PUBLISHED WEEKLY

HALLS, TENNESSEE, FRIDAY, JULY 3, 1964.

VOLUME 70, NUMBER 27

## Confidential Corner

By Henry Murchison

### Dangerous Weekend

The coming Fourth of July weekend is probably one of the most dangerous from the standpoint of accidental death or injury that the people of the United States have ever faced.

The long weekend with traffic at a maximum is a threat to every person who travels the highways. The newspapers will also be filled with reports of drownings and injuries of every type. All of them can be avoided if everyone becomes safety conscious on the road and at home.

### Jordan Pushes Candidacy

Halls Mayor Jerre Jordan is covering the state with news releases in behalf of his candidacy for the Public Service Commission. He needs support throughout the state in the race, but most of all he needs the whole-hearted support of the people of this section. Do more than just vote for him, give him your active support.

### Welcome To Halls

The Halls Graphic wishes to join with the people of Halls in welcoming Mr. and Mrs. Clennon Dailey to our town.

Mr. Dailey is the new Halls High basketball coach and has assumed the duties of manager of the swimming pool.

### Say 'Taint So

One of the faithful (?) readers of the Corner has disputed our statement that Nell's kitten was playing with a copperhead snake, as related in a recent column. The lady says copperheads aren't found in this section. In rebuttal, we have but one thing to say; if she wishes to let the snake bite her, "Okay," but please count us out. Incidentally, she went so far as to accuse us of writing tall tales. So help us, 'tis too!

### Politics Brewing

Gov. Frank Clement spoke in Ripley Thursday evening in the interest of his candidacy for the U. S. Senate. He is scheduled to speak again at 2 p. m. Saturday at Espey Park. In addition to local and state politics, the national Republican presidential convention will meet in San Francisco's Cow Palace July 13th to select its candidates for president and vice-president. After all the shouting and shouting is over, it seems likely that Barry Goldwater will be the Republican nominee, despite all the "Stop Goldwater" furor. Seems to us that he is the only logical candidate, and he will, we believe, make a good showing as the GOP nominee.

## Little League Standings

| Team   | Won | Lost |
|--------|-----|------|
| Yanks  | 4   | 0    |
| Knicks | 1   | 2    |
| Giants | 0   | 3    |

Games are played at 4 p. m. Wednesdays and Fridays. Managers are: Yanks, W. H. Woodley; Cards, C. C. Leeds; Giants, Pittman Marbury.

## ON MARTIN HONOR ROLL

### Five County Students Cited For The Spring Semester

Five Lauderdale County students appeared on the spring semester honor roll of the University of Tennessee Martin Branch. They were listed as Thomas A. Pickett and Betty Carol Vlar, both of Halls, and Jennifer Carmack Scantler, Joyce F. Sorrell, and Lynda Faye Webster, all of Ripley.

## MRS. MARBURY CHOSEN

### As President Of Dyersburg District Wesley Circle

Mrs. Pittman Marbury, of Halls, has been elected president of the Dyersburg District Susannah Wesley Circle. The circle is composed of 43 ministers' wives in the Dyersburg District of the Methodist Church. The Dyersburg District includes northwest West Tennessee and the southwest portion of West Kentucky.

## DRAFT SEEKS NINE MEN

### Selective Service Standing Not Up To Date

Ripley's Selective Service board needs current addresses of those registrants to prevent their being classified delinquent. James Delmar Paris, Rt. 1; Otis Wayne Day, Rt. 2; James Ray Hughes, Rt. 3; and Robert Eugene Holman, Fred Lafayette Neal III, and George Yates Hopkins, Jr., Rt. 5. Also sought are three registrants, Arthur Louis Brown, Rt. 5; James Olyman Yancy, Gaines; and Iteah Coleman, Halls.

Individuals who always insist upon having the last word in an argument should remember that sometimes the last word is "ouch!" —Suggs

## Less State Senate And House Voice Due This County

### Federal Court's Remapping Decree Expands Districts Shared By Lauderdale

A three judge federal court Saturday added Hardeman County to the three other counties with which Lauderdale County is sharing one state Senate seat.

Lauderdale, Haywood, Tipton, and Fayette County voters will select one state Senator for next January's General Assembly session. After that, Hardeman joins the district.

The court tentatively approved House reseating which would abolish the House district now shared by Lauderdale and Crockett.

It gives two seats to a district including Lauderdale, Tipton, and Dyer.

This change would also take effect after the next General Assembly. The court said, however, it would consider other House reapportionment plans submitted to it before Aug. 3, 1964.

## Campaign Talk By Clement Features Espey Park Plans

Chief attraction at the 39th annual Fourth of July Picnic at Espey Park Saturday will be Gov. Frank Clement, speaking in the interest of his candidacy for the Democratic nomination for the U. S. Senate. He is slated to speak at 2 p. m.

Other attractions include entertainment by Jim Reeves and Carl Perkins, carnival rides, and entertainment of all kinds.

Pete Smith, former operator of Espey Park, has assumed charge of the annual picnic after the accidental death of Lloyd Chronister last Friday.

Featured will be Mr. Smith's delicious barbecue, which will be available only at the Park.

## Anthony Is County Chief For Clement

S. N. Anthony, Jr., Ripley insurance agent, will manage Gov. Frank Clement's Lauderdale County campaign for the U. S. Senate.

