JEFF JORDAN, center, son of Mr. and Mrs. Jerre Jordan, Jr., of Baton Rouge, La., has signed a football scholarship contract with The University of Southern Mississippi at Hattiesburg. Holding the contract is his mother along with his high school coach, Earl Nolan. A guard and linebacker Jeff is 6 ft. 2 inches, weighs 235 pounds and has 4.9 speed. At Lee High in Baton Rouge he was named to all-city and all-district teams. An honor student, he maintained a 3.8 average in high school. He is the grandson of the Jerre Jordans, of Halls.

## Looking Forward

From my vantage point, We long ago gave up making New Year's Reso- there is no doubt that the lutions since we never kept them anyway but it economy and the Presioccurs to us that there are a few things that all of us dential election were the biggest stories of the year, with should resolve. the economy leading as the

Each of us should resolve to be kinder and more courteous to the people around us; we should keep in mind that poverty, sickness and old age are all around us and do all that we can to alleviate the suffering of others. We should keep in mind that every have experienced the highest man and woman is entitled to respect and the opportunity to earn the necessities of life for themselves and work toward seeing that these opportunities exist.

We should give the new administration the support that it must have to bring about some of the changes that we approved with the election of Mr. Reagan. We should not continue to hold out our hands for more so-called federal help but learn to do things Chamber of Commerce, former for ourselves.

We should learn to live with one another, return County Hospital, and for many to the religious faith and respect that this nation was founded on, and end each day with the feeling that we have done the best that we can-in our jobs, our relations to our fellow man, and in all of our activities.

### **Purely Personal**

Nell and your editor enjoyed having Chuck and Lisa at home for a couple of days and we must say that we have had a fine Christmas.

While we remember we must report that once building committee member for again the gremlins took over and we reported that Brighton girls won the Halls basketball tournament. Not so, Old Hickory easily whipped Brighton, 55-40. Guess we are so accustomed to Brighton winning that we didn't realize what we were writing. Happy New Year, everyone!

Moving To New Facility

and the second second

A DREAM WILL COME TRUE next week for Wiley and Frances Hutcherson as they move Hutcherson Scrap Co., Inc. to their new location on old Hwy. 51, north of Halls, on the former Herman Leggett property, from their present location on Mill Street in Halls. The new facility is comprised of four new metal buildings including the scale office, center photo, a metal processing building, truck maintenance building, and parts buildings and the metal shears, lower photo, which cuts scrap metal into pieces small enough to be loaded on railroad cars. Also included are paved parking areas and streets and a railroad spur. Wiley is the son of Mr. and Mrs. John Hutcherson, of Route 2, Halls, and Frances is the daughter of James Hartsfield, of Big Sandy.Both are graduates of Halls High School. The business was founded in December, 1964, in the old Carnell coal yard, corner of Tigrett and North Front, and later moved to the old canning factory site on Mill Street. The smelter, located on the old Planters Gin Co. property, at the north end of Front Street, will be moved at a later date. The firm buys scrap aluminum copper, brass, lead, scrap iron and other metals throughout the Mid-South. The move is expected to be completed by Jan. 15th. The Hutchersons have four children, Wiley, Jr., Randy, and twin daughters, Pam and Paula. They reside on Highway 88, two miles west of Halls.

HALLS. TENNESSEE, JANUARY 8, 198

A DREAM WILL COME TRUE next week for Wiley and Frances Hutcherson as they move Hutcherson Scrap Co., Inc. to their new location on old Hwy. 51, north of Halls, on the former Herman Leggett property, from their present location on Mill Street in Halls. The new facility is comprised of four new metal buildings including the scale office, center photo, a metal processing building, truck maintenance building, and parts buildings and the metal shears, lower photo, which cuts scrap metal into pieces small enough to be loaded on railroad cars. Also included are paved parking areas and streets and a railroad spur. Wiley is the son of Mr. and Mrs. John Hutcherson, of Route 2, Halls, and Frances is the daughter of James Hartsfield, of Big Sandy.Both are graduates of Halls High School. The business was founded in December, 1964, in the old Carnell coal yard, corner of Tigrett and North Front, and later moved to the old canning factory site on Mill Street. The smelter, located on the old Planters Gin Co. property, at the north end of Front Street, will be moved at a later date. The firm buys scrap aluminum copper, brass, lead, scrap iron and other metals throughout the Mid-South. The move is expected to be completed by Jan. 15th. The Hutchersons have four children, Wiley, Jr., Randy, and twin daughters, Pam and Paula. They reside on Highway 88, two miles west of Halls.

