously provided by the standard fire and extended coverage policies.

We invite your inquiries regarding this new and improved insurance protection.

TRUSTEE'S SALE OF MASSENGILL HOTEL

Under and by virtue of a certain Deed of Trust executed to me as Trustee, by W. A. Perry and wife, Mary Perry, on October 2nd, 1952, which Trust Deed is recorded in the Register's Office for Lauderdale County, Tennessee, in Deed of Trust Book No. 3, at pages 503, and 504, default having been in the payment of said indebtedness secured thereby, and at the request of the holder of said note to do so,

TUESDAY, MARCH 9, 1954 at two o'clock P. M. on that date at the North door of the Bank of Halls, in Halls, Tenn., sell said property for cash to the highest and best bidder. Said property is is located on the South side of Main Street, and is known as the Massengill property, or Massengill Hotel, and is further described and bounded as follows:

south margin of Main Street at thence running east with the south margin of Main Street 104 feet to the beginning corn-

On this property stands the Massengill Hotel.

This property will be sold in bas of homestead and Dower, that being waived in the Trust, and also provides that the Grantees in said Trust Deed will become the tenants at will of the purchaser and may be removed from the same as in a forcible and unlawful detainer proceedings.

All 1953 taxes will be paid by the Trustee, and 1954 will be assumed by the purchaser and so shown in the Trustee's Deed. Possession will be given as soon after the sale as

Any surplus this property, will be applied to a later Trust held by a party holding a second Trust on

Title to this property is believed to be good but I will sell and convey as Trustee only. O. J. NUNN, Trustee

Polio Victim Died Near Gates Friday

Services for Gary Bentley, 1 year-old polio victim who had been "adopted" by the Men's Bible Class of Ripley First Baptist Church were helld at 2 Saturday afternoon at Gates Baptist Church. The Rev R. B. Owens officiated. Garner's Ripley Funeral Home directed bur ial at Grace Baptist Church Cemetery near Ripley.

Gary, stricken six year ago, died Friday morning at the home of hi parents, Mr. and Mrs. J. D. Bentley west of Gates. Through his lengthy illness he received much assistance from the men's class. They bough a pig which he raised with great pleasure and they also contributed to medical expenses.

Gary began school work last year through Lauderdale County's home bound teachers visits and had almost completed his studies for

the second grade. Besides his parents he leaves six Bentley, Kenneth Bentley, Larry Bentley, Edward Bentley and Luther Guy Bentley; one sister, Vir-CHIPMAN — W. M. Chipman ginia Bentley, and his maternal has authorized the Halls Graphic grandmother, Mrs. C. A. Crews,

Died Wednesday

Services for Wilbert Olds, Lauderdale County Farmer were held last Friday afternoon at 2 o'clock that may help you decide on the at Enon Baptist Church. The Rev. best time to file your claim and R. B. Owens officiated. Burial was in Enon Cemetery with Sudbury evidence necessary to prove your Funeral Home in charge.

Mr. Olds, who was 66, died Wednesday in Lauderdale County Hospital at Ripley. He was a lifelong Lauderdale Countian and was Baptist.

He leaves his wife, Mrs, Maude Olds; three sons, Milton Olds and Charlie Olds of Halls and Thomas Olds of Chicago; two daughters Mrs. Jess Maxwell of Henning and Mrs. Ed Walker of Chicago; three brothers, Harvey Olds of Halls, Jack Olds of Fort Pillow, Tenn., and Walter Olds of West Memphis, and a sister, Mrs. Florence Cones of Halls.

ADVISES CHECK-UP BEFORE RETIRING

If you are planning on retiring, it might be to your advantage to have a talk with a representative of your local social security office well in advance of your planned retirement date, Joe P. Tipton, manager of the Dyersburg social security office, pointed out today. Inasmuch as retirement payments are based on your average monthly wages or average monthly income from self employment, the time you file your claim may affect your monthly check, he said.