## Two Contests For County's Election, No Sheriff's Race

### Tax, School Posts Sought District, Primary Races Have More Candidates

Saturday midnight's qualifying deadline found Sheriff Gwinn Matthews unopposed for re-election to his second term.

Three candidates qualified for tax assessor — incumbent Bill Smith, James Chisholm, and S. M. (Teen) Davis.

Keith Hill opposes Edric Owens bid for re-election as superintendent of schools. Paul Burns announced but has withdrawn.

Herman L. Reivers is unopposed as candidate for the Constitutional Convention seat.

Other general election candidates are Andrew O. Holmes, for the Supreme Court, Western Division, and James W. Parrott, for the Court of Appeals, Eastern Division.

Civil districts will elect constables and three school districts will elect commissioners. The Democratic primary, also to be held Aug. 6th, has numerous candidates.

Goldwater's high pressure, free-spending drive for convention votes.

Scranton has some of the most potent and influential leaders of the Republican party working for him backstage, such as Tom Dewey, Jack McCloy, former head of the Chase Manhattan Bank, Gen. Lucius Clay, head of Continental Oil, and Sidney Weinberg, head of Goldman, Sachs, the giant Wall Street investment firm.

But even they can't do the impossible. They are switching some delegates. But Scranton's men also find that Goldwater has some reserve strength. He has been keeping quiet about reserves, nevertheless has some pockets of delegates not pledged to him but ready to go for him in San Francisco and thus start a bandwagon rush.

One of these sleeper groups is in Wisconsin, where 28 of the state's 30 uncommitted delegates are ready to vote for Goldwater in the first or second ballot, though nominally pledged to Rep. Joan Byrnes as a favorite son.

Unless real miracles develop between now and July 13th, it will be Barry Goldwater on the first ballot. If he doesn't make it on the first ballot, it will be Gov. Scranton.

## LBJ Considered Mystery

All over Europe and the parts of Asia and Africa which I visited recently, I was questioned by diplomats and top government officials privately as to how and why Lyndon Johnson happens to be doing such a good job.

These leaders considered it remarkable that the Vice-President of the U. S. should step into the most difficult job in the Western world and get away with it with flying colors. They were pleased but puzzled.

I had to explain that the job of Vice-President is one of the most thankless in the world. A good Vice-President has to be an expert in practicing the technique of obscurity.

Lyndon Johnson has been one of

## Goodson Seeking Twelfth District's Constable Office

J. K. Goodson, Halls city marshal, has announced that he is seeking re-election as constable for the Twelfth Civil District in the general election Aug. 6th.

Mr. Goodson respectfully solicits the vote and support of every citizen.

## Methodist Revival Beginning Sunday

The Rev. Charles E. Stewart, pastor of Colonial Park Methodist Church in Memphis, will lead revival services in First Methodist Church in Halls July 12th-17th.

Services will be at 11 a. m. and 7:45 p. m. Sunday and at 10 a. m. and 7:45 p. m. weekdays.

Leading the singing will be Moody Cunningham, also of Memphis, who is outstanding in his field and well known throughout several states.

The Rev. Pittman Marbury, pastor, extends an invitation to all to attend these services.

## Baptists Will Hear Dr. Ralph Donnell

Dr. Ralph T. Donnell, head of the department of mathematics at Union University in Jackson, will be guest speaker Sunday for both morning and evening services in First Baptist Church in Halls.

On Sunday, July 12th, both morning and evening services will be held. Baptists are urged to attend revival services in First Methodist Church.

The Rev. Edwin Hunter, pastor, is on vacation.

The most experienced men in government over a period of a quarter of a century, I explained, but as Vice-President he went out of his way to make himself obscure.

There was almost unanimous approval of Johnson among the foreign ministries which I visited. They particularly approved of his easing of East-West tensions and his bid to the Rumanians and some of the satellite countries to trade with the United States.

## Egypt Harboring Nasser

The biggest fear worrying Israel and many European diplomats is the fact that Nasser has 500 German scientists working for him to develop rockets and perhaps the atom bomb.

I can report that, out of these 500 Germans, not many are top scientists. The United States and Russia hired the top men from Germany immediately after the war. However, Nasser has been able to corral several reasonably good men.

The most important are Ferdinand Brandner, Prof. Wolfgang Pils, Prof. Paul Goercke, and Dr. Hans Kleinwachter.

Meanwhile, the most alarming news from Cairo is that Nasser has developed a nerve gas and has used it experimentally in his war in Yemen.

One Yemen boy was flown to London suffering from the paralyzing effect of this gas.

## A Jinx, It Seems: Eye Lost In Sixth Mishap Of Boy, 14

Paul Keltner, Jr., 14, of E. Liberty St., Vermilion, Ohio, formerly of Lauderdale County, has left Amherst Hospital, where he had surgery June 17th for head wounds caused when a 22 rifle accidentally discharged.

Surgeons removed the youth's right eye which was injured beyond saving by fine bird shot which the boy was using to shoot at rats in a neighbor's barn.

About two dozen tiny shot remain in his head, seven of them in the brain. Doctor's say they will be absorbed.

The boy's father said that he and Paul's sister, Kathy, 16, were pulling weeds out of their garden as Paul went across the street to shoot rats in the barn.

"We heard one shot and Kathy said, 'he got one.' Then we heard another shot and she said, 'he got another one.'"

