Confidential Corner

By Henry Murchison

Board Chairman Agrees

Your editor appreciates the following letter which he received this week from Joe H. Walker, Jr., Lauderdale County Board of Education chairman. "I greatly appreciate your stand on the school opening date in your 'Confidential Corner.'

"I do not believe that you could have improved the wording, and especially your opening sentence. I hope every one in the county has the opportunity of reading same."

Very truly yours,
Joe H. Walker, Jr.

Another Letter Appreciated

We also have recently received a letter from Miss Hope Hart, thanking us for the publicity given her at the time of her retirement. Miss Hart has served the Eighth Congressional District and its Congressmen, Jere Cooper and Robert A. Everett, as secretary for 36 years, and we doubt that any one in Washington is better acquainted with the ins and outs of daily political life in the Capitol.

Rep. Everett and the Eighth Congressional District will miss her helping hand.

Landmark Will Be Missing

Members of the Chestnut Bluff Christian Church began work this week on razing the old frame church building and replacing it with a modern concrete block structure.

Because records of the church were destroyed in a fire a few years ago, no one seems to be quite certain just how old the frame building is; but one 74-year-old member says that he has attended services in the building all of his life, and he is sure that the building is more than 70 years old.

One memory that your editor has dates back to the middle 1820's, when a house next door to the church building burned, exploding a case of dynamite at the rear of the house and hurling a timber entirely through the walls of the building. Marks from the timber remained visible for many years.

Traffic Box Score

For the second week in a row, the traffic death toll showed an improvement, with total deaths this year 877 compared to 896 last year. This is a 4% increase, with figures two weeks ago revealing an 8% increase.

All this is fine, but still more are dying on the highways, and traffic fatalities reported this week seem likely to start the trend in the wrong direction again.

Tractor Accident Hurts Boy Badly

Robert William Turner, Jr., 15, son of Mr. and Mrs. R. W. Turner, of Forked Deer, is in critical condition in Baptist Hospital in Memphis with severe head injuries received when a tractor he was driving struck a stump and overturned about 7:30 a. m. Monday. A disc struck the youth's head, and he had not regained consciousness Thursday.

Harry Thurmond

Harry Thurmond, retired farmer near Halls, died Sunday in Cook County Hospital in Chicago, Ill., which he had entered Friday. He was 78.

Services were at 2:30 p. m. Wednesday in Halls Funeral Home, with burial in Concord Cemetery. He had been ill several years.

Born in Lauderdale County, he moved to Chicago about ten years ago. He was a member of Edith Methodist Church.

He leaves four sons, T. D. Thurmond, of Ripley; Kenneth Thurmond and Ralph Thurmond, both of Fortville, Ill.; two daughters, Mrs. Cornelia Melvin, of St. Louis, Mo., and Mrs. Bernice Wiseman, of Duncan, Okla.; ten grandchildren; and three great-grandchildren.

Mrs. Brantley

Mrs. Myrtle Ray Brantley, 79, wife of Dupree Brantley, Curves farmer, died suddenly at 2 p. m. Saturday at her home at Curves.

Services were at 2:30 p. m. Sunday in Curves Baptist Church, of which she was a member. The Rev. Don Allen and The Rev. Charles Owens officiated. Burial was in Concord Cemetery, Ripley Funeral Home in charge.

Mrs. Brantley was born at Curves. She also leaves two sons, Earl Conaster, of Brownsville, and Harvey Kirby, of Burbank, Calif.; two daughters, Mrs. Levead Young, of Halls, and Mrs. Raymond Bealman, of Gates; three brothers, Tom Ray and Charlie Ray, both of Ripley; and Cecil Ray, of Gates; 15 grandchildren; and 26 great-grandchildren.

EQUIPMENT IS ISSUED by Coach Glynn Russell (center) to Freddie Williams and Butch Baker, while John Vaden awaits his turn. Twenty-eight boys have been issued equipment, with several others expected to report for practice next week.

