

## Confidential Corner

By Henry Marchison

### Any Comments?

Last year, when we picked the winners of the various bowl games, we received some very snide and disrespectful remarks

from some of our friends (?) when our guessing didn't prove to be so good. Included in the group was our daughter-in-law, Barbara, who went so far as to

send us a sympathy card. Well, we are still listening for any smart remarks this year. You see, we picked the winner in every game that we picked, except Florida over Georgia Tech, and that we classed as a tossup, because we thought the winner would be the team showing the most desire.

Funny that you hear a lot of comment when you are wrong, but everybody runs and hides when you are right.

### Still More Picks

Not willing to let well enough alone, we are going to make one more series of picks.

We don't know the complete results of the Senior Bowl game in Mobile Saturday, but we are going to go with the South over the North; Johnny Uhlans and the Baltimore Colts should be able to handle the Philadelphia Eagles in the Pro Bowl Sunday.

Then comes the Super Bowl, Green Bay vs. Kansas City, next Sunday, Jan. 15th. We believe that Green Bay should be the better team, but we were surprised at the strong showing of the Kansas City Chiefs as they defeated Buffalo for the American Football League championship last Sunday.

We could very easily miss all three of these games, but we don't think so.

### New Death Record

For some reason, we have missed receiving the exact figures of the 1966 highway death toll, but we do know that the 1966 record exceeded the 1965 record by something like 150 deaths for a new record.

Let's reverse this trend and make 1967 a record year for safety. Drive carefully and don't become a statistic.

### SICK AND AILING

## Bells Firm Offers County Purchase Station For Okra

County Agent Asks Farmers Who Would Be Interested To Register With Office

By F. H. Paschal

Bells claims to be "the okra capitol of the world," and a company there has offered to establish a buying station in Lauderdale County convenient to producers who might want to grow okra for market.

Evidently, the population explosion is increasing the demand for okra, and farmers may register their interest in growing okra this year by calling the County Agent's office, 635-9551.

Okra provides a ready market for labor on farms in the period from June to September, when there is not too much other work to be done. Returns per acre can exceed \$200.

Soil Testing Advantages  
Leonard Arthur, of the 9th Civil District, is planning to test some of his fertile bottom land to determine whether it might have too much lime for the highest yields of crops.

Several years ago, a soil test revealed that some of the land had a pH of 9, and yields were materially increased by the application of 400 pounds of sulphur per acre.

Mr. Arthur does not want to miss any opportunity to increase yields which can be brought about by testing and a small investment for the right kind of fertilizer.

Frank Coughlin, of the Henning area, is working in the same direction on land he is renting, which he does not believe he can afford to lime. He plans to apply about 300 worth of molybdenum to the seed of soy beans when they are planted to be sure that this trace element is supplied for best yields.

Tests at the Tennessee Experiment Station have shown that in some cases yields have been increased by as much as six bushels per acre through the application of molybdenum on land which showed a definite need of lime when tested.

Better Telephones Wanted  
P. M. Parker, president of the Durhamville-Oryssa Community Improvement Club, says that this progressive group of families is planning to do whatever it can during 1967 to do away with eight-party service on the telephones in their area.

Mr. Parker says the group is encouraged by a recent loan granted the West Tennessee Telephone Company of \$1,100,000 to install one-party lines in most of Gibson County, to take the place of the eight-party lines there now.

The new rates to be paid in that area are \$5.75 per month for homes and \$9.50 for business phones.

Cotton Variety Important  
Eddie Owen III, of Curve, gives much of the credit for his good cotton yield in 1966 to an early variety called Auburn M.

He made 74 bales of cotton on 61 acres, and he saw cotton on adjoining fields planted at the same time and fertilized just as well which did not make more than half as much yield.

Mr. Owen used 300 pounds of 13-13-13 fertilizer, with 200 pounds of ammonium nitrate.

He used Karmex in a band for pre-emergence weed control and then cultivated altogether with a rolling cultivator, which never went more than one inch deep.

Shallow cultivation has long been proven to be helpful in production of high yields, especially in dry seasons.

## Halls High Hosts Cagers Of Obion

Halls High's basketball team will host the strong Obion County Central team at 7 p. m. Friday in the first home games after the Christmas holidays.

Tuesday night, the Somerville cagers will come to Halls. The Halls team resumed play Tuesday on a dismal note, as they dropped both ends of a double-header in Somerville.

The Halls girls were never in the game, as the undefeated Somerville squad led 31-17 at half-time. The final score was 64-34. Linda Moore led Halls scoring with 12 points, while Pat Pugh had 27 for Somerville.

