Several of these producers expressed the hope that more cattle producers would use these sales for extra profits from high quality feeder calves weighing 350 to 750 pounds...

Dear Mr. Rosenfeld, Recently I was asked by a group of Ripley Manufacturing Co. employees to give them an explanation as to how the piece-workers are paid by the firm.

It would appear to me that the payment of piece-workers in the coat and suit industry during the long Fall coat producing season on the basis of their average hourly earnings of the very short, layoff-studded Spring season would mean a considerable loss of earnings to the workers.

Several of these producers expressed the hope that more cattle producers would use these sales for extra profits from high quality feeder calves weighing 350 to 750 pounds...

From my knowledge of the industry and the information gleaned from a number of Ripley Manufacturing Co. piece-workers as to the relative length of the Fall coat producing season, I have found that the loss to a piece-worker may run as high as several hundred dollars per year.

There would appear to me, in all fairness, no logical reason why piece-workers should not be paid on their present piece-work earnings rather than on an average hourly rate, arrived at when work was sparse months ago.

Several of these producers expressed the hope that more cattle producers would use these sales for extra profits from high quality feeder calves weighing 350 to 750 pounds...

I would appreciate any explanation you may have for adopting a system of payment that appears to me, as well as many of your piece-workers to be unfair.

THANK YOU

I am deeply grateful for your vote and support in my bid for election as sheriff of Lauderdale County. I enjoyed visiting with you and discussing the problems of our county as I am very much interested in these problems. It makes me feel good to have had the opportunity to make this race as it gave me the chance to renew many old friendships and make many new ones. I worked very hard and tried my best to conduct a clear and honest campaign and I wish the successful candidate, Gwinn Matthews, much success in his new office.

Thank you for the confidence you placed in me. Sincerely, JULIUS KIMBLE.

News From ASC

By W. B. Hall

Loans to Lauderdale County farmers on 1962-crop cotton will be disbursed by the ASCS county office.

The individual producer will determine whether to secure his loan directly from the ASCS county office or an approved lending agency.

Lists of approved lending agencies will be available at the county ASCS office.

Since the first year since 1952 that farmers could obtain cotton loans directly from the ASCS county office.

The Commodity Credit Corporation will be the payee on all loans under the 1962 cotton loan program.

Regardless of whether the loan proceeds are disbursed by the county office or an approved lending agency.

Also, 1962-crop cotton pledged on a cotton loan may be used as security for a loan by the same warehouse.

Unlike previous programs the cotton producer's name is not on the warehouseman's signature on the note before the loan is disbursed.

A producer may sell his equity or redeem for his own account any one or more bales of his loan cotton.

Forms for such sales or redemptions may be obtained only by a producer from the ASCS county office.

The 1962 cotton program regulations further provide that all warehouse receipts must be stamped to show that receiving charges have been paid.

If the receipt contains any notation by the warehouseman which shows that the bale is not eligible, such warehouse receipt cannot be pledged as security for a loan.

The 1962 program rates for storage and outlanding of cotton placed in a warehouse by producers will remain in effect for the 1962 program.

There's A NEW FRONTIER In Office Efficiency

Significant break-throughs in design and production of familiar products are revolutionizing the office supply field.

Good businessmen are improving efficiency for the New Year... and earning tax credit on their income tax returns.

Before you invest unwisely in office tools of obsolete design, don't fail to see the newest and best.

NEW PLASTISOL REPLACES MESSY CARBON PAPER

Fresh from Columbia Ribbon & Carbon's pace-setting research laboratories, this newest wrinkle for perfect copies is LIQUID carbon, sandwiched between thin, tough plastic which just won't wrinkle and which keeps your fingers and your typewriter clean, yielding its contents only when struck. Liquid carbon dries into paper fast—you can rub the copy over a white shirt without a smudge! It comes to refill use points, giving longer, ever wear all over. Thus, though Plastisol costs more initially, it's economical because it outlasts ordinary carbon several times, stays flat and clean, speeds work. Ordinary carbon's thrown away half used because it's sog-soaked and the coating has become spotty. End that waste, and carbon string-ups with Plastisol—ask for a few sheets on trial. You'll never use carbon paper again.

NEW EVERY OFFICE MACHINE DESERVES AN A-1 RIBBON

Nothing peeps up any office machine's performance—and actually prolongs its life—like a first quality NYLON ribbon... the only ribbon we handle because it's the only one we can sell with pride... Yet some folks persist in using cheaper quality ribbons which date from the pre-nylon era—and actually pay more for them than our \$1.95 price for nylon. By handling one grade in volume, we're holding the price line on the best ribbon you can buy. At that price, you can't afford any other ribbon for your machine.