TRYING OUT EQUIPMENT, left to right, Andy Pugh, Bubba Stallings, Tommy Elmore, Mackie Maclin, Wayne Hilliard and others prepare for opening practice for the 1965 season. The Tigers will host Alamo Sept. 4th in the opening game.

Spider Mite Spots Seen In Cotton At Orysa & Central

Growers Should Watch For Two Types, Both Favored By Hot, Dry Weather

By H. H. Paschal

Hot, dry weather has favored the fast spread of spider mites in cotton, and although no widespread infestations have been found, some have been noted in spots at Orysa and Central.

Producers should check for these mites, especially near old fence rows, barn places, and thickets—especially where poke stalks can act as host for these insects.

Two types of mites have been found. One is the mite which causes scarlet blotches of color on top of the leaves, near the center. Another type causes the leaves to look brown-speckled on top, without the show of any scarlet color.

The most effective insecticide is Demeton, a very poisonous material which must be applied with careful precautions, followed to the letter.

Cotton Growers Concerned

Cotton producers are discussing with much interest a cotton program now being considered by the Congress, which calls for a minimum of 15% reduction in acreage while leaving the opportunity for growers to produce an unlimited amount of cotton, if they choose.

Secretary of Agriculture Orville Freeman says every person concerned with cotton, from grower to consumer, should face up to the crisis confronting this vital fiber. He says that since World War II consumption of man-made fiber has increased from 9.2 to 24.7 pounds per capita, while cotton consumption has declined from 31.5 pounds per capita to 22.6.

He adds that foreign production last year reached an all-time high of 36.4 million bales and predicts that this will continue to increase rapidly unless American cotton becomes more competitive.

Farmers are increasing the average yield per acre each year, and this is necessary to hold down the cost of production per pound; but this makes it logical for acreage to be reduced to keep total supplies in line with prospective demand.

Farmers have been working for several years with cotton ginners, warehousemen, spinners, oil mills, cotton merchants, and cotton co-operators, through the National Cotton Council, to finance research to add more desirable qualities to cotton and thereby increase demand for it.

Fall Calf Sales Planned

Russell Evans, chairman, and Anthony Elbert and Pat Parker, Jr., of the feeder calf sale committee of the Lauderdale County Livestock Association, urge cattle producers to sign up yearling steers for a sale Sept. 17th and Hereford and Angus feeder calves to be sold in October in the cooperative sales sponsored by the Brownsville Feeder Calf Association.

Calves will all be inspected at farms during August. They may be signed up by calling a member of the committee or the county agent's office at 835-6551.

Report To Soil Testing

Arlio Flowers, of Pleasant Hill, has prepared a report on soil test oil from a report in a cotton field where the plants never grew more than a foot tall.

The report showed the pH of the soil to be 4.5, although it was medium to phosphate and high in potash. The soil needed at least four tons of lime per acre in order to make normal yields of cotton.

This extreme low pH of 4.5 is the type of situation where man-

Phone Exhibition Trailer Visiting Next Saturday

Roger Ganier, local manager of Southern Bell Telephone Co., has announced plans for the Southern Bell "Telephone Land" trailer to be on display in Halls from 9 a. m. to 4 p. m. next Saturday, on Main St.

The trailer contains a television camera and monitor, which shows how the telephone company furnishes video and voice channels for network broadcasts.

A small Telstar model is on a wallboard.

A wall panel picturephone of the future is displayed.

A teletype machine which prints from an endless tape demonstrates the latest in that kind of equipment.

A card dialer and a sodaphone are connected to power for demonstration purposes and can be connected to telephone numbers, if desired.

A voice mirror is located about the center of the trailer and is always a center of attraction.

A wall display shows a variety of cable sizes, in short sections, and an open splice.

Another wall display contains the many parts of a hand set telephone, with a diagram showing how the voice is transmitted.

A wall mounted missile display contains models of rockets (Nike, Nike-Hercules, Vanguard and Atlas) from the "Adventure in Space" lecture-demonstration.

A connector from a step-by-step dial office is connected with two telephones. One telephone dials two digits and the other one rings.

Several types of old and new telephones are displayed in the rear of the trailer.

