# THE HALLS GRAPHIC

VOLUME 67

HALLS, TENNESSEE, FRIDAY MORNING, MAY 5, 1961

NUMBER 18

## Confidential Corner

**Support the Blood Drive**  
The coming of the Red Cross bloodmobile to Ripley next week can be of great benefit to the people of Lauderdale County and should receive their whole-hearted support. Under the plan any resident of Lauderdale County may receive blood without cost other than the hospital administering charge. For the plan to be in effect the bloodmobile must secure 125 pints of blood at this trip, and 165 pints each additional trip with the bloodmobile coming to the county three times a year. A Blood Bank has been set up at Lauderdale County Hospital and has administered its first pint of blood. The bloodmobile will be in Ripley next Tuesday from noon until 6 p.m. Give if you can. Your physical condition will be checked before blood is accepted.

— Drive Slower, Live Longer —

**Just Won't Believe It**  
Several times recently we have explained that news items, other than deaths, etc. must be in early to be published in any issue of the paper. However, it seems that some of you still are unable to understand that the train schedules and the mechanical operations involved require that we have and abide by this rule. We have made several persons unhappy during the past several weeks and we are sorry but we must still abide by our rule. Your cooperation will help both the newspaper and our patrons.

**Fit Driving to Traffic Says Commissioner**  
Remember the old maxim, "Cut your pattern to your cloth?" State Safety Commissioner Greg O'Rear, who many years ago worked in a shirt factory when he advised motorists to fit their driving to the traffic pattern.

O'Rear offered this advice in the interest of the Safety in May program sponsored by the Tennessee Highway Patrol and the news media of Tennessee.

"Many of us do a good deal of driving during the summer months," O'Rear said. "Sometimes we have to change from quiet rural roads to superhighways to congested city streets. . . all in the same trip, and at such times our safety depends on how quickly we can adapt to changing traffic conditions."

Getting into step with the new traffic pattern immediately is of prime importance, he said. This calls for great adaptability and driving skill.

"The driver who is skillful and versatile develops what might be called a "sixth sense," O'Rear said. "He gets the 'feel' of the new traffic pattern immediately and he adapts his own pace to it without delay."

Once he has fitted his own car into this pattern he avoids doing anything that will endanger his own safety or the safety of the drivers around him, O'Rear continued. He takes only his own share of the road, and in the proper place. He drives at a safe distance from the car ahead. He keeps in his proper lane, passing only when he has ample time and space. He signals all turns and lane changes.

"The wise driver sees himself in true relation to the whole traffic picture," O'Rear said. "He adapts his driving to the driving of the others around him. Courteously and realistically, he shares the road with them."

"Remember, 82 persons died in Tennessee traffic last May. Don't you be counted among the dead or injured this year. To prevent this keep in mind Safety in May . . . and everyday," O'Rear concluded.

## PTA to Install New Officers

The Halls Parent-Teachers Association will hold its final meeting of the school year next Thursday afternoon, May 11, at 3:30 at the high school. At that time the officers for the forthcoming year will be installed.

They are:  
Raybon Chambers, President  
Rev. Joe Sumlin, Vice-President  
Mrs. Bobby Henderson, Secretary  
Mrs. Eddie Camp, Treasurer

## 4-H Club Work Shows Growth

Charles T. Pual  
Asst. County Agent

The 1961 4-H Club year is well underway with 1165 Junior and Senior club members enrolled in the program. There are 661 boys and 594 girls in the 24 Junior and Senior clubs throughout the county.

A wide assortment of projects depending on the individual's needs and facilities are being taken by the boys and girls. The corn program is the larger of the field crops with 64 boys enrolled while cotton has 46 enrolled. There are 141 Juniors and Seniors with Home Gardens as projects and 31 with poultry. All of these projects are productive in that they either save money or make directly for the benefit of the individual club member.

Some of the other projects and the number enrolled are as follows: Beef Cattle, 44; Hogs, 86; Tractor, 44; Home Grounds Beautification, 155; Electric, 178; Breadmaking, 143; Dairy Foods, 45; Food Preparation, 215; Clothing, 331; Home Management, 248; Room Improvement, 102; Handicraft, 119; Junior Leadership, 60; and Public Speaking, 54.

Other projects which boys and girls are enrolled in are Irish and Sweetpotatoes, Forestry, Dairy, Rabbits, Bees, Entomology, Canning, Frozen Foods, Fruit Pie, Recreation and Rural Arts, Citizenship, Personal Development, Horses, Goats, Tomatoes, and Soybeans.

Each club member has in his hands material with which he may keep a record of the year's project work so that an account of expenses and income may be evaluated at the end of the year. Practically every project carries with it recognition which is provided to the boys and girls that are more outstanding. This recognition comes at our Achievement Day Program, usually in the late winter. Lauderdale County has just as high a percentage (Please Turn To Page 4)

## Bloodmobile in Ripley Next Tuesday

The Red Cross Bloodmobile will visit Ripley from 12 noon until 6 p.m., May 9, according to Jerre Jordan, Mayor of Halls. The unit will be stationed at First Methodist Church at Ripley.

In urging all-out support of the operation, Mayor Jordan pointed to the 125-pint goal of the six-hour visit. "Total blood needs for patients in Lauderdale County will be taken care of as long as we fulfill our part of the bargain by making our quota," he said. "This arrangement is the sum and substance of our Blanket Coverage plan with Red Cross."

