New Look For Graphic

This week we are publishing the Graphic as a tabloid size with the idea in the back of our mind of perhaps switching to this format permanently. Because of the shortage of help and also a definite dearth of advertising — the life blood of a newspaper — we have been forced to publish many four page issues this past year. To Play Covington We know that this is unsatisfactory to our readers and it certainly is just as unsatisfactory to your editor. The tabloid size teams went back to the wars is as modern and up-to-date as Tuesday night as they traveled to the jet age even though it is not Alamo and came home with a doua new idea. Many newspaper thru- ble victory after they had sufferout the nation use it — weeklies ed a double loss to Jackson South appreciative of the honor and conand metropolitan dailies. GARDEN CLUB MEETING

Due to the fact that the meeting date came so near New Year's HOME FROM HOSPITAL Day, the regular meeting of the All members are urged to attend. day.

Three Pian To Make Race For Congress

Gov. Frank Clement was expected to set a date for a special election to name a successor to the late Congressman Jere Cooper either today or tomorrow. He had previously announced that he expected to give 30 days notice and that the election will be about February 1st. Mr. Cooper died of a heart attack on December 18. He had represented the Eighth Congressional District since 1928.

Three In Race Meanwhile the list of candidates who will seek the office begins to form as Robert A. "Fats" Everett of Union, State Finance and Taxation Commissioner Z. D. Atkins of Trenton, and E. T. "Rocky" Palmer, Dyersburg mayor and attorney, threw their hats into the ring.

Speculation about other candiin tor Ross W. Dyer, Halls attorney, Former Commissioner of Agriculand State Representative Damon decided not to make a race.

Many observers are predicting a closely contested race with a "hands off" attitude on the part of the state administration. They also expect others to enter the race. The man elected will fill out the unexpired term of Cong. Cooper with the regular elections scheduled in November.

A C P OUTLINES FUTURE PROGRAM

The Tennessee 1958 Agricultural Conservation Program will continue to place major emphasis on assisting farmers to establish long enduring conservation practices, Mr. A. O. Chambers, Chairman of the Lauderdale County Agricultural Stabilization and Conservation Committee, said to-

While assisting farmers with cost-sharing to establish conservation with longtime benefits is the ACP's major goal, the Tennessee ACP Development Group, which designs the program, recognizes that shorter lasting conservation practices also must be included, Mr. Chambers pointed

ACP RROGRAM

(Continued from Page 1) erosion of fields laid bare by drought", the chairman pointed out. "While the effects of the 1954 drought are still being felt by our farmers, the ACP is moving back toward the three-in-one national balance between and shorter enduring conservation practices."

"While critics of ACP blast State and County program development groups for including shorter term conservation practices in the program, they ignore several hards facts," Mr. Chambers said. He listed these as:

1. More acres of short-term practices than long-term practices can be obtained with the same number of dollars.

2. The Short-term conservation practices, such as temporary cover and green manure crops are also vital to conserve and protect the land. Left out of the farm conservation plan, the whole plan

MOTOR MAIDS

Tests Demonstrate How Seat Belts Save Livés

By Jeanne Smith, Dodge Safety Consultant

IF YOU'VE EVER WATCHED stock car races, you're familiar with the hair-raising spills and collisions which many of these drivers experience—and then step out of their cars, wave to the crowd-and walk away, unhurt.

Likewise, in accidents affecting modern military aircraft, the personnel frequently walk away with hardly a scratch. In both

cases, the Miss Smith

reason why occupants survive these accidents without injury is because they are protected by seat belts which prevent them from being hurled against instrument panels or through windshields.

Last month at Holloman Air Force Base, Alamogordo, N.M., I saw how seat belts can also curb passenger car injuries. (Some estimates indicate that seat belts could prevent more than one million automobile injuries and 20,000

deaths per year.) More than 100 automotive, medical and safety experts watched simulated car "crashes" at the third annual Automotive Crash and Field Demonstration Conference. The tests, which were conducted by Col. John P. Stapp, Director of Holloman's Aero-Medical Field Laboratory, involved humans, animals and dummies who were catapulted into quick, hydraulic braking stops similar to the impacts of auto collisions. (Col. Stapp has 700 miles an hour.)

In one deceleration test, a bear wearing a safety seat belt was subjected to a measured impact equivalent to 25 times the force of gravity. Although the force of the impact threw the bear's head and shoulders forward, he was not thrown from his seatthanks to the belt.

Air Force doctors, who examined the bear before and after the test, found that he had not been injured, either externally or internally, by the

In another test, an Air Force captain, restrained by a safety seat belt, went through a similar demonstration without injury. The "crash" in which he participated was equivalent to a car being braked from 17 miles an hour to a stop in six seconds, at a deceleration rate of 27 times the force of gravity.

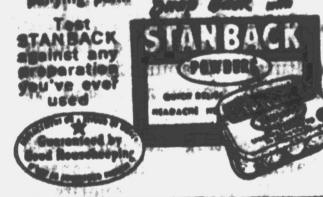

The impact was similar to a car's head-on crash into a concrete wall at 30 or 35 miles per hour or a side-collision with another car at 50 to 55 miles per.

A third test duplicated the one in which the captain participated, except that it was manned by a dummy, without a seat belt. When subjected to the same shocking stop which the captain survived without injury, the unrestrained dummy was thrown 12 feet.

These, and other demonstratraveled faster on the ground tions, vividly point up how seat than any other human—nearly belts can be the solution to our traffic injury problem.

OYSTER CREAM RICE CASSEROLE

Oysters combine with cooked rice in a delicate lemon cream sauce to make a casserole topped with Parmesan cheese and buttered crumbs. A dish designed for those who really love oysters seasoned just right! Complete the menu with buttered green beans, citrus fruit salad, bran muffins and applesauce cake.

Oyster Cream Rice Casserole

1 pint (2 cups) oysters ½ cup milk (about) 3 tablespoons butter or

margarine 1 teaspoon salt 1 tablespoon flour

1/4 teaspoon paprika 1 tablespoon grated onion tablespoon lemon juice 2 cups cooked rice

14 cup buttered cereal crumbs 1/4 cup grated Parmesan cheese Drain oysters, reserving liquid. Add enough of the milk to make

Melt butter in saucepan; stir in flour, salt, and paprika. Add milk and oyster liquid all at once, stirring constantly until smooth. Cook until thickened, stirring occasionally.

Fold in onions, lemon juice, rice, and drained oysters. Pour into a greased 1-quart casserole.

Combine buttered crumbs and cheese. Sprinkle over casserole.

Bake in moderate oven (375 degrees) about 20 minutes, or until thoroughly heated and crumbs are browned. Yields six servings.

another year. This was nothing tain cotton marketing quotas for short of what was expected as all indications pointed toward a desire to continue marketing quo-

The 1957 estimated crop is almost 3 million bales short of the estimated 14 million bales needed for domestic and export requirements. However, reserve and surplus supplies of over 11 million bales from previous crops will supply the deficiency with cotton to spare. The quality of the reserve is not as good in all cases as some of the mills would like but no doubt it can be used without too much handicap.

There is at present much speculation as to what farmers will do another year about placing eligible crops in the Soil Bank program. There is at present every indication that quotas will be filled as many farmers had it so tough this year and it was hard to make any net returns with the weather conditions and prices as they have been. The cost of operating farm machinery and farm labor have advanced to the point that many farmers are greatly concerned about the future and especially another year. Many farmers are finding it difficult to obtain financing for another year. For that reason, Soil Bank participation will no doubt be greater next year.

CARD OF THANKS

I want to take this opportunity of thanking all my friends for the beautiful flowers and cards and well wishes in my recent illness and sojurn at Vanderbilt Hospital. May God bless you all.

will study what the Bible has to believes and lays to heart?

"Whom do men say that I am?" It makes all the difference what men think about Christ. If he be the Son of God, that gives validity to all He had to say. We can know His promises are sure and steadfast.

It was no sudden inspiration that came to Peter when he said "Thou art the Christ, the Son of the living God." That conviction had been ripening through the months, nor did he speak for himself alone. All the Apostles had the same conviction more or less clearly.