The final exhibit is a laser set-up, demonstrating music traveling over a light beam.

ganese toxicity can almost prevent profitable yields of cotton.

Mr. Flowers plans to apply lime to this soil this fall.

This is a good example of the manner in which soil testing service is of real help to farmers in determining the needs of their soils.

Halls Board Sets Tax Rate At \$1.75

In a routine meeting Tuesday evening Halls' board of aldermen approved a city tax rate of \$1.75 for the coming year.

Aldermen E. O. Dew, Harold Hart, Paul Jordan, Dorris Rodgers, and Grover Smith were present, along with Mayor Jere Jordan.

The board also:

- Heard Mayor Jordan name a committee of Smith, Viar and Rodgers to work out agreement with property owners on a retaining wall on Tigrett.
- Named Harold Hart as finance chairman to work with Mayor Jordan and Mrs. Charles Alsbrook, city recorder, to determine best means of financing street work.
- Voted to donate \$200 to the Halls Cemetery Association.
- Requested Mayor Jordan to consult with the public health department about improved mosquito control.
- Took under advisement requests that garbage pickup be made behind homes and business houses. Decision was deferred until a study of costs can be completed.
- Instructed Chairman Dorris Rodgers and the police committee to study the possibility of a new location for the police station.

Mary Jo Parrish Is Home Betterment Winner For State

Mary Jo Parrish, daughter of Mr. and Mrs. David Parrish, of Gates, was named state winner Tuesday in the 4-H Home Improvement Program.

She will compete nationally in December for one of six \$500 college scholarships.

Her award was made at the state 4-H Club Round-Up on the University of Tennessee campus in Knoxville.

She won with a demonstration on making draperies, showing the methods she used in making new draperies for the family home after it was completely remodeled.

Judges complimented her on the excellent before-and-after pictures she had to show her achievements.

2,915 In County Get Increased Social Security Checks

With Medical Care Rights; Others Gain Eligibility; Payroll Taxes Mounting

Sweeping changes just made in America's Social Security program will have considerable impact on Lauderdale County, according to N. Farris Vaden, manager of the Dyersburg Social Security district office.

"The changes affect not only the 2,915 Lauderdale Countians who are receiving benefits from the program, but all who expect to receive them in the future," Vaden notes.

The major change is the addition of two related health insurance programs. Both become effective July 1, 1966. The first, a basic plan, provides protection against the costs of hospital and related care. After January 1, 1967, it also will include nursing home care.

The second is a voluntary supplementary plan that provides physician's services and other medical and health services to cover costs not covered by the basic plan.

"Nearly every person over 65 will qualify for the basic hospital benefits," says Vaden. Those entitled to Social Security or railroad retirement benefits will be automatically enrolled in the plan. It will not be necessary for them to go to the Social Security office to enroll.

All others may sign up for the hospital insurance benefit protection by making an application and giving proof of age. Application can be made at the Social Security office after Sept. 1st. An identification card will be issued to each beneficiary to use when he enters a hospital.

The choice of the hospital is entirely up to the patient and his doctor. The services provided include hospital care for as long as 90 days in each spell of sickness. The patient pays the first \$40 of the bill and after 60 days contributes \$10 a day toward costs.

When he improves and no longer needs hospital treatment, he can be transferred to an approved nursing home for a stay of as many as 100 days. There's no charge for the first 20 days. The patient contributes \$5 per day for each day thereafter.

If he does not need hospitalization but can be cared for in his own home, the program will pay for up to 100 visits by nurses, physical therapists or part-time homemakers in a year.

There are also allowances which pay the cost over and above \$30 of out-patient diagnostic tests.

To finance these benefits, a separate payroll tax has been set up. The contribution rate for 1966 is 0.35% and applies equally to employers, employees and the self-employed. For the period 1967-1972, the rate will be 0.5%. Earnings up to \$6,600 a year will be taxed.

The cost of providing these benefits to people who are not Social Security or railroad retirement beneficiaries will be met from general revenues.

The second plan, known as the supplementary plan, is designed to help older people pay for physicians' services and other health services.