"Donors are given a careful medical checkup to determine their eligibility to give," he emphasized. A qualified staff of registered nurses and a physician is on hand at all times while blood is being collected.

"Each donor should allow about an hour at the Bloodmobile," he said. "During this time the medical history is recorded, necessary tests are given, the actual donation is made, and cookies or other light refreshments are served."

Volunteer donors from Halls are asked to call Mrs. Montel Carson at AD 4-7592 during the day and AD 4-7810 for time-saving advance appointments.

## Many Fail to File for SS Benefits

Who would refuse a valuable cash prize if all he had to do was claim it? N. Farris Vaden, Manager of the Dyersburg Social Security Office, says that many people are doing even worse. These folks are losing their monthly social security payments just because they haven't asked for them.

The social security law was changed in September, 1960, and as a result, the work needed to get retirement or survivors checks has been reduced. For example, anyone who reached retirement age before 1957 now needed only 1 1/2 years work credit. People who reached retirement age in 1959 now need only 2 1/2 years credit.

Anyone who was denied payments before last September should check again. The time spent in checking may pay off with a social security benefit for many years to come.

The social security office is located in the First Citizens National Bank Building, Dyersburg, Tennessee.

## Soybean Producers Must Maintain Average Acreage

by W. B. Hall

Soybean producers will be required to maintain their 1959-60 average acreage of conserving and idle land on the farm in 1961 in order to be eligible for 1961 price support on their soybean crop.

Farmers are urged to avoid increasing soybean acreage at the expense of acreage now under conservation practice. The 1961 soybean price support program, therefore, seeks to insure that any additional soybean production will be on acreage that has been used for crops in abundant supply rather than from land now in conserving uses or idle land.

Price support on the 1961 soybean crop has been increased to insure an adequate supply and to help meet anticipated needs for this important oil crop. The national average support price for 1961-crop soybeans will be \$2.30 per bushel. The support for the 1960 crop of soybeans was \$1.85 per bushel.

While the soybean price-support provision and the feed grain program both seek to encourage conservation and reduce the planting of crops which are in abundant supply, the soybean price support operates independently of the feed grain program. Farmers may not plant soybeans on corn or grain sorghum acreage on which a diversion payment is earned under the 1961 feed grain program. Likewise, they may qualify for price support on their 1961 soybean crop by meeting the price support conditions of eligibility and without participating in the 1961 feed grain program.

## Shotgun Wound Is Fatal Following Family Argument

M. G. Peters, 47, truck driver of Custom-Craft Manufacturing Corp., died en route to Parkview Hospital about 9 o'clock Saturday night from a shotgun wound received a few minutes earlier.

His wife, Mrs. Julia Peters, told Lauderdale County Sheriff Willard Norvell that she shot her husband when he broke into a room in which she had locked herself and her three children at their home on Circle Drive.

Mrs. Peters, admitted to the hospital following the shooting, said her husband had been drinking and beating on her since their return from a trip several hours earlier. She told the sheriff that she had warned her husband that she would kill him if he attempted to break into the room and that she shot him when the door gave way.

The blast from the 12-gauge shotgun struck Mr. Peters in the abdomen and he lived but a short time. The Peters had moved to Halls about two years ago.

Funeral services for Mr. Peters were held Wednesday at Ozark, Alabama. Burial was in the church cemetery. He is survived by his three children, Julia, Jerry and Jimmy.

Sheriff Norvell has said that no charge will be placed against Mrs. Peters at the present.

## J. J. Stewart Rites Wednesday P. M.

Services for Jasper J. Stewart, retired farmer of Halls, were held at 3:30 p.m. Wednesday at Garner's Funeral Home. The Rev. Jonas Stewart, his nephew, officiated. Burial was in Zion Cemetery near Brownsville.

Mr. Stewart, who was 87, died at 8 a.m. Tuesday in Lauderdale County Hospital, which he entered Monday.

He was born in Haywood County, he moved to Halls in 1930 and had lived here since. He was a Baptist.

He leaves two sons, Harry Stewart of Memphis and Clyde Stewart of Alamo; two daughters, Mrs. William Vaughn and Mrs. Hershell Heath, both of Halls; six grandchildren, and seven great-grandchildren.

## VALYN SMITH IS HONORED AT UT

Award winners of Alpha Omicron Sorority of the University of Tennessee at Knoxville were recently announced at an initiation banquet. Among those receiving awards were Miss Evalyn Smith, daughter of Mr. and Mrs. Pete Smith, who was presented the best big sister award. This was Miss Smith's second year to win this award. Miss Elizabeth Magee of Dyersburg, granddaughter of Mrs. S. E. Pugh, and niece of Mr. and Mrs. F. E. Pugh, was named the active with the most improvement in grades.

## MISS WILLIAMS IN RECITAL

Mrs. Wymond Hurt will present Miss Patty Williams, daughter of Mr. and Mrs. Ewan B. Williams in a piano recital at the Halls Junior School Auditorium Friday evening at eight o'clock. The public is invited to attend.

## CARD OF THANKS

We wish to express our thanks and gratitude to everyone, who was so thoughtful in the passing of our dear mother.

Thanks for the flowers, cards, food, and the words of comfort. We want to thank Dr. Walker and Dr. Webb for their kindness, and Garner's Funeral Home.

We also, thank Rev. Gordon Crocker and Rev. Nathan Pillow for their words of comfort and condolence.

May God bless everyone.