Men have haggled over words, "Thou art Peter, and up-

Christ loved the Church and burg, here gave himself for it. So He becomes its very foundation. No here man who believes that Christ is Divine could possibly believe He made a mistake in doing that. He made no mistakes.

With ED JONES Agricultural Agout, Illinois Contral Railroad

The last cotton estimate by the Department of Agriculture was 11,010,000 bales. This is a reduction of 2,300,000 bales from the 1956 crop of 13,810,000 and is under the 10 year average of 13,669,000.

It is easy to understand the short estimate this year in view of all unfavorable weather that we have had to produce a cotton crop. Not only has production been cut but quality is also in jeopardy. The estimated production per acre for this year has been reduced to 390 pounds. This is 27 pounds below the record high in 1955 when it reached 417 pounds per acre.

Science Develops New Tablet:

Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!

New promise of relief from tortures of monthly cramps, nervous tension is found in an amazing new tablet! Developed especially to relieve this female discomfort, it offers greater relief

than aspirin! For 3 out of 4 tested by doctors, pain and cramps were stopped or strikingly relieved. Even on the first day, many had no nagging headaches, no backaches or other functional distress!

The new tablet contains a unique combination of medicines.

That's why it offers so much more relief than plain aspirin!
Acts on the cause of distress
to calm uterine contractions.

Also works through a woman's sympathetic nervous system.

Called "Lydia Pinkham's Tablets," they're sold at all drugstores. Easy to take, contain blood-building iron. So don't suffer needlessly. Take Pinkham's Tablets your-self. See if you don't escape much irritability and discomfort—be-fore and during your period!

conservat.on uses.

Acceptance of the farmers' of- Under regular Conservation Replaced in the Conservation Re-

farmer signs a contract with his County ASC Committee to divert a certain number of acres to conservation uses for periods of 3, 5, or 10 years. However, under the trial bid procedure, contracts will not be accepted for less than 5 years. Under the 5- and 10-year contracts the farmer will receive. a cost-sharing payment the year that a conservation use is established. Under all contracts, rental payments are made each year the contract is in force and the terms of the contract are met. Under the "test" program, annual peracre rental payments will be at the rate at which the farmer offered his land for the program, provided his offer is accepted by the Department. Only "bids" in which the farmer offers to put all his cropland into the program will be considered.

Maximum annual payments under the trial program will be increased from the \$5,000 limitation under the regular Conservation Reserve program to \$10,000 for any one farmer under the bid procedure. If any of the land put in the Reserve under the bid procedure is to be planted to forest trees, the contract must be for a 10-year period.

The new trial procedure permits farmers who have part of their cropland already in the Conservation Reserve to bid on placing the remainder under contract.

EMPLOYERS MUST REPORT FARM WORKER WAGES

The state of the state Farmers and ranchers are reminded that the 1957 annual social security wage reports for agricultural workers are due in January, according to Joe P. Tipton, district manager of the Dyersburg social security office.

All farm or ranch workers are covered who: (1) were paid \$150 or more in cash wages in 1957 by one farm employer, or (2) worked for any agricultural employer on 20 or more days during the year where the cash wages were figuerd on a time basis - hourly, figured on a time basis hourly, ployer's responsibility to report the wages and remit the social security tax on such wages to the

Internal Revenue Service ALY farmer or rancher who has one or more such covered employees should apply for an emplayer's identification number from the District Director of Internal Revenue, located at Nashville, Tenn. The Internal Revenue Service will then supply the necessary forms on which the reports are to be made. The reports call for the employee's name, social security account number, and the total cash wages paid him during the year.

The tax rate is 4 1-2 percent of the total wages up to \$4200 in a year for each employee; 2 1-4 percent of this tax is withheld from the employee's pay and the other 2 1-4 percent is the employer's matching amount.

More dtailed information may be obtained from your social security representative or your District Director of Internal Revenue.

CARD OF THANKS

We take this way of thanking each and every one for the nice and useful things given to us in at the time of the loss of our home by fire. We thank each one of you and may God bless you.

E. T. "Rocky" Palmer

Candidate For Representative, To Represent You, The People Of The Eighth Congressional District

THIS AD IS SPONSORED BY LAUDERDALE COUNTY FRIENDS OF "ROCKY" PALMER SO YOU MAY KNOW HIM AS WE DO !

WE KNOW THAT ROCKY:

Is an active churchman, having been a deacon in the First Baptist Church of Dyersburg, and teacher of its Business Men's Class for many years.

Is honest, industrious, reliable, capable and experienced.

Worked his way through school, receiving his degrees from Union University and Cumberland University School of Law, and later taught and coached in the High Schools of Dyer and Lauderdale counties for eight years.

Is a successful lawyer, business man, and farmer,

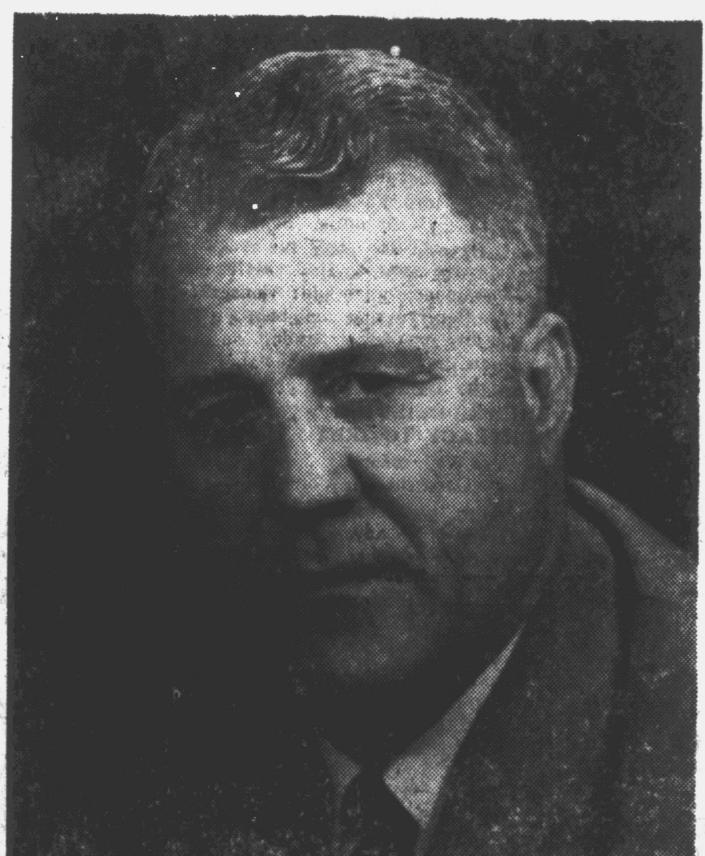

Is a devoted husband and father.

Served overseas in the U.S. Navy in World War II, and is active in the American Legion and Veterans of Foreign Wars.

Takes a deep interest in all civic affairs, and has served as State Representative from Lauderdale and Tipton counties and as the County Attorney for Dyer County. He was recently elected Mayor of Dyersburg by an overwhelming majority.

Being a farmer and landowner himself, has a full and sympathetic appreciation of the farmer's problems.

Has an intimate knowledge of drainage and levee problems, having actually promoted nd managed the organization of Dyer County Drainage and Levee District No. 1, the largest project ever attempted in West Tennessee.

Special Election February 1, 1958

STANDS FOR:

WE KNOW THAT ROCKY

Easy farm credit.

Total expense of drainage and levee projects to be borne by Federal Government.

Federal Aid to education without strings attached.

Aid and assistance in industrial development.

Increased old age assistance.

More and better roads in West Tennessee.

An ever stronger TVA.

Individual income tax exemption of not less than \$1,000 and privilege of carrylover of losses by individuals to subsequent years.

Expansion of rural electrification and telephone service.

Establishment of a National Academy of Arts and Sciences.