These include an additional 100 home visits by a nurse or health worker each year; the services of specialists in pathology, radiology, physical therapy and anesthesia; costs of ambulance, surgical dressings, prosthetic devices, and certain dental surgery.

This plan pays 80% of all such costs above a \$50 annual deductible. But, unlike the hospital insurance plan, membership in this plan is not automatic. It is voluntary and calls for contributions of \$3 per month which will be matched by the federal government.

Nobody Told The Wags Recently a columnist in a Memphis newspaper has come forth with rumors that wags will not sting in August.

All we know is that if this is true, somebody forgot to tell the wags, because we were unfortunate enough to be stung twice Thursday morning.

Wags are highly allergic to a wasp sting, we have been feeling pretty rough.

Will some one please tell the wags that they are not supposed to sting during August? We would feel much safer.

Neil in Memphis Since Neil entered St. Joseph Hospital in Memphis Wednesday, we have been quite busy, so that we may have overlooked some news items which we should have known about but didn't. Please forgive us if this is true, and thank to those who have been cooperative in compiling information for us.

Incidentally, so far as we know Neil is not seriously ill and should be able to come home within two or three days.

Traffic Box Score Despite the fact which we expressed last week, the highway death toll in Tennessee showed a drastic improvement.

The death toll now stands at 696 through Aug. 6th, as compared to 800 over the same period last year. This is only a one per cent increase and a decided improvement during recent weeks.

Let's keep in mind that you as a motorist are really the only means of cutting the highway death rate.

DEATHS Miss Zora Follis Miss Zora Follis, of Fowling, died at her home in Ripley, Tenn., at 9:30 p. m. last Friday in Gourley Nursing Home in Dyersburg, where she had been for several months ago. She was 85.

Services were at 2:30 p. m. Sunday in First Methodist Church, with burial in Fowling Cemetery, Ripley.

Mr. and Mrs. Eugene Purnell and son, David, of Memphis, spent Tuesday night of last week with Mr. and Mrs. E. M. Voss.

Mr. and Mrs. H. L. Hutcheson and daughter, Miss Patricia Hutcheson, spent the weekend in Memphis with Mrs. Hutcheson's parents, Mr. and Mrs. A. A. Coffman.

Mr. and Mrs. W. C. Caldwell is in Baptist Hospital in Memphis.

Mr. and Mrs. E. J. Pennington had as guests over the weekend Mr. and Mrs. Jerry Wright and children, of Nashville, and Mrs. Gene Jordan and son, Gary, who remained for a longer visit.

Penningtons and Wrights were joined by Mr. and Mrs. Dan Wright of Elizabethton, and Mr. and Mrs. Colin Marshall of Memphis, for dinner at Reelfoot Lake Saturday.

Charlotte Service—It is true, and we could keep on adding names to the roll of those who have proved it true, that we grow by serving, but not all kinds of service are alike. A business man may open a liquor store and win many friends that he has to move to a larger store. He may be a dope peddler and very much more after by young clientele, but he would say that is Christian. We get along without people whose offerings to society are mostly to encourage sale. But the highest service to society is honestly to be called Christian. It is at the high Christian life that the principle of growth by service becomes most clear. There is an act of service unmistakably Christian. First of all, honesty is Christian. It is a hospital reminds us of Christ's words, but a syphilitic formed to furnish murder is obviously not Christian. There was a famous Japanese Christian named Toyohiko Kagawa who was one of the world's most widely known writers; but what made him great was not his writings. It was his going down, himself victim of more than enough diseases to kill him, — down into Tokyo's most wretched slum and there living as a poor man, believing that a "hot heaven into a most unpromising one has their gift. But if the Lord gives you children of your own, or by your choice, let them (if you will) give you all the belongings of the gift of being a good parent. There is no situation in life where Christians are needed, Christian firmness of character. There is no situation where a father good father or mother. On the other hand, there is no greater service parents can render than maintaining a home where (to speak) the climate is right for Christian living. What your community, your business, or neighborhood needs most of all is better people. There is no greater service than to guide the growth of human bodies. But children are not the only growing things in a home. In the very process of rearing the children God has given them, the parents too will grow. "Inasmuch as you led it to the head of these years did it to me" — a Christian grows by helping others grow.