"Don't quit your job until you are sure you are insured," Mr. Tipton cautioned. He said that your social security field representative will give you information will advise of the documents or right to payments.

Phone or call the social security office and ask for the leaflets, "An Easy Way to Estimate Social Security Payments" and "Your Social

Your social security office is located in the First Citizens National Bank Building, Dyersburg, Tenn.

OVERPLANTING COTTON WIPES OUT ACP SHARE

The U.S. Department of Agricultuure has reminded cotton farmers that any person who knowingly overplants his cotton acreage allotment in 1954 will not be eligible for cost sharing in carrying out soil and water conservation practices under this year's agricultural conservation program.

This is a requirement of law under the provisions of the basic legislation that authorizes the ACP. It does not apply to crops other than cotton.

A "How-To-Do-It"

Spic and span bureau drawer interiors are easier to keep that way when brightened up with gloss enamel. Not only does the enamel eliminate danger of snagging delicate fabrics on rough wood, but the slick surface is simple to clean It is also smart wood, but the slick surface is simple to clean. It is also smart to paint kitchen drawers. Left unpainted, raw wood absorbs spillage, making a tidy appearance increasingly difficult to maintain. The same goes for shelves and cabinet interiors. A word of warning—be sure drawer interiors are way free.

Operation Heartbreak-

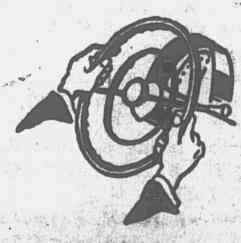

"What can I do to help?"

Hardened highway authorities choked as they read this desperate appeal in a grieving mother's letter. It was about a new plan to reduce traffic accidents she had just read in her newspaper. Her son, riding with a 15-year-old licensed driver, had been killed in 1952. In her anguish and sorrow and the aching void in her family circle, her first thought was for other mothers. She felt she must do something to save others from that endless heartbreak which strikes into some 40,000 homes every year.

"What can I do?" she pleaded. "As a citizen I feel that such a plan is most worthy of everyone's consideration. As a mother whose boy was one of 38,000 Americans who lost their lives, I will whole-heartedly enlist to recruit others—to put such a plan into effect."

Must other mothers and fathers be so tragically shocked into a life-saving crusade to stop this killing on the highways? Not if you do your part in the way you drive. And you can join community projects to make streets and highways safer, too. A citizenry sick and ashamed of this reckless, heedless, unnecessary killing could contribute much to saving thousands of lives.

Think safety—talk safety—drive safely!

> > HOME FRUITS NOW BRIGHTER

New fruit sprays for the control of disease, blight-resistant pear varieties, and the discovery that mulches can help grow fruit trees successfully on uncultivated lands are three developments of recent years that seem likely to make home fruit growing more enjoyable and profitable than it has been in the past, say U-T horticulturists.

Recently anonunced control measures for disease include the use of biological sprays similar in content to some of the "miracle" medicines, such as aureomycin streptomycin. These sprays said to give better control of the fire blight disease of apples and pears. It is too early to ask dealers for such sprays now but they are expected to appear before too long. Four new blight resistant pear varieties developed at the U-T Agricultural Experiment Station should also make the production of pears in the home orchard more

HEARD ON "TALENT SCOUTS" MONDAYS, CBS AND CBS-TV

A special guide sheet to help self-employed persons in correctly reporting their net income for social security tax purposes is now available. Joe P. Tipton, manager of the Dyersburg Social Security Office, announced today.

This leaflet, "Helpful Guides on Reporting Your Self-Employment Tax," he said, has been issued by the Social Security Administration to supplement instructions given with the Federal income tax forms

Pointing out that social security benefits payable to a self-employed person and his family in his old age, or to his dependents in case of his death, are based on earnings credited to his social security account, Mr. Tipton stressed the importance of correct reporting. "It costs the worker as well as the Government additional time and expense when an incomplete or incorrect return has to be straightened out," he declared.