For These And Many Other Reasons Which Space Limitations Prevent Our Detailing And Because We Truly Know That Rocky Is The Type Of Qualified American Citizen We Should Have Representing All Of Us In Congress, We Sincerely Solicit Your Vote And Influence For

FORKED DEER LETS LINE RE-BUILDING CONTRACT TO IRBY

Irby Construction Co. of Jackson, Miss. was the successful low bidder for the construction of power lines for Forked Deer Electric Cooperative, according to an announcement by H. E. Pentecost, manager of the Co-op. Irby bid \$150,899.24 for the contract which included the conversion to heavier lines of approximately 29 miles of lines in the vicinity of Halls and Newbern. Other bidders were Townsend Electric Co. of Jackson, Tenn., \$159,246.28 O. Brayton of Dyersburg \$160,236.96.

for Many Farm Families

As we make plans for the New Year, without a doubt many are wondering just what it will be like for them. Certainly, there were not too many who regretted to see 1957 pass into oblivion, since it was one which brought many disappointments to farmers everywhere. Except for the years in which we have been in war, '57 was no doubt one of the costliest and most uncertain years ever experienced by farmers.

As we look to the New Year, let us pledge ourselves to do a sane job of planning our farm operations. We must make plans to reduce costs wherever it is possible. Take time to do some studying and take a look at the projected outlook by the economists. They base their predictions upon history, cycles, etc. and many times they are rorrect in their predictions.

No doubt we can improve our farm plans by cutting down on expenses in some places and it may be practical to do away com-pletely with some farming programs carried on by you in the past. We are now in a day of

YOUR CHILDREN ARE IN OUR PLANS. The future of our community depends on

your children. And their future prosperity depends to a large degree on an abundant supply of low cost electricity . . . power which they will use in the home, in business and in industry.

That's why we plan ahead . . . and build ahead for them . . . to make certain they have all the electricity they need, when they need it!

Ripley Power & Light Co.

kinds of transportation. But not for the Illinois Central. A good railroad runs in spite of weather and war.

We figure a railroad that can lick weather and war should also be geared to handle the ups and downs of the business barometer. We set out a dozen years ago to put the Illinois Central in shape to do just that. Last year gave us a chance to test our strength.

Like most business, we got hit from above by falling volume and from below by rising wages. The squeeze put a dent in our profits. But it didn't keep us from carrying out the programs that keep us on top when it comes to serving our customers.

We start 1958 in the finest physical trim, ready to compete vigorously for new business and to give our old customers the best service ever.

What's more, we're going to keep after the lawmakers to cut away the rusty legislation that keeps us from giving you the better, more economical service you should get from the transportation industry.

Sunday School

Lesson for Sunday, January 12th

(Acts 1:4-8; 2:1-11) "The Source of the Church's Power?

Just what is the Church's great est need today? There has never been a time when the Church was so feverishly active as now. We are in a "building spree'. The Protestant churches of America are scheduled to spend hundreds of millions of dollars in 1958 building churches. And yet religious journals carry this headline, We Are Running Out of Preschers". One single denomination needs 15,000 more ministers.

We have our programs of evangelism, we set our goals for so many thousand new mission churches by a fixed date, we have our efficiency programs. Must we say our greatest needs are to be found in physical expansion? Or is the Church in need of a hidden, secret, divine power?

le Pentecost merely a subject for research, or can it occur a-

Our lesson tells of the readiness of the Church for the gift of the Spirit. They were gathered together in one place (unity). It was a Church in prayer. It was a Church in great expectation. They were ready to meet the tasks that might be imposed. Under such circumstances the Church might experience Pentecost again and

CAPABLE - EXPERIENCED - ENERGETIC

The many friends of Robert A. Everett throughout the Eighth Congressional District of Tennessee through this Advertisement sincerely solicit your vote and support for the man we feel is best qualified by EXPERIENCE, EDUCATION, PUBLIC SERVICE, FELLOWSHIP, NATIVE A-BILITY, and just plain KNOW-HOW to fill the vacancy in the Congress caused by the untimely death of our beloved Honorable Jere Cooper.

We urge you to vote for Robert A. Everett in the Special Election on Saturday, February 1, 1958.

Everett is known by most everyone in Tennessee and in Congress in Washington,

is a hard worker, an honest and loyal friend, and most capable of accomplishing in Washington those services most needed by our District. He can also be counted on to represent all of us well on National and International matters.

A VOTE for Robert A. Everett on February 1st is one for a deserving young mun. Give him that Vote. Ask your friends to Vote and Support him.

Those of us who are paying for this Advertisement are pleased to give you below a Statement and the Platform of our friend and your friend, Robert A. Everett, candidate for U. S. Representative:

STATEMENT

In offering myself as a candidate for U.S. Representative from the Eighth Congressional District, I do so with full knowledge of the important responsibilities and qualifications demanded of the person elected.

It is with the deepest humility that I sincerely invite my fellow citizens of this District to examine my past, my experience, and my fitness for this high position. I believe 22 years in public and semi-public serivce permits me to ask you to vote for me in the Special Election on Saturday, February 1, 1958.

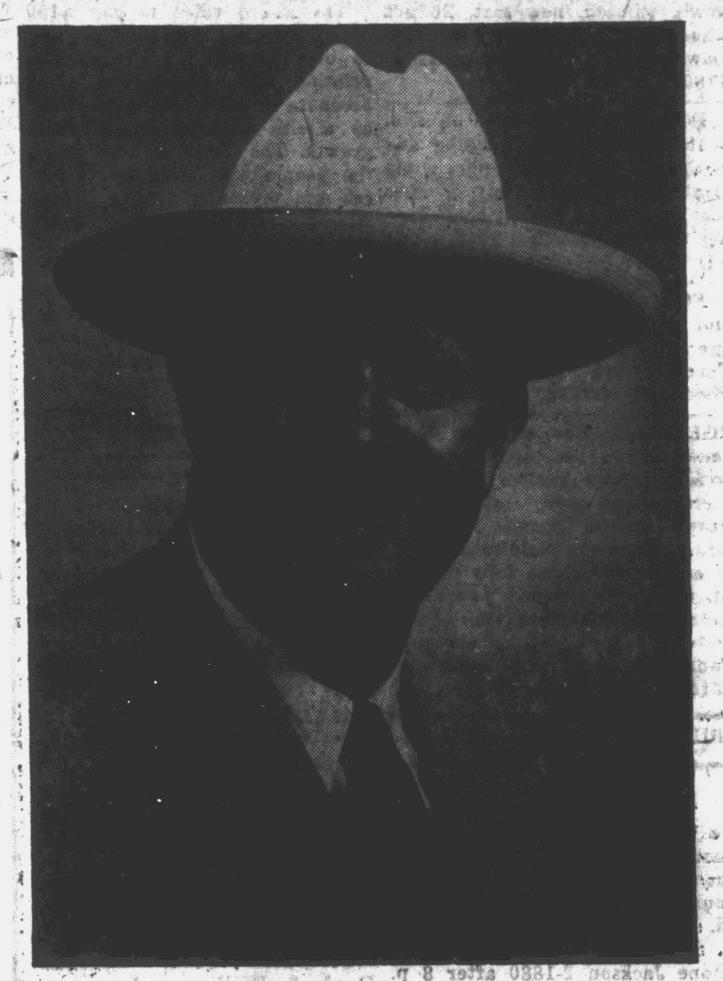

Please vote for me on that day, and support me by asking your friends, neighbors and relatives to do the same.

I was raised on the farm and worked on the farm. I received my education in the public schools of Obion County, and did my college work at Murray State College.

I am 42 years of age. My first public service was as a member of the Obion County Court I have been a high school teacher and a Cincuit Court clerk in Obion County. I spent 31 months in the Armed Services, I served three and a half years as the Administrative Assistant to a United States Senator in Washington, I served a short time as any Administrative Assistant to a Tennessee Governor, I worked as the executive secretary to the Tennessee Cotton Ginners association and for the past four years I have worked for all the county governments of the state as the executive secretary of the Tennessee County-Bervices Association.

Having had intimate knowledge of and experience in Local Government, State Government and Federal Government, and being well acquainted with officials now serving on all levels of government, I believe I am qualified to go to Washington on your behalf and accomplish needed legislation and services for all the people of the fline West nessee counties comprising the Eighth District.