The father said he would not have known of his son's injury but that 20 minutes after the second shot a Ford employee, William P. Terry, of Henrietta, stopped at the barn to look at some ponies he had quartered there.

Perry discovered the youth lying on the barn floor, with the gun nearby.

Keltner said the youth had his ankle in a cast from an injury he received three weeks ago when a horse bucked him and then stepped on his foot.

Two months before that the boy broke his wrist while playing at school.

The Keltners moved to Memphis in 1952 from their farm on Edith Hill Road. Bad luck for Paul, Jr., began then. For three years, he had gland trouble below and behind his ears, which, at intervals, gave him the appearance of having mumps.

In 1957, at a riding club, he and a friend were riding double. The friend jumped off the horse, pulling Paul, Jr., with him. Paul's left foot caught in the stirrup. The horse ran away, and Paul went to the hospital for five weeks with three broken ribs and head injuries.

The Keltners moved to Vermilion in 1958. This year, Paul, Jr., in an experiment in school, caught a fish hook in his hand and had to have it removed in a hospital.

Then followed the wrist fracture, the broken ankle and the loss of his eye.

"It's time for his luck to change," his father said. "He can't take much more of this."

Keltner was the owner of the famous trick horse "White Sheriff" who has appeared in many performances. The horse died last year.

complained to the International Red Cross about the gas, but nothing was done about it.

Khrushchev and Cuba Premier Khrushchev has sent a secret warning to President Johnson that he means business if there's trouble between Cuba and the United States regarding U-2 flights over Cuban territory.

Khrushchev has suggested that the United States use satellites to do its spying over Cuba and has said he would trade photographs with Johnson, showing how the Russians have photographs of all American air bases, since he is sure Johnson has similar photographs of Russian bases.

"We will see which photographs are the best," Khrushchev said in his private message to the President.

### FHA Opens Office To Serve County Farms Full Time

Joe Moss Sent Here From Somerville To Supervise U. S. Aid In Rural Loans

By F. H. Paschal

The Farmers Home Administration will open a full-time office for Lauderdale County in the basement of the Ripley post office next week.

Joe Moss, Lake County native who operated a 800-acre farm there before joining FHA in 1955, comes to Ripley as county supervisor after service in Somerville as assistant supervisor for Fayette County.

He attended Tiptonville schools and received the bachelor of science degree in agriculture from the University of Tennessee in 1943.

He married the former Marie Ellen Cunningham, of Holly Springs, Miss. They have two daughters, Anna Marie and Barbara Joe.

A pilot in India, Africa, and China during World War II, Moss is an Air Force Reservist.

The Mosses have purchased the Jim Morgan house on Jefferson and moved there Saturday.

FHA makes federal loans for family farming operations, purchase and development, rural housing, community water systems, recreational enterprises, soil and water conservation and development, and emergency credit. Loans are made only to rural people unable to obtain adequate conventional credit.

FHA has rendered excellent service to Lauderdale County people under the leadership of W. R. McIntosh, who also was required to supervise loans in Dyer County. Full-time personnel should render even better service.

## Wheat Harvest Tallied

Lauderdale County farmers harvested 10,000 acres of wheat last month, which is perhaps the largest acreage ever harvested in the county.

Yields mostly ran from 35 to 65 bushels per acre, with the average above 40.

Stem rust cut yields severely on a few farms, but the proportion of wheat affected was low.

Knox and Monon varieties of wheat are resistant to stem rust, and they are the earliest varieties available, so farmers cannot do better than to continue growing these varieties.

The disease is not spread through the seed nor harbored in the soil, and no seed treatment affects it; thus it is largely a matter of luck as to whether stem rust affects wheat in this area.

Spider mites on cotton

W. G. Jennings, Jr., had an infestation this week of spider mites on a circular area of cotton near a pole stuck on a fence row. Another infestation was reported in the Gates area.

Spider mites are more likely to be a problem in prolonged dry periods. They usually start near stumps or weed patches. Cotton leaves become speckled and red blotched.

Spot treatments can be carried out with hand equipment, with ethion or kelthane dust or liquid, by making applications on the undersides of the leaves. Field applications can be made with systox by airplane. This is a very poisonous material which cannot be safely used with hand or tractor equipment. It is a systemic and it is very effective in controlling spiders over a period of several weeks.

## Cotton Classing School Set

A cotton classing school will be held at the office of Mid-South Cotton Growers Assn. July 13-17th. Cotton producers and buyers will have opportunity at this school to learn how to grade and determine the staple length of cotton, or to review for higher skills.

For full information write Mid-South Cotton Growers Assn., 44 S. Front St., Memphis, Tenn. 38101.

## Control Of Bagworms

Bagworms provide themselves protective cover and attack codotypes of trees and shrubs. Worms are now small and can be controlled with sprays of malathion, sevin, or arsenate of lead.

Spider mites may attack the inner parts of these needleless shrubs and cause them to look brown. These spider mites can be controlled with dusts or sprays of ethion or kelthane, but running water through the shrubs under strong pressure every week or so removes many spider eggs and may provide control.

## Storing Irish Potatoes

Raymond Proctor, of Ashbury, is digging potatoes and planning to store them to keep through the winter.

Irish potatoes require a cool, moist, dark storage place in order to avoid rot, shrinkage, and greening. Potatoes in storage need plenty of oxygen.

