**REBIRTH**  
Lesson for February 4, 1973

Revelation 1:1-4:21  
Devotional Reading Psalm 15

On the night of November 14, 1940 Hitler's incendiary bombs devastated the ancient British city of Coventry. Among the debris of destruction were the charred remains of the ancient cathedral of St. Michael, Henceforth, said Hitler, there would be a new world to denote total destruction; covenerate, a grim reminder of what his bombers had wrought at Coventry.

"Father forgive" Rev. Althouse

In 1954 work was begun on a new cathedral for Coventry. Eight years later it was completed and was immediately acclaimed and denounced for its bold new architecture. Rising next to the preserved ruins of the old cathedral, the new St. Michael's is one of the most striking church edifices in the world.

Yet, exciting as is the new Coventry cathedral, in my several visits there I have found that most inspiring and significant is not the new St. Michael's, but a simple charred cross and altar in the preserved ruins of the old. On the altar is a simple, yet profound inscription, "Father, forgive." It is the defiant answer of the people of Coventry to Hitler's challenge of hatred and vengeance.

Contrary, then, to Hitler's expectations, the word covenerate has come to denote, not fearful and wrathful destruction, but the redeeming, renewing love of Jesus Christ. The charred cross serves as symbolic reminder to all men that love, not hate, conquers and prevails by the grace of God. Out of the ruins of the ancient cathedral there has sprung up the phenomenon of rebirth.

"Not for your sake... O Israel!" To the people of Judah in exile God sent the prophet Ezekiel to proclaim that, although they deserved to be abandoned by the Lord, nevertheless, he would bring a rebirth from the ashes of tragedy. This would happen, not because they were worthy, but because he is gracious.

God would restore his people and eventually they would return to their homeland. But the greatest restoration of all would be within:

A new heart I will give you, and a new spirit I will put within you; and I will take out of your flesh the heart of stone and give you a heart of flesh. And I will put my spirit within you, and cause you to walk in my statutes... Ezekiel (36:26, 27).

The prophet is speaking of something that people often miss: it is not enough to be forgiven or even released from the consequences of our sins. What we need most of all is a new spirit within or else we are likely to continue on the same destructive course, repeating over and over again the same tragedies. Forgiveness is just the beginning; salvation is composed of both forgiveness and rebirth.

## Ewell Broglin

Ewell Broglin, 72, formerly of Halls, was killed about 8 p.m. Wednesday when he was struck by a car while walking on Highway 77 about a mile from his home in Newbern.

Services will be at 2 p.m. Friday in Halls Funeral Home. Burial will be in South Fork Cemetery.

Born in Crockett County near Halls, he had lived in Newbern four and a half years. He was a member of First Christian Church near Halls.

He leaves his wife, Mrs. Lillian Kesterson Broglin; a son, Sammy Broglin, of Newbern; three daughters, Mrs. Nora Wright, of Edith, Mrs. Helen Jones, of Gates, and Mrs. Ora Robertson, of Bonicord; a sister, Mrs. Flossie Little, of Halls; 15 grandchildren; and eight great-grandchildren.

## FRENCH PROMOTED

James F. French, son of Mrs. Hilda J. French, of Gates, has been promoted to first lieutenant at the Marine Corps Air Station in New River, N. C.

A 1967 graduate of Halls High School and a 1971 graduate of the University of Tennessee in Martin, he joined the Marine Corps in June, 1971.

## A Basin Authority Sought For Rivers

County Judge Paul Dew and Mrs. J. H. Nunn, both of Ripley, and Paul Henderson, Jr., Oliver Nunn, Beasley Robertson, Mrs. R. J. Nunn, and L. E. Cribfield, Jr., all of Halls, were among some 250 persons attending a meeting Monday afternoon to hear Dwight Treadway, of the State Soil Conservation Service, outline plans for the 14-county Obion-Forked Deer River basin.

A committee headed by Gibson County Judge Walter Hunt, Jr. had sought a comprehensive report from the agency of the needs of the basin. Oliver Nunn, of Halls, is a member of the committee.

The committee plans to seek the formation of a river basin authority to work with the state government, state legislators, and the U. S. Corps of Engineers to alleviate the flooding of thousands of acres of land each year, with an estimated \$31 million damage.

Treadway told the group that a program which could reach a compromise between agricultural production and waterfowl and wildlife management could include:

Land treatment in the upland to stabilize soils on critically eroded areas.

Improved conservation practices during the farming process on private land.

Small or medium size dams for holding back flood water with minor channel modifications, if needed, below the dams.

Water storage in the dams for discharge in the channels in the late fall and early winter, through pumping or overflowing to artificially flood contiguous areas for waterfowl habitat.

Restriction on land clearing in large blocks in the flood plain. The key to providing ideal habitat for waterfowl and other forms of wildlife is to maintain a maximum edge so that waterfowl and other types of wildlife can have both the protection of the woods and available feeding areas in close proximity, he said.

## Confidential Corner

By Henry Murchison

**Random Glances**  
Well, President Nixon has announced the national budget for the fiscal year, 1973-74, and the screams have begun.

There are many things that we know little or nothing about, but it would seem that some of the budget cuts are entirely justified, while others may possibly be ill-advised.

For instance, we know that we are going to get our throat cut by farmers, but it seems to us that farmers are going to have to choose between better prices for their products, or continued farm subsidies. It is doubtful that they can have both.

Cuts in the housing programs would seem to be entirely justified, judging from past results; the dismantling of the Office of Economic Opportunity has both good and bad features; it would seem that some less money could have been spent on the defense budget, although probably not a great deal.

With the greatly heralded budget, the fact still remains that at the least there will be a deficit of \$12 billion. Congress should stop screaming about individual programs and devote itself to a cut in spending and getting the best results from the tax dollar.

Far be it from us to become involved in the abortion issue, and certainly we do not want to offend any religious group, but we find it somewhat amusing that the Catholic bishop of the Memphis diocese has recently taken Memphis to task for not going along with the courts on the school bussing question, but now St. Joseph Hospital, a Catholic institution, has announced it will not permit abortions in the hospital, despite court rulings. Depends on whose ox is being gored, doesn't it?

The shooting of Mississippi Senator Stennis on the streets of Washington, D. C. has once again started the call for stiffer gun control laws.

We wonder if anyone has come up with a means of enforcing the laws after they are passed.

The state of New York, as well as a number of other states, have had so-called gun laws for many years, but they still have guns in the hands of criminals.

If stiffer gun control laws would cut the crime rate, we would be among the first to favor them, but it seems to us that the permissiveness of the courts and the change of attitude toward criminals is the major fault.

Incidentally, the shooting of Sen. Stennis is deplored because he is a nationally-known figure, but crime is much closer to home

## Second Man Held In Weapon Thefts

Jimmy Hardy, 17, of Route 2, Halls, arrested Tuesday of last week and charged with burglary, was bound over to Circuit Court Thursday afternoon of last week in a preliminary hearing before General Sessions Judge Olean Craig. Bond was set at \$1,000.

The youth is charged with the theft of guns from several homes west of Halls.

Arrested in connection with the same crimes Thursday of last week by Sheriff Lewis Gitchell and Chief Deputy Henry Gitchell was Doss Vaughn, Jr., of Covington, employee of a factory in Ripley.

Vaughn, in a preliminary hearing Saturday morning, was bound over to Circuit Court on three charges of burglary and one count of receiving and concealing stolen property. Bond was set at \$750.

## Halls High Cagers Near Season End

With one week of the regular basketball season remaining, the Halls High cagers will go to Bells Friday evening, host Covington next Tuesday evening and then close the season at home with Brighton.

With victories over Alamo and Crockett Mills during the weekend, the Halls boys brought their record to 15-7, while the sextet split to reach a 4-17 record.

After taking the lead late in the first quarter, the Tigers edged Alamo, 71-66, on the home floor last Friday evening. Tyrus Brown led Halls with 24, Willie McCadney added 19 and Ricky Jones 14.

Halls girls fell behind early in the game, with Alamo taking a decisive 65-36 win. Top scorer for Halls was Vickie Manuel, with 15, with Donna Ward adding 10.

Tuesday, Halls hosted Crockett Mills, with the Tigers racking up a 95-37 win and the girls easing by the visitors, 52-31.

Leading the Tigers in scoring were Jones 16, W. McCadney 14, Brown 12, and Ray McCadney 10. Every Halls player scored, with all seeing action.

LouAnn Camp topped the Halls sextet with 18, Manuel had 13, Ward 11, and Donna Paige 10.

## Mrs. Bratcher

Mrs. Eloise Crews Bratcher, 57, of Dyersburg, mother of Mrs. Sammy Henderson, of Ripley, died at 8 a.m. Tuesday en route to Parkview Hospital in Dyersburg, where she was a nurse.

Services were at 11 a.m. Thursday in Edith Methodist Church. Burial was in the church cemetery, with Ripley Funeral Home in charge.

She also leaves two sons, Raymond Bratcher, of Memphis, and Johnny Bratcher, of Bolivar; two other daughters, Mrs. Margaret Walpole and Mrs. Patricia Parker, both of Memphis; three brothers, George Crews, of Ripley, and Barney Crews and Montelle Crews, both of Jackson; two sisters, Mrs. Effie Garrett, of Ripley, and Mrs. Lexie Thompson, of Memphis; and three grandchildren.