Among the services I assure you I shall work for in Washington and the stands I Support To The People Of My District will take on public questions concerning the District, are the following:

MY PLATFORM

I shall sook the advice and counsel of our farm organizations, farm agents, vocational agricultural teachers, and particularly the individual farmers in trying to help work out our farm

3. INBUSTRY: There is a necessity for new and expanding industry in the Eighth District. Industrial payrolls are needed to balance our agricultural economy, and to check the migration of our young men and women to other area. Industries will settle here and the rela-tionship will he mutually profitable and desir-able, but we must work together in telling our story and selling our towns, our people, our rew materials, our markets and our assets. It can be done, and I pledge my efforts to this project while serving you in Washington and I pledge my full cooperation to the West Tennéssee Institution Association.

The Tennessee Valley Authority has contributed immeasurably to the welfare of our District, and can contribute even more in the future. It has brought us low cost Public Power which means so much to our agricultural development and our industrial development, as well as our individual comfort and convenience. I pledge my support to a Strong TVA and the public power groups which serve our people and particularly to the soil financing plan which best serves. TVA I shall work with the Tonnesco Delogation in Washington as a "line" and the advancing and photociting the best intelects of TVA.

4. GOOD ROADS: A north-south superhighway is mandatory for national defense and the coon nomic progress of the Eighth District. I shall fight for this Federal project, as well as for adequate funds to keep all other Federally-aided roads in the District in good condition. I believe all county highway officials and those interested in highways and roads are aware of my work in the past in behalf of our rural road system and the Better Roads Program.

5. MILITARY: As a veteran of World War II, I am unequivocally in favor of maintaining strong military forces, and can be counted on to vote accordingly.

6. VETERANS, WELFARE and EDUCATION: I am for adequate Veterans Assistance and have port the sound legislation and policies of our major veterans organizations. I stand firm for adequate assistance to our senior citizens who are too often neglected, and will work for improvement of the Social Security Program. I shall strongly support the Kings-Jenkins Bill which makes it possible for our school teachers to get an exemption on their income tax for expenses incurred in improving their education, the same as is presently allowed other profes-

always worked for votorana I shall always super

7. STATES RIGHTS: My position on segregation and States Rights is well known. I was bo raised and educated in the Eighth District. love the way of life of the people of this district. I will do everything people of this district this way of life is protected. I will work hand-in-hand with the other able Congressmen from West Tennesses—the Honorable Clifford Davis of Memphis—in teeing that the Eighth Congress that the Eighth Congress than the Honorable Clifford Davis of Memphis—in teeing that the Eighth Congress than the Eighth Congress than the Eighth Congress. should the espectanity to sign the Diric Mand-fosts present Starls I will sign it to did the little Boundable Jore Couper

I favor less government control in Washington and keeping and encouraging stronger later a government.

weste of the tempeyers' dollar and bureaucross, and shall do everything in my power to curb excessive high cost of government,

9. FREE ENTERPRISE: I favor the free en terprise system that has made America great and oppose communism and socialism and all other iams except Americanism. I particularly will favor legislation favoring the small bust-note men who along with our small farmers are the backbone of America.

10. FIRST AND LAST: I will work for the best interest of the people of my home District, the Eighth Congressional District of Tennessee, and will devote my life to serving you.

> Respectfully, ROBERT A. EVERETT

2. AGRICULTURE: I will sponsor and supplementation which will benefit all our farm particularly our small farmers. For most of our District, inadequate drainage is a costly, continuing problem. Ten years ago, as Administrative Assistant to Senator Tom Stewart, I helped seare authorization in the Senate for drainage of the Forked Deer and Obion River basins at a sent of \$7,000,000.00 at prices then prevailing. Our own Congressman, the late Honorable Jers Cooper, and our neighbor Congressman, Reprecure authorization for the same work in th House of Representatives and the President signed the bill. As your Congression, I want to help revive this vital project with the help of local people, and fight; for funds to permit the Corps of Engineers to undertake and complete this work at the earliest possible date, It is enc of bur most pressing neath. I will also fight to, yet funds allocated for Schiperery drainage to list under the snagging and channel improve-

interests of the people of the Eighth District

foremost in my thoughts and actions in the

United States Congress.

We must have a Farm Program that will give the farmer a fairer share of the Nation's total income: To help accomplish this if elected, I hall make the Agriculture Committee my first hoice of committee assignments.

Acreage allotment increases are absolutely essential to the agricultural economy of our district. The acreage restrictions have so reduced farm output today that the economy of the entire communities, retail merchants, banks, gins warehousemen-trade in general-is suffering by reason of the reduction. This trend must be reversed.

We must have scientific research that will aid the farmer to recover lost markets and build

We must make farming in the Eighth District more attractive and profitable to our young people, and in this way, stem the loss of our greatest resource to other areas.

C. Lawson of Incating here and other necessary dependence, Va. expense. So far the Halls Civic Club, an organization of business men, has borne the major portion of the cost of such activity with the Town of Halls making some contribution. It seems to us that since every person - man, woman or child - stands to benefit largely with the coming of additional industry to Halls then it should be up to the Town to set aside necessary funds to accomplish this purpose. Many towns have voted large bond issues that the taxpayers must re-pay to provide a location for a factory. We have the most suitable location that we know of and so far the taxpayer hasn't been out any great amount of money. Why should we quibble over a few dollars if it is needed and why shouldn't the town bear the expense instead of a few business men — and we do mean few who are hit from every side for any sort of reason whether it be (Please Turn To Page Four)

Farmers' Tax Guide Available At County Agent's Office

F. H. Paschal County Agent

Farmers whose operations in 1957 resulted in net losses may file claims for refund of Federal income taxes paid in former years to offset these losses, according to the new Farmers' Tax Guide published by the Internal Revenue Service.

Patronage dividends received from cooperatives whether in cash or in the form of preferred stock, generally should be included in farm income in the year received. An exception to the rule is that patronage dividends coming from purchases of non-business items should not be included in

Farmers are realizing that a knowledge of Income Tax requirements become more and more important every year as required to make out an income they handle more money and are tax return and pay Social Security on the same set of figures.

We have several hundred copies of a new 63-page Farmers' Tax Guide which we will mail free on request. Farmers who did not make an estimate of their 1957 tax and make payment by January 15 now have until February 15 to file a return and pay the tax due. Telephone our office at 234 or come by and get one of these tax guides. It is well written in large type and gives explanations clearly.

Ways To Protect Machinery

Our farm machinery which now represents more than 25 percent of our total farm investment really was exposed to ruinous weather in 1957 unless it was kept under sheds or otherwise protected.

While machinery sheds are us-Jan. 18, Double Bridges School, ually good investments, they do cost money and few farmers have day morning, Jan. 22, Gates enough shed room to protect all their valuable machinery. Agri-Thursday, Jan. 24, all day; Dis- cultural engineers suggest the following methods of protecting machinery which has to stay outdoors. (1) Lubricate the machine just as though you were going to the field to work. This fills the bearings with grease and keeps out moisture. (2) Apply a rust preventive on all machinery surface that is not painted. (3) Remove chaff, dirt, and other trash Reports here say that the ASC Take off all canvasses and belts enter their farms in the Soil Bank the weight off the tires. (5) Drain

Notice To Lease Public Land

Sealed bids will be received at the Mayor's Office in Halls, Tennessee, for the Lease of certain public land hereinafter described until 7:00 p. m.

Monday, February 3, 1958

at which time they will be opened and publicly read at the

Mayor's Office, Halls, Tenn.

This is an offer to lease all tillable land owned by the Town of Halls and located on that area of about 300 acres on what is formerly known as the Dyersburg Army Air Base in the 12th Civil District of Lauderdale County, Tennessee. The amount offered to be leased being the tillable land on the area which is 123.7 acres, more or less.

Lessee is to have no control of the balance of the land on the area and the city reserves the right to enter the same for the maintenance of gas or water lines without penalty. There is a cotton allotment which will be a part of this lease now set at approximately 39.0 acres, but the Lessor does not guarantee the exact amount of the cotton allotment.

This lease will be for the calendar year of 1958. Leased on a cash basis with the successful bidder to make and deliver to the Lessor a bankable note in the amount of his bid, said note payable November 15, 1958, and a landlord's lien is retained to secure the payment of the note. The exact boundaries of the land leased in this area are to be designated by the Lessor. The Lessor reserves the right to reject any and all bids and no member of the Board of Mayor and Aldermen or other City Employees shall be eligible to submit a bid.