Van Griffin  
Kitty Kiehey  
Lucy Smith  
Edmonia Ashmore  
Fernie Brown

## SCHOOL CLOSING CALENDAR

May 4 & 5 — F.F.A. Convention, Nashville  
May 9 — R.T.A. Dance Recital  
May 14 — Baccalaureate  
May 19 — Commencement

## Bowling Team Second Half Champions

The Halls Men's Bowling Team maintained their lead in their league Monday night to win the second half championship. The team will face Plaza Coffee Shop, first half champions, next Monday night at 8 o'clock at LeBar's in a roll off for the league championship.

The local team is sponsored by Woodley Radio & TV Service. Members of the team are Jack Henderson, Bobby Henderson, LeBron Russell, Travis Davis, Jim Gibbons and Jimmy Hayes.

## Conservation District to Observe Soil Stewardship Week

The spiritual values of soil and water conservation will be emphasized when the Lauderdale Soil Conservation District joins over 2800 others throughout the nation in its Soil Stewardship observance during the week of May 7th through 14th. Announcement that the local District would again sponsor the program was made by Lynnwood Grammer, Chairman of the Board of Supervisors.

"This will be the 6th annual observance which the Lauderdale Soil Conservation District has sponsored," Mr. Grammer said, "and as in the past, the Board of Supervisors will give all assistance to groups wishing to arrange for special programs or activities about man's moral responsibility to care for our soil and water resources."

Besides Mr. Grammer, members of the District's governing body are Reid Dunavant of Henning, Joe Beard of Halls, Francis Thompson of Durhamville and W. C. Viar of Halls.

We Americans live in a mechanical, commercial, and society, where fewer and fewer farmers are needed to produce the food and fibre necessary for the rest of the population. At the moment we are plagued with the problem of over-production in agriculture, and it is easy for us to forget the elemental fact of our dependence upon soil and water. Yet, we live in a nation with a rapidly growing population, and in a world which is increasing at the rate of 80,000 per day.

What a burden the soil of the earth must carry — an impossible burden unless we realize and practice our stewardship.

## Drive Slower, Live Longer

and returning him safely.

(4) Failure of the small-scale invasion of Cuba last week by Cuban refugees, which served to demonstrate that Communist techniques have been used to effectuate a tightly-regulated society and police state only 90 miles from Florida.

Out of the travail of these incidents, which have blunted the President's hope for a more peaceful and fruitful relationship with the Soviet Union, has come a firm, emphatic pronouncement of principles which amounts to an up-dating of the Monroe Doctrine:

"If the nations of this hemisphere should fail to meet their commitments against outside Communist penetration, then I want it clearly understood that this Government will not hesitate in meeting its primary obligations, which are to the security of our own Nation."

With these words of unmistakable determination, the President has, I am confident, the full support of the American people in the continuing battle against Communist encroachment.

## Senator Albert Gore's Capitol Commentary

The news will be worse before it is better," President Kennedy predicted in his State of the Union address last January. Perhaps the President spoke more prophetically than even he realized. For despite this forecast, the new Chief Executive hopefully believed it was possible to ease world tensions and to develop some acceptable accommodation between the two great contending forces, possibly to the extent of formalizing some agreements.

But in recent weeks four major events have been severely disappointing, if not shocking, to be President:

(1) Russia's foot-dragging in attempts to work out a cease-fire in Laos, and a constant broadening of Communist control over the people of this small, defenseless country.

(2) The unacceptable veto demand of the Soviets at the Geneva nuclear test ban conference which, unless withdrawn, shatters all hope for agreement on a reliable treaty.

(3) The scientific success of the Soviet Union in putting a man into orbit around the earth

Judy Brandon, daughter of Mr. and Mrs. Roy Brandon, senior at Halls High School, has been awarded the John S. Murney scholarship of \$150 to attend The University of Tennessee, Martin Branch, this fall. She will major in Business Administration.

## County Agent Notes

The land can be plowed very shallow, just deep enough to get under the big Johnson grass roots, and disked, or deep-harrowed every two to four weeks through the summer. It can then be planted to small grains to be harvested next year.

If the land is then spot treated in crops with Dalapon solution, using one pound of Dalapon to ten gallons of water, it can be completely cleared of Johnson grass in two seasons.

Preplant Control of Johnson Grass

Gordon Moore of Henning is planning to try a broadcast pre-plant application of Dalapon on land broadly infested.

He plans to use ten pounds of Dalapon per acre in 50 to 100 gals. of water which he will apply to the Johnson grass when it is six to 12 inches tall.

He will then wait three weeks to prepare the ground and plant the corn or soybeans to follow. He will then spot treat with Dalapon in the crops all through the summer, maybe as many as three times to try to eliminate the Johnson grass in one season at reasonable cost.

Another Preplant Method

The best time to plant soybeans in this area is about May 15. Some experienced growers get their land ready to plant as early as possible and then harrow it once or twice at weekly intervals to kill the weeds and grass that germinate, and their plant the soybeans.

They say this method of weed control guarantees better stands and that it is less expensive than hoeing or cultivating the rows of beans. This method is more effective against annual weeds, but it also helps against Johnson grass, "cow-itch" vines, and other perennials.

Corn Fertilizers Profitable

Cheap nitrogen fertilizer from anhydrous ammonia, the new liquid nitrogens, and ammonium nitrate make it profitable to produce high yields on every acre of corn we plant.