## Births

To Mr. and Mrs. Bobby Patton, of Route 2, Halls—a daughter, born Jan. 28th in Lauderdale County Hospital.

● All women don't repeat groundless rumors. Some originate them. —Franklin P. Jones

**NORMAN M. FRISBIE**, 17, grandson of Mr. and Mrs. E. M. White, Sr., of Woodville, has been installed as master counselor of the Whitehaven Chapter of the Order of DeMolay. His mother Mrs. Russell H. Frisbie, is the former Geneva White, a graduate of Halls High School. She and Mr. Frisbie reside at 4545 Windward Drive. Norman has received the Representative DeMolay Award and is treasurer of the West Tennessee District. He is a senior in Fairley High School, a Reserve Officer's Training Corps major, and school photographer.

## Mrs. Jim Adcox

Mrs. Mattie Adcox, 90, of Halls, widow of Jim Adcox, died at 1 p.m. last Friday in Nursicare Center in Lexington.

Services were at 2:30 p.m. Sunday in Archer's Chapel Methodist Church near Halls. Burial was in the church cemetery, with Halls Funeral Home in charge.

She leaves a son, Henry Adcox, of Halls, and a sister, Mrs. Vera Heath, of Ripley.

than Washington, D. C. Halls and Lauderdale County have their share!

## Lime Will Increase Yield Of Soybeans

By Charles T. Peal  
Extension Leader

Andrew Lewis, of Route 1, Henning, soil-tested his soybean land and found that with a pH level of 5.4 it was necessary to apply four tons of lime in order to raise the pH level high enough to cause the fertilizer to be of real benefit to the plants.

Even with the addition of no fertilizer, lime will increase the yield of soybeans. The addition of ½ ounce of molybdenum will also be of value in increasing the yield on acid soils. This material costs only a few cents per acre, but it is not needed where the pH level is 6.4 or above.

The addition of 40 pounds of phosphate and 40 pounds of potash per acre, along with these other materials, will not only grow a strong plant but will cause the pods and seeds to mature properly.

Nitrogen is not recommended on soybeans, because it takes a high rate to overcome the nitrogen fixing process normally carried on by the plant.

Experiments have shown that the addition of nitrogen is not economical.

**MISS PAULA DUNAWAY**, daughter of Mr. and Mrs. J. A. Dunaway, of Halls, has been selected by the faculty to receive the Daughters of the American Revolution Citizenship Award from Halls High School for her academic grades, dependability, service, leadership, and patriotism.

## Halls High Names Straight A Pupils

Halls High School students making all A's in the third sixth week tests were Beth Anderson, Shea Lea Arwood, Kent Cherry, Freda Harrell, Tina Hogue, Susan Langley, Sandra Hogue, Kaye Harrell, Teresa Ball, Betty Sue Hammock, Rickey McCaslin, Melody Pickard, Ricky Jacobs, Susan Throgmorton, and Hal Pennington.

Junior high students making all A's were Joe Mack Cherry and Beth Baldrige.

## Rescue Squad Into Search For Body

Lauderdale County's Rescue Squad was one of 42 in the state called last week to the Tennessee River near Jasper, in Marion County, and traveled the furthest of the 42 to search for the body of Randall Messengale, 18, of Chattanooga, missing since Jan. 1st.

Randall and Larry Messengale, 21, were lying in a small boat to protect themselves from the wind when the vessel struck a barge. Larry survived the accident. Randall's body was found Sunday.

Dismissed From Lauderdale County Hospital—Mrs. F. W. Heathcott, Mrs. Johnny Bradford, Charlie Yanders, Rt. 2, Marty Ellis, Grady Cook, Marilyn Kay Harrell.

## Mrs. Rosa Reece

Mrs. Rosa Lee Reece, 92, formerly of near Gates, died at 8:45 p.m. Tuesday in the home of a daughter, Mrs. Russell Garrett, in Maury City.

Services were at 2:30 p.m. Thursday in Archer's Chapel Methodist Church. Burial was in the church cemetery, with Halls Funeral Home in charge.

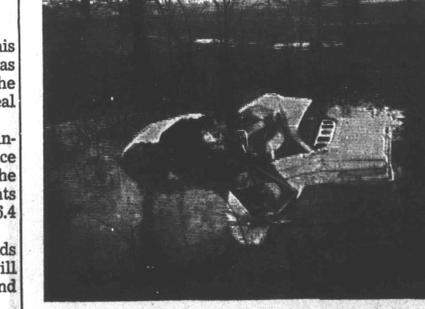

She also leaves a daughter, Mrs. William Gilliland, of Halls; eight grandchildren; 19 great-grandchildren; and one great-great-grandchild.

**BOBBY JOE WILLIE**, 21, an Indian of Route 4, Louisville, Miss., left Highway 19 west of Ripley, a mile west of Fullen's Store, about 1:15 p.m. Sunday and hit a tree on the south side of the road in this 1963 Ford Falcon. He is in John Gaston Hospital in Memphis in very serious condition.

## Lauderdale "Doing Something Right"

County Judge Paul Dew told Ripley Rotarians Tuesday that the county's federal revenue share has been put on time deposit while an attempt is made to persuade the Treasury the amounts received so far are about a quarter of a million dollars too low.

It is believed the error is in the Treasury's figures on local tax effort—total taxes other than for schools.

Dew said he hoped to discourage use of the proceeds for general operating expenses of any department of county government, because the program is only set for five years.

"I'd rather not see us get tied to it the way the school system has become tied to Title I funds," Dew said. "Once it's built into your budget, and then lost, you're in a lot of trouble."

Dew said both Ripley and Halls grammar schools are out-dated and over-crowded and need some improvements.

A question Dew referred to School Supt. Jack Taylor concerned teachers' salaries. Taylor said Lauderdale, Crockett, and Fayette Counties were the only three in West Tennessee adding only \$500 to state schedules for beginning teachers, though Haywood only this year went to \$580.

Dew said though originally he had not favored the county entering a land-fill program required for the four incorporated cities, he had changed his mind. He said the requirement is likely to be extended to rural residents, and since the state is scheduled to provide 75¢ per person annually for this purpose, the entire county could get about twice as much money as the cities alone and operate one or two centrally located land-fills more cheaply than scattered ones, and rural residents could use the land-fill without having to pay city charges for the privilege.

Dew said the county's bonded debt, \$2,217,000, is well within guidelines and all fairly recent; "you can drive our rural roads in any direction and tell when you leave Lauderdale County, because the roads are worse in other counties," and the county Ambulance Authority is operating far more cheaply than any other county's he knows of, "thanks to Mr. Frank Garner, who is providing the quarters and back-up driver in Ripley, and the Town of Halls' co-operation in providing a base of operations in Halls."

"Though it's often easy to criticize various county operations, somebody must be doing something right," Dew said.

## Vegetable Advice Given Producers

John Clark, Extension horticulturist, met with vegetable producers in Ripley last Friday to discuss disease, weed control, insects, varieties, and other factors in successful production of tomatoes, pepper, egg plant, and other crops.

"Early blight control is a must in tomatoes so a spraying program should begin when the plants are about a foot high," Clark said. "The selection of varieties resistant to verticillium, fusarium wilts, and nematodes, as well as those which will ship well, are important."

Vegetable producers are preparing greenhouses to plant their seed, so that the plants will be ready to set in April.

In 1970, vegetable income for Lauderdale County was estimated at \$300,000. With good management on excellent soil and with the present number of producers, plus others who may have the hand labor, the county could easily reach a million dollar income from vegetables.

## Milo For Cattle Feed

David Hallman, who manages the Henning Farm for Fletcher Gin Co., of Gideon, Mo., will grow 300 acres of grain sorghum this year, most of which will be used to provide feed for 90 cows and calves. In addition, he plans to raise 70 acres of alfalfa for hay. The farm will install a drying system to be used for the Milo as it is harvested.

Grain sorghum, properly supplemented, is worth about 90-95% as much as corn for cattle months.

The alfalfa is important to this livestock program inasmuch as farmers are going to find it necessary to grow more of their own protein in order to cut costs.

The addition of good clover in the pastures will provide adequate protein during the summer Community Club Elects

Mrs. Joseph Leggett was re-elected president of the Durhamville-Orysa Community Club for 1973. Sam Williams was elected vice-president, Mrs. P. M. Parker, Jr., secretary, and Mrs. Byron Escue, Jr., treasurer.

The club has selected as garden chairman Mrs. B. F. Escue and Mrs. Tom Martin. Frank Thompson was elected farm chairman; Mrs. A. M. Estes, home beautification chairman; Byron Escue, Jr. and Roy Thompson, safety committee chairman; and Mrs. Francis Thompson and Mrs. Arthur Thompson, ways & means chairmen. W. S. Thomas was elected park chairman and P. M. Parker Sr., attendance chairman.

### Looking Around

Things Drowned in the U.S. Dept. of Agriculture states that a variety of "scientific foods" are ready for market including artificial meats, made from soybeans that come out of a spray-can like shaving cream and with proper flavor, harden into "chicken, ham, bacon or just about any meat."