Miss Waddell Wed
By Carmon Belton

In a candlelight setting at four o'clock Sunday afternoon, August 12th, Miss Hollis Jean Waddell, daughter of Mr. and Mrs. Hollis Waddell, of Booneville, Miss., became the bride of Carmon Reece Belton, son of Mr. and Mrs. Carmon Belton, of Halls. The double ring ceremony was performed in the Tuscumbia Baptist Church with the pastor, The Rev. Grady Gunther, officiating.

Proceeding the wedding a program of nuptial music was presented by Miss Patty Williams, of Halls, who also sang the "Wedding Prayer." The vows were pledged before an archway of greenery with a profusion of daisies flanked by lighted white tapers.

The bride was given in marriage by her father. Her wedding dress was fashioned street-length of late mod and lace over satin. She wore a circlet veil of illusion and carried a bouquet of white orchids on a ribbon.

Miss Mary Wren served as the bride's honor attendant. Bridesmaids were Miss Barbara Kay Waddell, sister of the bride, and Miss Betty Gene Waddell. The attendants wore yellow frocks of taffeta with matching headbands, and carried sprays of white daisies.

Donald Hogas, of Halls, acted as best man. Groomsmen were Timothy Belton, brother of the groom, and Kenneth Darty, both of Halls.

For her daughter's wedding, Mrs. Waddell wore a sheath of linen and lace with black hat and bag. Her flowers were daisies. The groom wore a sheath of linen and navy lace sheath with navy bag and hat. She wore a corsage of white daisies.

Following the ceremony Mr. and Mrs. Waddell entertained with a reception in their home. The table was overlaid with a beautiful lace cloth over yellow linen. Centering the table was the all-white wedding cake, garlanded and topped with white carnations. Beginning Again
Lesson for August 26, 1962

It is hard enough to share experiences even with those who are near and dear. The heart knows its own bitterness, and a stranger does not intermeddle with his grief. The heart is weary of its own bitterness, and a stranger does not intermeddle with his grief. The heart is weary of its own bitterness, and a stranger does not intermeddle with his grief.

MY FELLOW TENNESSEANS:

A REPORT FROM THE GOVERNOR

With summer fast fading, it seems appropriate this week to devote this report to Tennessee's National Guardsmen, men of whom have recently completed 15-day summer camp sessions.

total of 221 hours, ten more than the previous Air National Guard summer training in the nation. The Tennessee wing has flown more than one million carpet-bombing miles and it is estimated that their ability of Guardsmen to and from summer training sites this year have saved the Defense Department \$5,000,000, flying more than 13,000 services.

There's A NEW FRONTIER In Office Efficiency Significant break-throughs in design and production of familiar products are revolutionizing the office supply field. Good businessmen are improving efficiency for the New Year... and earning tax credit on their income tax returns. Before you invest unwisely in office tools of obsolete design, don't fall to see the newest and best.

NEW COMPACT STANDARD TYPEWRITER Standard keyboard, standard large platen, every big-machine feature including half-spacing, tabulation—now even automatic indentation—yet missile age techniques have reduced bulk and weight so that this heavy duty machine is easily carried. This all-purpose typewriter shames flimsy lightweight costers more initially, it's economical because it outlasts ordinary carbon copies with Plastisol—ask for a few sheets on trial. You'll never use carbon paper again.

NEW PLASTISOL REPLACES MESSY CARBON PAPER Fresh from Columbia Ribbon & Carbon's pioneering research laboratories, this newest wrinkle for perfect copies is LIQUID carbon, sandwiched between this, tough plastic which just won't wrinkle and which keeps your fingers and your typewriter clean, yielding its contents only when struck. Liquid carbon dries into paper fast—you can rub the copy over a white shirt without a smudge! It comes to refill use points, giving longer, ever wear all over. Thus, though Plastisol costs more initially, it's economical because it outlasts ordinary carbon several times, stays flat and clean, speeds work. Ordinary carbon's thrown away half used because it's dog-eared and the coating has become spotty. End that waste, and carbon struggles with Plastisol—ask for a few sheets on trial. You'll never use carbon paper again.

NEW EVERY OFFICE MACHINE DESERVES AN A-1 RIBBON Nothing pops up any office machine's performance—and actually prolongs its life—like a first quality NYLON ribbon... the only ribbon we handle because it's the only one we can sell with pride. Yet some folks persist in using cheaper quality ribbons which date from the pre-nylon era—and actually pay more for them than our \$1.25 price for nylon. By handling one grade in volume, we're holding the price line on the best ribbon you can buy. At that price, you can't afford any other ribbon for your machine.