This guide to accurate reporting of self-employment net income is available for the asking at the Dyersburg and other social security

Mr. Tipton urges all self-employed persons whose trade or business

The Republicans of Lauderdale County are hereby called to meet in Circuit Court Room of the Court House, at Ripley, Tenn., on the 25th day of February, 1954, at 7:30 P. M., for the purpose of reorganizing the Republican County Executive Committee; to elect delegates to the Congressional Convention to be held at such time and place as may be designated by the Republican Congressional Committee for the year 1954; and to transact such other business as may properly come before the County Convention.

This the 15th day of February, 1954.

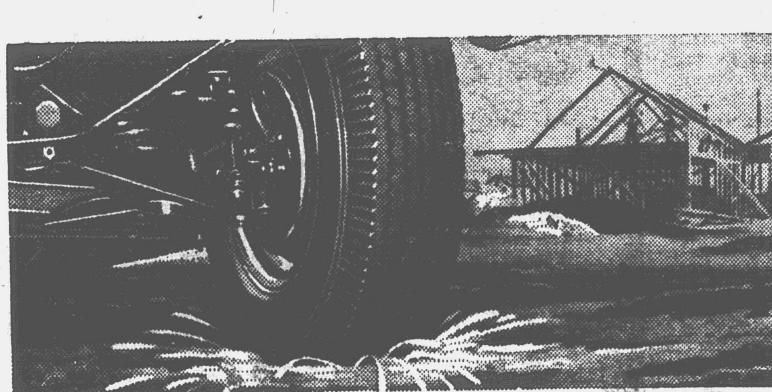

MRS. CATHERINE POSTON

Co-Chairman, Republican Executive Committee for Lauderdale County, Tenn.

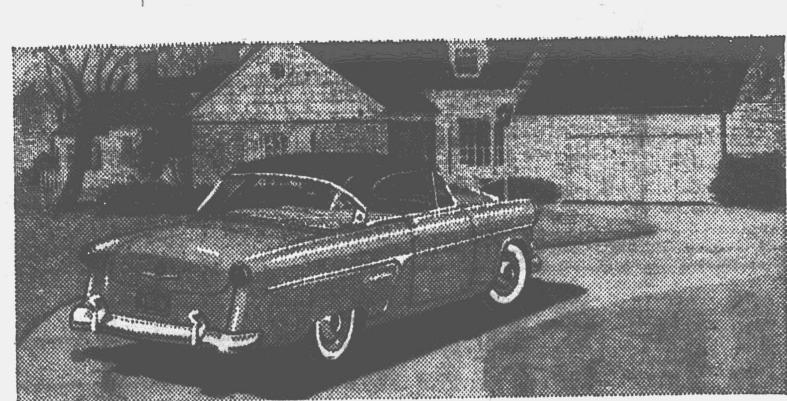

Ford's New Ball-Joint Suspension gives you the Newest Ride on the Road!

This revolutionary new Ford front suspension soaks up road shock before it reaches youl Makes all riding and handling easier!

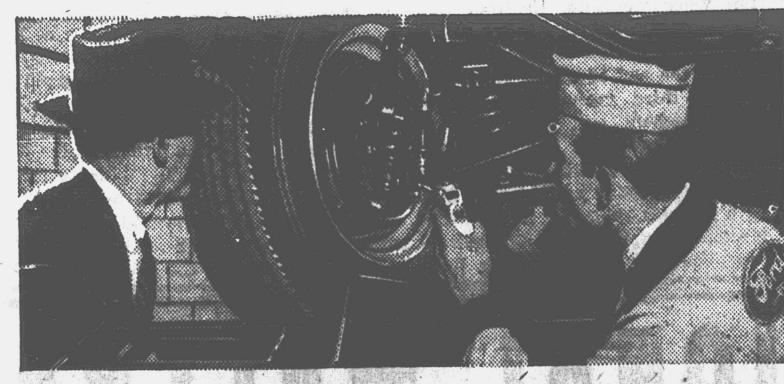

Seals out dirt. You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber-and-metal shield. This means that contact surfaces of each ball and socket remain clean-wear is kept to a minimum.

