Halls High Seniors Get Tandy Awards

Two seniors in Halls High School have received certificates from the Tandy Technology Scholars program.

Ashley Hansford, named the school's outstanding student in math, science, and/or computer science, was considered for one of 100 \$1,000 scholarships, but the only scholarship winner from Tennessee was Benita Albert, of Oak Ridge.

Chris Nunn received a certificate as ranking in the top 2% of seniors in his school.

DARYL WALKER, right, athletic director and assistant principal at Ripley High School, received the Outstanding Citizen of the Year award from Ripley Rotary Club president Franklin Alley, in Tuesday evening's banquet of the Lauderdale County Chamber of Commerce in RHS.

Born in Independence, Miss., he

was graduated from its high school in 1970, attended Northwest Jr. College on a football scholarship, and was graduated in 1972, when he married Jackie; both took education degrees from Delta State University in 1974.

He coached and taught in Independence High School until 1976, when he joined the RHS staff.

He co-ordinated the RHS grid defense which led the state with the least points scored by foes, in 1982, 1983, and 1984. The 1980, 1981, 1982, and 1984 Tigers made the state play-offs.

In 1977, he was named Outstanding Educator of the Year and was ordained a deacon in First Baptist Church in Ripley, in which he works with the College and Career Sunday School Class and drives the church bus. He is also active with the Fellowship of Christian Athletes.

Named head football coach and assistant principal at RHS in 1986, his gridders were 7-3 that fall, losing to Germantown, 20-0, in the play-offs, and were 6-4 in 1987.

He became athletic director, as well as assistant principal, in 1988.
The Walkers have three children, Darren, 14, Jaclyn, 9, and Kristen, 5.

To the voters and citizens of Halls, Tenn.:

Time is drawing near to May 6, 1993 and I am appealing to you to consider these facts before you make your decision who to vote for. In the past, here are some things that have happened that should not have:

I said NO to increased property taxes. (We got them, and there will be more if I am not elected, count on that.) I said NO and have said NO to wild spending of your tax dollar.

I said NO to the purchase of a new police car, and it was a unanimous decision by all board members to not accept the car, and then, when it was delivered, the question was asked who authorized it, and the Mayor said "I DID." It had to be paid for by the City of Halls (no grants, your hard-earned tax dollar). If the board said NO, and we got it anyway, why do we need a board?

I have said no in the past and will still say no to buying what we don't need and fixing things that don't need fixing, needless to say it has been out of control.

I said NO to putting the town in debt to over one million, three hundred thousand dollars (water system not that badly out of shape, a little but not that much). The one million, three hundred thousand would put Halls in debt for the next 30 years, and where would the money come from (higher water rates). Retired people on fixed incomes couldn't pay, and we have a lot of them in Halls just barely getting by now, much less paying more.

We have houses in the Halls city limits (taken in not long ago) that are paying sewer taxes and don't even have a sewer (that's not fair)!

I just found out within the last few days that a corporation (Advantage Manufacturing Co.) tried to get some help in locating a plant here (couldn't get it) (they would employ about 100 to 125 people), and WENT TO FRIENDSHIP, TENN. Had I of known about it (this was never brought up at any board meeting), I could have made available to them the following deal. In the limited time that I had to research this, I have found out this, and I think it would be worth passing it along to you, the citizens of Halls.

There is a program that will loan up to \$400,000.00, and get this, INTEREST FREE. These funds may be used for a variety of things, community development, parks, factories, etc., to mention a few. Instead of going in debt, we should take the time and effort to see what and how we can save the taxpayers money and develop our community at the same time. Friendship, Tenn., got what we could have had, and was glad to get it.

There have been some wild rumors going around, saying that if I am elected, I will get rid of some old employees, I HAVE MADE NO SUCH STATE-MENT, NOR HAVE I EVEN THOUGHT IT.

So please, when you go to cast your vote, remember the above facts, and that your town is a multi-million dollar business and should be run like one...so you need to vote for Noel Sherrod, a successful business man for many years in Halls. Let's put Halls back to the basics and spend within our means.

I am available 24 hours a day in person and not by radio, and I can promise that there will be no job discrimination.

NOEL SHERROD FOR MAYOR OF HALLS

junior division.

Write-In Advice

ELLA MAE ESCUE, county Election Registrar, demonstrates to Halls High School senior, Susan Smith, how to write in the name of a candidate who did not qualify for the ballot.

Government Classes at Halls High School are studying the procedure a candidate follows from the time the candidate presents the petition of 35 registered voters for qualification to

the time the voters cast ballots. Research shows that in November 1992, only 8,395 of the 13,280 registered voters voted in Lauderdale County elections. In the Halls election in 1991, only 596 of the 1,725 registered voters actually voted. In Gates, in 1991, only 188 of the 638 registered voters actually voted.

'Should a voter wish to vote for someone not named on the ballot the voter must inform the precinct election registrar when

they enter the polling facility.' Escue said that if a write-in candidate wins and the Election Commission finds the candidate did not meet the requirements of residency, etc., votes for that candidate would be voided. If a write-in candidate won who would not accept the office, the office is considered vacant.