Halls boys fell behind five points in the first half and were on the wrong end of a final 41-36 score.

Tommy Elmore had eleven points, Larry Jones had eleven, and Doug Baker had ten for the Tigers, while Larry Carter led Somerville scoring with 12.

## SCHOOL SCOOPS

From Halls High  
By Deborah Lantz, Beta Club  
John G. Olds, Jr., showed a film, "The Appaloosa," in a general assembly in the elementary school gym Thursday morning.

Students were particularly interested in the story of the American service man, stationed in Tibet, who sent home a photograph of a spotted horse, which caused research to begin in Tibet that uncovered the origin of the Appaloosa horse.

Mr. Olds also displayed a war bonnet fashioned in the early 1800's that was given to him by a friend from the Delaware tribe.

HOSPITAL VISITORS' GUIDE  
The hospital staff can best fulfill its mission when you co-operate by

1. Complying with the posted visiting hours.

2. Making your visit short—five to ten minutes at most. The patient will probably have other visitors.

3. Not having more than two visitors per patient at a time.

4. Being cheerful—not discussing your problems with the patient.

5. Not smoking in patient's rooms.

6. Not sitting on patient's bed.

7. Not bringing in food (this could be harmful).

8. Leaving children 12 years of age and under at home.

9. Talking in a low, soft voice, so other patients will not be disturbed.

## Merchants' Tax Modified

The court accepted W. G. Thompson's suggestion that merchants be assessed ad valorem, at the county real estate tax rate applied to 10% of the sworn value, only on their inventory of merchandise for resale at retail, excluding all equipment and fixtures.

The court provided that sworn statements, although public records, would not be accessible for inspection without the permission of the county judge and clerk, as they will contain information which would be of interest to competitors of the merchants who file them.

The court accepted Sheriff Gwin Mathews' suggestion that he continue to attend Beer Board meetings but not vote, in order to break a tie which has developed on the board, composed of five members and the sheriff, on the issuance of a license.

The court rejected a request by magistrate Powers Smith, of Henning, to instruct the highway commission to blacktop .5 mile of road serving a sub-division which he and his partner, Gus Hargett, are developing at Cedar Grove.

Mr. Smith had proposed deeding the county .1 mile of the road if the blacktop were approved.

Judge Furses Funds  
County Judge Paul Dew reported that the City of Ripley had agreed to pay half of the \$3,900 needed to complete paying for Ripley's branch of a state area vocational school and that the Board of Education had found \$650 in its budget for this purpose.

He informed the court he was taking the other \$1,250 out of his emergency fund.

He also reported the city had not paid Ripley Power & Light Co. tax equivalent funds to the county since September, despite a contract to pay 2 1/2% of such funds received by the city.

He said the city was awaiting legal advice as to whether its agreement was still binding, in the light of court decisions, subsequent to the agreement, that the city was not under obligation to make such payments.

He said that if the city decides to permanently discontinue the payments, the county plans to bring suit to attempt to enforce the agreement.

He received court approval to invest surplus county funds, accumulated during heavy tax-payment periods, in time deposits or government bonds until such time as they are needed for expenditures.

He also received court approval of a proposal to purchase county supplies through a purchase order system rather than through the requisition system used in the past.

Notaries elected were Joe H. Walker, Jr., Floyd D. Harrod,

Without objection, the court adjusted the boundary of Civil Districts 6, 11, and 15, between Districts 2 and 5, to make it coincide with Highway 19 west of Ripley.

Unsalaries Posts Filled  
Luther Sanders was elected to the Lauderdale County Hospital board to replace William V. Parsons, resigning, despite questions raised by the employment of Mrs. Sanders on the hospital staff and by his being in the insurance business. He received 28 votes to nine for Jack Palmer.

They succeed, for two year terms, Austin Winn, Mrs. George Crews, and Robert Lewis, who have served the maximum of six years.

Tommy Burns, Lawson Elder, Francis Thompson, Hobson Wakefield, and Austin Winn were named a committee to work with the City of Ripley Gas and Water Department in extending natural gas service from Arp to Fort Pillow.

There's A NEW FRONTIER In Office Efficiency. Significant break-throughs in design and production of familiar products are revolutionizing the office supply field. Good businessmen are improving efficiency and earning credit on income tax returns. Before you invest unwisely in office tools of obsolete design, don't fall to see the newest and best.