Keeps that new-car feel. You'll enjoy Ford's new-car feel much longer because ball joints are spring-loaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

THE "OLD" ROADS won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too, not only on turns but on the straightaways as well. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal this modern ridebecause no other has Ball-Joint Suspension.

Agile new performance, too, is yours in a '54 Ford. Whether you choose Ford's new 130-h.p. Y-block V-8 or 115-h.p. I-block Six you get the quick response and smooth, quiet operation of a modern overhead valve, low-friction deep-block engine. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership—with clean, modern lines . . . sparkling new colors . . . and harmonizing upholstery fabrics and trim.

Eliminates 12 wear points. Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at inner ends of suspension control arms not only reduce the number of wear points but also insulate chassis from road noises.

We cordially invite

Lesson For Sunday, February 21st John 9:24-38

"THE MAN BORN BLIND"

A good title for our lesson would be "The Evidence of Christian Experience." It is often said that there is no such thing as originality in

THE HALLS GRAPHIC Call 6311 for Your Needs

thought any more. We have such free exchange of thought today and we all influence one another. But in religion there must be originality. Faith must be strictly personal. Saving faith is not merely what others say they have experienced. Each one of us must experience it for himself. And when you come right down to it there is no such thing as an argument against any man who can truly say, "Christ liveth in me; this one thing I

Jesus had proclaimed, "I am the light of the world." That teaching is now focused on the healing of the man born blind. The story begins with an interesting question, "Who sinned, this man or his parents, that he was born blind?" Jesus taught that neither had sinned but that the "works of God might be manifest in him."

As I write, we are in the midst of the polio drive. I have a dear friend who goes on crutches from polio, but there seems to be no bitterness in his heart. To a Bible class he said, "I accept my afflic-

HOMEOWNERS INSURANCE

NOW, YOU CAN GET REAL INSURANCE PROTECTION

Very few people buy fire and lightning protection without extending the coverage for tornado, windstorm and other protections. The new policy covers loss by vandalism and malicious mischief, water escape, rupture of steam and hot water systems, ice, snow and freezing, fall of trees, glass breakage and other perils not heretofore covered.

Theft and comprehensive personal liability may be included.

These coverages may be had with or without a deductible clause.

Repairs in case of loss made on replacement values.

These new policies provide the most complete coverage ever offered to homeowners and are available at only a small increase in rates for the coverages previously provided by the standard fire and extended coverage policies.

We invite your inquiries regarding this new and improved insurance protection.

Louis S. Clapper State Game & Fish Commission

A survey conducted by the State Game and Fish Commission veals a known total of 16 hunting accidents, half of which were fatalities, in Tennessee during the fall and winter hunting season which just ended. Of the eight fatalities, only four were by gunshot wounds, the remainder being drowned while duck hunting. Of the 12 casualties involving gunshot wounds, nine were caused by shotguns and the remainder by rifles. Average age of the victims was 311/2 years. Accidental discharge of gun by defective weapons, victim moving in line of fire and hunters falling were the leading causes of gunning accidents although one was attributed to "horse play."

With all Tennessee hunting seasons closed, thoughts of many sportsmen will turn to other phases of outdoor activities. This does not mean, however, the shotgun or rifle need be stowed away until next fall. Many gunners keep their shooting eyes sharp during the "off" season by practice with inexpensive targets or by joining skeet or rifle clubs. Others pursue unprotected varmints or indulge in crow shooting. Those who do stow away their guns for the next six months, however, should first put them in the best condition. All ammunition should first be removed from the gun. The inside of the barrel should be lightly coated with gun grease to prevent corrosion. Moving parts in the breech should be lightly oiled. Guns then should be stowed away in a dry place that is free of dust. Grease must be removed from the inside of the gun barrel before using.