With ED JONES Agricultural Agent, Illinois Contral Railroad

Much of the valuable plant food contained in barnyard manure never gets into the soil and to our crops that need it. Handling barnyard manure properly at this season will save plant food by cutting down loss from leaching and evaporation. This means that applying 10 tons of manure per acre puts into the soil about the same amount of nitrogen, phosphate and potash as is in 1000 pounds of a 10-5-10 fertilizer costing about \$30.00. There is also much more value contained in barnyard manure besides all these nutrients. There is a lot of value in it as far as organic matter is concerned and it has trace elements such as boron, also contains calcium, sulphur, copper and zinc. These elements are in such a form that they are readily available. It is also beneficial in that it promotes good soil structure and provides aeration and both are essential for good root development,

If all the fertilizer value contained in feed and forage that the cow eats could be returned to the soil in manure, it would be much easier to maintain soil fertility. However, there are serious closses since the animals retain some of the nitrogen, phosphate and potash and of course there are losses in handling and storing the manure.

At this season of the year there is a great loss in the nutrients of much barnyard manure. This is due primarily to the fact that so many do not provide proper facilities for storage of loose manure. When placed in small heaps there is a very great loss but when proper storage facilities are provided such as a concrete platform and placed in compact, flat topped, steep sided piles and at least four feet deep. When piled like this it can be held until field conditions are right for spreading working into the soil.

Some time and planning by livestock farmers would save a big commercial fertilizer bill for many. It would not suffice for all plant food requirements but it would certainly provide a lot more than most of it does today, due to the manner in which it is han-

Did You Know? That some of the marks of a

good farmer are:

1. One who believes that he has inherited the responsibility to leave the land for future generations in a better state of fertility than it was when it came into his possession;

2. One who recognizes the importance of working with and not against the basic laws of nature to produce the most from the land;

3. One who realizes the importance of the Church and a wholesome Community life and takes an active interest in helping to make his Community one that will encourage good citizenship in his sons and daughters:

4. One who is constantly on the look out for new and improved practices that will enable him to do a better job of producing more food more economically.

That farm population of the United States has been declining about 600,000 persons a year since 1949.

That the number of persons working on U. S. farms last fall showed an advance over last summer's figures, but the number is 4 percent less than for the same period in 1955.

Renew your subscription to the Halls Graphic to day. Only \$2 per year in Halls.

Heart Attack Victim Buried Wednesday

Mrs. Wilma Jones Lung died suddenly of a heart attack about 8:30 Tuesday morning. She was

Funeral services were at South Fork Baptist Church, near Crestnut Bluff, Wednesday at 2:30. Burial was in South Fork cemetery with Garner Funeral Home in charge.

Mrs. Lung, a native of Dyer county, had resided in Halls for about 20 years. She died in the family car in the dirveway of her home on East Tigrett street after suffering the heart attack. She was a member of Palestine Methodist Church in Dyer county.

Surviving is/her husband, W. A. Lung, who she married in 1953; a brother, Roosevelt Jones, both of Halls; and two sisters, Mrs. Bertha Duncan, of St. Louis, Mo.; and Mrs. Elmer Davenport of the Bruceville community.

CONFIDENTIAL CORNER

(Continued from Page 1) Red Cross, March of Dimes, etc. Of course the business men will benefit but so will every one else. Let's look facts in the face and admit that it's the town's business and that the Town should set up funds to carry out the drive to interest industry. If you really want industry here we believe that you will be forced to agree with us.

JUNIOR HIGH TEAMS SCHEDULE FOUR GAMES

Monday night, Jan. 27. Game served refreshments.

New wood requires special treatment. Before applying the undercoat, knots and sap streaks should be spot primed to prevent pitch-staining.

According to Du Pont paint experts, the best widely available knot sealer is ready-mixed aluminum paint. Glossy areas on the bare wood should be sanded. Mildew stains also should be scrubbed with a paint cleaner followed by rinsing.

Now a couple of "don'ts". Don't put oil type house paint on raw wood as a prime coat. There is a special primer made for this purpose. Don't add lin-seed oil to house paint. It will slow drying time and contribute to honing.

The above aerial photo is the picture that was on the front page of the recently published brochure attempting to bring industry to Halls. It is a picture of some of the air base land available for industrial sites and also includes the Halls school buildings, football field, and campus.

An old teacher, Clement of Alexandria, reminded us that Jesus said "make a friend" (Luke 16:9). It was like our Lord to say that. He himself needed friends. Christian fellowship, however, People who say they can do without friends are then and there NOT showing a Christian grace. new sense of world unity is the tles was of course fundemental, There are signs, tender and touching signs, that Jesus made friends. In the loneliness of His mission He chose 12 men, as the record has it, "to be with him." Three were chosen for more intimate Dr. Erdman in his little book, fellowship fellowship. These were "The Acts", makes clear how this taken to the mountain of prayer, came about. It is the presence of taken deep into the garden. At danger that reveals to us our least one of them "leaned his

> lowers of Jesus you will see how stressing anew the friendship of they were bound to be friends. the church. It was evident in the They were misunderstood, derid- beginning. He called His followed, threatened and persecuted. So ers "my friends." He prayed that this unity might be so, that we might be one.

In reading Romans 15:1-9 we see how the church is to live together as friends. We are to bear with the failings of the weak we are not to please ourselves, but others; we are to be steadfast and encourage one another; we are to welcome one another; we are to live in harmony that we may with one voice glorify God and our Lord Jesus Christ. Read it. It's all there.

It is just in the loss of friendship that the church suffers. In Sweazey's Effective Evangelism these facts are cited: Of every 100 enrolled members five cannot be found, 20 never pray, 25 never read the Bible, 30 never attend church, 40 never give to any good cause, 50 never go to Sunday School, 75 never do any church work, 80 never go to prayer, 90 do not have any family soul for Christ.

GIVES DETAILS ON FARM EMPLOYEE SS TAX

January 31, 1958, is the deadline for reporting the cash wages paid in 1957 to farm employees, J. M. Rountree, Director, Internal Revenue Service, Nashville, stated today.

Farm operators or farm owners who have paid as much as \$150 in cash wages to any farm worker in their employ during 1957 must file an employer's tax and information return for such farm employees. They must also report each farm employee who worked for them 20 or more days during 1957 regardless of the amount of those wages if they

than a piece rate basis. For 1957, the social security rate is 4 1-2 percent. (2 1-4 percent each for employer and employee). This tax applies to cash wages paid to a farm worker up to a total of \$4200 in the year. The tax amount must be entered benefit equally and together. on Form 943 (Employer's Annual Tax Return for Agricultural Employees) together with the total amount of cash wages paid to the farm worker. It is required that Mashville on or before the due left vacant by Mr. Cooper's death for the unexpired term. date mentioned above.

when the farm employee meets the 20-day a year test the farm employer should count only days for which the employee works for cash wages figured on a time ba sis. However, if the worker meets this test, the farm employer must pay social security taxes on all cash wages paid the employee during the year (whether on a time, piecework or other basis).

E.T. "Rocky" PALMER For Congress

We, the friends of "Rocky Palmer, wish to present the following worship, 95 never win another excerpt from an editorial by Russell M. D. Bruce, of the Dyersburg State Gazette. This is a good example of what the people who know Rocky think of him.

(Monday, December 30, 1957) PALMER IS QUALIFIED

Dyer County is offering to the Eighth Tennessee District the services of one of its ablest citizens to fill out the unexpired term in Congress left vacant by the death of Jere Cooper.

That offer came today in an announcement by E. T. "Rocky" Palmer of Dyersburg that he will be a candidate for the post.

Mr. Palmer has a large quantity of valuable experience to qualify him for the post having served as a member of the Tennessee State Legislature, taught school, served his country in the armed forces, practiced law for several years and farmed. His contacts and experience during his entire life have been closely aligned with those activities which are of vital concern to the Eighth District,

Although the Eighth District has obtained many industries, it still depends largely on agriculture, not only for its livelihood but to prevent a decrease in its population.