Must Be Obeeyed

From recent observation, it seems to us that many Halls people are ignoring the stop and go light at the intersection of West Tipton and Calmen Sts.

While running through the light is always dangerous, it will be more particularly so with the opening of Halls schools next week.

Seems to us that city officials would do well to make a particular effort to see that the light is obeyed.

Los Angeles Riots

While there is nothing at all amusing about the Los Angeles, Calif., riots—only alarm and regret—we cannot help but be amazed and even slightly amused by the frantic efforts of some California officials to place the blame on the South. It would seem to us that Los Angeles, along with Chicago, Ill., and Springfield, Mass., should do well to look to their own problems and spend less time harassing the Southern states.

Space Still Delayed

The delay of the Gemini Five space ship should remind most of us that we cannot become too blasé about the space program because the danger of an accident or mistake is always present.

Personally, we cannot avoid a feeling of dread as time for take-off or landing approaches.

Traffic Box Score

The traffic box score continues to show improvement, as highway deaths this year reach 613, only three more than over the same period in 1964.

Later, unofficial reports said that the death toll for 1965 has actually dropped even further.

Continues to drive carefully, and remember that you, as a motorist, are the only means by which the death and accident toll can be cut.

Robert Jacob On Off Youth Corps Pay Roll Again

Eight Bad Check Warrants Bring Suspension; Hired Despite A Long Record

Robert F. Jacob, 36, former principal of Palmer-Turner Elementary School in Henning, has been suspended as an official of the Memphis Neighborhood Youth Corps after his arrest July 27th on eight counts of passing bad checks.

He is one of two \$4,800 per year education directors for NYC.

He was hired May 14th after he paid off other bad checks, totaling \$1,500, which had been subject of public outcry after Memphis officials announced his selection for the NYC post.

Officials had said that he would not be hired. No public announcement of his employment had been made.

The Commercial Appeal discovered and publicized Jacob's employment several weeks ago. He was fired, quoting Charles Fisher, NYC executive director, as saying, "I wish I had been informed of this before."

Highland 100 Club Hears MSU Coach In Ripley Meeting

Approximately 75 people, including out-of-town guests and many Ripleyans, heard "Bob" Murphy lead football coach at Memphis State University, speak in the first meeting of the Highland 100 Club in the Blue and White Room at Memphis State.

Murphy was accompanied by several officers of the Highland 100 Club at Memphis State.

He said Memphis State's first four games this season will be rough, as it will be playing three teams who defeated it last year. The Memphis State football team, plus Mississippi State, and Tulane—plus Mississippi State, a strong team.

Agave interested in joining the Highland 100 Club, an organization designed to promote Memphis State University football throughout West Tennessee, should contact Paul Dev in Ripley. Members have priority in ticket sales to all MSU games.

The next meeting of the chapter will be in Dyersburg about Sept. 1st.

Injuries Fatal To Majorette Struck By Coultan's Car

Joak Nunn, Halls Student in Miss. State, Charged in Accident At Columbus

Bonnie Jean Carr, 15-year-old majorette in the Lee High School band of Columbus, Miss., died Monday of injuries received about 6:30 p. m. last Thursday when she was struck by a car driven by Joak Nunn, 26, son of Mrs. and Mrs. Oliver Nunn, of Halls.

Funeral services were Tuesday afternoon in Columbus.

Miss Carr, daughter of Mr. and Mrs. W. H. Carr, of Columbus, was walking in a group of fourteen girls on U. S. Highway 82, near Columbus, when she was struck by the Nunn car.

Nunn, a senior pharmacy student in Mississippi State University at Starkville, said that he topped a rise on the highway he saw an automobile ahead of him, either stopped or driving at a very slow speed, and when he applied brakes, his car skidded out of control, striking Miss Carr, who was said to have been crossing the street to get to someone in the other car.

Nunn has been charged with reckless driving.