Corn responds to lime and potash and phosphorus to some extent, but mostly to nitrogen up to as much as 100 lbs. of actual nitrogen per acre. This nitrogen can all be applied as a side dressing, when the corn is less than a foot tall, and it can be put along the rows or out in the middles and the corn plants will get it and make good use of it.

with F. H. PASCHAL

the application of 200 lbs. of 6-12-12 or 15-15-15 along the rows

The new feed grain program now being discussed offers farmers with land badly infested with Johnson grass a good opportunity to clean this land up for future crop production with little sacrifice of income this year.

**BULLETIN:**

**Chemical "policeman" in today's Super Shell guards against gum-fouled carburetors — to give your car top performance**

One special ingredient among the nine in today's Super Shell gasoline is a gum preventive. Like a policeman dealing with a mob, it works to keep unstable elements from clotting together. Hence no gum problem. Result: top performance.

Imagine an ingredient so effective that only one thousandth of an ounce is enough to treat a gallon of gasoline. This tiny drop is all today's Super Shell needs to save off gum troubles that can hamper your car's performance.

#2 is TCP for power, mileage and longer plug-life. Today's Super Shell now contains an even better version of this famous additive. Its name is cresyl-diphenyl-phosphate.

Gum forms when even the purest gasoline is held in storage. Unstable elements in the fuel combine chemically with oxygen and with each other. The latter is what scientists call polymerization (a good thing if you want to make plastics, but not if you want top performance from your gasoline).

TCF, additive can give your car up to 15 per cent more power; up to 17 extra miles per tank; last up to twice as long.

Shell tackles the situation with a special inhibitor that is designed to keep gum from forming.

New TCP does this by neutralizing certain effects of polymerizing deposits. It is scientifically formulated to keep them from glowing when hot—a major cause of power loss. Also from diverting your spark—a major cause of "misfire."

Where the trouble strikes. Gum usually ends up on sensitive carburetor parts, where it can foul the automatic choke and raise hob with a car's six-fuel mixture.

#3 is "cat-cracked" gasoline for power with a purr. This is petroleum that has actually cracked under 900-degree heat and catalytic action. Its heavier molecules have been shattered into lighter ones.

To rich a mixture can waste gallons of gasoline. Too weak a mixture can burn valves. Either way, gum troubles cost money. In extreme cases, gum can even stick your intake valves. This means a rough and noisy engine—lost power—and perhaps an expensive repair job.

#5 is anti-knock mix for extra resistance to knocks. You might think that two high-octane ingredients are enough for knock-free performance. But Shell's scientists have one like lightning.

How the "policeman" works. Shell's special anti-gum ingredient is an oxidation inhibitor. It helps keep unstable elements in the gasoline from sticking together—the way a skilled policeman prevents trouble by keeping a crowd from forming.

#6 is Retain for quick starts on cold mornings. Retain is so eager to get going that Shell keeps it under pressure 400 feet below ground to keep it from evaporating by itself.

A BULLETIN FROM SHELL RESEARCH are working to make your car go better and better.

**IMPORTANT NOTICE TO DOG OWNERS**

All dog owners are hereby notified that "The Tennessee Anti-Rabies Law" as passed by the 1957 legislature and approved by the Lauderdale County Court, will be enforced throughout the county.

**All Dogs 3 Months of Age Must Be Vaccinated By A Veterinarian**

This law requires that all dogs in the county be vaccinated by a licensed veterinarian and registered at the County Trustee's office on or before the first day of May, 1961 and of each year thereafter, paying a registration fee of One Dollar (\$1.00) for each dog owned, kept, or harbored.

The law also requires that a certificate of rabies vaccination in date must be presented at the time of registration and that no registration certificate shall be issued unless a certificate of rabies vaccination is produced for each dog to be registered.

In order to help dog owners get their dogs vaccinated, the following vaccination clinics have been set up throughout the county and a charge of \$1.00 for each dog vaccinated will be made by the veterinarian at these clinics. A rabies control officer will accompany the veterinarian to these clinics and all dogs can be registered at these clinics. The rabies officer will be on duty full-time thereafter, picking up dogs without tags.

**Dog Vaccination Clinic Schedule**

if the fruit is thinned on the branches so that peaches are three inches apart, plus two to three inches apart, and apples six inches apart, it takes a lot less nerve to thin fruit to this degree, but it seems necessary for desirable fruit.  
Don't Delay Cutting Hay  
Alfalfa makes highest quality hay when cut in the bud stage just before it blooms. Oats are best when cut in the boot to early dough stage. Hay tonnage may be slightly less at these stages, but the curing time will be shorter and the hay quality will be better.  
U-T research has shown that curing time can be reduced from three days to two days by the use of a hay conditioner. More leaves are kept in the hay with less bleaching and leaching from rains and dew. The hay should be run through the conditioner within 30 miles, after cutting and should be raked into windrows before it dries to the point where leaves will fall off.

Faculty balloting for the Bal-four Plaque honor resulted in a tie the first in the history of the school. Cary Alshbrook, son of Mr. and Mrs. Charles Alshbrook and Melody Meeks, daughter of Mr. and Mrs. Robert Meeks were chosen on the three-fold basis of scholarship, loyalty, and achievement.

**RIDING CLUB NAMES NEW OFFICERS**

Halls Big and Spur Club met May 9 to elect new officers with the following being named:  
N. G. Parrish, President  
Eddie Camp, Vice-President  
Johnnie Hale, Secretary and Treasurer  
David Parrish and Bernard Higdon were named as managers of the riding ring.  
May 25th has been set as the opening night for the riding season. The public is invited.  
Everyone interested in riding in the parade, please be in line with a riding partner at 6 p. m. at the ring.