Louisiana has developed a method of storing potatoes which sounds cheap and easy to carry out. Burlap bags are dipped in a 1% solution of Chlorox IFC and then air dried before packing the potatoes.

Potatoes stored in these bags were sound after six months of room temperature and were good after twelve months when stored at 60 degrees.

ROME, Italy, Jun. 24—Perhaps no American news since the death of John F. Kennedy has so shaken Europe as the news that Sen. Barry Goldwater may become the Republican candidate for President.

Europe today is worried about a possible war between Greece and Turkey over Cyprus, about the Arab-Israeli showdown over water from the Sea of Galilee, plus kicking between the U. S. and De Gaulle. But none has caused as much conversation as the march of Sen. Goldwater toward the Republican nomination.

I was in Greece, Israel, and Italy while this march quickened, and everywhere I was asked, by crowned heads, prime ministers, and the man in the street, what the Goldwater boom would mean to world co-operation. Would he be elected? Would he change American policies?

Suddenly it seemed that the U. S., which has been considered less important of late, had become important again. Suddenly European statesmen began to realize that the North Atlantic Treaty Organization is a very important organization and that American withdrawal—if Goldwater became president—would be disastrous.

News of the Republican governors' meeting in Cleveland was reported rather fully in the European press. Among the reports dimming the image of the man whose invasion of Normandy was being commemorated that same week—Dwight D. Eisenhower.

Europeans wondered what had happened to the man who once had served in cabinet, told me how early this spring he had flown from Washington to New York on the same plane with Nixon, when the former Vice-President confided that the Republican race for President was sure to become deadlocked.

Nixon figured on a deadlock between Goldwater and Rockefeller, or a deadlock between Scranton and Goldwater, or a deadlock between Romney and Goldwater. In either case, the Republicans would seek a compromise candidate—Richard M. Nixon.

Of course, said Nixon, he was terribly busy and didn't want to run again, but if necessary he would answer the call.

Who Killed Kennedy?

The most discussed American question in Europe, next to Goldwater, is: Who murdered President Kennedy?

It probably won't make any difference what the Warren Commission finally finds. The fact is that a good part of Europe will be convinced the late President was assassinated as a result of a fascist conspiracy.

I have talked to all sorts of people about this, ranging from Premier Khrushchev to leaders in Greece and Israel. It doesn't make any difference what country they are from or what their political

status, the fact is that a large segment of Europe just will not believe that Lee Oswald alone killed Kennedy.

Khrushchev was the most outspoken on this point. He said he had a high regard for Chief Justice Earl Warren, but that Warren would have to bring a report whitewashing the incident.

Flames have been added to the discussion of the Kennedy assassination by a book, "Who Killed Kennedy?" by Thomas G. Buchanan, formerly of The Washington Star; also by a tour of Europe by Mark Lane, a defense counsel for Lee Oswald, who has been encouraged by Oswald's mother to stir up public opinion.

Lane has been traveling through Europe, forming "Who Killed Kennedy?" committees.

Meanwhile, the Warren Commission's report is nearing completion and should be published by mid-summer. It is certain to find that Lee Harvey Oswald alone was responsible for the assassination.

Israel's Water Miracle

In Israel I flew over the long pipeline and irrigation ditch connecting water from the Sea of Galilee down to the Negev Desert. It is an inspiring engineering feat.

Flying by helicopter, slowly over the one-time desert, you see below you a ribbon of blue water against a background of white concrete.

You also see clearly defined the boundary between Israel and Jordan. The reason it's so easily defined is that on the western side the desert is green; on the eastern side the desert is brown.

And below in Israel, you see thousands of fields with overhead irrigation sprinklers busy making the desert green.

Of course, this started long before the water was tapped from the Sea of Galilee. There are now 2,300 deep wells in Israel, some of them 3,000 feet deep, built at tremendous expense but now reaping a harvest in oranges, wheat, sorghum, and fruit.

I also visited the two huge pumping stations built underground which pumped the water a total of 1,200 feet from the Sea of Galilee, 600 feet below sea level, over a mountain range, to begin the long travel down to the Negev Desert.

In various Mediterranean countries, I heard the question asked: Will the Arab states attack when Israel begins pumping this water full force? To date, the water has been taken out for testing purposes, but the real flow will begin soon.

My own answer to this question is that there will be no attack on Israel. I came to this conclusion for two reasons:

1—The Israeli army is too strong. The Arabs know they cannot invade Israel successfully without atomic weapons.

2—Many Arabs have come to the conclusion that Israel is now here to stay. The Arab leaders will not admit this publicly but the man in the street is more realistic. He is also inclined to live and let live.

Unquestionably some of the more moderate Muslim leaders, such as President Boguiba of Tunisia, King Hussein of Jordan, and King Hassan of Morocco, are quite realistic about Israel. They would come out publicly for Israel if it were not for the whitewash of President Nasser of Egypt.

Israel's greatest fear today is the possibility that Nasser may develop rockets and nuclear weapons with the help of the Nazi scientists now working in Cairo. But until that time, the waters of the Sea of Galilee will be tapped without fear of reprisal from the Arab States.