A hearing on the charge was set for Saturday in Columbus.

Teachers Gather, Schools Opening

Lauderdale County Teachers will meet at 9 a. m. next Wednesday for county-wide pre-school conference at Ripley High School and Lauderdale High School.

All children will register at schools next Thursday. The first full day of school will be Monday week.

Letters of instruction concerning school registration will be given each child next Thursday.

Dale Overton, Halls High principal, says high school students will register from 9:15 a. m. until noon and high school students from town will register between 1 and 3:30 p. m. All departmental registration will be completed by 5 p. m.

High school students are asked to assemble in the high school building for their pre-school conference. All teachers in Halls schools are asked to meet at 9 a. m. Tuesday at the high school building for a pre-school conference before they go to Ripley Wednesday.

Bloodbank Quota Last Day of Month

A quota of 125 pints— which requires 50 donors— is set for August 31st visit of the Red Cross Bloodmobile, which will be at first Methodist Church in Ripley from noon until 6 p. m.

The quota used 475 pints last year, 25 more than it gave.

The quota will not be continued from blood for all residents of the county donors, or not.

Donors must be over 18 and under 65 and have parents' consent if under 21 and unmarried.

Must Be Obeeyed

From recent observation, it seems to us that many Halls people are ignoring the stop and go light at the intersection of West Tipton and Calmen Sts.

While running through the light is always dangerous, it will be more particularly so with the opening of Halls schools next week.

Seems to us that city officials would do well to make a particular effort to see that the light is obeyed.

Los Angeles Riots

While there is nothing at all amusing about the Los Angeles, Calif., riots—only alarm and regret—we cannot help but be amazed and even slightly amused by the frantic efforts of some California officials to place the blame on the South. It would seem to us that Los Angeles, along with Chicago, Ill., and Springfield, Mass., should do well to look to their own problems and spend less time harassing the Southern states.

Space Still Delayed

The delay of the Gemini Five space ship should remind most of us that we cannot become too blasé about the space program because the danger of an accident or mistake is always present.

Personally, we cannot avoid a feeling of dread as time for take-off or landing approaches.

Traffic Box Score

The traffic box score continues to show improvement, as highway deaths this year reach 613, only three more than over the same period in 1964.

Later, unofficial reports said that the death toll for 1965 has actually dropped even further.

Continues to drive carefully, and remember that you, as a motorist, are the only means by which the death and accident toll can be cut.

Robert Jacob On Off Youth Corps Pay Roll Again

Eight Bad Check Warrants Bring Suspension; Hired Despite A Long Record

Robert F. Jacob, 36, former principal of Palmer-Turner Elementary School in Henning, has been suspended as an official of the Memphis Neighborhood Youth Corps after his arrest July 27th on eight counts of passing bad checks.

He is one of two \$4,800 per year education directors for NYC.

He was hired May 14th after he paid off other bad checks, totaling \$1,500, which had been subject of public outcry after Memphis officials announced his selection for the NYC post.

Officials had said that he would not be hired. No public announcement of his employment had been made.

The Commercial Appeal discovered and publicized Jacob's employment several weeks ago. He was fired, quoting Charles Fisher, NYC executive director, as saying, "I wish I had been informed of this before."

Highland 100 Club Hears MSU Coach In Ripley Meeting

Approximately 75 people, including out-of-town guests and many Ripleyans, heard "Bob" Murphy lead football coach at Memphis State University, speak in the first meeting of the Highland 100 Club in the Blue and White Room at Memphis State.

Murphy was accompanied by several officers of the Highland 100 Club at Memphis State.

He said Memphis State's first four games this season will be rough, as it will be playing three teams who defeated it last year. The Memphis State football team, plus Mississippi State, and Tulane—plus Mississippi State, a strong team.

Agave interested in joining the Highland 100 Club, an organization designed to promote Memphis State University football throughout West Tennessee, should contact Paul Dev in Ripley. Members have priority in ticket sales to all MSU games.

The next meeting of the chapter will be in Dyersburg about Sept. 1st.