Mr. Palmer is a landowner, was partly reared on the farm and were figured on a time rather knows the problems and needs of the agricultural industry in this section, having been closely connected with them in his own farming

At the same time he has lived in the city long enough to know and appreciate the position of the urban dweller and to realize that in a section such as this Congressional District the welfare of the two are closely connected and must be handled in such a way that they

While Mr. Palmer opposed Mr. Gooper once for the Congressional seat which he now seeks, in which he polled a sizeable vote and carried their home county of Dyer, the two were very close friends, and his respect and admiration for the distinguished Tennessean has been such that he has been impressed by Mr. Cooper's accomplishments in file the return with the District carving out his own career, so far as a public servant. He is certain Director of Internal Revenue at to feel and be guided by it to some extent, if he succeeds to the post

Dyer County highly commends him to the other eight counties of Mr. Rountree points out that the Eighth Tennessee Congressional District.

WINTER DRIVING TIP:

DON'T GET CAUGHT-GET READY!

Looking forward to that winter vacation at a mountain resort, or just planning a short weekend trip? Leading safety

authorities offer a number of suggestions for winter driving where snow, sleet, ice, and mud may often be unwelcome travling companions.

Have your serviceman check the antifreeze and examine hose connections for leaks. Have him inspect the heater, windshield wipers, defrosters, and brakes. If your car is equipped with windshield wiper spray, ask the serviceman to add the chemical necessary to prevent the fluid from freezing.

Among the most important safety considerations are your tires. Never ride on badly worn tires. Many safety experts recemmend snow tires. As a special tool to give added traction and safety under rugged driving conditions, the snow tire has steadily improved. One of the major factors in this develcoment has been the production

of tires made with nylon cord It is natural that nylon be used, because this tough fiber has proved itself superior to rayon in resistance to impact, moisture, and flexing. This superiority is of particular importance in the winter because of unseen hazards that may be just below the snow's surface. Nylon cord tires also have excellent retreadability. In contrast to rayon cord tires, which usually average only two retreads, nylon cord tires usually average more than four retreads without cord failure.

Since many snow tires are retreads, the enduring safety of nylon becomes increasingly impor-

Whether you're traveling long or short distances, it is wise to carry a bucket of sand, a shovel, and some boards in the trunk to give traction in event of a mishap. A tow rope may prove a valuable convenience to you-or to some other driver who is not so well prepared. Frozen door locks can be an annoyance, but are easily penetrated by heating your key with a match.

Make this winter a pleasant one. Don't get caught - get

ESCUE EARNS WATER PLANT LICENSE

The Tennessee Department of Public Health has notified Mayor Jerre Jordan that Joe Chyde Escue, Halls Water Plant Superintendent, has completed the necessary training and has been issued a license as a certified Water Plant Operator and authorized to operate any water plant in the state with a Class C rating. Mr. Escue made a grade of 95 on his test. The Department commended Mr. Escue and the Town for the earning of the license since few towns the size of Halls have a Licensed Operator.

chievement, good citizenship, Years ago heavy taxes began health, and wholesome activities to be paid by purchasers of gasoline to finance highway construc-

As farmers began to use more Den Mothers and all efforts to out plans by which these gasoline taxes can be refunded to operators of farm tractors.

> Tennessee refunds six cents of the seven cents tax it collects on each gallon provided tractor owners have purple color put in the gas when it is bought and provided they send in their invoices and apply for the refund within 180 days and provided each tractor in which the gas is used is registered beforehand with the Dept. of Finance and Taxation in Nashville. A green form is provided on which to list each tractor when it is bought and every farmer should send in one of these forms when he comes in possession of a tractor for the first

The County Agent's Office, the Farm Bureau Office and other people over the county are ready at all times to assist farmers in carrying out the provisions of this law. This is a good time of year to "catch up" on any unfinished business which might jeopardize these gas tax refunds during the year. Applications for refunds should be made every 4 months in order that no invoice will be

Science Develops New Tablet:

Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!

New promise of relief from tortures of monthly cramps, nervous tension is found in an amazing new tablet! Developed especially to relieve this female discomfort, it offers greater relief than aspirin!

For 3 out of 4 tested by doctors, pain and cramps were stopped or strikingly relieved. Even on the first day, many had no nagging headaches, no backaches or other functional distress!

The new tablet contains a unique combination of medicines.

That's why it offers so much more relief than plain aspirin!
Acts on the cause of distress to calm uterine contractions.
Also works through a woman's sympathetic nervous system.
Called "Lydia Pinkham's Tablets," they're sold at all drugstores. Easy to take, contain blood-building iron.
So don't suffer needlessly. Take Pinkham's Tablets yourself. See if you don't escape much irritability and discomfort—before and during your period!

all druggless, today, also have the trimings ydia E. Pinkham's Vegetable Compounds

Why We Need Industry

In this issue of the Halls Graphic you will find a news story concerning the findings of the University of Tennessee Bureau of Business Research revealing that Lauderdale County has lost an estimated 700 persons in population during the period, 1950-56. At the same time a little research on our part revealed that the Halls Rural Post Office routes have lost a total of 86 families during the period of March, 1955 to July, 1957. Prior to that the rural routes had lost a total of 84 families since 1952 which means that Halls trade territory has lost a total of at least 170 families during the past five years. Of course some of the fam- Circuit Court Judge, of Jackson, ilies possibly have moved to town Madison County, has recently anwithin Lauderdale County but nounced that he is a candidate there is reason to believe that for Governor of Tennessee. Halls itself has shown a small loss in population during the same period. HOUSEHOLD EMPLOYEES COVERED BY SS

Employers of household workers must file a return for the October through December, 1957, quarter on or before January 31, 1958, J. M. Rountree, District Director of Internal Revenue for the Tennessee District, reminded them today.

At the same time Joe P. Tipton, district manager of the Dyersburg social security office, pointed out that his obligation to file a return applies to every household employer who paid \$50 or more in cash wages to a cook, maid, laundress, or any other household employee during the calendar quarter. Returns must be filed after the close of each calendar quarter and are due April 30, July 31, October 31 and January 31 every year.

Most household employers will make their reports on Form 942. This is a special simplified form printed on the back of a return envelope. If you are a household employer who is already on the mailing list of the District Director of Internal Revenue, one of these forms was mailed to you before the end of December. If social security taxes are due from a household employer who is not employ, no report or social senow on the mailing list, the em- curity tax is due on any houseployer should ask the District Di- hold worker to whom you pay rector for the form and give him less than \$50 in cash during the her name and addess to be added calendar quarter, Mr. Tipton quest from the Information- Eduto the mailing list before the next pointed out. quarterly return is due.

INCOME TAX OFFICE OFFERS ASSISTANCE

The information booklet which accompanied the 1957 Federal income tax Form 1040 recently received by Tennessee taxpayers, is again keyed to the format of the return, Internal Revenue Agent, Orville W. Guinn of the Internal Revenue Service said today. The Revenue Service adopted this more convenient presentation of information concerning the tax form a year ago.

"Taxpayers last year found this new approach to tax information and instruction a big improvement, as they did the new and more attractive typography, better paper, and other changes which were made in the instruction booklet," he said. "The Revenue Service has attempted to simplify instructions even further. Of course the taxpayer now realizes that no one booklet could provide him with effective answers to all the thousands of situations which may relate to the returns.

"Because we know there will be additional problems, we are again offering extensive telephone assistance, and office aid where needed. A call to AT 5-7542 in

Notice l'o Lease Public Land

Sealed bids will be received at the Mayor's Office in Halls, Tennessee, for the Lease of certain public land hereinafter described until 7:00 p. m.

Monday, February 3, 1958

at which time they will be opened and publicly read at the

Mayor's Office, Halls, Tenn.

This is an offer to lease all tillable land owned by the Town of Halls and located on that area of about 300 acres on what is formerly known as the Dyersburg Army Air Base in the 12th Civil District of Lauderdale County, Tennessee. The amount offered to be leased being the tillable land on the area which is 123.7 acres, more or less.

Lessee is to have no control of the balance of the land on the area and the city reserves the right to enter the same for the maintenance of gas or water lines without penalty. There is a cotton allotment which will be a part of this lease now set at approximately 39.0 acres, but the Lessor does not guarantee the exact amount of the cotton allotment.