## Goldwater Seeks Show-In

Gov. Scranton's advisers now admit privately that they started 90 days too late. They should have begun two months ago wooing delegates if they wanted to overtake

## PROCLAMATION

WHEREAS, a secure community, a secure State and a secure Nation are but the embodiment of a secure people, and

WHEREAS, the security of our people is contingent in great measure upon their personal financial stability which, in itself, is the product of sound habits of thrift, and

WHEREAS, this stability is reflected in the willingness of the people to share in the wise management of our Nation's debt structure, and

WHEREAS, all these things—personal financial stability, the development of habits of thrift, the sharing in America—are exemplified in the systematic purchase of United States Savings Bonds, and

WHEREAS, a nation-wide effort to focus even greater attention upon the role of Savings Bonds in building security for the individual and security for the Nation is about to be launched under the leadership of patriotic volunteers.

NOW, THEREFORE, I, Jerre Jordan, as Mayor of the City of Halls, Tenn., do hereby proclaim that the period from now until July 4, 1964, be set aside as the time for time for

## OPERATION SECURITY

and I do further urge that all of our citizens take advantage of this special occasion to re-examine the opportunity afforded them by United States Savings Bonds to build added security for themselves in a manner that contributes so importantly to the greater security of their Nation.

## Miss Lewis, Mr. Carmack Say Marriage Vows

Maratha Baptist Church at Toulon was the setting for a lovely summer wedding, when Miss Alice Fay Lewis and James Michael Carmack, exchanged vows Friday evening June twenty-sixth. The bride is the daughter of Mr. and Mrs. Bernard Lewis, of Gates, and the groom's parents are Mr. and Mrs. Winston Carmack, of Corve.

The Reverend Robert H. Lowrance performed the double ring ceremony at eight o'clock.

Wedding music was provided by Bill Kelley, organist, and Miss Kathy Daws, vocalist.

White bridal gowns in beaded candelabra entwined with huckleberry formed an effective background for white violet floor baskets filled with white gladioli, stock and majestic daisies and adorned with huge white satin bows. The families' pews were marked with white satin bows.

The bride, who was escorted by her father, wore a wedding gown of Chantilly lace over bridal white satin. The bodice featured a portrait neckline formed of natural scallops of the lace outlined with seed pearls and long sleeves, embroidered with pearls which fell in calla points over the hands. The soft pleats, encircling the waist of the skirt, fell gracefully into a chapel train.

Her bouffant veil of misty illusion was attached to a flowered headpiece and she carried a white Bible on which was arranged a white orchid and white satin streamers.

Serving as honor maid was Miss Alice Fern Parrish who was gowned in a street length frock of pink peau de soie. She carried a bouquet of pink carnations.

Mr. Carmack served his son as best man.

The bride's mother wore a twilight blue two-piece jersey dress for the wedding. Mrs. Carmack was becomingly dressed in a pink tulle frock.

The couple is making their home at Forked Deer. Mr. and Mrs. Carmack are both employed by Universal Electric Co. in Ripley.

### Edith Club With Mrs. Geo. Crews

The Edith Home Demonstration Club met Tuesday, June 23rd, in the lovely home of Mrs. George Crews.

The meeting was called to order by the president, Mrs. Dewey Criff.

Atty. Thomas Caldwell, of Ripley, was guest speaker and gave an interesting talk on "Deeds and Wills."

The devotional was given by Mrs. Raymond Scoggins on "Christian Citizenship."

Ten members and three visitors, Mrs. Elaine Bratcher, Mrs. Dick Laure and Mrs. Marvin Biddick, were present. Mrs. Green served delicious refreshments.

The meeting adjourned to meet in July with Mrs. Henry Eney.

### TRAIN STRIKES TRUCK

An Illinois Central Railroad locomotive moving west on tracks near Dyersburg at 4:30 p. m. Tuesday struck a truck parked on the tracks by Stanley Platt, of Route 2, Ripley, knocking it into a city-owned 1963 Chevrolet parked alongside, according to Dyersburg police.

### But Why Is Called A Heat Pump?

Because it pumps heat.

Similar to the operation of your electric refrigerator, this machine pumps heat out of your home in the summer. Furthermore, it pumps heat into your home in winter. Yes, it's one marvelous unit — for a year-round heating and cooling system.

It could have been called something else — such as "Weather-maker" or "Comfort Conditioner," but a heat pump is what it really is. And in its simplicity, it provides the most modern means of home heating and cooling available.

Contact your dealer for the full heat pump story. He'll give you installed costs and operating information.

### FREE PLANNING SERVICES

As an added service, we will work with your best pump contractor to design your best pump installation. This service includes making a complete layout for the system you select.

## DON'T YOU READ BEFORE YOU BUY?

Where but in print can you get so close to the advertising messages that interest you? Where else can a woman clip the coupons and recipes that intrigue her? Or tear out tips to try on leftovers? Or mark, for future marketing, any of the colorful food ideas which strike her fancy? And where else can she circle and compare the colors and styles of clothing and furnishings that appeal to her? Where else, in fact, can any message be re-run at will by an interested audience? So make sure a good part of your advertising message gets into print. Let somebody's eyes linger over it as long as they like. Let somebody's scissors clip it free of competition. And then watch someone's pocket or purse carry it to the place of purchase. Print makes sense because print makes sales.

FRANK PORTIS, Chairman

Notice of ELECTION of Delegates to the Limited Constitutional Convention

By virtue of the authority conferred upon me by Chapter 3 of the Public Acts, Extraordinary Session of 1963, and in accordance with the provisions of said Act, I, Joe C. Carr, Secretary of State of Tennessee, hereby give notice of an election to be held in every county and federal district of the State on Thursday, August 6, 1964, to elect delegates to a Limited Constitutional Convention which shall assemble at the Capitol in the City of Nashville on July 26, 1965.