Henderson, Tex. Smith Henderson, Tex. Smith comes to Halls from Martin where he was employed by the Miller Co. His wife, Pat. is employed by Hutcherson Scrap Co., Inc. Before coming to Halls the Smiths are residing in the former resided in Dresden where Herman Leggett house on she was associated with a old Highway 51, North. Both

CONFIDENTIAL CORNER

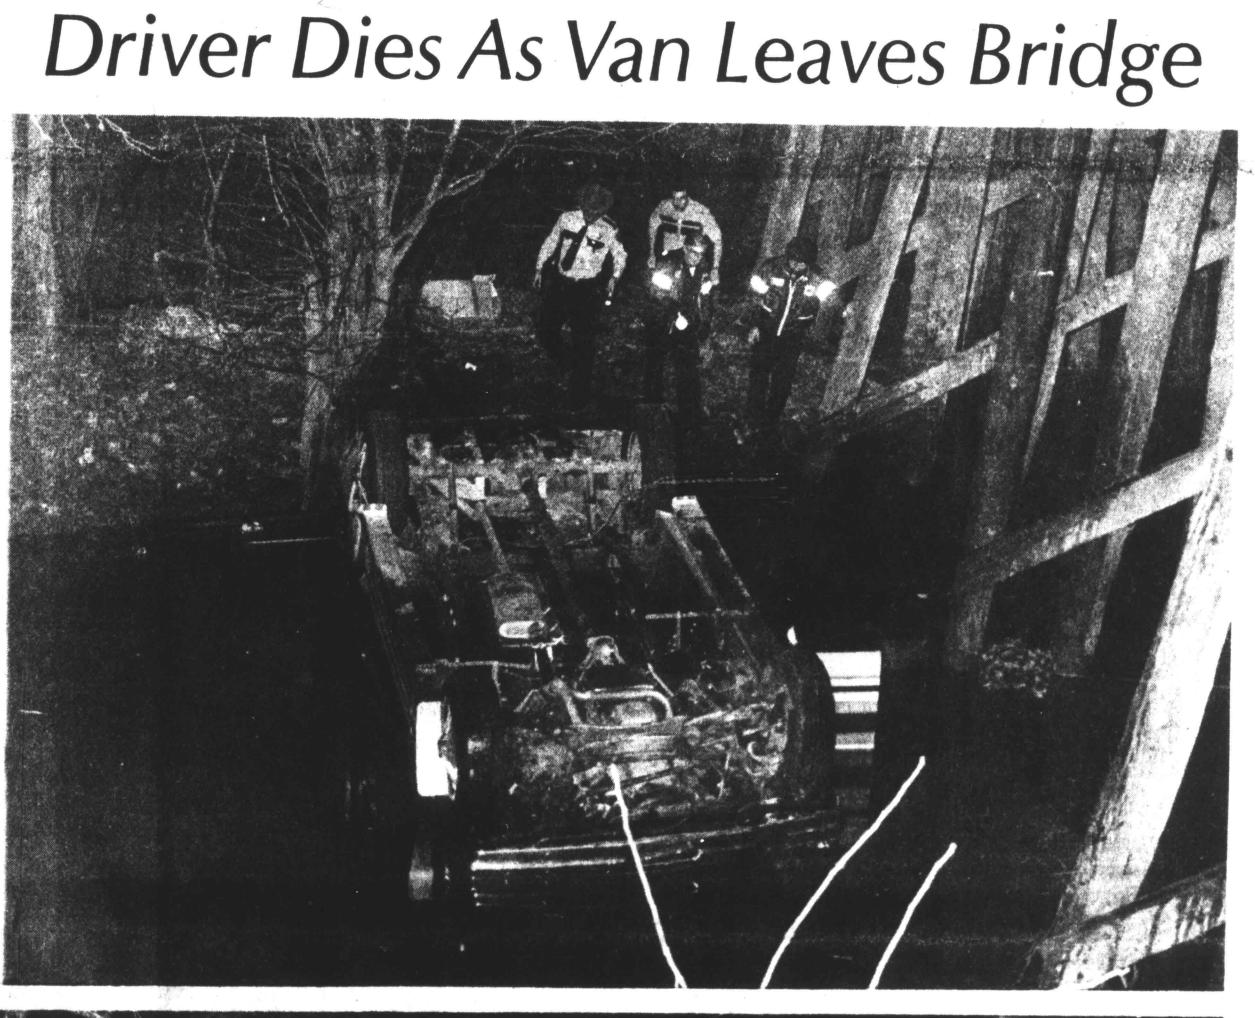

A Good Christmas Each year for the past several years a former ' neighbor, Mrs. Donny Noblin, has remembered how well we like cocoanut cake and she remembered again this year

As if a cocoanut cake wasn't enough, Nelle Kendrick brought us a chocolate pie and a fruit cake and along with all the goodies that our Nell had prepared such as cookies, date balls, forgotten cookies did little to keep our weight down. Your editor truly believes that he ate more sweets this holiday season than in many years and you may believe enjoyed every bit of it. We are not exactly rolling when we walk but it's a good thing that we had Chuck and Lisa to help us eat some of it and that the holiday season is

A couple of weeks ago we had to miss Rotary so ' we made up by attending a meeting in Ripley and we were fortunate that Emily Garner presented the program. Emily as many of you know is the daughter of 🛛 🆧 🕻 Frank and Mary Garner and a very talented musician. We enjoyed Emily's performance and hope | READY TO BOARD the TSS Carnivale Dec. 28th a that we may hear her again at some time in the future.