The automobile manufacturers haven't yet picked it up, but New York State's prototype of the new safety car has shock-absorbing bumpers and a rooftop rollover protective structure.

Susan Edwards, who is 12, can receive only "pocket money" until she is 21, even though she inherited \$40,000 from her aunt in Sydney, Australia.

In Olney, Maryland, a robber held up a branch of the Sandy Springs National Bank and escaped with \$20,740. He apparently did not need that much money and a week later he mailed back \$9,600.

Arthur D. Knapp of Jackson, Mich., went in a convention of aircraft builders, saw a nice twin jet that could fly 600 miles an hour and said "I'll take that." He is 71 years old and the plane he bought and flew home cost him a cool million dollars.

A black dog fell from the platform of a New York subway station to the tracks. Lawrence Whitehead came to the dog's rescue and saved him before the next train came along. Before running away the dog bit Mr. Whitehead and he had to be rushed to a doctor for treatment.

A woman in Rio de Janeiro reported to police that her neighbors were using terrible language. Upon investigation police found a parrot with a nasty temper and named him. He will stay at the police station while they teach him a better vocabulary.

A New York postwoman, Mrs. Johanna Levin, was advised by police doctors that she might recover from an injury if she had a baby, then the city docked her 180 days pay while she was pregnant, followed by the doctors' recommendation. Having the baby didn't improve her condition and she sued the city for lost pay.

David Tomko, 20, is a student, 203 pound postman in Delavan, Wisconsin. He also is pastor of a local church. He says the two jobs go well together because he "likes people."

A former New York justice of the peace, Matthew S. Slone, is serving five to 10 years in Sing Sing for embezzling \$100,000 from clients. Now the government has obtained a judgment against him for \$107,983 for income taxes on the money he stole.

The Town Council in Alfreton, England, each climbed to the top of the high diving platform at the community pool when girls complained that high divers could look into their dressing room. Said the council: "It is perfectly true. We investigated personally."

J. A. Balzer, 84, of Buber, Kansas, has been riding motorcycles for 39 years without an accident, but he figured he shouldn't press his luck any more and in view of his age, switched to a bicycle.

A jet plane of the U.S. Air Force 20th wing, crashed into John Pledger's field in Stoke-by-Clype, England, and narrowly missed him. Mr. Pledger was plowing, looked up to see that the pilot had safely bailed out and then complained to the first persons who rushed to the scene: "This is going to scare my chickens and they don't lay eggs when they get scared."

In Johannesburg, South Africa, William Thurnell won a \$14 bet by eating 42 hard-boiled eggs at one sitting.

It cost Albert Keller and Donald Chesser \$1500 to replace windows in 27 houses, businesses and automobiles that they broke in Selma, Ala. New York with some insurance companies.

## Herb Cummings, 30, New Ripley Coach

Herb Cummings, 30, Memphis University School assistant football coach four years, will coach Ripley High School's Tigers next fall and will also help with their spring training.

A graduate of Memphis State University, he is now pursuing a master's degree there. He is married and the father of two children.

Maurice Kelly, Tiger head coach for two decades, announced before the 1972 season opened that he was leaving the position after the season was over.

World Day of Prayer  
The United Methodist Women of Gates Methodist Church met in the Church Monday evening from 7:00 to 8:00 p.m. to observe the "World Day of Prayer" when women all over the world are praying.

Mrs. Lillian Jamerson conducted the devotional and read the scripture, Mrs. E. M. Voss was program leader. Mrs. Paul Avery and Mrs. R. V. Lilley spoke on outstanding women. Others on the program were Mrs. Fay Coffman, Mrs. Hollis Johnson, and Mrs. H. L. Hutcherson. Gates Homemakers Meet

Members of the Gates Homemakers Club and guests, the Halls Club and Mrs. Beasie Millam, of the Make and Mend Club, met with Mrs. Frewl Buffalo Tuesday of last week for an all day meeting.

A covered dish luncheon, brought by members, was served at noon, after which the meeting was called to order by Mrs. Byrd Harrell, president. Mrs. Ann MacIn gave the devotional and prayer. "How Great Thou Art" was sung. Members answered roll call with a safety precaution she takes.

Mrs. Ann MacIn reported on reading Mrs. Catherine Lawrence, of the Halls Club, showed some candles she had made. Mrs. Anne Connel, home agent, gave a program on "The Shelf Life of Food," before the meeting adjourned with the club prayer.

### Looking Around

Philip Dworkin of the U.S. Dept. of Agriculture states that a variety of "scientific foods" are ready for market including artificial meats made from soybeans that come out of a spray-can like shaving cream and with proper flavor, harden into "chicken, ham, bacon or just about any meat."

The automobile manufacturers haven't yet picked it up, but New York State's prototype of the new safety car has shock-absorbing bumpers and a rooftop protective rear vision mirror.

Susan Edwards, who is 32, can receive only "pocket money" until she is 21, even though she inherited \$40,000 from her aunt in Sydney, Australia.

Portuguese girls have such beautiful hair that wig manufacturers are now approaching young women with long hair on the streets of Lisbon offering to buy their tresses for as much as \$25.

As he drove up to an intersection in Los Angeles, the Bolivian Consul, Duke C. Banks, found that the traffic light had gone out and a red flag was developing. Children were just being dismissed from a nearby school so Consul Banks got out of his car and directed traffic. It was an hour before police learned of the incident and took over the job.

More protection for Zanah Bobbins is sought in a proposed new leadership manual of the high hats. The high hats are made and sold in the U.S. before the next train came along. Before running away the dog bit Mrs. Whitehead and he had to be rushed to a doctor for treatment.

A woman in Rio de Janeiro reported to police that her neighbors were using terrible language. Upon investigation police found a parrot with a nasty temper and a weak chin. He will stay at the police station while they teach him a better vocabulary.

A New York policeman, Mrs. Johanna Levin, was advised by police doctors that she might recover from an injury if she had a baby, then the city docked her 180 days pay while she was pregnant, fattening the doctors' recommendation. Having the baby didn't improve her condition and she sued the city for lost pay.

David Tomko, 30, is a six-foot, 205 pound poleman in Delavan, Wisconsin. He also is pastor of a local church. He says the two jobs go well together because he "likes people."

A former New York justice of the peace, Matthew Stiles, is serving five to 10 years in Sing Sing for embezzling \$100,000 from clients. Now the government has obtained Stiles' judgment against him for \$107,983 for income taxes on the money he stole.

The Town Council in Alfreton, England, each climbed to the top of the high diving platform at the community pool. When girls complained that high divers could look into their dressing room. Said the council: "It is perfectly true. No one had thought to dig around the yard."

J. A. Balzer, 84, of Buhar, Kansas, has been riding motorcycles for 39 years without an accident, but he figured he shouldn't press his luck any more and in view of his age, switched to a bicycle.

A jet plane of the U.S. Air Force 20th wing, crashed into John Pledger's field in Stoke-by-Clype, England and narrowly missed him. Mr. Pledger was plowing, looked up to see that the pilot had safely bailed out and then continued to the first persons who rushed to the scene. "This is going to scare my children and they don't lay eggs when get scared."

In Johannesburg, South Africa, William Tivnan won a \$14 bid by eating 42 hard-boiled eggs at one sitting.

It cost Albert Keller and Donald Gooden \$1,500 to place windows in 27 houses, businesses and automobiles that they broke in Salamanca, New York, with stones being thrown through them.

### Herb Cummings, 30, New Ripley Coach

Herbert Cummings, 30, Memphis University School assistant football coach for four years, will coach Ripley High School's Tigers next fall and will also help with their spring training.

A graduate of Memphis State University, he is now pursuing a master's degree there. He is married and the father of two children.

Maurice Kelly, Tiger head coach for two decades, announced before the 1972 season opened that he was leaving the position after the season was over.

THE MOSAICAL DISPENSATION

This system of worship and service grew out of the promises made to Abraham, Isaac, and Jacob. God said to Abraham, "I will make of thee a great nation, and I will bless thee, and make thy name great..." (Gen. 12:2). The promise of the land of Canaan was included in the statements to these patriarchs. (Gen. 13:14; 15:18-19). Paul said that the law of Moses was given four hundred and thirty years after these promises. (Gal. 3:16-17).

When the Israelites came out of Egyptian bondage to Mt. Sinai, the ten commandments were given. (Exo. 20:1ff.; Deut. 5:1ff.) While the Israelites remained at Sinai and sojourned in the Wilderness, God completed His revelations to Moses. (cf. books of Exodus, Leviticus, Numbers, and Deuteronomy). The Law of Moses served to guide the Israelites throughout the remainder of the Old Testament period. Of course, later God gave other revelations which completed the Old Testament.

One purpose of this dispensation was to keep Abraham's descendants a distinct and separate people until Christ, the promised seed should come. (Gal. 3:16-19). This exclusiveness, which characterized the Mosaic Dispensation, has been called "the middle wall of partition" (Eph. 2:14) because it separated the Jews from other nations. Another purpose of the law was to be a shadow of good things to come" (Heb. 10:1) The law used this system to picture in figure and type the more glorious system which was to come. Some examples of these types are as follows: the tabernacle and later the temple were types of the church; the sacrificial lamb was typical of the Lamb of God. (Jno. 1:29).