Our Aim
dependable electric service at low cost
When you flip a switch, electricity must be there, ready to go to work. And it must work at a low cost.
This calls for dependable service, at rates everyone can pay. For this kind of service, we must use engineering foresight in estimating your needs for electricity, then build ahead to supply adequate power to fill those needs. We must constantly work to keep our power system in good operating order.
Even with these precautions, occasionally high winds or ice or vehicles may break our lines. When this happens, we rush to the scene of trouble, whatever the weather, to restore your service as quickly as possible.
We are rather proud of the dependability of our electric service. Electric service that you can count on to work for you, whenever you wish, at one of the lowest rates anywhere.
Serving you... with LOW-COST electricity.

Bass, Gore Spurn Chamber Plea On Open Shop Laws

Favor Permitting Majority Of Workers To Force All Into Union Membership

Both Tennessee's U. S. Senators have written the Ripley Chamber of Commerce, rejecting the Chamber's appeal for their support of the Tennessee right-to-work law in their current effort to repeal it through federal legislation in Washington.

The unions are seeking by repealing Section 143 of the Taft-Hartley Act, to end open shops in which workers may choose whether to join unions or not.

"My position is based upon my belief that uniformity in labor management law throughout the nation is desirable and that the free collective bargaining between employer and employee."

"I seriously question a policy which denies to both employers and employees in Tennessee a right enjoyed by employers and employees of most other states."

"I will, however, want to give most careful consideration to all aspects of the problem should the matter come before the Senate during this Congress. I appreciate having the benefits of your thinking on this matter, and I shall want to bear in mind the points emphasized in your letter."

63 YEAR DRIVER, 93, IN FIRST CRASH; TEST? NO

Warfare Wheeler Goes Back To Horse And Trap

MAIDENHEAD, England (AP)—John Harris, 93, was hailed into court on a charge of reckless driving and four catapult take-offs from the flight deck of the Lexington.

Harris admitted the collision but said it was a new car and the steering was a little stiff. "I didn't respond in the way I expected," he explained to the magistrate.

Harris said he didn't think he'd be after to take the test. "I guess I'll get around here after a while," he said.

2 DIE IN CRASH AT GATES

Two Flint, Mich., negroes were killed and four hurt about 10:15 a. m. Wednesday when their convertible, going north, failed to round a sharp curve a half mile south of Gates on U. S. Highway 51 and plowed through a field, through a fence, and into a front porch (below), spinning around to face west (above).

One of the car was hurled onto an adjacent house's roof. Dead are Jesse Earl Trotter, 18, and a three or four year old daughter of Matilda McGee, who was injured, along with her sons, Max, 8, and Stanley, 7—all three taken to John Gaston Hospital in Memphis after treatment in Lauderdale County Hospital. Mae Etta Love, 25, kept in the Lauderdale Hospital, was thought to have been driving, according to Highway Patrolman Joe Jacobs, returning to Michigan from Tylertown, Miss. The Buick struck the home of Andy Thurmond, negro employee of Tennessee Farmers Co-Op's fertilizer plant in Halls.

Edwin Carr, of Dry Hill, is not satisfied with the quality of pasture he gets from feces and lardine cover, especially on hill land, and he is trying some mixtures of Herds grass, or redtop, with ladino and orchard grass with ladino.

Tests at the University of Tennessee Experiment Station have shown that animals like orchard grass better than fescue, but it is more sensitive to close grazing. In other words, it appears to be absolutely necessary that the orchard grass be "grazed down close" to the animals and allowing it to recover. When an orchard grass pasture is "mowed" just one time, it may be ruined.

Lauderdale farmers will be interested in Edwin Carr's experience. Others might try to acquire to see how it works out.

Tennessee Sheep How To... Tennessee was declared to be a scabies-free state on sheep on June 30th, as a result of testing of flocks over the state during the last two years and elimination and treating of infested animals to eradicate the disease.

A total of 81 counties in the state have sheep, but numbers have been dropping in recent years. There are now only 2,730 flocks, including 12,000 sheep.