By GEORGE LILLEY

NIEW YORK, N. Y .- Fred Waring and his half-hun-IN dred musicians and singers make up probably the greatest popular musical aggregation in entertainment business today. They're the most diligently selected and trained, the largest group, top-priced and all that. But the really big, perennial asset of the Pennsylvanians has always been something less tangible—a kind of perpetual enthusiasm and freshness for music that keeps a Waring show close to the American public. The Pennsylvanians are one of the great traveling bands—some

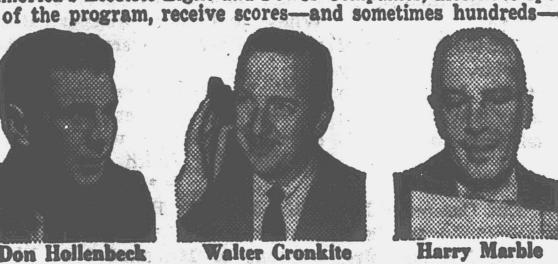

... the field of admirers is broad: soxers and critics 35,000 miles last year, at least equal that in visits to about 100

American towns and cities this season. Meanwhile, a national sponsor, General Electric, keeps the versatile musicmakers on television Sunday nights via the CBS-TV network. The TV show, the tours and extensive recordings spot-light, among others, singers Bernadine Read and Joe Marine, the former a blonde, 24-year-old soprano from Baxter Springs, Kan-sas; Marine a dark-haired, brown-eyed ex-GI from New York's Bronx. Both, like a number of Waring developed personalities, have the peculiar ability of charming the bobby-soxers, yet appealing to the adults and critics, too. In the trade Marine is known as a "singer's singer." A top fan of his: Perry Como.

TV TO BC ON "YOU ARE THERE" In its second year on television, after several years on radio, the Sunday night (CBS-TV) dramas, "You Are There," are proving among the most viewable—as well as educational—on the air today. "You Are There" reenacts historical events whose settings may—and have—ranged from an era before Christ to the recent Moscow purge trial. Sprightly written and documented, the action is in the present tense; the viewer must only assume that TV existed at the time of the event.

America's Electric Light and Power Companies, alternate sponsor of the program, receive scores-and sometimes hundreds-of

... with little imagination, "You Are There."

letters each week from high school and college students and teachers who use the scripts for class studies. Ace newsmen such as Don Hollenbeck, Eric Sevareid, Harry Marble, Ed Morgan, Bob Trout and others add to the reality of the show. Newsman Walter Cronkite sets the scenes for "You Are There"—and with little imagination at all, you practically are! ing the cost from total value, Jerry

Rat Campaign To Start March 1st

F. H. Paschal A countywide rat campaign to be carried out between February 25th and March 12th is being sponsored this year by the grammar schools and the FFA Chapters in the Ripley and Halls High Schools. No general letter will be sent to farm families over the county, but full information will be provided the students on circulars which they may use in getting orders for bait from their parents and neighbors.

The Town Boards of Ripley, Halls and Henning have made appropriations to pay for Squill meat bait to be put out on a blanket basis over the corporate limits of the towns and for Warfarin to be used inside stores and other buildings where rats are a problem. Warfarin dry bait is recommended for general use around homes and farms and will be sold in two lb. packages at \$1.00 during this cam-