A third function of the law was to be a schoolmaster or tutor to bring the people to Christ. (Gal. 3:24) The Mosaic dispensation was only temporary. It began with the giving of the law of Moses, which was given only to the Israelites who came out of Egyptian bondage (Deut. 5:1ff). Paul said that the law was to last "till the seed should come to whom the promise was made." (Gal. 3:19), and he had identified the "Seed" as Christ. (Gal. 3:16).

John wrote that "the law was given by Moses, but grace and truth came by Jesus Christ." (Jno. 1:17) When Jesus died on the cross, he took the law out of the way, "nailing it to the cross." (Col. 2:14).

You have a cordial invitation to worship with the Halls Church of Christ. Adv. Jerry N. Corlew

THE BIBLE SPEAKS BY LAWRENCE W. ALTHOUSE

A BAG WITH HOLES Lessons for February 11, 1973

Augustine is said to have prayed once: "Lord, make me pure—but not now!" He knew what God would do for him, but he was not ready to receive it. He was not ready to give up his sin.

Rev. Althouse of human nature. As the old saying goes we want "to have our cake and eat it, too." We want to do God's will, but we don't want to give up anything valuable along the way. What we really want is to "have the best of both worlds."

Everything said about state government applies in even greater degree to our national government. President Nixon has proposed the elimination of a number of farm, civil rights, and other programs which he maintains are costing more than they are worth.

Speaking of the state budget, Gov. Dunn includes a statewide referendum program with an appropriation which we are afraid would be totally inadequate. The kindergarten is probably a good idea, but the cost to the individual counties could prove prohibitive.

Never enough Speaking through Hagal, however, God takes aim at the hopes of rationalization and abolishes them down in flames: "You have sown much, and harvested little; you have sown much, but you never have enough; you drink, but you never have your fill; you clothe yourselves, but no one is warm; and he who earns wages earns wages to put them in a bag with holes." (1:8)

Miss Janice Williams was an overnight guest Tuesday of Miss Susan Williams in Jackson. Mrs. David Wells, Mrs. Hilda Daniels and Mrs. Hollis Vaden were in Dyersburg Monday.

Mrs. H. E. Jordan, Sr., celebrated her 90th birthday Sunday. Mrs. H. E. Jordan, Sr., is in Jackson-Madison County Hospital. Mrs. Jordan is with him. "Red" Williams visited him Saturday. Mr. and Mrs. Obo Trill, of Maury County, have been with Alan and Jay Jordan while their parents are in Jackson.

Deborah Kay Hamby, 16, daughter of Mr. and Mrs. Morris Hamby, of Ripley, was fatally injured at 7:35 a.m. Thursday when her car left Highway 19 east of Ripley, at Nut Bush, and struck a pole. She was en route to school. She attended Haywood Academy in Brownsville. Services will be at 2 p.m. Friday in First Methodist Church, of which she was a member. Burial will be in Mount Pleasant Cemetery, Ripley Funeral Home in charge.

## Confidential Corner

By Henry Marchion Partisan Politics We wonder if many of the citizens of this state and nation are as disgusted with partisan and pork barrel politics as we are. It seems to us that the state legislature, the governor's office and all areas of our state government are so busy trying to build up their own party that they forget that they were sent to Nashville to represent the people in the best possible manner and not to represent the Democratic or Republican Parties.

As state legislators return to Nashville, they should keep in mind that the majority of the people of this state could really care less about their particular brand of politics but are interested in getting the best possible return from their tax dollar with a minimum of expense.

Gov. Dunn's proposed budget needs careful and thorough study and, probably, in some instances, revising, but not from a political standpoint. Everything said about state government applies in even greater degree to our national government. President Nixon has proposed the elimination of a number of farm, civil rights, and other programs which he maintains are costing more than they are worth.

He could be right, and if he is, the Congress should support him. He is a man of high integrity and huge deficits, every member of Congress should support him. He is a man of high integrity and huge deficits, every member of Congress should support him.

Do you believe in Utopia? We don't! Politics will perform its old stand, and the average taxpayer will pay for politicking and pork barreling.

While in UTM, Nunamaker was a member of the 1969 team which defeated West Chester State in the Tangerine Bowl in Orlando, Fla. After his senior year, he played in four post-season all-star games, including the North-South Bowl in Miami, Fla., the Senior Bowl in Mobile, Ala., the College All-Star game against the Super Bowl Champion New York Jets, and the Coaches' All-American game in Atlanta, Ga.

A 6'3" 260 pounder, Nunamaker says he must get down to his playing weight of 245 before reporting to the Washington training camp next July. He is lifting weights and plans to begin running when the weather permits.

His wife, Jenny, is doing her practice teaching in Halls Elementary. Mrs. Nunamaker and their 2-year-old daughter, Juliet Lee, will reside with her parents in Hollow Rock while Nunamaker is in training camp but will join him in Washington when the season opens.

## Joining Washington Redskins

JULIAN NUNAMAKER, Halls High School football coach since last September, has resigned to accept a one-year, no cut contract with the Washington Redskins of the National Football League.

A native of Manning, S. C., Nunamaker played for The University of Tennessee at Martin, where he was named All-American in 1969. He was a third round draft choice of Buffalo in the old American Football League.

Hampered by injuries, he went to the Miami Dolphins last year after three years as a defensive end with Buffalo. He retired before the 1972 season opened because of injuries.

## New Coaches For County

HERB CUMMINGS, 30, will join Ripley High School's staff next fall as head football coach. He comes to Ripley from four years with Memphis University School as assistant football coach.

A number of mothers have volunteered to assist with the kindergarten, and anyone else who is willing to help is asked to contact Mrs. Jerry Puckett. About 50 third graders will attend the Science Circus in Memphis Saturday under sponsorship of the P. T. O.

James Dunavant plans to use 30 pounds of nitrogen per acre for his small grain which is to be used for either late winter or early spring pasture or grain production. This rate should be applied between Feb. 15th and March 15th. Higher nitrogen rates generally cause small grain to fall over. Producers who plan to use small grain for both pasture and grain production need to apply an additional 30 pounds, or a total of 60 pounds of nitrogen per acre. Apply the first 30 pounds between Feb. 1st and Feb. 28th. The second 30 pounds should be applied immediately after grazing is stopped, usually by the last of March.

Beeskeepers The State Department of Agriculture is currently making a list of beeskeepers throughout the state. It has recognized how important this industry is to vegetable and fruit producers, and with the increased emphasis on production, it has been deemed to assist in the education area of beekeeping. Beeskeepers who have not already returned their card or did not receive one are urged to call the County Extension Office (685-2551) and let us know how many hives they have.

Time To Prune Shrubs Mrs. Kenneth Webb, of Luckett, is planning to prune shrubs and trees around her home. Her holly-type shrubs and other evergreens will be pruned the last of February. Flowering shrubs can be pruned at the completion of their blooming period. Shrubs may be pruned any shape desired, such as a rounded top or a natural-like finish, acquired by only cutting out the long branches. When removing branches from trees, get as near the trunk of the tree as possible, so that a smooth cut will be left. Large limbs should be cut away from the tree trunk at first, then the stump can be cut flush. In either case, the stumps should be painted with a tree paint.

Griffin, Shot From Viet Sky, Perished The Navy has verified that Lt. Cmdr. James L. Griffin, son of Mr. and Mrs. James Fletcher (Billy) Griffin, of Forked Deer, died two days after he was shot down over Hanoi, the capital of North Viet Nam, on May 19, 1967. Only days away from completing his second tour of duty in the Viet Nam area, the 34-year-old pilot was wounded in the legs and captured when his plane, from the carrier Kitty Hawk, was hit by ground fire. Griffin was graduated from Haywood High School in Brownsville and from the Naval Academy in Annapolis, Md., taking his midshipman's cruise to Europe in the battleship New Jersey in 1954. He married the former Dora Smith, niece of Mrs. H. J. Pennington, of Gates, and of Mrs. Wiley T. Daniels, of Ripley, and was the father of two children. He also left two brothers, Eugene Griffin, of Brownsville, and John C. Griffin, of Salinas, Calif., and a sister, Mrs. William Blount, of San Diego, Calif. His parents said this week they are deeply grateful to their friends "for the concern and prayers which helped sustain us these nearly six years."

## Halls High Will Host District Tournament

Halls High School will host District 16, of Region 8, girls' basketball tournament, Feb. 13th-16th. Games times are 7 p.m. with finals slated Friday. R. E. Anderson, Halls High principal, is tournament director. Paul Climer will be scorekeeper and Al Bradford timekeeper for the tourney. The Alamo sextet will be seeded in the top position in the tournament. Other participating teams will be Brighton, Maury City, Gadsden, Friendship, Crockett Mills, Bells, and Halls.