This lease will be for the calendar year of 1958. Leased on a cash basis with the successful bidder to make and deliver to the Lessor a bankable note in the amount of his bid, said note payable November 15, 1958, and a landlord's lien is retained to secure the payment of the note. The exact boundaries of the land leased in this area are to be designated by the Lessor. The Lessor reserves the right to reject any and all bids and no member of the Board of Mayor and Aldermen or other City Employees shall be eligible to submit a bid.

TOWN OF HALLS, TENNESSEE

Population Loss Revealed In UT Survey Report

Lauderdale County lost a total of 700 persons in population in the years 1950-56 according to an estimate made by the University of Tennessee Bureau of Business Research. Over the same period, however, Tennessee showed a gain in population with urban areas showing the gain and rural areas showing a loss.

County-by-county figures compiled by Ormond C. Corry and Joan E. Wallace of the Research Bureau reveal that the major part of the state's 128,000 population gain for the six-year period occurred in the four large metropolitan areas, and in industrialized areas including 24 East Tennessee counties.

While there were gains in individual counties in Middle and West Tennessee, these more rural areas lost population. due principally to out-of-state migration

and movement to urbanized areas Golden Gloves Bouts within the state, Mr. Corry said.

ty show a loss of 700 persons for the period from April 1, 1950 through 1956, from 25,000 in 1950 to 24,300 in 1956.

Using the U.S. Bureau of Census estimates as a "control," the Research Bureau used the following formula to arrive at the county figures: (1) Estimated the civilian population on April 1, 1950; (2) added to this figure an estimate of births for the period between the census and the estimate date; (3) subtracted an estimate of civilian deaths; (4) added or substracted an estimate of net civilian migration; (5) subtracted or added an estimate of the net movement of civilians into the armed forces; and (6) added an estimate of the number of persons in the armed forces stationed in the area on the estimate

Over-all figures show the state population gaining from 3,291,700 on April, 1950, to 3,420,000 in 1956.

COUNTY COURT CLERK

Telephone Talk

ROGER GANIER Your Telephone Manager

WHAT'S MY LINE? Have you ever wondered who keeps the telephone lines around here in working order? A telephone man, to be sure, the installer-repairman. And, when storm damage repairs or maintenance are necessary, cable splicers have to be "johnnies-on-the-spot." In all kinds of weather at any hour of the day or night they're at work—up poles, down manholes, out in the country, right on your street. And just being there isn't enough. They have to know what they are doing; which wires to join and how to join them. It takes know-how and a lot of hard work to keep-telephone lines in order and our telephones ready to serve everyone, all the time.

PRRR, IT'S COLD! And did you know, the colder the weather the louder sounds are. In hot weather sounds are weaker, don't carry as far. As this applies to telephone communications, it was a problem that worried telephone people. Then the Bell Laboratories found an answer. It's the thermistor, an electronic device that controls the volume of voices on the telephone. It keeps them from being too loud in cold weather and too low in warm weather it is a refer to a detect a comperature change

to one millionin of a degree.

What the new rate on Savings Bonds means to you!

Higher interest—faster—makes Savings Bonds an even better buy!

If you've always bought U. S. Savings Bonds for their rockribbed safety, their guaranteed return, the way they make saving easier--you've got one more reason now!

Every Series E United States Savings Bond you've bought since February 1, 1957 pays you a new, higher interest-3-1/2% when held to maturity! It reaches maturity faster, too-in only 8 years and 11 months. And redemption values are higher, too, especially in the earlier years. About your older Bonds? Easy. Just hold on to them. As

you know, the rate of interest a Savings Bond pays increases with each year you own it, until maturity. Therefore, the best idea is to buy the new-and hold the old! Maybe you already know about Savings Bonds-as one of the

Down on the Farm

With ED JONES
Agricultural Agent, Illinois Control Railroad

Due to the fact that job opportunities off the farm have been at an increasing rate for the past several years, there has been a mass movement of people from off the farms. The estimated farm population for our state in 1955 snowed an additional 122,-000 decline, which simply means that we lost 30 percent of our farm population between the years 1940 and 1955. Another direct reason for this decline has been that there has been more jobs offered to people engaged in industry.

As this population has changed from the farm to urban centers, it has meant that many changes have had to be made in farming plans and procedures. It has created many problems for some who had to change from work stock to power equipment and many have had to drop row crop farming and substitue livestock farming instead. This has meant that a great adjustment had to be made for many and kndw how also had to be changed. Livestock farming involves many problems not commonly known to row crop farmers.

Large amounts of capital, technical knowledge and know how are required when any radical changes are made, whether it toe in farming or in industrial planning. This has been a very difficult problem for many who wanted to remain in farming and increase their production and size

of operations. Just how successful such change will be remains to be determined by who remains on the farms and who migrates to urban areas in search of industrial development. Many times it is believed that those who are attracted off the farm by high wages have been the ones with more interest in doing a successful job. One very striking observance has been the number of farm youth who are leaving the farm for industrial opportunity. Did You Know?

That Researchers in the Department of Agriculture report considerable progress for an insecticide that can be given orally to kill cattle grubs. It is known as ET-57 but won't be commercially available for some time.

FARM OPERATORS MUST FILE EMPLOYER'S TAX RETURN FOR HELPERS

Did you pay as much as \$100 to a farm or ranch hand during 1957?

Farm and ranch operators who have paid as much as \$100 in cash wages to any of their hands in 1957 must file an employer's tax and information return for agricultural employees by Friday, January 31, 1958. This announcement was made by Orville W. Guinn, of Internal Revenue Service in Dyersburg today.

This tax return for '57 must be filed with the District Director of Internal Revenue at Nashville, Tennessee, accompanied by payment of the social security tax. The annual wages' report, known as form 943, must give the name, social security number and wages paid every employee whose cash wages amounted to \$100 or more, during 1957.

Form 943's are being mailed to those who have previously registered with the District Director as agricultural employers. Farmers and ranchers in this area needing additional Form 943's should contact their Revenue office immediately, so they will beat the January 31 deadline," Mr. Guinn urges.

GO TO CHURCH SUNDAY

Of Special General Election

We, the undersigned members of the BOARD OF COMMISSION-ERS OF ELCETIONS FOR LAUDERDALE COUNTY, TENNESSEE, do hereby give Notice that a SPECIAL GENERAL ELECTION will be open and held at all the legal procincts of Lauderdale County, Tennessee, on

Saturday, February 1, 1958

Said Special General Election will be held for the purpose of electing a Representative in Congress of the United States for the Eighth Congressional District of Tennessee.

The polls wll be open at 9:00 o'clock A. M. and will close at 4:00 O'clock P. M.

Season's In For Ham 'n' Yams!

"Pretty-perfect's for a party . . . this fine way to use up left-over mashed potatoes and bits of ham which results in gourmet eating! And, with the Louisiana yam season at its height, you'll get peak enjoyment too, in these easy-to-make, and easy-to-serve yam rings. With the delicate flavor of mapleblended syrup enhancing the yams, you can be sure of requests for second helpings. So better not depend upon having "leftovers." Better double the recipe, in fact!

HAM AND MUSHROOMS IN YAM RINGS

- 1 egg, slightly beaten 2 tablespoons milk 2 tablespoons butter,
- melted 2 cups mashed cooked Louisiana yams
- 1/4 teaspoon salt Dash of pepper
- 1/4 cup Log Cabin Syrup 1-1/2 cups sliced fresh mush-
 - 3 tablespoons butter 3 tablespoons flour
 - 2 cups milk 1 cup diced cooked ham

Combine egg, 2 tablespoons milk, and 2 tablespoons melted butter. Add to mashed yams. Mix well. Add salt, pepper, and maple-blended syrup and mix until well blended. Shape yam mixture into rings on greased baking sheet, using a pastry bag or spoon. Bake in moderate oven (375 degrees fahrenheit) 20 minutes, or until delicately browned.

Meanwhile, saute mushrooms in 3 tablespoons of butter until browned and tender. Add flour, mixing to a smooth paste. Add milk gradually, stirring constantly. Cook and stir over medium heat until mixture is thickened. Add ham and heat thoroughly. Serve creamed mixture in center of each yam ring. Makes 6 servings.

VOTE FOR

Robert A. Everett

IN SPECIAL ELECTION

SATURDAY, FEBRUARY 1

Every person in the Eighth Congressional District can depend on Robert A. Everett to give us fair and effective representation in the Congress of the United States.