**Methodists Have Member Canvass**

The Halls Methodist Church is in the heart of their Every Member Canvass for the year 1961-62 with Mr. William McGarrity as General Chairman and Mrs. Frank Young, Chairman of Publicity; and Mr. E. G. Broadstone, Chairman of Publicity and Program Planning.  
The Finance Committee is now working on the budget which should be completed Saturday night and recommended to the Official Board for their approval at 8 p. m. Sunday.  
The filmstrip, "One Sunday Afternoon" will be shown in the Halls Methodist Church Sunday, May 21, at 7:14 p. m. as part of the Every Member Canvass. The filmstrip illustrates how God makes himself known through Scripture, through human personality, through history, through the incarnation, crucifixion, resurrection of Jesus Christ, the formation of the Church at Pentecost, and through the great commission which launched the Church into all the world.  
It is about a man who has been asked to lead the Every Member Canvass of his congregation. His problem in understanding why he is the same as any man's, but he is more willing to seek for answers. The story is illustrated through photography of beautiful stained glass windows.  
The Chairman of the Five Commission are urged to solicit all members of their Commission and sit together for this service. All members should make a special effort to be present.  
R. G. BROADSTONE

**May 26th Deadline on Grain Program**

The certificates earned for diverting corn and grain sorghum acreage from production this year under the feed grain program may be redeemed by farmers in grain or cash equivalent of grain. County offices are now prepared to make cash payments on corn or grain issued under the advance payment provisions of the program.  
Producers who wish to receive cash instead of grain for their certificates may ask the Commodity Credit Corporation to act as their agents in marketing the certificates. While the certificates are negotiable, producers who receive them for diverting acreage under the program can redeem them in cash. COC will pay the producer the full value of the certificate in cash if it is presented within 30 days of issuance.  
If a certificate is not redeemed in grain or submitted to COC for marketing within 30 days after issuance, storage and handling charges will be deducted from the face value of the certificate. The deduction will be at the rate of 1-1/2% of 1 percent per day, beginning on the 31st day after issuance and continuing until redeemed.  
Certificates held by producers may be redeemed in COC-owned grain stored either in COC bin sites or in commercial warehouses, as determined by the county committee. Grain will be valued at the market price for redemption purposes.  
Corn, oats, barley, and grain sorghum in the COC inventory will be eligible for redemption as soon as they are available. Producer redemptions may be in COC-owned grain in the county in which the certificate was issued or in the nearest county in which grain is stored. COC will not ship grain into a particular county or make available specific stocks of COC-owned grain or certificates for redemption.  
Certificates issued to a producer may also be redeemed in grain put under price support loan that producer.  
The latest date for filing an application for diverting feed grain will be May 26, 1961.

**GRADUATION High School Campus**

Thomas Smith of Chicago, Ill. will arrive Thursday to spend a few days at home.  
Mr. and Mrs. A. P. Burks spent one night last week with Mr. and Mrs. Carl Chipman in Memphis.  
Mr. and Mrs. Tom Stewart and daughters, Jan and Kay, of Memphis spent Monday and Tuesday with Mrs. Stewart's parents, Mr. and Mrs. A. C. Ridley.  
Miss Barbara Sasser of Jackson spent the weekend at home.  
Mr. and Mrs. Billy Thurmond of Memphis spent Monday night with Mr. and Mrs. Buddy Rodgers. They also visited Mr. and Mrs. Jack Knox.  
Mrs. Marie Meese and daughter, Mary Ethel, of Marion, Ill. are visiting Mr. and Mrs. Henry Moore for a few days.  
Mr. and Mrs. David Moore and Mrs. Moore will be in Halls on Friday night, May 19.

**County Agent Notes**

with F. H. PASCHAL  
W. O. Crook, on the T. B. Wright farm at Fort Pillow, is mixing the new with the old in weed control methods in cotton.  
Mr. Crook applied diuron as a spray in a 16-inch band on top of the ground behind his planter to control crab grass and other annual weeds for a period of four weeks. He has since gone to the acre in the field to control grass and some other weeds. He thinks the weeds will really work to get the tender shoots of Johnson grass as they appear.  
Recent research indicates that shoots of Johnson grass less than three inches are cut off, they are killed. The weeds are therefore very effective in bringing the Johnson grass under control, since the crab grass will be controlled by the chemical. We will be interested to see how this combination of methods works out for Mr. Crook.  
Armyworms Attacking  
Tiny armyworms in great numbers are appearing in small grains and pastures, according to E. P. Muller, Extension Entomologist. Farmers are warned to check small grain and grass fields by the "hand" and "knee" eyeballing method to find the tiny worms. If they are not found when small, they can much damage before they do kill with poisons.  
Flood Experience Recalled  
John D. Barnes, principal of Bartlett High School and farm owner in Lauderdale County, stated this week that he can remember some practices carried out by his father when previous floods in Mississippi bottom were predicted.  
He said his father would plant cotton just before the floodwaters covered the land. The cotton would come up just as the water was going down. He said the cottonbuds would be about four inches tall and the cotton about one inch tall but that they would hoe the cotton out and make a crop.  
"We don't have so many cottonbuds on much of the bottom land now trying and this method might be worth trying again in future floods."  
— Please Turn to Page 6 —

**BOB TATUM HONORED**  
Bob Tatum, son of Mr. and Mrs. B. C. Tatum of Halls, was honored Thursday as the "Superior ROTC Student" at Northwestern Louisiana College at Monroe, La. Bob is a senior engineering student at NELC.