Brighton in Halls For Cage Finale Halls will host Brighton this Friday evening in its final basketball game of the 1972 season. Both Halls teams had disastrous weekends as the Halls girls' team was topped by Bells, 63-54, last Friday evening and lost to D. C. Sunday through Wednesday, Covington, 70-55, Tuesday evening. Halls girls lost to Bells, 40-30, and to Covington, 42-29. Jerry Crockett had 15 and Ricky Jones 12 against Bells. Crockett also led Halls' scoring against Covington, with 18. Willie McCadney added 17 and Tyron Brown 12. Top scorer for the Halls girls in the Bells game was LouAnn Camp, with 18. She was tops in the Covington game, with 15. Halls boys have compiled a fine 16-9 record. They lost two games each to Bells, Covington, Ripley, and Maury City and a single game to Bolton.

Only the first Ripley and Covington games and the Bolton game were by large margins. Halls girls have compiled a 4-0 record, with double wins over Friendship and Crockett Mills. Winners of the Junior and Senior Lauderdale County Talent Shows sponsored by Halls and Ripley Distributive Education Departments Jan. 29th and Feb. 1st were: Junior Division—First, Keith Mercer, Ripley Middle Grade; Second, Barbara Slaughter, Fry Brown, Ripley Middle Grade; Third, Sunshine Girls, Arp Elementary. Senior Division—First, Barbara Arnold, Ripley High; Second, The Tracks, Halls Junior High; Third, Mary Owen, Ripley High.

Livestock Growers Urged To Educate By Charles T. Peal Extension Leader "The livestock producer must inform the consumer that his share of the dollar for retail cuts of beef is not as high as first appears," Gerald Tucker, executive secretary of the Tennessee Livestock Association, told Lauderdale County Livestock Association members Thursday evening of last week. "Transportation, processing, and packaging account for the larger part of the cost of beef to the consumer," he said. "Then, too, the higher cost of protein and concentrate this winter has tended to reduce the profit to the producer."

Harry Wright, Jr., Jimmy Criner, and Charles Morris were elected to replace three of the nine directors. Billy Thomas, president of the Lauderdale association, stressed the importance of members promoting the livestock industry in Lauderdale County. Russell Evans, Billy Thomas, Charles Morris, and Charles Peal attended the State Livestock Convention in Knoxville this week. H. A. J. Jamison, livestock specialist for the University of Tennessee, will conduct a Beef Cattle Production Meeting at the Farm Bureau Building in Ripley at 1:30 p.m. Tuesday. Subjects to be covered are type, cross-breeding, feeding, marketing, and other management aspects. Cattlemen from throughout Lauderdale County are invited to invest some of their time to learn more about livestock production. Fertile Seed Grain James Dunavant plans to use 30 pounds of nitrogen per acre for his small grain which is to be used for either late winter or early spring pasture or grain production. A Report To The Lauderdale County Education Association by Fred J. Crosson Director of Research, Tennessee Education Association

The tables which follow relate to Lauderdale County's ability and effort to support public education in comparison with other school systems of the state and specifically with eleven neighboring counties.

RE: TABLE I The most recent estimate of per capita personal income is for the 1970 calendar year and is contained in the August 1972 issue of TENNESSEE SURVEY OF BUSINESS. It estimates that every man, woman and child in Lauderdale County had a personal income of \$2,324. This amount ranks Lauderdale County 30th from the top among the 95 counties in Tennessee and 7th among the neighboring counties.

Table I: PER CAPITA PERSONAL INCOME, 1970. Columns: County, Amount. Rows: Gibson (\$3,583), Shelby (3,481), Obion (3,446), Dyer (3,078), Madison (2,980), Crockett (2,398), LAUDERDALE (2,324), Haywood (2,222), Hardeman (2,144), Tipton (1,901), Lake (1,999), Fayette (1,760).

RE: TABLE II Lauderdale County's 1970 per capita personal income is \$398 above the 1969 amount. Only one county in the state had a greater percent of increase in per capita personal income from 1969 to 1970. Since this county is a neighboring county (Obion), Lauderdale County ranks 2nd among all 95 counties in the state and among the surrounding counties.

Table II: PERCENT CHANGE IN PER CAPITA PERSONAL INCOME 1969 TO 1970. Columns: County, Percent Increase. Rows: Shelby (25.9), Tipton (20.7), LAUDERDALE (20.7), Fayette (15.0), Haywood (12.7), Crockett (12.2), Madison (10.4), Tipton (10.1), Dyer (8.5), Hardeman (7.8), Shelby (6.8), Lake (1.0), Gibson (.3).

RE: TABLE III Each year SALES MANAGEMENT MAGAZINE publishes a book entitled "Survey of Buying Power" which covers the entire nation. This business oriented publication lists information on households and effective buying income for each county in Tennessee. This latter term, effective buying income, is defined as income after taxes that can be spent as desired. The effective buying income per household for Lauderdale County for calendar 1971 was \$8,305, an increase of 87% over 1970. This ranks Lauderdale County 28th from the top among the 95 counties of the state and 8th among surrounding counties.

Table III: AVERAGE EFFECTIVE BUYING INCOME PER HOUSEHOLD, 1971. Columns: County, Amount. Rows: Madison (\$11,329), Shelby (10,483), Dyer (10,059), Hardeman (9,384), Obion (9,158), Tipton (8,721), Gibson (8,624), LAUDERDALE (8,305), Crockett (8,211), Haywood (7,947), Lake (7,197), Fayette (6,248).

RE: TABLE IV According to reports of the Tennessee Department of Revenue, state sales tax collections in Lauderdale County increased 34.6% in fiscal 1972 over 1971. Since this tax is often used as an indicator of the business climate of a county and also serves to measure economic growth, the fact that Lauderdale County's percent of increase ranked 8th among neighboring counties reflects a growing economy.

Table IV: PERCENT INCREASE IN STATE SALES TAX COLLECTIONS IN 1972 OVER 1971. Columns: County, Percent Increase. Rows: Fayette (41.1), Crockett (39.4), Shelby (37.0), Haywood (34.7), LAUDERDALE (34.6), Gibson (33.1), Tipton (33.0), Hardeman (32.6), Madison (31.4), Obion (30.7), Dyer (30.3), Lake (27.6).

RE: TABLE V The Division of Local Finance under the State Comptroller of the Treasury reports that Lauderdale County's effective property tax rate for 1972 ranks 82nd from the top among the 95 counties in Tennessee and 8th among the neighboring counties. The report also indicates that 6 of the neighboring counties also have a higher local option sales tax rate than does Lauderdale County. These counties with a 1 1/2% rate are Dyer, Fayette, Haywood, Madison, Obion and Shelby. When the local sales tax rate is coupled with the property tax rate it appears that Lauderdale County's total tax exceeds only Crockett County.

Table V: PROPERTY TAX RATE, 1972. Columns: County, Tax Rate. Rows: Shelby (\$2.85), Tipton (2.10), Gibson (1.83), Lake (1.80), Dyer (1.75), Hardeman (1.68), Madison (1.61), LAUDERDALE (1.56), Haywood (1.55), Obion (1.30), Fayette (1.26), Crockett (1.03).

RE: TABLE VI During 1970-71, the most recent year with complete data compiled on all Tennessee school systems, Lauderdale County spent from local funds \$63.43 per child in average daily attendance for current operations of its schools. This figure includes what the county spent from local funds for the day-to-day operation of the schools—transportation, all salaries, textbooks, instructional supplies, etc. Only capital outlay and debt retirement are excluded. On the basis of a 175 day school year for pupils this amounts to only about 36 cents per child per day. Lauderdale County's rank among the 147 local school systems in Tennessee was 149th. Therefore, only seven school systems in the state provided less from local fund per child than did Lauderdale County—139 did more.

Table VI: LOCAL CURRENT EXPENDITURES PER CHILD IN AVERAGE DAILY ATTENDANCE, 1970-71. Columns: County, Amount. Rows: Madison (\$241.68), Shelby (144.37), Dyer (143.06), Hardeman (128.48), Obion (120.96), Tipton (115.98), Gibson (115.98), LAUDERDALE (114.37), Crockett (101.38), Haywood (98.10), Lake (81.47), Tipton (79.47), Hardeman (74.33), Fayette (63.43), LAUDERDALE (63.43).

RE: TABLE VII Since the teacher in the classroom determines more than any other factor the quality of the educational program of a school system, it is appropriate that Lauderdale County's efforts in attracting and retaining well qualified teachers be examined. Information supplied by each of Tennessee's 147 local school systems makes it possible to compare beginning salaries paid teachers with the Bachelor's Degree for the 1972-73 school year. Lauderdale County pays the minimum allowed by state law—\$6,100. Although this is the same amount as four other neighboring counties provide, the fact that none of the other 146 school systems in the state pay less means that Lauderdale County cannot use "better salary" as a means of attracting the most capable, best qualified, college graduates to teach in the county.

Table VII: ANNUAL SALARY PAID BEGINNING B.S. DEGREE TEACHERS, 1972-73. Columns: County, Salary. Rows: Shelby (\$7,000), Obion (6,600), Gibson (6,440), Lake (6,400), Madison (6,375), Haywood (6,310), Crockett (6,100), Fayette (6,100), Hardeman (6,100), LAUDERDALE (6,100), Tipton (6,100).