The Crestline Skyliner

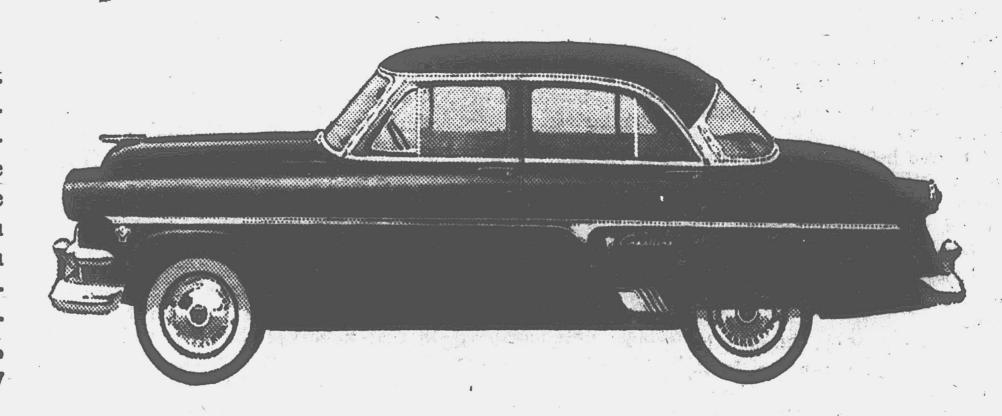

It's another Ford first in styling ... another Ford exclusive in the low-price field. Its tinted transparent roof-panel gives an open car feeling. And, as in all 1954 Fords, choose either the 115-h.p. I-block Six or 130-h.p. Y-block V-8, the greatest engine advances since the original Ford V-81

The 3 newest Fords in Ford's line of 28 great models

The Crestline Fordor

With its clean, honest lines, completely new exterior colors, harmonizing interiors and nylon upholstery, it is a perfect example of how Ford continues to set the trend in styling for 1954. You can have it as automatic as you want it with optional* Fordomatic, Master-Guide power steering, Swift-Sure Power Brakes, Power-Lift Windows and 4-Way Power Front Seat.

The Customline Ranch Wagon

Like the Mainline Ranch Wagon, this two-door, six-passenger beauty converts to a cargo hauler in seconds. Ford also offers two four-door, eight-passenger "quick change artists" with even more cargo space. And on all Fords, you get new Ball-Joint Front Suspension . . . the greatest advance in chassis design in 20 years!

We have been making some good health posters lately. We have posters for almost all parts of the head —the brain, the ear, etc. Busy little machine—the human body. You take it for granted. Someone has figured out the accomplishments of the human body in twenty-four hours:

Your heart beats 103,689 times. Your blood travels 168,000 miles. You breathe 23,240 times. You turn in sleep 25-35 times. You eat 3 1-2 pounds of food.

You speak 4,800 words. You exercise 7,000,000 brain cells. Notice that last item! Seven million brain cells! You would think hat was a lot but there are about nine billion brain cells, so your brain is using less than one-tenth of one percent of its brain cells each day.

Reporters Carolyn Ozment and Buddy Murchison.

CARD OF THANKS

We take this method of thanking our many friends for the many good deeds they did for us during the illness and death of our loved one, Mr. C. A. Page. The food, company, and every act of kindness was greatly appreciated. May the Lord bless everyone is our prayer.

TRUSTEE'S SALE OF MASSENGILL HOTEL

Under and by virtue of a certain Deed of Trust executed to me as Trustee, by W. A. Perry and wife, Mary Perry, on October 2nd, 1952, which Trust Deed is recorded in the Register's Office for Lauderdale County, Tennessee, in Deed of Trust Book No. 3, at pages 503, and 504, default having been in the payment of said indebtedness secured thereby, and at the request of the holder of said note to do so,

I will on TUESDAY, MARCH 9, 1954 at two o'clock P. M. on that date at the North door of the Bank of Halls, in Halls, Tenn., sell said property for cash to the highest and best bidder. Said property is is located on the South side of Main Street, and is known as the Massengill property, or Massengill Hotel, and is further described and bounded as follows:

Beginning at a stake in the south margin of Main Street at a stake, runs thence south with the old Millen line 1261/2 feet to a stake, the southeast corner of this lot; runs thence west parallel with the south margin of Main Street 104 feet to a stake; thence running north 1261/2 feet to a stake in the south margin of Main Street, thence running east with the south margin of Main Street 104 feet to the beginning corn-

On this property stands the Massengill Hotel. This property will be sold in bar

of homestead and Dower, that being waived in the Trust, and also provides that the Grantees in said Trust Deed will become the tenants at will of the purchaser and may be removed from the same as in a forcible and unlawful detainer proceedings.

All 1953 taxes will be paid by the Trustee, and 1954 will be assumed by the purchaser and so shown in the Trustee's Deed. Possession will be given as soon after the sale as

Any surplus this property, will be applied to a later Trust held by a party holding a second Trust on the same.