Any citizen of the State who can qualify for membership in the House of Representatives of the General Assembly of Tennessee may become a candidate for Delegate to the Convention upon filing with the County Election Commission of his county on or before July 7, 1964, a nominating petition containing not less than twenty-five (25) names of legally qualified voters of his or her county, and in the case of a candidate from a federal district, completing more than one county, only one qualifying petition shall be filed by the candidate, and that in his home county, with a certified copy thereof filed with the County Election Commission of the other counties of his federal district.

Each county and federal district shall elect one Delegate for each representative to which it was entitled in the House of Representatives of the General Assembly at the time of passage of Chapter 3 of the Public Acts, Extraordinary Session of 1963, to wit:

Confidential Corner

By Henry Marchant

Opal Ralph's Mistake

Ralph may be so deep in the dog

house it would probably take him

three weeks to walk out.

Ralph and Lucy (Mrs. May) moved

during the weekend to a house on Circle Drive.

Diagnosed with moving, Ralph decided

that he would get rid of the "junk"

that he had accumulated.

After dark Sunday night he took

several boxes of old clothing,

suspense, etc., to the garbage

dump and threw them out.

Just one thing was wrong. Lucy

had left most of her crystal and

china—largely wedding gifts—

packed in a box with some old

clothing for sale for protection and

to take with her to the dump.

Early Monday morning Lucy

realized something was wrong

and she found out about the wed-

ding gifts and that when the

trouble began. She rushed to the

garbage dump and found her

THE BIBLE SPEAKS

God the Deliverer

Lesson for July 19, 1964

Most men have their own favorite "image" of themselves.

God never calls himself to think of him.

God is always for freedom.

God is both impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

God is impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

God is impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

God is impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

God is impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

God is impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

God is impartial and partial.

God is impartial, that is, he does not favor one side.

God is partial, that is, he does favor one side.

Bill Bills Social Security Aid, Taxes

Now Assisting One Countain In Eight

House Proposal Would Increase Present Benefits By 5%, Require 3.8% Tax Rate Next Year And 4.8% In 1971.

The U. S. House Ways and Means Committee has approved the final version of legislation increasing Social Security benefits five per cent for nearly 20 million retired workers, widows, and disabled persons.

These include one of every eight Lauderdale County residents, according to M. Harris Vaden, manager of the Dyersburg Social Security office.

Vaden listed the number of Lauderdale County beneficiaries at 2,804 at the end of 1963, an increase of 144 over the corresponding figure at the beginning of 1963.

Retired workers are the largest single group of Social Security beneficiaries in the county. There are 1,471 in this group, and their old-age insurance benefits total \$7,052 monthly.

Vaden says the number of Social Security beneficiaries will continue to increase in the future, but at a much slower rate than in the past.

He says that, nationally, Social Security rolls increased from about five million people in 1954 to more than 19 million at the end of 1963.

This rapid growth in the beneficiary population resulted from major amendments in Social Security Act from 1950 through 1961.

The House bill contains provisions for further extending coverage to make 500,000 people in their 70s or older eligible for the first time for a monthly Social Security pension.

Those eligible for this benefit would be elderly persons who do not qualify for Social Security payments because they had not worked long enough.

Now without a pension, full short of a Republican-sponsored plan to make 1.5 million people aged 72 or older eligible for Social Security benefits for the first time.

The 25-member committee decided to drop its long attempt to devise a compromise form of the administration's proposal for hospital insurance for the elderly financed under the Social Security system.

The measure containing the straight increase in Social Security cash benefits probably will go to the House floor in late July, but it will not be passed until after the Medicare plan to add hospital insurance to the Social Security system.

This measure proposed an advance in the Medicare program which rests with the Senate. Senate backers of Medicare undoubtedly will attempt to tack on to any House-passed Social Security bill a hospital insurance provision, and the measure will be introduced in the House to go along. However, this measure...

Telephone Talk

By ROGER GANER, Your Telephone Manager

All but 800 telephones in the Ripley Exchange have been changed to the dial type telephone.

Outside plant such as cable and open wire routes are all on schedule, too. We will be ready for the change to dial by October 18th.

New telephone numbers are being assigned to each telephone line in Ripley. These numbers will have seven digits, for example, 635-2368.

We have had a number of requests for advance assignments of telephone numbers. Telephone numbers represent actual equipment and many factors must be taken into account such as balancing the equipment so that calls will be completed during busy hours of heavy traffic.

Business telephones are generally used more than residence service, so first consideration is given to this class of service. The number assignments for business customers are spread throughout the dial equipment so that a proper balance can be obtained and calls will go through quickly and efficiently.

Then, too changes in number assignments are necessary right up until the time of the conversion. These are some of the reasons why advance number assignments are not desirable.

We want to express our appreciation for the interest and cooperation that we are receiving from our Ripley customers which has meant a great deal to us in keeping our program on schedule.

No Item In Paper? Cuss Father Time

There's always more news than space to print it. The dust-covered item sent in too late for its proper publication date—and that means the first one after the event—can't be used, date, with-out robbing space from another week's new news...