## Stork Takes One Race, Loses One The stork kept a number of Lauderdale Counti-

ans pretty busy last week. Henry and Mary Gitchell, of the Ripley station of the county Ambulance Authority, made their first delivery of their lives at 9 a.m. Saturday, just north of the Hatchie River bridge on Highway 51, in an ambulance en route to Memphis.

They presented Mr. and Mrs. Billy Littles, who reside on Central Road, with a daughter. Both the mother and the child are doing well.

Things were a bit more difficult for Glenn 'Tré' Scott III, but he arrived at 11:30 p.m. Monday of last week in Baptist Hospital in Memphis.

His father, assistant pastor and youth director for Grace Baptist Church at Central, borrowed a car from The Rev. Bill Whitman, pastor, to take Mrs. Scott to Baptist Hospital, since his own car had broken down two days earlier.

When they ran out of gas, Mr. Scott, on crutches with ligaments pulled in a knee, had to leave his wife, who was having labor pains, to hitch-hike for gas. After they resumed their journey, the car's fuel pump

expired, halting them on the Austin Peay Highway. Max Morgan, of Millington, en route to Jackson, stopped to aid them, and when they were unable to get

the car repaired quickly, took Mrs. Scott to the hospital, leaving Mr. Scott behind, since there was no room for him in the Morgan car. Hitch-hiking again, he reached the hospital after

catching three different rides.