Title to this property is believed to be good but I will sell and convey as Trustee only.

O. J. NUNN, Trustee W. C. PATTON, Attorney,

Ripley, Tenn.

Cedar Grove, Jenn. Boy Wins \$1,000 Lion Oil Scholarship

Essay Says "Fair Chance For Everyone Makes Our Country Strong"... 15 Other Tenn. Winners Listed

Glenn Tyler's thoughtful essay on the subject, "What I Would Tell An Immigrant About America," has earned him a \$1,000 college scholarship in the Lion Oil Student

Essay Contest recently completed. Glenn, son of Mr. and Mrs. John D. Tyler, is 18, a senior in Lexington High School, Lexington, Tennessee. His father is a farmer, and Glenn is the eldest of six children. He entered the contest as a class assignment and wrote the winning essay in about three hours. He is an A-plus student, an outstanding leader, and member of the Beta Club, whose members are selected for excellent grades and superior citizenship. Young Tyler plans to study chemical engineering at either Memphis State College or the University of Tennessee.

Miss Ivy Holland, Glenn's English teacher at Lexington High School, has made class projects of the Lion Essay Contests. She plans to use her \$200 cash award, received as teacher-sponsor, for a vacation. Mr. W. L. Bobbitt, school principal, described the Lion Scholarships as "of great value to the improvement of Southern education." He received \$100 to buy books for the school library.

Ninety other high school students and teacher-sponsors in three zones received \$25 cash Merit Awards for outstanding essays in the contest. Since 1950, Southern students, teachers, and schools have been awarded 937 prizes worth more than \$82,000.

Arkansas, Mississippi Girls Win in Zones "A" and "C"

Sherry Kaffka, 17, was a senior at Lakeside High School, Hot Springs, Arkansas, when she entered the Lion Contest, but had transferred to the high school at Joiner, Arkansas when the judges selected her essay as a major prize-winner. She plans to attend Baylor University at Waco, Texas.

LaNelle Garner, 17-year-old senior in Houston High School Houston, Mississippi, is a superior student and a student council representative. She will use her \$1,000 scholarship to major in English at Mississippi State College for Women, as she wants to be a high school English teacher.

ENJOY A HALF HOUR OF MUSIC AND FUN ON "SUNDAY DOWN SOUTH" EVERY SUNDAY 5:00-5:30 P.M. OVER THE LION RADIO NETWORK.

Green, director of national educational programs.

Mrs. Julia S. Shafer

4th Student Contest Closes March 8

The current and last Lion Oil Student Essay Contest of the 1953-54 season closes March 8. The subject is "How My Favorite School Subject Can Influence My Future." Awards include three \$1,000 scholarships, forty-five Merit Awards of \$25 each, and \$100 cash prizes to scholarship winners' schools. Teacher-sponsors of winners also share in prizes. For complete information, get rules booklets from your principal, from your Lion Oil Dealer, or write the Lion Oil Scholarship Fund, El Dorado, Arkansas.

Teacher Contest New Being Judged -The teacher essay contest on "What Are My Responsibilities As A Teacher?" closed February 15, and the judges are now at work determining the winners, to be announced March 31. Top prizes are three \$1,200 graduate scholarships, and other awards are three \$400 cash travel grants and thirty-three \$75 cash Merit Awards.

Why Scholarship Fund Was Established Lion is an integral part of the South, employing more than 2,700 persons, who receive annually over \$16,000,000 in wages and benefits.

Lion Oil manufactures more than sixty petroleum products which keep the wheels of Southern industry, transportation and agriculture spinning. Lion's nitrogen fertilizers enrich the soil of Southern farms...help Southern farmers produce more and better crops.

The Scholarship Fund is Lion Oil Company's way of saying, "We believe in the South... are eager to assist its sons and daughters...our good neighbors. We're proud to be 'Home Folks-Good Neighbors' "