Even during the proper publication week, a flood of last-minute items exceeds the physical capacity of equipment to set it into type before the press rolls. Items are then out, or cut out, to fit the type setting time still available...

We try hard to avoid disappointing anyone who submits material, but we must ask that you submit it just as early as you possibly can. Monday is excellent, Tuesday is satisfactory, Wednesday is difficult, Thursday is doubtful (unless the news has just developed or unless it holds major importance), and a week later is hopeless...

In order to meet deadlines and deal fairly with all those who deserve news coverage, we request your cooperation. It will result in better presentation of your material.

## THE MOST SENSATIONAL PARIS SPRING FASHION was the Chanel coiffure (left) with a bow in the back, which its creator, Rene Goujean, has decreed is now passe, or out of style. The reason? Too popular. Goujean's new version (right) places greater emphasis on the bangs by using a broader hairband and side bow.

## Mrs. Harry Sutton Hostess To Club

The Gates and Dry Hill Home Demonstration Club met July 16th in the home of Mrs. Harry Sutton.

Mrs. William H. Hartman, vice-president, called the meeting to order. She gave the devotional and read the club creed.

Five members and three visitors answered roll call with "My favorite season of the year." The secretary read the minutes and gave the treasurer's report.

Mrs. Alvin Boyer gave an article on soaps and detergents.

Mrs. Harry Sutton gave an interesting book review, "Daughters of the Gold Rush" written by Klondy Nelson.

The meeting adjourned, Mrs. Sutton played some recordings of the club.

The hostess served a delicious party plate with punch.

Call Girl Disappointment

A check on the list of 2,000 customers of call girls, recently acquired by the suburban Maryland police, has proved disappointing—at least as far as big names are concerned.

If any Senators or Cabinet members were involved in the call girl patronage, they operated under other names—with one exception.

That one exception is a very handsome young Senator from the South, rather well-known as a glamour boy.

But as far as any great conspiracy to have call girls sent to Senator Johnson is just as anxious to prevent disorder and crime in Mississippi as any Northerner.

Gov. Johnson was elected on a segregationist ticket, defeating moderate ex-Gov. Jim Coleman, who is a personal friend of Lyndon Johnson's. They served together in the House of Representatives as secretaries to Congressmen.

However, though Lyndon Johnson was personally disappointed at Coleman's defeat, he has appreciated the cooperation given him by Gov. Johnson.

Paul's grandfather was also Governor of Mississippi, and Mississippi negroes say that he did more to advance their cause than any other governor in history.

Mrs. Johnson's problem is at the county level. He has difficulty controlling local sheriffs and deputy sheriffs, who are close to the White Citizens Councils.

Note: U. S. Attorney General Robert Kennedy has sent the so-called "Holla task force" to Mississippi. This is the small army of Justice Department sleuths which the Attorney General used to get

## DON'T YOU READ BEFORE YOU BUY?

Where but in print can you get so close to the advertising messages that interest you? Where else can a woman clip the coupons and recipes that intrigue her? Or tear out tips to try on leftovers? Or mark for future marketing, any of the colorful food ideas which strike her fancy? And where else can she circle and compare the colors and styles of clothing and furnishings that appeal to her?

Where else, in fact, can any message be re-run at will by an interested audience? So make sure a good part of your advertising messages gets into print. Let somebody's eyes linger over it as long as they like. Let somebody's scissors clip it free of competition. And then watch someone's pocket or purse carry it to the place of purchase. Print makes sales because print makes sales.

COOLNESS is for summer  
WARMTH is for winter

**ELECTRIC HEAT PUMP** gives you BOTH

Your home's prepared for any weather, any temperature, any time . . . when it has an electric heat pump. This is the one-unit, year round air conditioning system that "pumps" coolness into your home in summer, warmth in winter.

This electric heat pump costs less to operate than separate heating and cooling systems. It's more convenient than any other system. With one setting of a thermostat, you get the temperature you want . . . you get cleaned, dehumidified air — summer, fall, winter, or spring.

Prepare your home for any-season comfort. See us or your electrical contractor for full details about an electric heat pump installation.

**THE RELIGION of the Jews**

is a part of our own, if we are Christian. Their Bible is a part of our Bible and the New Testament cannot be understood apart from the Old. This is not saying we all have to be Jews before we can be Christians.

In the most basic matter of all, the Jewish-Christian line is clearly different from other religions; namely, in what we call the pattern of religion. The line that runs into what a "religious" man would be expected to do. It is not true that all religions are much alike. Ours is sharply different from others. What would a "religious" man do (say five hundred years or more before Christ) had done if he were a religious man? What you would have noticed about him would have been how often he mentioned some god's name, asking him to bless what he was about to do. Also you would have noticed how often he made a "sacrifice" of some sort even if no more than a pinch of incense or a drop of wine poured on an altar. In an Indian city this writer has seen a little stone hill on the outside of a temple. The hill's neck was wreathed in orange-colored flowers—the sacred color there—on which various poor worshippers had left their that morning as a religious duty. You may see the Greek idea. The gods were there to help you or hurt you, and you kept them on your side by frequent requests and frequent offerings.

Well, it wasn't only Greeks or Indians, many religions with variations of detail follow this same pattern in essentials. You are called by God and he will do right by you. In practice this was like the ordinary law-abiding citizen's attitude to courts and courts men. He stays away from them as far as he can. He respects the laws, but he stays away from the lawmakers and the law-enforcers. The last thing he wants to see is a policeman at his front door to tell him the Judge wants to see him!