**MEXICO BOUND**  
Betty Vaden and Susan Smith plan to attend summer classes in Spanish at the University of Guadalajara, Mexico. The course is sponsored by the University of San Francisco, California. Traveling by train, they plan to leave the last week in June and return the second week in August.

**THANKS VOTERS**  
I wish to express to the citizens of Halls my sincere appreciation for the wonderful vote you cast in the recent city election. I am grateful for your confidence and will continue to try to serve for the best welfare of the town and its people.  
PAUL HENDERSON, JR.

**THANK YOU!**  
May I through this means express my appreciation for the confidence you have shown in me by re-electing me as a member of the Board of Aldermen. Thank you for your support and be assured I will do all within my power to serve for the welfare of the town.  
L. E. CRIFFIELD, JR.

**— Drive Slower, Live Longer —**

**Teacher Sorority Sponsors Award**

A twenty-five dollar award will be presented to one of the young ladies in the Senior Class of Halls High School at the Commencement Exercises on Friday night, May 19.

In order to encourage young ladies to enter the teaching profession, the Tennessee Pi chapter of Alpha Delta Kappa will present an annual award to a young lady upon graduation from a Lauderdale County high school and entering any college to prepare for the teaching profession. The award will be alternated between the Halls and Ripley Schools, beginning with Halls High School in 1961. In the event that a graduation class does not have any member planning to enter the teaching field in the year the award will be made to a qualifying graduate in the other school. If neither school has a qualifying graduate in the same year, the award will be deferred until the next year.

Alpha Delta Kappa is a sorority for outstanding women teachers, and the Pi Chapter in Lauderdale County was organized in 1956 by Eta chapter of Jackson, Tennessee, at the written invitation from International headquarters. Since there has not yet been a fund raising campaign by Pi chapter the award is small this beginning year, with the expectation of its growing in amount through the years.

"AIN'T WE WORTH A RABIES SHOT?"

THE NASHVILLE TENNESSEAN

Sunday School Lesson

By Walter C. Davis, D. D., Tennessee School of Religion, University of Tennessee

Lesson for Sunday, May 21: Proverbs 6:6-9 22:29; 24:30-34; Ecclesiastes 3:22

"The Importance of Diligence" Some whimsical philosopher said, "Blessed is the lazy man; he shall live a long time." But we have a proverb, born of experience, which says "I'd rather wear out than rust out." Probably the rusting is just as rapid as the wearing process.

Uncle Ben talks about the "wearing grace" of the alarm clock. It makes its strident call to get up and hustle, get ready and get

This lesson is not primarily intended to glorify work. It takes the virtue of work for granted. If any one doubts that, let him go to the ant and learn. The lesson is a warning against laziness. It uses the word 'sluggard.' The sluggish man, "A little more sleep, a little slumber..." That leads to certain poverty, to want which breaks in like an armed robber (24:34).