Foundations
Lesson for September 2, 1962

IT HAD been 50 years since the great Temple of Solomon was burned to the ground, and the beautiful objects of silver and gold, which were so famous, had been carted off as loot by the invaders from the Euphrates. Fifty years is a long time. Men now with grey beards, 60 years old or so, had been young children when the city fell to Nebuchadnezzar. But old people remember far-past events better than most young ones do; and the splendor of Solomon's temple was not to be forgotten.

But though not forgotten, Solomon's temple could not be replaced either. The first great public work undertaken by the returned exiles, who brought no wealth with them, was to begin the erection of a temple on the site of the old. When the foundation was laid, the old men wept, because they remembered the magnificence of the old temple and realized that this would never look like that. But the young people shouted for joy, for they had never seen a temple at all. And the young ones were right, for these foundations were to bear the weight of a temple that was destined to last as long as Solomon's, or even longer. It would become a center of religious life for thousands of worshippers. Its successor, even if a king built it (and a king did), would never be loved as this one would be. Incidentally this became the temple where our book of Psalms was first used as a hymn-book.

But it all began with the foundations. All foundations look about alike; and they don't look like much. It takes imagination to see a shrine for God rising above the dusty rock of the foundations.

Completes Plans For Sept. Nuptials

Miss Marianne Ragland, of Milan, today reveals plans for her September 7th wedding to Lucian Houston Herndon, Jr., of Humboldt.

The couple will be married at 8 o'clock in the evening at the First Baptist Church in Milan with the Rev. E. L. Smothers officiating. Music will be by Mrs. Wally Patrick, organist, and Miss Carol Chandler, vocalist.

The bride is the daughter of Mr. and Mrs. Marion Adair Ragland, of Milan. Mr. Herndon is the son of Mr. and Mrs. Houston Herndon, of Humboldt.

Miss Ragland will be given in marriage by her father. She has chosen Miss Janice Gayle Powers, daughter of Mr. and Mrs. Elco Powers, of Milan, as her honor attendant.

Attendants will be Mrs. Eldredge Johnson Kennedy, of Knoxville and Mrs. Clarence Vaughn Griffin, Jr., of Humboldt, sisters of the bridegroom; Miss Katherine Frances Wever, daughter of Mr. and Mrs. John Wever, of Humboldt; Miss Suzanne Holt, daughter of Mrs. Tommysue Holt, of Milan; and Miss Nancy Anderson, daughter of Mr. and Mrs. Paul Anderson of Milan.

Miss Margaret Middleton, daughter of Mr. and Mrs. William H. Middleton, of Muncie, Indiana, and cousin of the bride, will be junior bridesmaid. Donna Sue Boone, daughter of Mr. and Mrs. J. C. Boone, of Memphis, and cousin of the bride, will be flower girl.

Clarence Vaughn Griffin III, of Humboldt, nephew of the bridegroom, will be ring bearer.

Mr. Herndon will serve as best man to his son. Groomsmen will be Clarence Vaughn Griffin, Bob Tyree Patrick, Hugh Parker, Jr., Stuart Goldstone, all of Humboldt, and David Kenneth Ragland and Fred Barham Ragland, of Milan, brothers of the bride.

Mr. and Mrs. Ragland will give a reception in the church after the ceremony.

TEACHING BY TV... Closed circuit TV is becoming one of education's most vital classroom aids. This new educational medium is developing just in time to meet the re-awakened interest in mathematics, languages, physics, and chemistry from elementary to college level. And wherever distribution of TV is needed, Bell Telephone companies are equipped to provide it. Your Bell System's facilities, manpower and know-how are on the spot to make possible the educational television network which brings teaching programs to schools and homes across the nation.

LATE VACATION PLANNING? For a happier time, more fun for the family, your choice of reservations... go first by phone. Notify friends and relatives of your arrival, reserve rooms ahead of time, order theatre tickets in advance... do it all by phone. You'll arrive with ready-made plans... have more time for fun while you're there... come home with happy memories of a telephone-planned vacation.

MENTION THE BELL SYSTEM and any of its associated companies and you'll probably think first of telephones and other communications equipment that are such an important part of life today. But did you know that an organization of more than 200,000 Bell employees (membership requirement—21 years of service!) maintains a program of service and fellowship in thousands of communities throughout the country? This organization's services are many, but probably best known is its program of transcribing books into Braille for the blind... another evidence of telephone employees' spirit of service.

IN THIS HIGH-POWERED DAY AND AGE, we've gotten used to reading and hearing about millions and billions. For example, the U.S. is in debt more than two hundred ninety-six billion dollars. But, to most of us used to thinking in terms of our personal income and budget, it's a big number to realize just how much a billion really is. Comparisons help. For instance, from the birth of Christ through 1961 there were only a little more than one billion thirty million minutes of time.