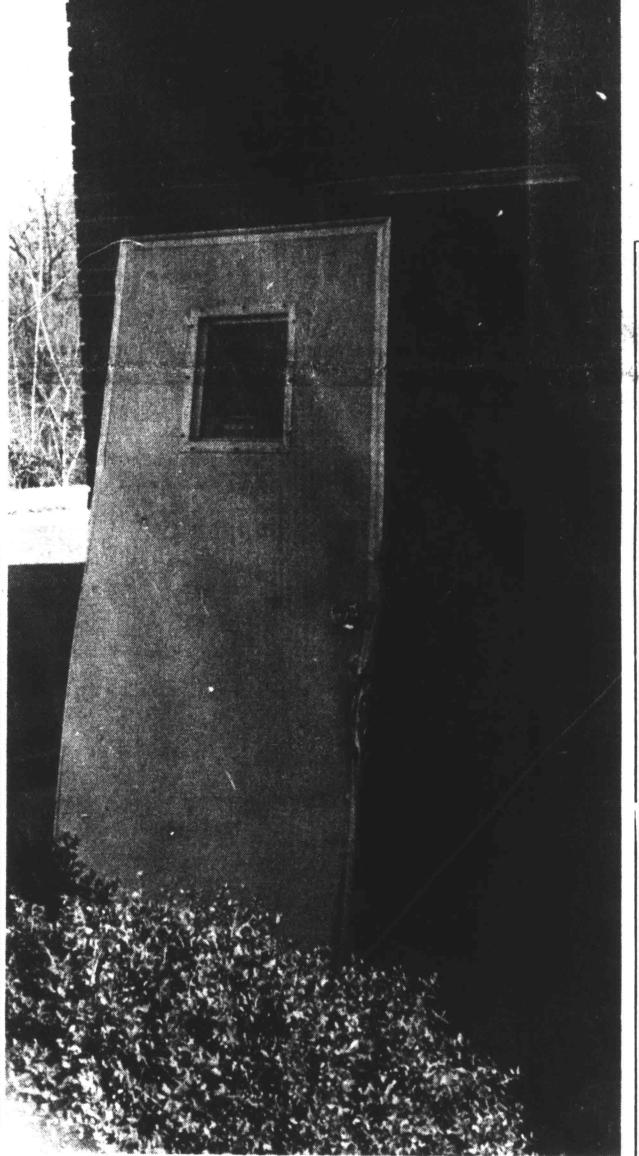

Jack Rochelle, Ripley Grammar School principal for many years who later taught at the University of Tennessee in Martin, has been employed by the Ripley Chamber of ComWill Hold Revival The Rev. Douglas Graham, Clifton, will lead revival

## 4 Banks, 3 Homes Hit **By Minor Burglaries**

Pete Parker, owner of Parker's Shoe Store on the east side of the Square in Ripley, was walking his 1-eyed Boxer dog, Bruno, as is his custom, at 1:30 a.m. Tuesday when he noticed a long, aluminum ladder against the rear, east, alley wall of the Farmers Union Bank's main building, on the north-east corner of the Square.

When he telephoned bank president Vernon Gilliland to ask if the bank had construction work underway, he got a quick response: "Call the police!"

It was the eighth bank burglary (or attempt) in the county since New Year's Eve.

The bank's alley door was broken open about 3:30 a.m. Jan. 3rd, a Saturday, but police, responding to an alarm, found no one in the bank nor anything missing nor damaged.

The bank's branch on Lake Drive, which lost about \$580 in quarters and half dollars through north door entry Dec. 30th, reported no financial losses from another entry, wrenching a re-inforced door from its hinges, about 4:30 a.m. Thursday of last week. "Your locks are no good," said a note left with the signature of the "Mid-

night Ghost."

Two Halls banks whose front doors were prized open Sunday night yielded little more than the prospect of 20 years in prison which awaits the "Midnight Ghost," when his "game" with the Federal Bureau of Investigation is over. Warren Nunn, president of Bank of Halls, said less than \$200 in coins were taken, though balloons and records were strewn.

Jerry Crihfield, president of the Lauderdale County Bank in Halls, said papers were scattered, walls and ceilings were damaged, and collector's coins were taken from his desk. He estimated the bank's total loss at under \$100. Meanwhile, county residents reported three burglaries:

• Between 4:30 and 7 p.m. Jan. 7th, breaking a glass in the front door to reach inside and unlock it, someone took about \$230 in cash, a television, two guns, a clock, CB radio, and an AM/FM8- track unit from Jimmy Kent's home on Blue Bird Hill Road at Curve.

• At 5:30 p.m. Monday of last week, a micro-wave was reported stolen from the Thomas Jacobs home, on Highway 51 north of Halls, with a door forced. • A Doberman pinscher dog apparently balked entry to the Kenneth Scallions home on Blue Bird Hill at Curve before 5 p.m. Monday.

CONFIDENTIAL CORNER By Henry Murchison CONFIDENTIAL CORNER

## Somewhat Confusing

With the announcement Dec. 31st that the population of the United States is slightly in excess of 226 million persons came confusion over reapportionment of the United States House of Representatives

Several persons have asked us how the state of New York could lose only about 700,000 in population but lose five congressional districts.