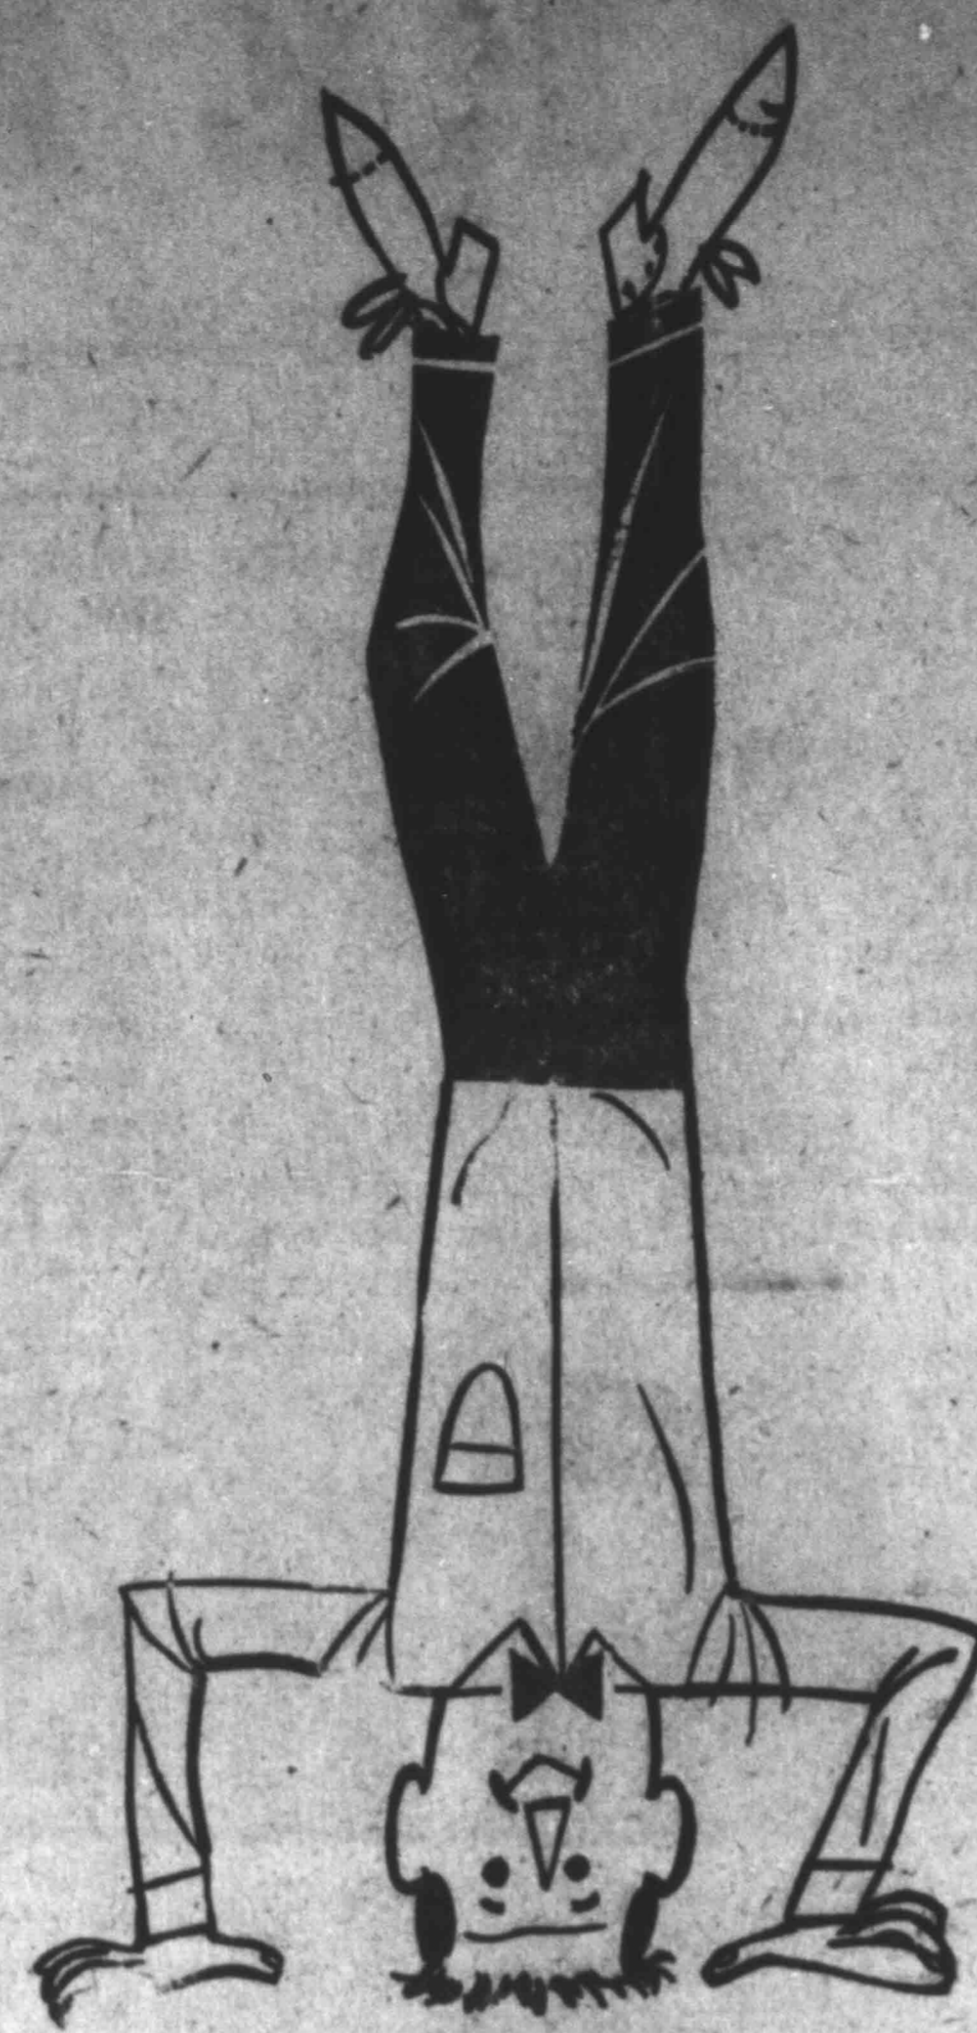

The steps in the lesson are: 1. Learn from the ant to be busy and look ahead. 2. Skill and industry bring success and honor (such a man "will stand before kings"). 3. Lack of industry is as sure to be known as a garden grown up with briars and weeds. 4. Blessed is the man who has found his work (Ecclesiastes 3:22).

There are different kinds of work. Jesus said, "My Father worketh hitherto and I work." We miss the significance of this when we overlook the Christ-being Christian, and we may also be sluggish in that. We have too many lazy Christians, indifferent to creating a little more sleep. Prayer, church worship, daily Bible reading, the practice of doing good — these are necessary if the garden of life is not to be overgrown with thorns.

We talk a lot of nonsense these days. We hear about sending a man into space, establishing outposts on the moon and on Mars, as if we had mastered our problems here on earth. We play with theoretical problems, theories and fantasies, and we need something real and commanding like work. The Sabbath also says, in order to keep our mental balance. Thomas Carlyle was talking about that when he said, "Blessed is the man who has found his work."

The writer of Ecclesiastes was praising its value when he said, "I saw that there is nothing better than that a man should enjoy his work for this is his lot; who can bring him to see what will be after him?"

The trouble with the chronic borrower is that he always keeps everything but his word.

## Brevities

Mrs. Nell Pugh was able to return home Sunday after being hospitalized at Dyersburg where she received treatment for a fractured hip which she sustained in a fall at her home.