Foundation Seed Available... Extension entomologist is carefully checking crops over West Tennessee to become acquainted with the insect problems which are called cotton bollworms when they bite cotton, are beginning to feed on the tops of soy beans and soybeans. The insect is hard to kill if it is allowed to get too large in size before pesticides are applied.

It is advisable for farmers to check soy beans for the presence of any insects which are attacking in a new manner.

First report of cotton gland... This year's crop came Tuesday, to which A. M. Cook took soy beans on the farm of Mrs. Alta Hester at Halls, Tennessee, smoothed, planted April 16th.

Under Pressure
 Lesson for August 29, 1965

Background Scriptures: Ephesians 6:10-20
 James 4:7-10, 1 John 2:15-17
 Devotional: Psalms 24:1-2

YOU NEVER know what kind of stuff a man is made of till you have seen him under pressure. You never know what sort of Christian a man is until you have seen him under pressure. We all think we could do a better job of whatever we are doing if only we could get out from under pressure. But some pressure you will always find against you as long as you live. Not just the Dr. Foreman same, of course. What seems like terrible pressure at eight years old or whenever it was that the school-yard bully was making life miserable for us, is not the kind of trouble we get when we are worrying most about how to get money to pay the tax collectors. But pressure of some kind or other is following trouble, off and on if not every minute. The Bible does not promise freedom from pressure; it shows us how to stand up under it.

The Enemy
 A real Christian lives a hard life. That is, he is constantly under attack not to be a Christian. It is hard to believe that God should have enemies, but he does. And God's enemies are your enemies. This is just as true of a sinner as of a saint, a bad man and a good one. To put it as plainly as possible: God wants the human race to succeed; and there are enemies of God who are also enemies of the human race. Saint Paul's writings are full of the thought of the Christian life as a fight, a contest, a struggle. At the close of his life he says, "I have fought the good fight." He had many enemies; but in writing to the Ephesians he is plainly not thinking of human hostility, however dangerous that may be. He is thinking of super-human enemies — our wrestling is not against flesh and blood, he says. He calls our enemies "principalities and powers, world-rulers of darkness... spiritual hosts of wickedness in heavenly places." He does not explain what these are; but it is clear that the pressures on the Christian are most dangerous because their source is supernatural. The terrifying thought here is that we as Christians, as human beings indeed, are under attack by forces more ancient, shrewd and vicious than all our own powers can overcome.

What is of Stake?
 If you prefer to think, as many do, of the "devil" and all these "rulers of darkness" as figures of speech for strictly human forces, you can see Paul's point even so. Considering the many evil men in the world, all the forces pressing against the lives of decent people, whether Christian or not, to tear down their character and destroy their lives, you get a sinking feeling in the pit of your stomach. But why the hatred, why the pressure? What is at stake? Nothing less than your destiny and the destiny of the race. What hope is there for us?

Reinforcements
 Paul pictures for us just such a soldier as may have been standing guard at his cell at that very time. As he mentions each piece of the soldier's armor, he likens it to something that the Christian needs and uses in his fight against the pressures of evil day by day. The climax of it all is in two words: Stand, and Pray. Stand; don't run away; if you can't advance, at all events don't retreat. Don't compromise with evil, don't negotiate with the devil. ("He must have a long spoon who eats with the devil," as the old saying has it.) Don't start fighting tomorrow, stand up and fight now! But even with all the armor of God, even with the sword of the Word of God, you will still be a loser if you stand alone, so Pray! Pray; you are asking God for reinforcements.

CARD OF THANKS
 We wish to take this opportunity to thank those who were so thoughtful and considerate at the death of our loved one, Harrison Campbell. We want to thank the Rev. John Deist and the Rev. Edwin Hunter for their comforting words, the Halls Funeral Home, the Baptist Church choir for their beautiful music, and all those who sent flowers, food, cards, or in any other way helped during this time of sadness. May the Lord bless each of you.

CARD OF THANKS
 I wish to take this opportunity to express my thanks and gratitude for each card, the lovely flowers, each prayer and good word that I have seen in the hospital and since I have been at home.