RE: TABLES VIII AND IX Although attracting the exceptional beginning teacher is important, even more significant is the necessity to retain the well qualified, experienced teacher. The impact on the children involved and the quality of the total education program offered them is the first concern for retaining a school system's experienced teachers. Of secondary concern is the cost of recruiting replacements when teachers leave and the cost of the closer supervision required during the first few years for the new teachers. In examining the salaries paid teachers with maximum experience, usually 15 years of teaching, Lauderdale County ranks at the bottom because it pays only the state minimum salary. This is true for the teacher with a Master's degree (5 years of college) as well as the Bachelor's degree. Among neighboring counties Lauderdale's position is also at the bottom.

One school system (Oak Ridge) in the state pays beginning BS teachers more than Lauderdale County pays its BS teachers with 15 years of teaching experience. Since property tax rates are lower in Lauderdale County (Table V) than in most of the surrounding counties and since three of the four counties with lower property tax rates have a higher local sales tax rate, it is not surprising to find Lauderdale County at the bottom rank in regard to local current expenditures per child, beginning BS salaries for teachers and salaries for BS and MA degree teachers with maximum experience. An increase in local property taxes could change these. The addition of another 1/2% on the local sales taxes could also change this by yielding approximately \$125,000 with at least half mandated by law for education.

RE: TABLE VIII The information in Tables I and III indicates that Lauderdale County has greater per capita income and average effective buying income per household than do most of the counties in the state. Although they do not lead in either category when compared with surrounding counties, they do exceed four or five. It appears from Tables II and IV that economic growth is better in Lauderdale County than a majority of the surrounding counties. This tends to indicate a growing ability to support education locally.

Table VIII: ANNUAL SALARY PAID B.S. DEGREE TEACHERS WITH MAXIMUM EXPERIENCE, 1972-73. Columns: County, Salary. Rows: Shelby (\$10,400), Madison (8,383), Tipton (7,855), Gibson (7,820), Obion (7,600), Lake (7,510), Dyer (7,500), Hardeman (7,405), Haywood (7,300), Crockett (7,300), Fayette (7,300), LAUDERDALE (7,300).

There appears to be little incentive for teachers in Lauderdale County to spend three summers and considerable personal finances to obtain a Master's degree when the local salary for better prepared teachers is at the state minimum. But if a teacher does expend the necessary time, effort and funds to receive the degree, there is a real temptation to move to another local school system that provides a higher salary for teachers with the MA degree and good experience.

Table IX: ANNUAL SALARY PAID M.A. DEGREE TEACHERS WITH MAXIMUM EXPERIENCE, 1972-73. Columns: County, Salary. Rows: Shelby (\$11,125), Madison (9,773), Tipton (8,947), Gibson (8,568), Obion (8,450), Haywood (8,271), Lake (8,250), Dyer (8,187), Hardeman (8,150), Crockett (7,950), Fayette (7,950), LAUDERDALE (7,950).

From Tables VIII and IX it is evident that Lauderdale County could lose many of its more experienced and better qualified teachers to surrounding counties. With today's improved highways the teacher could even live in Lauderdale County and commute to a neighboring school system to teach.

Ripley FFA First In State Contest

The Corn Committee of Ripley High School's Future Farmers Chapter is state winner of the 16th annual 324 Ball Challenge contest.

Its yield of 128.6 bushels per acre was made with Funk's G-476.

The contest was started in 1956, after Lamar Ratliff, of Prentiss County, Miss., established a world record yield of 304.38 bushels of corn from 1/4 acre (measured 47.7).

This is the highest recorded corn yield in history.

After the Ripley corn committee spring-ploughed, disked, and harrowed its land, 153 pounds of nitrogen and 231 pounds of phosphate and potash were used per acre as pre-plant and side-dress fertilizer. A herbicide was also used.

The corn was planted April 29 in 36-inch rows, at 15,000 kernels per acre. The land was cultivated once during the season.

At harvest Nov. 18th, there

BARBARA JO MORRIS, freshman daughter of Mr. and Mrs. Vernon Morris, Jr., in Ripley High School, was crowned by Phil Taylor, member sponsor of Omega Phi Chapter of Alpha Delta Kappa, as "Queen of Beauty" in the annual Harvest Fun Dance at the TKS Building Saturday evening. Phillip Jacobson, Heart chairman, said the contest brought in \$44.67 for the Heart Fund.

### THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

MY HARDEST LESSON

Lesson for February 18, 1973

Development Scripture: Zechariah 13:4-6. Background Reading: Isaiah 43:4.

Basically, I am an activist, a doer. Usually, I would rather tackle a problem than debate it. Even when things seem bleak, I would rather, as the saying goes, "light just one candle, than curse the darkness."

That is why it is particularly hard for me to "let go and let God." Intellectually I know better, but practically speaking, I just can't let go of my own will. I will determine its course through time and space. Because I believe in "doing something" when confronted by a challenge, I neglect to remember, necessary as it is for me to "do something" that God also is at work in this world. For me, no matter how many times I return to this realization, this is always my hardest lesson to learn.

"Not by might, nor by power..."

There is nothing wrong in being an activist or in being a "doer" so long as we keep our own efforts in perspective. Singular reliance on our own efforts, our own resources can amount to subtle self-deification. There is in this attitude a conviction that "if I don't do it, it won't get done."

To carry this line of motivation a step further, what are we really saying, although usually without quite realizing it, is that we do not truly trust God. There is in our attitude the implication that God is not dependable, that we can't count on him when "the chips are down," that we are, in fact, the only ones upon whom we can depend.

If that line of reasoning sounds somewhat blasphemous, it is because it really is! To fail to trust God, to trust only our own resources, is definitely a violation of God's law, whether or not we are aware of it. The man who needs no one else, not even God, has made a religion of himself.

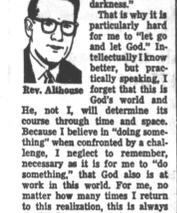

"... But by My Spirit!"

The prophet Zechariah is not trying to discourage the returned exiles from doing what they can do to meet their problems and challenges. He is not telling them to sit back passively and let God do it all. What he is trying to communicate to them is that when they have done their best, when they have exerted their "might" and "power," it is still the Spirit of God that makes the difference, that can turn defeat into victory. Failure is no success.

What I need to learn is what they realized: learning that when we have used all our "might" and "power," we must put it in God's hands and trust in him to do even more for us than we can do for ourselves. "Not by might, nor by power, but by My Spirit," says the Lord of hosts (4:6). I could have that inscribed across the face of my wristwatch, where hourly I could be reminded of it and approach life with the realization that I do not face it alone.

That is my hardest lesson. That is what you! Have you learned it yet?

## Halls Six Advances To Region Tourney

Halls High School's girls, who won only four of 21 games during the season, led Gadsden, 51-47, in District 16's tournament Wednesday evening to advance to Region 8's tournament at Lamouth College in Jackson March 5-9th.

Vickie Manuel led Halls scoring with 18. Donna Paige had 16 and LouAnn Camp 15.

Four of the eight teams in the district go to the regional. Brighton, which topped Friendship, 61-26, Wednesday met Halls in semi-finals Thursday, with finals scheduled Friday.

Alamo, too seeded, trounced Crockett Mills, 57-22, to clash Thursday with Maury City, 22-17 winner over Bella Vista.

Halls' five, 65-51 victors over Brighton last Friday for a 12-8 record, enters a Division 3 (enrollment under 550) District 16 tournament at Alamo in the third game, against Friendship, Monday. Crockett Mills and Friendship play Friday, followed by Maury and Brighton.

Shelby County members of District 16 hold first round play Monday in Collierville. Collierville is seeded with Bolton, Harding Academy, Westside, and Ridge-way playing for the two remaining spots.

Seeded and winning teams from Alamo and Collierville play on Brighton Feb. 26th-28rd to complete District 16 action.

District semi-finalists advance Region 8 to meet the top four teams from District 16 Divisions teams from the southern half of West Tennessee, east of Shelby County. The tournament begins Feb. 28th at Lamouth.

The top four teams in Region 8 will meet the top four winners in the sub-state tournament, with date and place to be announced. Winners in sub-state play will go to the state tournament, starting March 4th, in Knoxville, which is divided into Division 1 (enrollment over 550) teams, such as Ripley will meet for the first time in tournament competition.

## Banquet Has Film Of D. E. Activities

Film of Halls High School's Distributive Education Club's activities, produced by Douglas Collins and narrated by Marvin Seacore, highlighted the annual banquet of the school cafeteria Thursday last week.

Employers attending were Mr. and Mrs. Gene Patton, Mr. and Mrs. Doris Rodgers, Louis Levy, Mrs. Odessa Seacore, Mr. and Mrs. Joe McCarthy, Terel Brasfield representing the Tupperware Co., Tommy Jackson, Mr. and Mrs. Gray Mills, Bill Doop, Mr. and Mrs. Charles Martin, and Mayor and Mrs. Sammie Arnold.

Also attending were Mr. and Mrs. James White and Mrs. Tommy Hansbrough, former club members.

Club members Dennis MacIn and David MacIn, accompanied Mr. and Mrs. Billy Reese, of Reece's Fabrics, on a buying trip to Atlanta, Ga., Feb. 2nd-4th.