Mr. and Mrs. Bedford Calhoun and daughters of Winkhaven spent Sunday with Mrs. Calhoun's parents, Mr. and Mrs. M. H. Stallings, and attended the Baccalaureate Service at First Baptist Church Sunday evening.

Mr. and Mrs. Langston Griffin and children of Humboldt visited here Sunday.

Mrs. Paul Griffin, Mrs. T. G. Avery, and the Rev. and Mrs. Jesse Newton were in Memphis Tuesday to visit M. E. McDearman, Jr. at St. Joseph Hospital.

Jerre Jordan, Jr., who attends Ole Miss at Oxford, Miss, and Miss Martha Stearns of Bates, Roue, La., who also attends Ole Miss, spent the weekend with Mr. Jordan's parents, Mayor and Mrs. Jerre Jordan.

Mrs. W. B. Baker of Houston, Texas arrived Friday for a visit with her mother, Mrs. J. E. Murchison.

Mr. and Mrs. W. C. Viar were in Paris Wednesday night to attend Graduation Exercises at Grove High School. Their nephew was a member of the senior class.

Miss Kay McGarrity of Memphis spent Mother's Day with her parents, Mr. and Mrs. Bill McGarrity.

Robert Meeks, Jr. spent the weekend with his parents, Mr. and Mrs. Robert Meeks. He is a sophomore at Memphis State.

Mr. and Mrs. Elbert Osmont of Memphis spent the weekend with his parents, Mr. and Mrs. W. C. Osmont. Mrs. Osmont remained for a longer stay.

Mr. and Mrs. Z. T. Norman were in Memphis Wednesday.

MRS. PERRY HOSTESS TO DYERSBURG CLUB  
The Hill top Garden Club of Dyersburg met Tuesday afternoon in the home of Mrs. Wiley Perry with Miss Jennie Prichard and Mrs. Fletcher Watson of Dyersburg serving as co-hostesses.

Mrs. Morris Currie was in charge of the program and gave an interesting and informative talk of Fall Plastics. Mrs. J. L. Overall, Jr. of Dyersburg played

several selections on the organ. Mrs. Frank Young and Mrs. O. J. Nunn were guests of the club. The hostesses served frosted cakes and assorted home made cookies.

MRS. RANDLE INSTALLED  
In a beautiful Installation Service at the home of Mrs. John Woodard at Halls, Mrs. C. L. Randle was installed President of Tennessee Pi of Alpha Delta Kappa for the year 1961-62. Fellow officers who were installed were: Mrs. Arthur Thompson, vice-president; Mrs. John Woodard, Recording Secretary; Mrs. J. W. Vaden, Corresponding Secretary; Miss Montine Akin, Treasurer; Mrs. P. L. Thompson, Historian; Mrs. Roy Patton, Chaplain; Mrs. Troy Bivens, Sergeant-at-Arms.

Mrs. J. A. Dunaway was co-hostess with Mrs. Woodard for the regular meeting of the society.

CARD OF THANKS  
We wish to thank all of our friends and relatives for their kind expressions of sympathy at the time of our bereavement. The food, flowers and calls were deeply appreciated. Especially do we wish to thank Subday Funeral Home for the splendid service. May God bless each of you.

Mrs. V. E. Bowie  
James Bowie  
Mr. and Mrs. Lindell Bowie  
Mr. and Mrs. Burnell Bowie  
Mr. and Mrs. James Davis

CARD OF THANKS  
I want to extend my appreciation and thanks to all my friends for their kind expressions and interests shown me while I was in the hospital and since my return home.

Sincerely,  
C. M. KIMBROUGH

CARD OF THANKS  
I wish to thank each and every one who has sent me flowers and getwell cards and the phone calls and visits during my two weeks of illness at home and one week in the Methodist Hospital. We especially thank our pastor, Rev. LeBron Russell for his prayers and visits. May God bless them all.

### How Use Of Water May END YOUR CONSTIPATION WORRIES

As you grow older, your system begins to dry out. This is true of your digestive system, and it may lead to constipation. SERUTAN, taken daily with plenty of water, produces a smooth gel that provides the proper moisture, bulk and peristaltic stimulation to help end your constipation worries.

### Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyapal)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.

# Only Ford

Only Ford in its field offers this body styling. And it's yours now at a special savings during your Ford Dealer's Swapping Deal!

Only Ford Falcon offers a choice of 2-door and 4-door wagons with over 7 feet of headspace length... plus the winning combination of all you want in a compact wagon.

Only Ford in its field builds one passenger wagons with a forward-facing rear seat. A power-operated rear window is standard on the Country Squire (shown) and Country Squire.

### And every Ford wagon is beautifully built to take care of itself

Only Ford in its field offers all these most-wanted features on all six of its husky wagons: 93½ cu. ft. of cargo space; roll-down rear window; 30,000 miles between lube jobs; and self-adjusting brakes—to name a few! Or, take our Falcon wagons. Besides costing up to \$508\* less than some compact wagons, they keep on saving every day in many ways! And for the sweetest deal in town, see your Ford Dealer now while his SWAPPING BEE is in full swing!

\*Based on similar configurations of comparable models and equipment, including radio, heater and automatic transmission. See all dealers for details and complete Ford Dealer's Swapping Deal.

STOP...SWAP...SAVE...NOW DURING YOUR FORD DEALER'S SWAPPING BEE!