He will stand and fight to preserve Tennessee's sacred, sovereign right to govern her own internal affairs , . , he is well trained for this high assignment . . . knows his way around Washington . . . and . . . knows how to get action.

Vote for Robert A. Everett Saturday, February 1st, and give him the opportunity to work for us.

Do Your Duty

Saturday one of the duties of an American citizen is brought before the citizens of the 8th Congressional District. That duty is to vote! Not vote for a particular candidate but vote for the American way of life and for the welfare of your community, your county and your nation. Voting takes very little time but it is the most important right that you possess because a free vote is the only way we have to protect every right and freedom that we possess. We, of course, plan to go to the polls and vote for our particular choice and every voter should do the same. We seldom presume to tell you how we think that you should vote but we do presume to tell you that you MUST vote.

- HELP HALLS PROGRESS -

Well, It's Up

We see that the switch for the traffic signal light at the West Tigrett Street school crossing has arrived and has been installed. We noticed Wednesday night that the light was off as promised when . school is not in sess on. Mayor Jerre Jordan reminds that the light will be in operation from 7:30 a.m. until 3:15 p.m. each school day and the stop and go light must be observed. He has definitely promised the Halis Graphic that fines will be imposed where motorists fail to observe the light.

- HELP HALLS PROGRESS -

Political Visitor

Eddie Friar, former secretary of state and close friend of Gov. Frank Clement, who broke with the governor during the 1954 campaign and became one of the administration's bitterest critics, spent a short time in Halls and at the Halls Graphic Wednesday. Mr. Friar said that he plans to campaign vigorously in West Tennessee as the election draws nearer. We had the privilege of discussing state affairs with Mr. Friar for quite a little while and to become acquainted with him. In our opinion Mr. Friar is likely to be a strong candidate for Governor and seems well qualified for the job.

ROBERT NEILL BIVENS

Graveside services were conducted Monday afternoon, January 27, for Robert Neill Bivens, infant son of Mr. and Mrs. Neill Bivens of Jackson, Tenn., and grandson of Mr. and Mrs. Robert Baker of Halls. The Rev. James Canada and the Rev. David Alhausen officiated with burial in Hollywood Cemetery at Jackson.

The baby boy, born January 21, died suddenly Sunday morning, January 26, in the Madison County General Hospital in Jackson.

Mr. and Mrs. Bivens have two other children, Gloria and Bonnie.

BABY DAUGHTER

Lt. Commander and Mrs. George Crumpler announce the birth of a baby daughter on Saturday, January 25, at the Naval Hospiiian Islands. Mrs. Crumpler is the Mr. and Mrs. R. H. Jordan of ed. Halls.

N. C. UTLEY

COUNTY COURT CLERK

Notice To Lease Public Land

Sealed bids will be received at the Mayor's Office in Halls, Tennessee, for the Lease of certain public land hereinafter described until 7:00 p. m.

Monday, February 10, 1958

at which time they will be opened and publicly read at the

Mayor's Office, Halls, Tenn.

This is an offer to lease all tillable land owned by the Town of Halls and located on that area of about 300 acres on what is formerly known as the Dyersburg Army Air Base in the 12th Civil District of Lauderdale County, Tennessee. The amount offered to be leased being the tillable land on the area which is 123.7 acres, more or iess.

Lessee is to have no control of the balance of the land on the area and the city reserves the right to enter the same for the maintenance of gas or water lines without penalty. There is a cotton allotment which will be a part of this lease now set at approximately 39.0 acres, but the Lessor does not guarantee the exact amount of the cotton allotment.

This lease will be for the calendar year of 1958. Leased on a cash basis with the successful bidder to make and deliver to the Lessor a bankable note in the amount of his bid, said note payable November 15, 1958, and a landlord's lien is retained to secure the payment of the note. The exact boundaries of the land leased in this area are to be designated by the Lessor. The Lessor reserves the right to reject any and all bids and no member of the Board of Mayor and Aldermen or other City Employees shall be eligible to submit a bid.

> BOARD OF COMMISSIONERS OF ELECTIONS FOR LAUDERDALE COUNTY, TENNESSEE

News from Gates

Mrs. Finis Hardy

Mr. and Mrs. Billy Rodgers, Mrs. Irene Saul and Mrs. Willette Fisher have recently visited relatives in Nashville.

Mrs. Floyd Beard is a patient at Lauderdale County Hospital.

Mr. and Mrs. J. K. Yarbro of Decaturville spent Sunday with her parents, Mr. and Mrs. R. L. Hardy.

Mr. and Mrs. M. N. Thompson of Jackson visited Mrs. Ruth Lee Sunday.

Miss Byrd Sloan spent the week end with Mr. and Mrs. Ralph Puckett in Fulton, Ky.

Capt. and Mrs. Lynn Ball and son, Wess, are visiting relatives this week en route to their new assignment in Columbus, Ohio.

The Richerson Youth Felowship of the Brownsville District met at the Gates Methodist Church Monday night, Jan. 20, with 79 present. The Gates MYF conducted the devotional using the subject, "Faith." The president, Linda Baker, welcomed the guests. Jerry Heathcott read the scripture. Nancy Heathcott gave a talk on "Faith", David Kelly sang a solo and Carolyn Hand sang.

Tom Scott, Jr. gave an inspiring talk on Missions. Janice Whitley presided over the business session and following the business Norma Jackson had charge of the recreation period.

Refreshments were served in the annex.

Mrs. Lilley Hostess To

Methodist WSCS The WSCS of the Gates Methodist Church met in the home of Mrs. R. V. Lilley Wednesday evening with co-hostesses, Mrs. Ola Johnson, Miss Gulnaire Halliburton and Mrs. Many Hamil. Mrs. Lois Gamble had the program, the subject being, "Japan Today"... Mrs. Cecil Baker conducted the devotional from Upper Room. Dr. Sarah Murray gave the opening prayer. Others on the program were Mrs. Gray Kelly, Mrs. Russell Jackson, Mrs. Hollis Johnson. Mrs. Talmadge Heathcott, Mrs. H. J. Pennington, Miss Byrd Sloan and Mrs. Finis Hardy. There were 32 present. Most welcome visitors were Dr. Murray and Mrs. G. T. Hall burton.

The hostess served boiled custard and cake.

SOCIAL SECURITY NUMBERS SHOULD BE ON INCOME TAX REPORTS

Taxpayers of Halls were reminded today by Internal Revenue Agent Orville W. Guinn of the Dyersburg Internal Revenue Service office that all necessary social security numbers should be entered on their Federal income tax returns when filing. He also reminded taxpayers that April 15 is still the deadline for receipt of returns by this office.

"Many returns are filed in which both husband and wife earned income during 1957 and often one of the social security numbers is omitted," Mr. Guinn said, "Along with checking other entries on the return taxpayers should be very careful to make sure that social security numbers are complete and accurate.

"Social security numbers are required whether or not this type of tax has actually been paid or whether the filer is subject to such taxes. In cases where there have been overpayments of social security taxes, due to job changes, computation space is provided for the application of the overpayment to any income tax owed or to obtain a refund."

Driving Tips:

Make Night Trips Easier, Safer

CHORTER days and driving after dusk go together.

Night comes along so soon this time of year that even those who usually avoid driving after dark often find it necessary to do so. However, if you'll take into account the fact that such driving calls for a change of pace and for a flock of small precautions, you can make your trip both easily and safely.

First of all, go slower at night. A good rule is to cut at least 10 miles an hour off your daytime speed. You should always be able to stop within the range of your headlights. Keep headlights, taillights and

. A 40 per cent gain

lights and windshield can cut your vision as much as 40 per

Turn on your headlights at dusk, not just your parking lights. Incidentally, this is the danger hour in night driving, for the half light is deceptive to most drivers.

Watch yourself for signs of tiredness. A good plan is to carry a safe caffeine-type preparation such as NoDoz tablets in the glove compartment. One or two will help restore alertness. Take a break when you use them, get out and inspect your lights or walk around. Never drive when you really need

If you have trouble seeing the road when another car approaches, keep your eyes on the right edge of the highway, on the dark oil line left on the road by other cars, or on the white center line. Always slow up as you meet other cars at night.