**What is special about our religion?**

Of course the Jewish and Christian religions are not the same; but they do have several points in their "pattern," as we are calling it, which stand out as quite different from the more usual pattern as the Greeks and Indians—among many others—have practiced it. First and most basic, the other patterns can be summed up there: If I do enough for God, he is bound to do something for me. In the Hebrew-Christian tradition, this is turned around: God has done much for us, therefore let us do all we can for him. In their pattern, religious acts (i.e. acts which are called religious) are inducements to the gods to come over to our side. In our pattern, religious acts are acts of gratitude for what God has done for us. (For the Hebrew the great thing God did was to get them out of Egypt; with us, the great thing is God's coming to us in Christ.)

**"The ethics of response"**

Another strand in the Jewish-Christian tradition is this: whereas in other religions a religious act may be altogether unrelated to a man's daily conduct, in our pattern we show our gratitude to God not only by loving him but by obeying his will in all the affairs of daily life. A man who does not love his brother cannot love God. Man does not earn God's protection and favor, he does not deserve it; but man, the unworthy, lives for the God who freely saves him. This is called by Christians the "ethics of response." The old Hebrew name for this pattern of religious living is "covenant." The Ten Commandments are presented not as arbitrary rules, but as a pattern of human response to the God who has already reached down to us.

**Here's Why We Should Elect . . .**

**FRANK G. CLEMENT**

to the U.S. SENATE

**Record as Governor:**

- First free textbook system.
- First separate Department of Mental Health.
- First "AA" bond rating.
- First removal of mortgage provision for welfare recipients.

**Senate stands:**

- "I . . . will continue to work for the full benefits envisioned by our constitution for all of our citizens."
- "In the future, or in the past, I shall remain the strong friend of TVA."
- "The President has made a forthright and courageous declaration of war on poverty, particularly in the Appalachian area. I support that program without reservation."
- "I will propose that a new and fresh look be taken on existing and proposed legislation, with a view to the development of a sound, workable and realistic program which will meet the needs of our Senior Citizens."
- "It is imperative that we, as a nation, preserve our foreign affairs with firmness and with courage."
- "Our farmers need loyal and attentive service and I pledge my best efforts to their behalf."
- "When I am elected to the Senate of the United States, I shall make a continuing effort to assist the small businessman in the relief of his problem."
- "This will be an honest campaign by an honest candidate before an honest people."

**I AM A CANDIDATE FOR REPRESENTATIVE OF LAUDERDALE & CROCKETT COUNTIES**

**FRANK GARNER**

If privileged to serve as your Representative from Lauderdale and Crockett Counties, I will be in favor of the Tennessee Education Association program.

As an operator of a small business and with farming interests, I feel that I am in position to know the problem facing these operators.

Also, we have been advised that according to the present law, the next County Judge of Lauderdale County will have to be a lawyer. This requirement can be changed by taking away a part of the jurisdiction of our court.

I intend, as your Representative to the State Legislature, to call this new law to the attention of the Quarterly Court and request their instructions on what changes may be needed in our court. The magistrates must approve any change in our local government, therefore I would like to know the feeling of the court and majority of the people on this and all other issues before going to Nashville.

Telephone Talk  
By ROGER GANIER  
Your Telephone Manager

THE FIRST TELEPHONE CALL IN HISTORY BETWEEN DEAF PERSONS took place on January 27, 1964. The call, placed in Washington, D. C., was carried to Northridge, California, by Electrowriter and Data Phone. This equipment changes handwriting into tones in order to transmit it from one location to another. When the message reached its destination, it was changed back into handwriting to be read by a group of students studying under a special grant from the Vocational Rehabilitation Administration. This is another in a series of developments which help make it easier for handicapped people to communicate and to participate in a full and normal life.

Know a product, but not who sells it? Know a dealer's name, but not his address? Need a special service, but don't know where to get it? Try this famous encyclopedia of products and services:

50 YEARS AGO A TELEPHONE REPAIR SUPERINTENDENT drew up a set of rules to guide his men in their work. This was part of his advice: "Treat everyone as you like to be treated, but don't forget your horse. If you want to know the horse's side of it, just take off your coat and hat some zero day, hitch yourself to the same post with your belt, and stand there about two hours. Be courteous and polite, and don't be afraid to hand out a little jolly occasionally. It doesn't hurt anybody's feelings to be jollied a little." While the advice about the horse is now a little out-of-date, the second part still applies. Guiding principles for telephone people today still include "a little jolly," only we refer to it as courtesy, politeness, and friendliness.

A MINUTE MAY SEEM LIKE A LONG WHILE to wait for someone to answer the phone, but seconds fly if you're running in from outdoors or another part of the house. So give folks time to get there. About 10 rings (1 minute) is enough. And while we're on the subject... extension phones in convenient places make prompt answering a lot easier. It's a pleasure to be able to reach instead of run when the phone rings, and extension phones make this possible.

NOTICE OF PRIMARY ELECTION  
DEMOCRATIC PARTY

As required by Tennessee Code Annotated, we, the undersigned members of the Board of Democratic Primary Election Commissioners for Lauderdale County, Tennessee, hereby give notice that a Democratic Primary Election will be opened and held in all the voting precincts of Lauderdale County, Tennessee, on