EVERY OFFICE MACHINE DESERVES AN A-1 RIBBON. Nothing pops up as often as machine performance—and actually proves its ribs—like a first quality NYLON ribbon. The ribbon you handle because it's the only one we can sell with pride. Yet some folks persist in using cheaper quality ribbons which date from the pre-1910 era—and actually pay more for them than our \$1.25 price for nylon. By handling one grade in volume, you hold the price line on the best ribbon you can buy. At that price, you can't afford any other ribbon for your machine.

NOTE TO ALL LAUDERDALE COUNTY MOTORISTS. With the school year underway in our county, many little people are walking our streets and roads again after the Christmas holidays. Let's all look out for these little folks.

We don't have a single child's life to spare! HOW MANY ITEMS IN YOUR BUDGET HAVE GONE DOWN REGULARLY OVER THE YEARS?

Think about it. Not many, are there? But consider your Long Distance telephone dollar. Back in 1915 a three-minute station-to-station call from San Francisco to New York was \$20.00. Today you can make the same call for \$1.00 if you take advantage of low night and Sunday rates. That's only a fraction of the 1915 cost and much less than the cost would have been if your telephone rates had increased in proportion with most other items over the past fifty years.

SOUTHERN AFRICAN TELEPHONE REPAIRMEN HAVE A REALLY GIANTIC PROBLEM—elephants. The animals have discovered that telephone poles are marvelous back-scratchers, and they're causing static by rubbing against the wires. Itchy elephants are a problem we don't have, of course. But we do consider any problem with your phone service a big one. That's why we try to prevent trouble before it starts by keeping a close check on telephone service.

THE BIBLE SPEAKS... BY LAWRENCE W. ALDRIDGE

Does It Show? Lesson For January 15, 1937

Robert Bates, pastor of First Methodist Church in Germantown, Pa., tells of a woman who committed to her boss one day that idea from the funny little church you go to? Caught by surprise, the secretary said nothing and "burned in at night" for a full week.

They Never Suspect Perhaps some of you are like the young man who went off to a logging camp one summer to earn money for college.

It is true that Christians do not wear distinctive uniforms or clothing. They flash no badges, emblems or secret passwords.

Up-side-Down People The distinctive marks of the Christians were to be, not to make a matter of personal appearance and showy public conduct.

### DON'T YOU READ BEFORE YOU BUY?

Because, no matter what the purchase, don't you want to get the facts? What does it cost? Where's it made? What's the best brand? How much will I need? How long will it last? And whom should I see? Like yourself, most of your customers look to print advertising for answers, when they're really ready to buy. They look to newspapers and magazines, to booklets and brochures. Because print advertising lets people read and re-read, study and clip, see and show, linger and compare—as much and as many times as they wish. That's the beauty of print. When people look for your product in print, will it be there? Your competitor's will. Print makes sense, because print makes sales.

**THE BIBLE SPEAKS**

BY LAWRENCE W. ALTHOUSE

**Goodness: One-Half Off**

Lesson For January 29, 1967

Background Scripture: Luke 9 and 10.  
Devotional Reading: Luke 15:1-11

I heard this little ditty on the radio the other day:

*I don't care if it rains or freezes,  
Long as I have my plastic Jesus*

**Riding on the dash-board of my car!**

Some people, it seems, look to Jesus for insurance against any unforeseen hazards (including crosses). What they want is security. What he offers, however, is a cross.

Of course, we all love the cross. We love those little crosses we wear on the lapsels of our coats or on dainty chains around our necks. We admire the golden and silver crosses on our altars or the remote crosses of church steeples.

We love to sing about "the old rugged cross on a hill far away," but the life-sized crosses close at hand is a cross of another color.

**Unconscious Irony**

Last spring one day I saw a sign in a downtown store window: "POST-EASTER SALE CROSSES AND BUNNIES ONE-HALF OFF!" It struck me that the sign carried a certain amount of unconscious irony.

The pain and the agony of the cross are quickly forgotten. What most people want is a marked-down Christian discipline.

Many of us, perhaps, are like the two ladies who went to Stratford-Avon to see Shakespeare's home and attend one of his plays. How wonderful it would be to write home to say they had actually seen a Shakespeare play in his own town.

Nothing until one of them spoke up with a force smile: "Let's simply have some tea and forget it!" People often have the same reaction to the cross.

**Strange Response**

Yet what a strange response Jesus made to that wonderful confession: "The Son of man must suffer many things, and be rejected by the elders and chief priests and scribes, and be killed..."

A member of a former parish once told me irritably: "Preacher, I come to church to relax, to find peace and quiet; all you do is stir me up and make me uncomfortable." I could sympathize with him.

True peace cannot be marked-down below the price of the cross.