The twin sons of Mrs. N. C. MacIn, of Gates, are employed by Mills Supermarket in Gates but plan to work with Reece's after graduation.

## Squires' First Evening Meeting Is Last One; Land Fill Authorized

Lauderdale County Quarterly Court's monthly evening session folded after the first meeting Tuesday evening, when a fourth of the magistrates failed to attend and County Judge Paul Dew announced that state law permits monthly meetings only on Mondays or Saturdays.

Those present voted 17-4 to meet hereafter at 9 a.m. on the second Monday of each month.

Tuesday's session elected Dr. D. Wayne Dudgey, dentist, to the Board of Health, succeeding Dr. James Wyatt; Magistrate James Jones, of Halls, to the Finance Committee and Eugene Pugh, of Halls, to the Education Committee and Eugene Pugh, of Halls, to the Education Committee, succeeding Douglas Collins; and authorized the land fill committee to spend not more than \$10,000 on the county's first of an annual contract for waste disposal, the other half to be provided by the county's four incorporated cities.

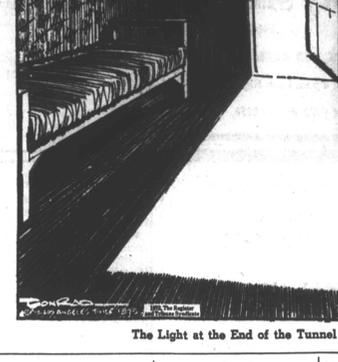

Clifford Sweet, committee chairman, said Charles Griggs was low among eight bidders Monday at \$28,000, with other bids ranging up to \$33,500, for one year's operation of the land fill.

Sweet said the committee was contemplating lease of about six acres of a 70-acre farm at Dry Hill, owned by Mrs. John Stanley, for the land fill, at \$1,000 a year.

State appropriations are expected to provide 75¢ per capita, or about \$15,000, and perhaps \$1 per capita annually for land fills.

Judge Dew said state auditors' figures showing the county's local tax effort at \$547,773.23, not the \$157,000 used in computing federal revenue sharing, had been forwarded to the Treasury, which paid the county only \$140,000 when it anticipated \$300,000.

Dew said the \$140,000 is on time deposit at 5 1/2% interest.

## Dr. Wiley En Route To Aid Brazilians

Dr. Owen Wiley, of Seattle, Wash., son of the late Rev. and Mrs. E. B. Wiley and brother of Mrs. Sumner Steelman, of Halls, left Baltimore, Md., Feb. 1st on the hospital ship Hope, bound for Brazil.

He has charge of the dental program on the ship. Mrs. Wiley and her youngest son, a college student, sailed with him to aid in the ship's service to impoverished Brazilians.

An older son and daughter are university students in Washington.

Ripley FFA First In State Contest

The Corn Committee of Ripley High School's Future Farmers Chapter is state winner of the 16th annual 304 Bushel Challenge contest.

The yield of 128.64 bushels per acre was made with Puma's G-782.

The contest was started in 1956, when Lester Rashiff, Prentiss County, Miss., established a world record yield of 304.38 bushels of weighted corn from a measured acre with a Puma's G-782. This is the highest recorded corn yield in history.

After the Ripley corn committee spring-planted, disked and harrowed his land, 153 pounds of nitrogen and 231 pounds of phosphate and potash were used per acre as pre-plant and side-dress fertilizers. A herbicide was also used.

The corn was planted April 25 in 36-inch rows, at 18,000 kernels per acre. The land was cultivated once during the season, then harvested Nov. 15th, then

Barbara Jo McBride, freshman daughter of Mr. and Mrs. Vernon McBride, Jr., in Ripley High School, was crowned by Phi Kappa Phi Chapter of Alpha Delta Kappa as "Queen of Harvest" in the annual Harvest Dinner at the TKS Building Saturday evening. Phillip Jackson, Harvest chairman, said the contest brought in \$447 for the Harvest Fund.

**MY HARDEST LESSON**

Lesson for February 18, 1973

Basically, I am an activist, a doer.

Usually, I would rather tackle a problem than debate it. Even when things seem bleak, I would rather, as the saying goes, "fight rather than curse the darkness."

That is why it is particularly hard for me to read and let God "intelligently know" better than I know. In practical speaking, that is God's word and He, not I, will determine its course through time and space. Because I believe in "doing something" when confronted by a challenge, I neglect to remember, necessary as it is for me to "do something," that God also is at work in this world. For me, no matter how many times I return to this realization, this is always my hardest lesson to learn.

"Not by might, nor by power..."

There is nothing wrong in being an activist or in being a "doer," so long as we keep our own efforts in perspective. Since our reliance on our own efforts, our own resources can amount to subtle self-deification. There is in this attitude a conviction that "if I don't do it, it won't get done."

To carry this line of motivation a step further, what we are really saying, although usually without quite realizing it, is that we do not truly trust God. There is in our attitude the implication that God is not dependable, that we can't count on him when "the chips are down." That we are, in fact, the only ones upon whom we can depend.

If that line of reasoning sounds somewhat blasphemous, I assure you it really is! To fail to trust God to trust only our own selves, is a definite rejection of God, whether or not we are aware of it. The man who needs no one else, not even God, has made a religion of himself.

"... But by My Spirit!"

The prophet Zechariah is not trying to discourage the reluctant worker from doing what he can do in meeting his problems and challenges. He is not counselling them to sit back passively and let God do it all. What he is trying to communicate to them is that when they have done their best, when they have exerted their "might" and "power," we still need the Spirit of God that makes the difference, that can turn defeat into victory, failure into success.

What I need to learn is what they realized: learning that when we use all our "might" and "power," we must put it in God's hands and trust him to do even more than we can. "Not by might, nor by power, but by My Spirit," says the Lord of Hosts (4:6). I ought to be that by My Spirit, says the Lord of Hosts (4:6). I ought to be that by My Spirit, says the Lord of Hosts (4:6).

That is my hardest lesson. What about you? Have you learned it yet?

## Halls Six Advances To Region Tourney

Halls High School's girls, who won only four of 21 games during the season, led Gaddens, 51-47, in District 10's tournament Wednesday evening to advance to Region 9's tournament at Lamouth College in Jackson March 5-8th.

Vickie Manuel led Halls scoring with 18. Donna Paige had 16 and LouAnn Camp 15.

Four of the eight teams in the district go to the regional Brighton, which topped Friendship, 61-26, Wednesday night in semi-finals Thursday, with finals scheduled Friday.

Alamo, top seeded, trounced Crockett Mills, 57-22, to clash Thursday with Maury City, 22-17 winner over Beltsville five, 65-51 victors over Brighton last Friday for a 1-1-2 record, enters a Division 5 (enrollment under 550) District 16 tournament at Alamo in the third game, against Friendship, Monday. Crockett Mills and Friendship play at 7, followed by Alamo and Brighton.

Shelby County members of District 16 hold first round play Monday.

## Banquet Has Film Of D. E. Activities

Film of Halls High School's Districtive Education Club's activities, produced by Douglas Collins and narrated by Marvin Scourie, highlighted the annual banquet at the school cafeteria Thursday last week.

Employers attending were Mr. and Mrs. James W. Keane, Memphis, and Mrs. H. L. Cope, of Senatobia, Miss.

Ensembles of six played the "Star Spangled Banner" and "Summertime," by Gertrude and "Through the years," by Mrs. Jack Crutcher, soprano, sang "Summerland," by Gertrude and "The years," by Mrs. Jack Crutcher, soprano, sang "Summerland," by Gertrude and "Through the years," by Mrs. Jack Crutcher, soprano.

Dr. Parks Walker, pianist, selected the "Valse Brillante," by Franz Liszt, and "The Swan," by Camille Saint-Saens, for his tribute to the art music.

A Women's chorus of 15 voices sang five choruses.

Nineteen members appeared in piano ensembles. The "Tara Theme" and "Lara's Theme" were played by piano sextets.

The finale was "America the Beautiful," with all club members singing to the accompaniment of six pianos.

Users were Alice Henderson, Vicki Shepard, and Teresa Price, of the Junior Music Study Club; and Emily Garner, Luan Hendren, and Libba Shof, of the Treble Clef Junior Club.

A reception followed, with Mrs. James Douglas and Mrs. Ned Poynter in charge. The refreshment table was overlaid with an imported lunch chiefly composed with an arrangement of yellow and blue spring flowers and gold tapers. Punch and miniature cakes decorated with music symbols were served.

Linda Harmon, president of the Junior Music Study Club and Mrs. E. G. Good, of Halls, were in charge of the refreshment table.

Proceeds will be used in a scholarship for the Fine Arts Department. This is the second year the club has provided this scholarship.

## Musicals Passes Golden Milestone

The Thursday Evening Musical celebrated its Golden Anniversary Thursday evening of last week by presenting its members in a concert of "American Music" in Ripley High School's Little Theatre.

Attending from Halls were Mrs. Wynford Hurt, Mrs. J. T. Conwell, Mrs. E. J. Hunt, Mrs. W. G. Spence, Mrs. Bob Pockett, Mrs. W. A. Smith, Mrs. R. E. Bullock, Mrs. Z. T. Norman, and Mrs. R. T. Peal.