The answer, actually, is very simple. The membership of the House of Representatives by law is set at 435 seats so theoretically each Congressional district should have about the same number of persons, in this case approximately 520,000 so states such as Tennessee that showed substantial gains in population will gain additional Congressional seats. As the nation grows the Congressional districts must be re-arranged to follow the changes in the popu-

There are other factors which affect the districts but primarily the seats are assigned on this basis. Substantial Growth

Despite the fact that 1980 was not a good year for farmers and many businesses a perusal of end of year figures released last week by area banks reveal a substantial growth.

At the cloe of business Dec. 31st, 1979, the three banks in north Lauderdale County showed total assets of \$30.860.146 and total deposits of \$27,337,080. At the close of business Dec. 31st. 1980, the three banks showed total assets of \$34,228,632 and total deposits of \$30,218,685.

In other words in both assets and deposits the three banks showed an approximate 10% increase with total loans showing no substantial gain on assets and deposits.

Perhaps some of us are a little too anxious to think that the local economy is in worse condition than it actually is. The statements would suggest that perhaps the average citizen is being a little more careful in what and how much he buys. We hope so, anyway.

## One More Game

After Sunday's championship games only one game, the Super Bowl, Jan. 25th remains to be played. Oakland and Philadelphia will meet at New Orleans for the title. All through the playoffs we have had a sneaking notion that Oakland might be the best. We will know in two weeks.

**Deer Mean Profits To Tennesseans** 

When most Tennesseans think of deer, their thoughts \$1,164,000 range from a hunting trip, the pleasure of viewing a graceful fawn or perhaps enjoying a tasty venison roast. This includes boats, cloth- to the state by a healthy deer However, a large group of ing, magazines, film pro- herd is tax revenue geneour state's citizens see dollar cessing, scopes, archery rated from the sale of all the signs flash before their eyes! equipment, stands, lures, ve- items purchased by deer To many merchants across hicles, guns and ammu-hunters. At the rate of 6.25%, the state, the increasing deer nition, an average of \$280 per the state collected herd means increasing person profits.

In 1955, only about \$120,984,000. hunted deer in Tennessee. In \$111,000,000. 1979-80 this figure had Total value to state risen over 30% or 154,225 licensed resident deer hunters 65, hunt their own property or are on military leave. That would bring the total number of deer hunters to 172,115 for the 1979-80 year. To make that figure conservative, it should be pointed out that another 3,914 individuals bought sportsmen's licenses.

There are a lot of good reasons to protect our growing deer herd and the deer habitat. One often neglected reason is the economic importance of our herd of 300,000 deer. The owners of sporting goods stores, gun shops, ORV dealers, taxidermists, and service stations all benefit from the deer herds.

One benefit of the deer herd which seems to go unnoticed by many hunters is' the value of the meat itself. By figuring that the average field dressed deer-126 lbs,-will yield 63 lbs. of boneless meat with the value of ground chuck-\$1.89 lb.-multiplied by 28,000 deer in 1979, the value is \$3,333,000.

ENNESSEE TRAVE

Trains have always held a particular fascination for millions of Americans, perhaps because the "iron horse" played such a vital role in the growth and development of the United States.

The railroads provided the first really practical and comfortable means of covering the vast distances between the east and west coasts. A thousand towns, each with its own proud little depot, sprang up beside the steel rails. Major cities developed around key railheads, other cities died because the railroads by passed them.

In the first half of the 20th century legendary trains like the Super Chief, the Panama Limited, and the Silver Meteor criss-crossed the country carrying the nation's passengers and commerce.

railroading," laments John Bennett, executive director of now on the National Registry Chattanooga's unique Tennessee Valley Railroad and Museum. "It lasted for about 40 years, roughly 1910 to 1950, Register. The tracks follow but while it lasted the railroad was THE way to travel."

In 1962 a handful of Chattanooga area residents formed least a portion of that golden see Valley Railroad and Museum was born. Since then the TVRM membership has grown to include hundreds of people all over the United States and in several foreign countries.

find, preserve and restore as many of the classic pieces of railroad equipment as we can," Bennett said. The TVRM collection is

mpressive. The pride of the museum is the 4501 steam locomotive built by the Baldwin Locomotive Works of Philadelphia in 1911 and restored to service by the museum in 1965. Other prize pieces in- road equipment. It is a place clude The Maitland, a 12 open where passenger trains still