Under the direction of Mrs. Russell Evans, Jr., president, "A Tribute to American Music" was dedicated to the Parade of American Music, sponsored by the National Federation of Music Clubs.

"The Star Spangled Banner" opened the program with six pianos, a vocal ensemble and the audience participating. A colorful stage setting in red, white and blue emphasized the American theme.

The Musicals was organized Feb. 6, 1923 by the late Mrs. Verdon Peters, who was first president.

Nineteen past presidents were introduced by Mrs. J. C. Massey. Those from out of town were Mrs. C. O. Wilkes, Mrs. James W. Keane, Memphis, and Mrs. H. L. Cope, of Senatobia, Miss.

## Squires' First Evening Meeting Is Last One; Land Fill Authorized

Lauderdale County Quarterly Court's monthly evening session folded after the first meeting Tuesday evening, when a fourth of the magistrates failed to attend and County Judge Paul Dew announced that state law permits monthly meetings only on Mondays or Saturdays.

Those present voted 17-4 to meet hereafter at 9 a.m. on the second Monday of each month.

Tuesday's session elected Dr. D. Wayne Dudgey, dentist, to the Board of Health, succeeding Dr. James Wyatt; named Magistrate James Jones, of Halls, to the Finance Committee and Eugene Pugh, of Halls, to the Education Committee, succeeding Douglas Collins; and authorized the local fill committee to spend no more than \$15,000 as the county's half of an annual contract for waste disposal, the other half to be provided by the county's four incorporated cities.

Clifford Sweet, committee chairman, said the county's fill committee to spend no more than \$15,000 as the county's half of an annual contract for waste disposal, the other half to be provided by the county's four incorporated cities.

Sweet said the committee was contemplating lease of about six acres of the former farm at Dry Hill, owned by Mrs. John Stanley, for the land fill, at \$1,000 a year.

State appropriations are expected to provide the per capita, or about \$15,000, and perhaps \$1 per capita, annually for land fills.

Judge Dew said state auditors' figures showing the county's local tax effort at \$42,777.25, not the \$197,000 used in computing federal revenue sharing, had been forwarded to the Treasury, which paid the county only \$140,000 when it anticipated \$390,000.

Dew said the \$140,000 is on time deposit at 5½% interest.

### THE GOSPEL OF CHRIST

What is the gospel of Christ? Is the "good news" or "glad tidings" that Jesus came into the world to "die for our sins." (1 Cor. 15:3; cf. Jno. 3:16).

God has not delegated the preaching of the gospel to angels, but to men. Paul said, "But we have this treasure (gospel) in earthen vessels." (2 Cor. 4:7).

The apostles began preaching the "good news" on the day of Pentecost following the resurrection of Christ, and they continued preaching throughout their lives. But we also learn that the early Christians proclaimed the word: "They went everywhere preaching the word." (Acts 8:14)

In Heb. 5:12-14, we learn that every Christian is to be a teacher. Thus, the Great Commission is binding of Christians today, and the passages above indicate that the gospel is to be proclaimed to "every creature" and to "all nations."

You have a cordial invitation to worship with the Halls Church of Christ. Tom Holland, visiting evangelist, from Henderson, is preaching Feb. 18-21; 10:00 and 11:00 a.m. Sun., 7:30 p.m. Sun. through Wed.

**Remember last spring? Terraclor Super-X promised you a helping hand. And delivered!**

When last spring's cold, wet weather held on . . . and cotton seed shortages developed, Terraclor Super-X was in there with a helping hand. Exactly as promised.

Later, agronomists reported "Amazing growth, in spite of the weather." "Seedling disease on rampage in untreated fields."

"More in-furrow fungicides used" And Virginia Extension agronomist, George Mullendore, summed it all up when he wrote, "Fungicides are one of the most needed of all pesticides today."

No doubt about it. Terraclor Super-X helped save the crop last year. Because fungi can't get at the seedling when Terraclor Super-X surrounds the seed and emerging plant. When applied in-furrow, it provides extended protection against seedling diseases after germination.

Terraclor Super-X soil fungicide comes three ways . . . granular, liquid . . . or dust for hopper box application. Most popular are the granules, impregnated with a soil systemic insecticide. Once over as you plant takes care of fungi and early season insect.

### Looking Around

A major illness discovered that in seven year convalescence had flown their planes regularly, but was actually not a convalescing pilot at all. The Westerner came when the command pilot was being qualified for flying jets. He had not been licensed for anything larger than single engine planes.

More than half of all the private planes manufactured in the United States are made near Wichita, Kansas. This happened because Wichita has 25 days of excellent visibility each month of the year. You can see a grain elevator 45 miles away, the air is so clear. Also the country is flat, perfectly flat, is one great big landing strip.

Soviet and American scientists have agreed on a program to get together in developing economic methods of converting sea water into fresh water. But the spirit of cooperation isn't complete. They will work separately and will simply compare notes.

Student's most exclusive dining room is the visit restaurant located just off the city's busy Presidential Tower. This city was selected by the faculty controlled student body of 1,400 per year.

In Baltimore a guard at the city jail released a prisoner by mistake. His punishment was to write a 1,000 word essay on "The responsibilities of a jail warden."

Materials arrested for a motor traffic violation in Shelby County, Tenn., if found guilty, may either pay a fine of all and fines to a three-hour lecture on safe driving.

In Little Rock, Ark., an unidentified driver backed his car into Neil Dobbin's parked vehicle and broke the headlight. When Mr. Dobbin returned he found a new headlight and a note of apology on the front seat.

**GARD OF THANKS**  
We would at this time like to express our deepest appreciation for the many friends, the flowers, one of sympathy at the loss of our uncle. We would also like to thank the Halls Funeral Home for its kind services. May God bless every one of you. The Nieces & Nephews and the many comforting words.

**ADVERTISEMENT FOR BIDS**  
Sealed bids for Rehabilitation of railroad spur track for the Town of Halls, Tennessee and Hancock Inc. will be received by The Mayor and Board of Aldermen at The Mayor's Office until 3 o'clock p.m., C.S.T. March 16, 1973 and then at said office publicly opened and read aloud.

The information for Bidders, Form of Bid, Form of Contract, Plans, Specifications, and Forms of Bid Bond, Performance and Payment Bond, and other contract documents may be examined at the following: Halls City Hall, Halls, Tennessee. Copies may be obtained at the office of City Hall located at 16-41.

**GARD OF THANKS**  
We would like to take this moment of expressing our sincere thanks and appreciation for every act of kindness shown us during the illness and death of our loved one. We were grateful for the beautiful flowers, cards, visits, and words of sympathy. Our thanks to The Rev. W. B. Bishop, The Rev. E. B. Owen, and The Rev. Paul McAdoo for their comforting words and Halls Funeral Home for its efficient services. May God bless each of you.

**TOWN OF HALLS PROCLAMATION**  
By The Mayor  
WHEREAS, St. Jude Hospital in Memphis has made tremendous advances in the research of Leukemia and other childhood diseases; and  
WHEREAS, The Chi Zeta Chapter of Alpha Phi Omega National Service Fraternity at the University of Tennessee at Martin has achieved a distinguished record of outstanding service to the state of Tennessee and to our nation; and  
WHEREAS, This fraternity is sponsoring their third annual "Push for St. Jude" during their spring vacation; and  
WHEREAS, This year the Push for St. Jude has been enlarged to actively involve a greater area of the Town Of Halls through two routes; and  
WHEREAS, By carrying out this project the men of Alpha Phi Omega show willingness to serve their fellow man;  
NOW, THEREFORE, I, Sammie Arnold, as Mayor of the Town of Halls, do hereby proclaim the week of March 14-20, 1973, as Push For St. Jude Week  
In Halls and urge all citizens who have the opportunity to give generously to this worthy cause.  
IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the Town of Halls to be affixed this 20th day of February, 1973.  
Sammie Arnold, Mayor

If you drive over flat bumpy Delta roads like me, you owe it to yourself to see your Ford Dealer about his quiet-riding '73 Galaxie 500. Galaxie has coil spring suspension for smooth riding comfort. And you'll find lots of room to stretch out, too. Standard luxury features like power front disc brakes, automatic transmission, and power steering make it a real pleasure to drive. Ford Galaxie 500. It's the car designed for Delta roads like me. And Delta drivers like you.

**SOYBEAN SEED**

You need to buy your Seed Beans while you have some selection as to quality and variety.

SELECT, CERTIFIED, REGISTERED

Hill, York, Dare, Hood, Ogden,

Lee 68, Bragg and Ransom

Mack (early), Pickett and Pickett 71 later.

The Mack is a new early variety, resistant to the cyst nematode and phytophthora root rot and available only in registered seed.

All of our soybean seed are cleaned on four screen and air clipper cleaners and finished on spiral separators that practically eliminates any weed seed and faulty beans.

Check with us about our contract grower program for the production of Seed Soybeans for premium prices above the established market. We are trying to hold a supply of good registered and foundation seed for this purpose.

ALSO OTHER FIELD SEED

Cotton seed, Seed Corn, Fescue, Clovers, Grasses & Alfalfa. Thirty-seven years experience and one of the most modern Seed Plants at your disposal.
